(IF registering for an open online group)

7.2 Next Steps Open Online Group waiting list
(IF registering to be on online group waiting list)

Notes

This Find a Group & Registration appears to the user as part of https://www.bsfinternational.org, and with a few excpetions follows it's graphic standards.

Note: We will need to scrub the site for other "find a class" buttons and change the wording. Also consider changing "class" to "group"

"Find a local group" uses the same "live search" location search as https://www.bsfinternational.org/map/

This wizard should have "typeform.com" feel. 2.0 Location will have same field search funcationlity as https://www.bsfinternational.org/map/ but will show "live" map location graphic

2.4 Interests are "tags" and list of tags should be updatable by some mechnicism. Allow for up to 12 tags to view on the screen.

Keep much existing functionlity of https://www.bsfinternational.org/map/search. Only modify class selected appearance and "Find more Groups" button and link.

7-17-18 update - Birthday month and year dropdowns added. Additional fields added for address.

7-17-18 update - introduction p text changes based on which class is being registered for. "More information" link is a popup modal window with content TBD.

7-17-18 update - link behavior for "Parent Premission Form" is a popup modal window with content TBD.

Next steps page will trigger email verification system as well as initiate the mybsf registration because we have name and email.
