

MyBSF Style Guide

DECEMBER 2019

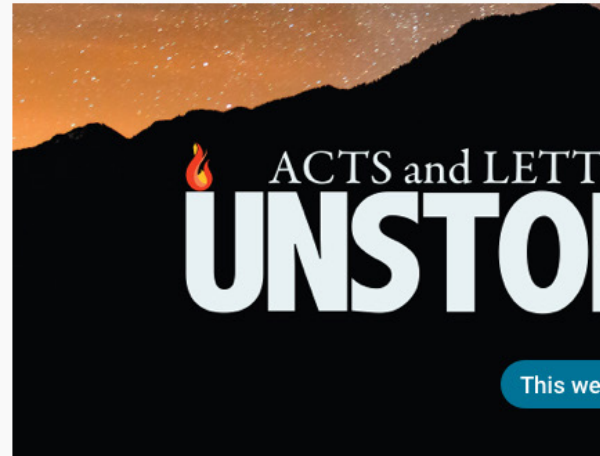

A Unified Experience

A Single Destination for Everything BSF

MyBSF was conceived to be a unified website for all things BSF. A single destination for members, leadership, class staff, area team, operations and headquarters. It is designed to be usable on any modern device from phones, tablets and desktop.

Desktop

Taking Advantage of the Space

The desktop is where work is done. Class Administrators will enter new members and manage the class, members will download lessons in the format of their choice and complete lessons. Online group members will join their meetings. Because screen real estate is plentiful, we will take advantage of this and show the most information on the screen in an organized way. Main Navigation is open and always accessible. Toggled tiles will be expanded. The desktop site will take displaying features that desktop users are accustomed to such as inspectors, and wide tabular reports.

