

BSF Mobile App