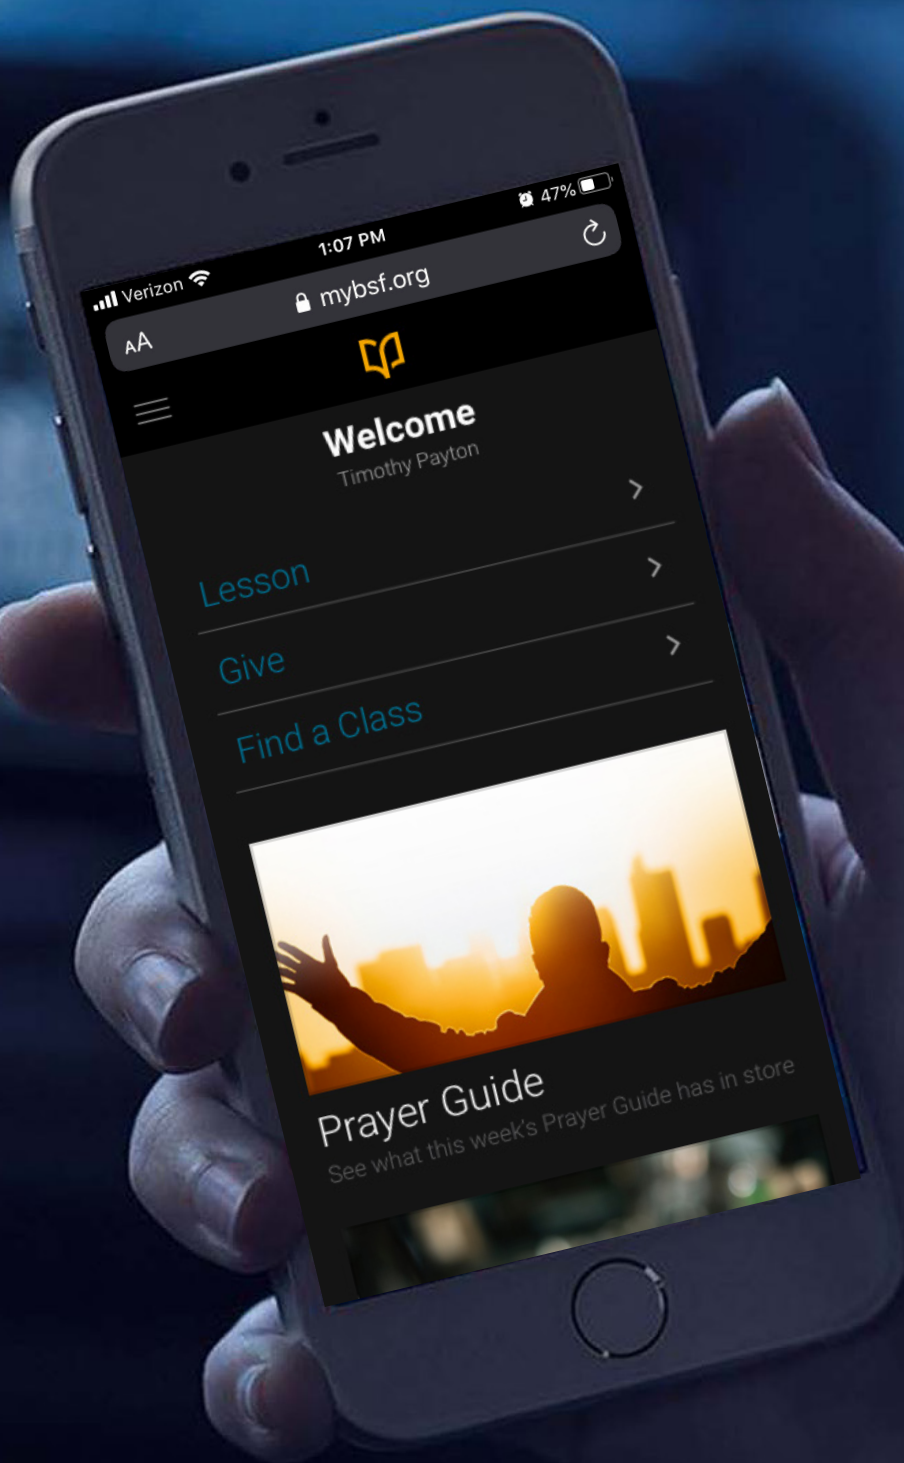

Mobile

Uncompromised Features for Small Devices

Based on the first year since launch, over half of our traffic to MyBSF is mobile phones. Therefore, we will create an excellent mobile experience for mobile users, while retaining the power on the desktop. MyBSF for Mobile features such as larger typography, context sensitive navigation, expandable content, dynamically sized content and automatic dark mode.

Tablet

Flexible and Adaptable.

Modern tablets become desktop replacements for many users, and the tablet will have a nearly identical experience to that of the desktop. However, tablet users present unique needs such as split screen functionality of multitasking. To meet this need, MyBSF will adapt to elegantly fit varying screen widths so users can discover the most comfortable way to use the site.

Scripture Memory Verse

"No! We believe that it is through the grace of our Lord Jesus that we are saved, just as

FIRST DAY: Read the notes and the references.

1. Use this space to record how you have seen God's activity during the week. (How he comforted, reconciled, guided, etc.?)

At thanksgiving he has shown me the importance of prayer and my lack of if. How I was my prayers for a successful lecture about his grace.

2. What from the notes, lecture, group sharing or personal study impacted you most in To see the things that I have been adding to salvation. Like having a quiet time every day doing to things, but they are not making me more right with God. I was greatly encouraged church can do be more understanding and attempt to be less offensive.

SECOND DAY: Read Hebrews 1.

Jesus Christ is superior to all creation.

3. Describe the supremacy and attributes of Jesus? How does this encourage, comfort or

The son is greater than all the profits because God appointed him heir things and it was universe. The son is the radiance of God's glory, the exact representation of God. He is in heaven. Is greater than any angel, in fact the angels should worship him. His throne is the scepter of his kingdom. The earth will perish but he will remain and his years will never end. — it encourages me to know

User Interface Design

Design Approach

Unique Yet Familiar

The Design of MyBSF will differ from the public BSF website in design while still adhering to the BSF Brand standards. We first developed a group of core values to guide our design decisions. For example, for the best readability, the site uses the San-serif web font Roboto for headings and body copy. BSF Blue was chosen as the primary accent color for its readability on both dark and light backgrounds. Side navigation is utilized to allow for future expandability.

MYBSF DESIGN CORE VALUES

EXCELLENCE

Reflecting the infinite worth of God in the quality of the site.

USER FOCUSED

Care will be given to make the site easy to use for all

CLARITY OVER CLEVERNESS

Clear communication instead of needless design

UTILITY

Strive to create a useful and dependable tool

December 2019 Refresh

As one of our core design values is Fresh and Excellence the specific design elements of MyBSF will change as design conventions and aesthetics change. In an attempt to reflect these values, a refresh of MyBSF was created by OneCreative in December 2019. The follow pages show this design.

Pixel perfect designs for development will be presented via our industry standard tools of Sketch and Zeplin.

SIMPLICITY

Make complex tasks simple,
eliminating extra steps

DISCOVERABLE

Features should be usable without
training

ACCESSIBLE

Usable with worldwide-languages,
and by those with disabilities

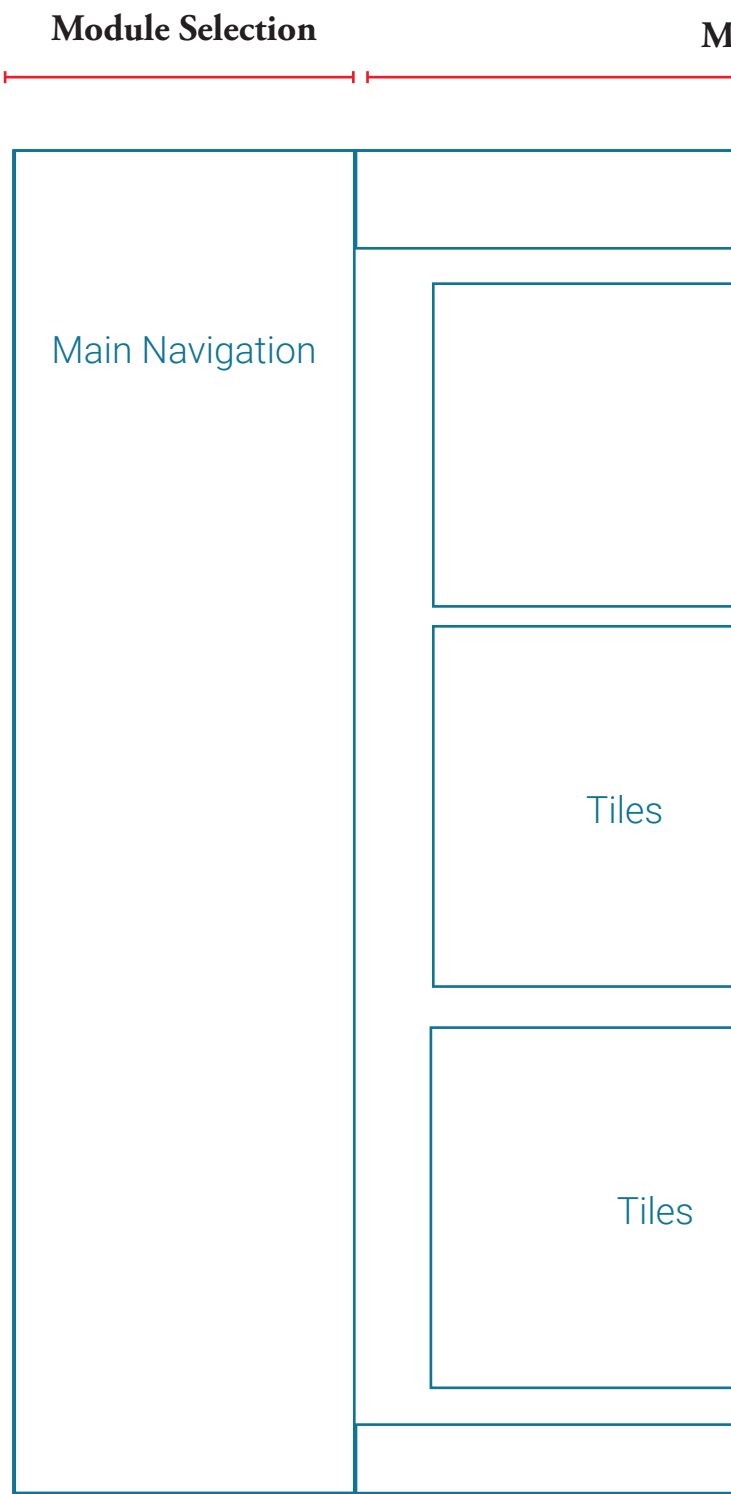

FRESH

As new design conventions
become standard, elements and
typography will be updated

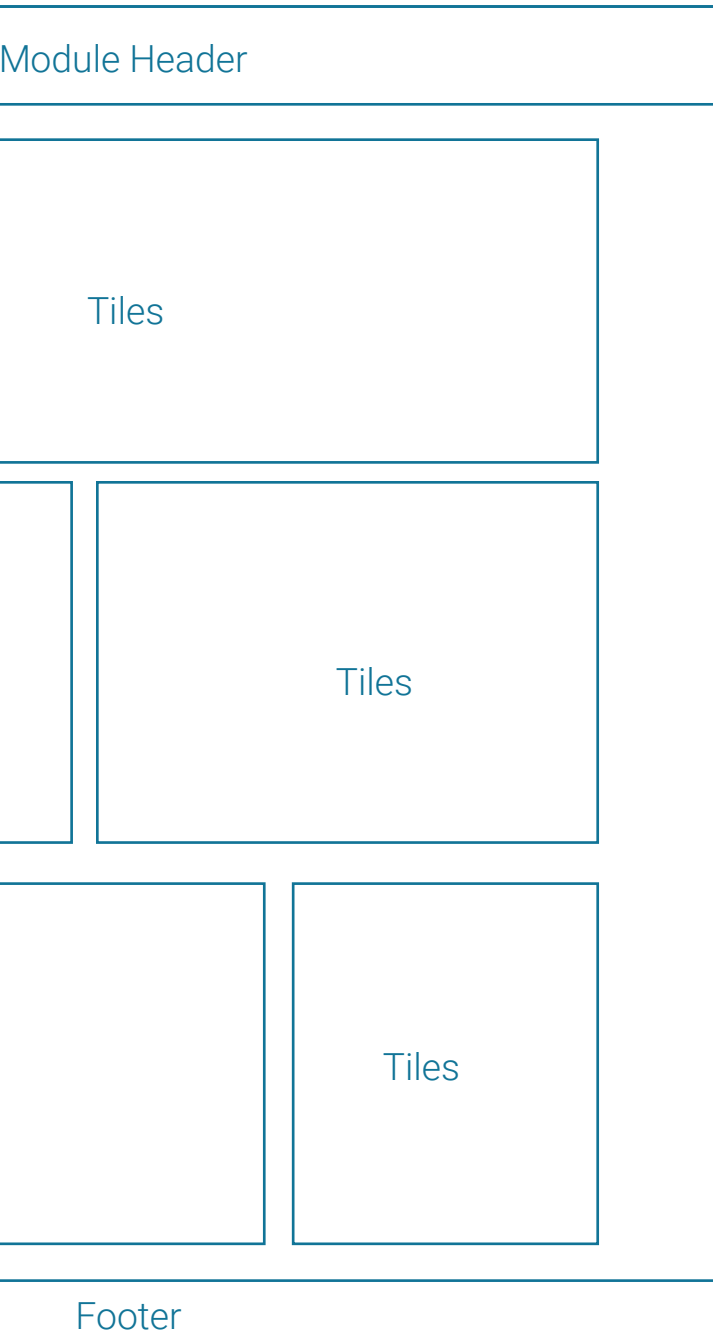

Structure - Desktop

Modules and Tiles

The sites main structure consists of standard elements such as navigation, a header and footer elements. The content area will include varying width Tiles that enable responsive design for various screen sizes.

Module Content Area

Structure - Desktop

Module Selection

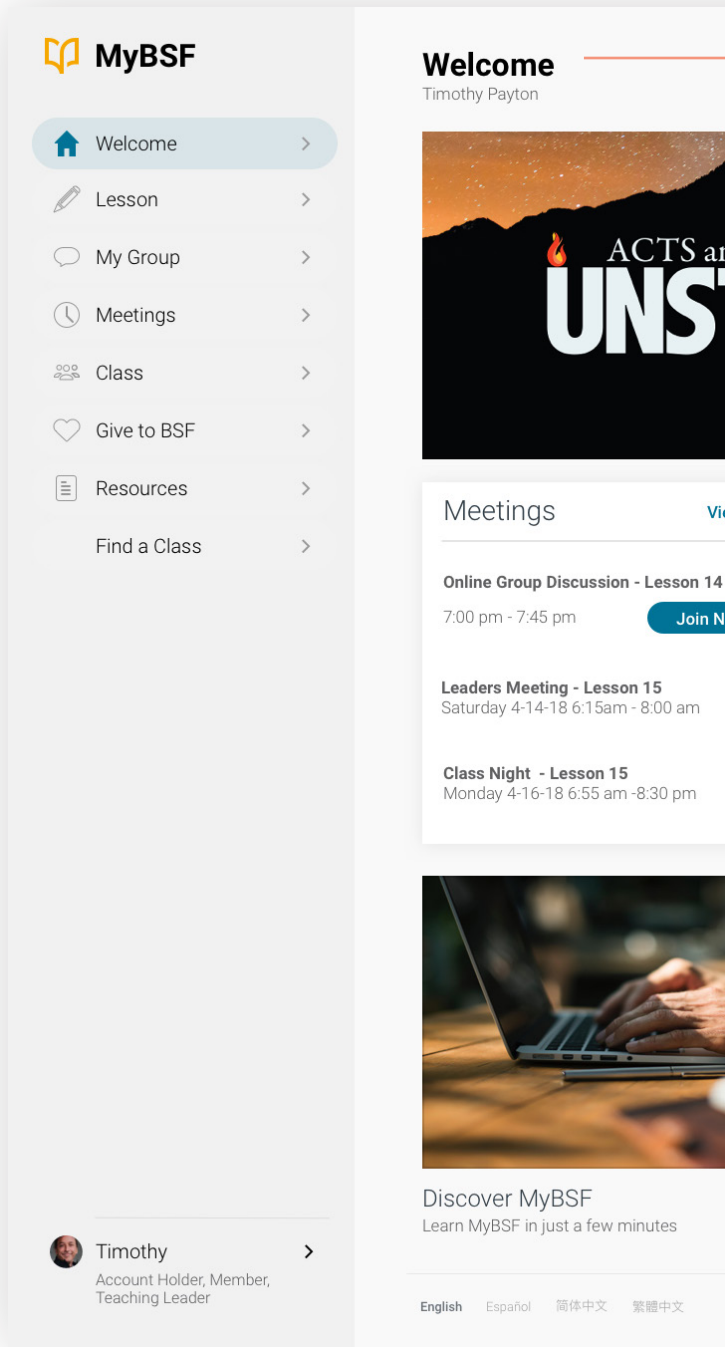

M

Content Modules

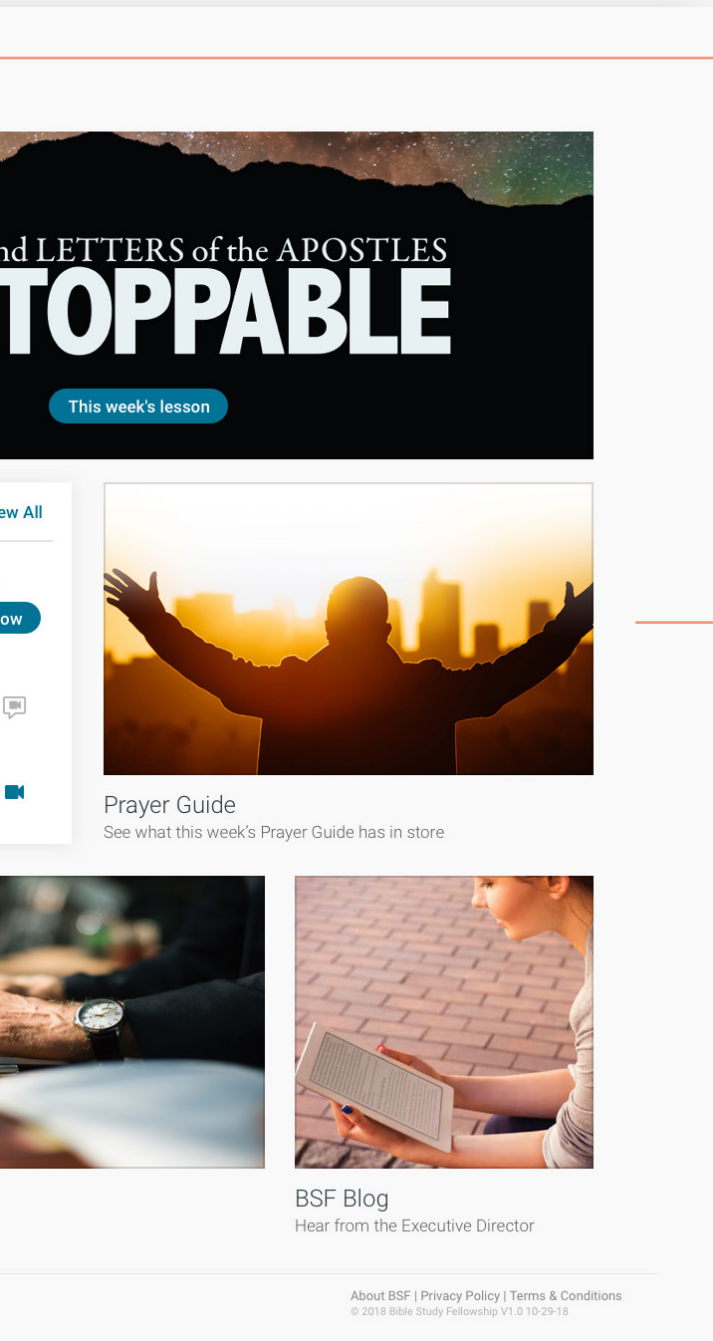

This is non-interactive delivery of materials or instructions.

Tool Modules

Tools provide uses the ability to manipulate data or update content.

Module Headline

Tiles

Will flow in the content area left to right and will resize as needed.

Structure - Mobile

Main Navigation

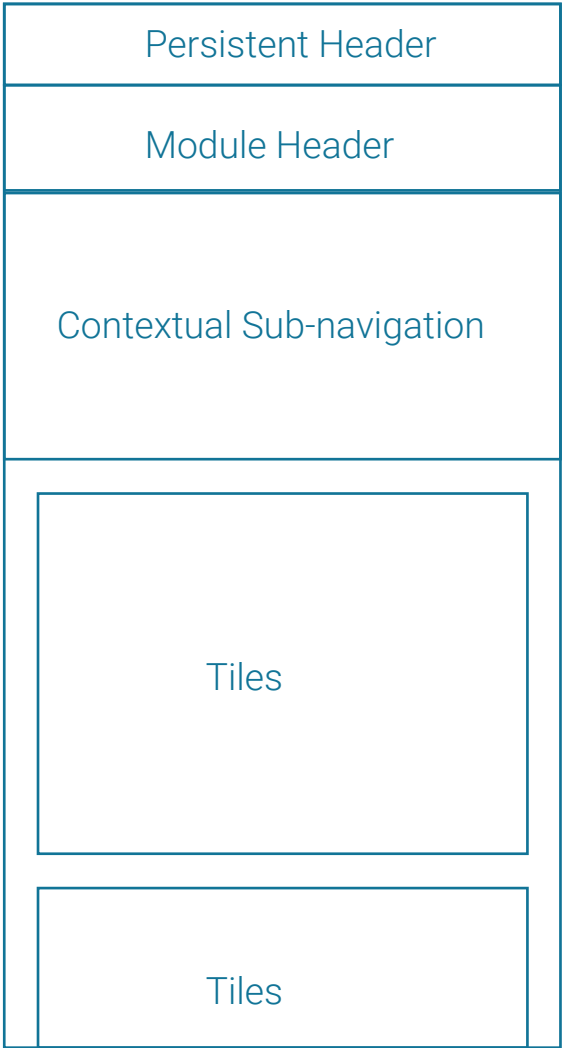

Full Screen via Hamburger Menu

Modules and Tiles

The mobile site differs slightly from the desktop. The full screen filling Main navigation is accessible via the hamburger menu on the persistent header. In order to clearly directly users, contextual sub-navigation provides appears at the top of the content area. Tiles become stacked with fixed width and flexible heights.

Typography Standards

Keeping the Site Clear

While the BSF Brand Guide specifies Garamond for headlines and other uses with the San Serif Roboto to be used for body copy, we have chosen to instead use Roboto for all type on MyBSF. Garamond features a small x-height and wide capitals which prove to be difficult to read at small sizes. The small x-height also tends to make the font less horizontally efficient compared to the larger x-height of Roboto.

Variety will come from varying the weight of the font as well as color for different applications.

Dark Mode

Easy on the Eyes and Batteries

One of the latest advancements in user interface design is dark mode. It conserve battery life on mobile and allows for less eye strain in a dark environment.

Rather than rely on preferences for a user, MyBSF will rely on CSS to identify if a user has their browser, or operating system set to dark mode.

3.0 Screen Designs

Login

The image shows a mobile app login screen for MyBSF. At the top, there is a header with the MyBSF logo, which consists of an orange open book icon above the text "MyBSF". Below the header, the text "Sign In With" is centered, followed by four circular social media icons: Twitter, Facebook, LinkedIn, and Google. Underneath these icons are two input fields: "Email address or username" and "Password". Below the password field is a checkbox labeled "Keep me signed in". A link "Forgot password?" is positioned below the checkbox. A large blue button labeled "Sign In" is centered below the link. Below the "Sign In" button is a link "Create Account". At the bottom of the form, there is a footer section containing language options: "English", "Español", "简体中文", and "繁體中文". Below the language options are links for "About BSF | Privacy Policy | Terms & Conditions" and a copyright notice "© 2018 Bible Study Fellowship V1.0 10-29-18".
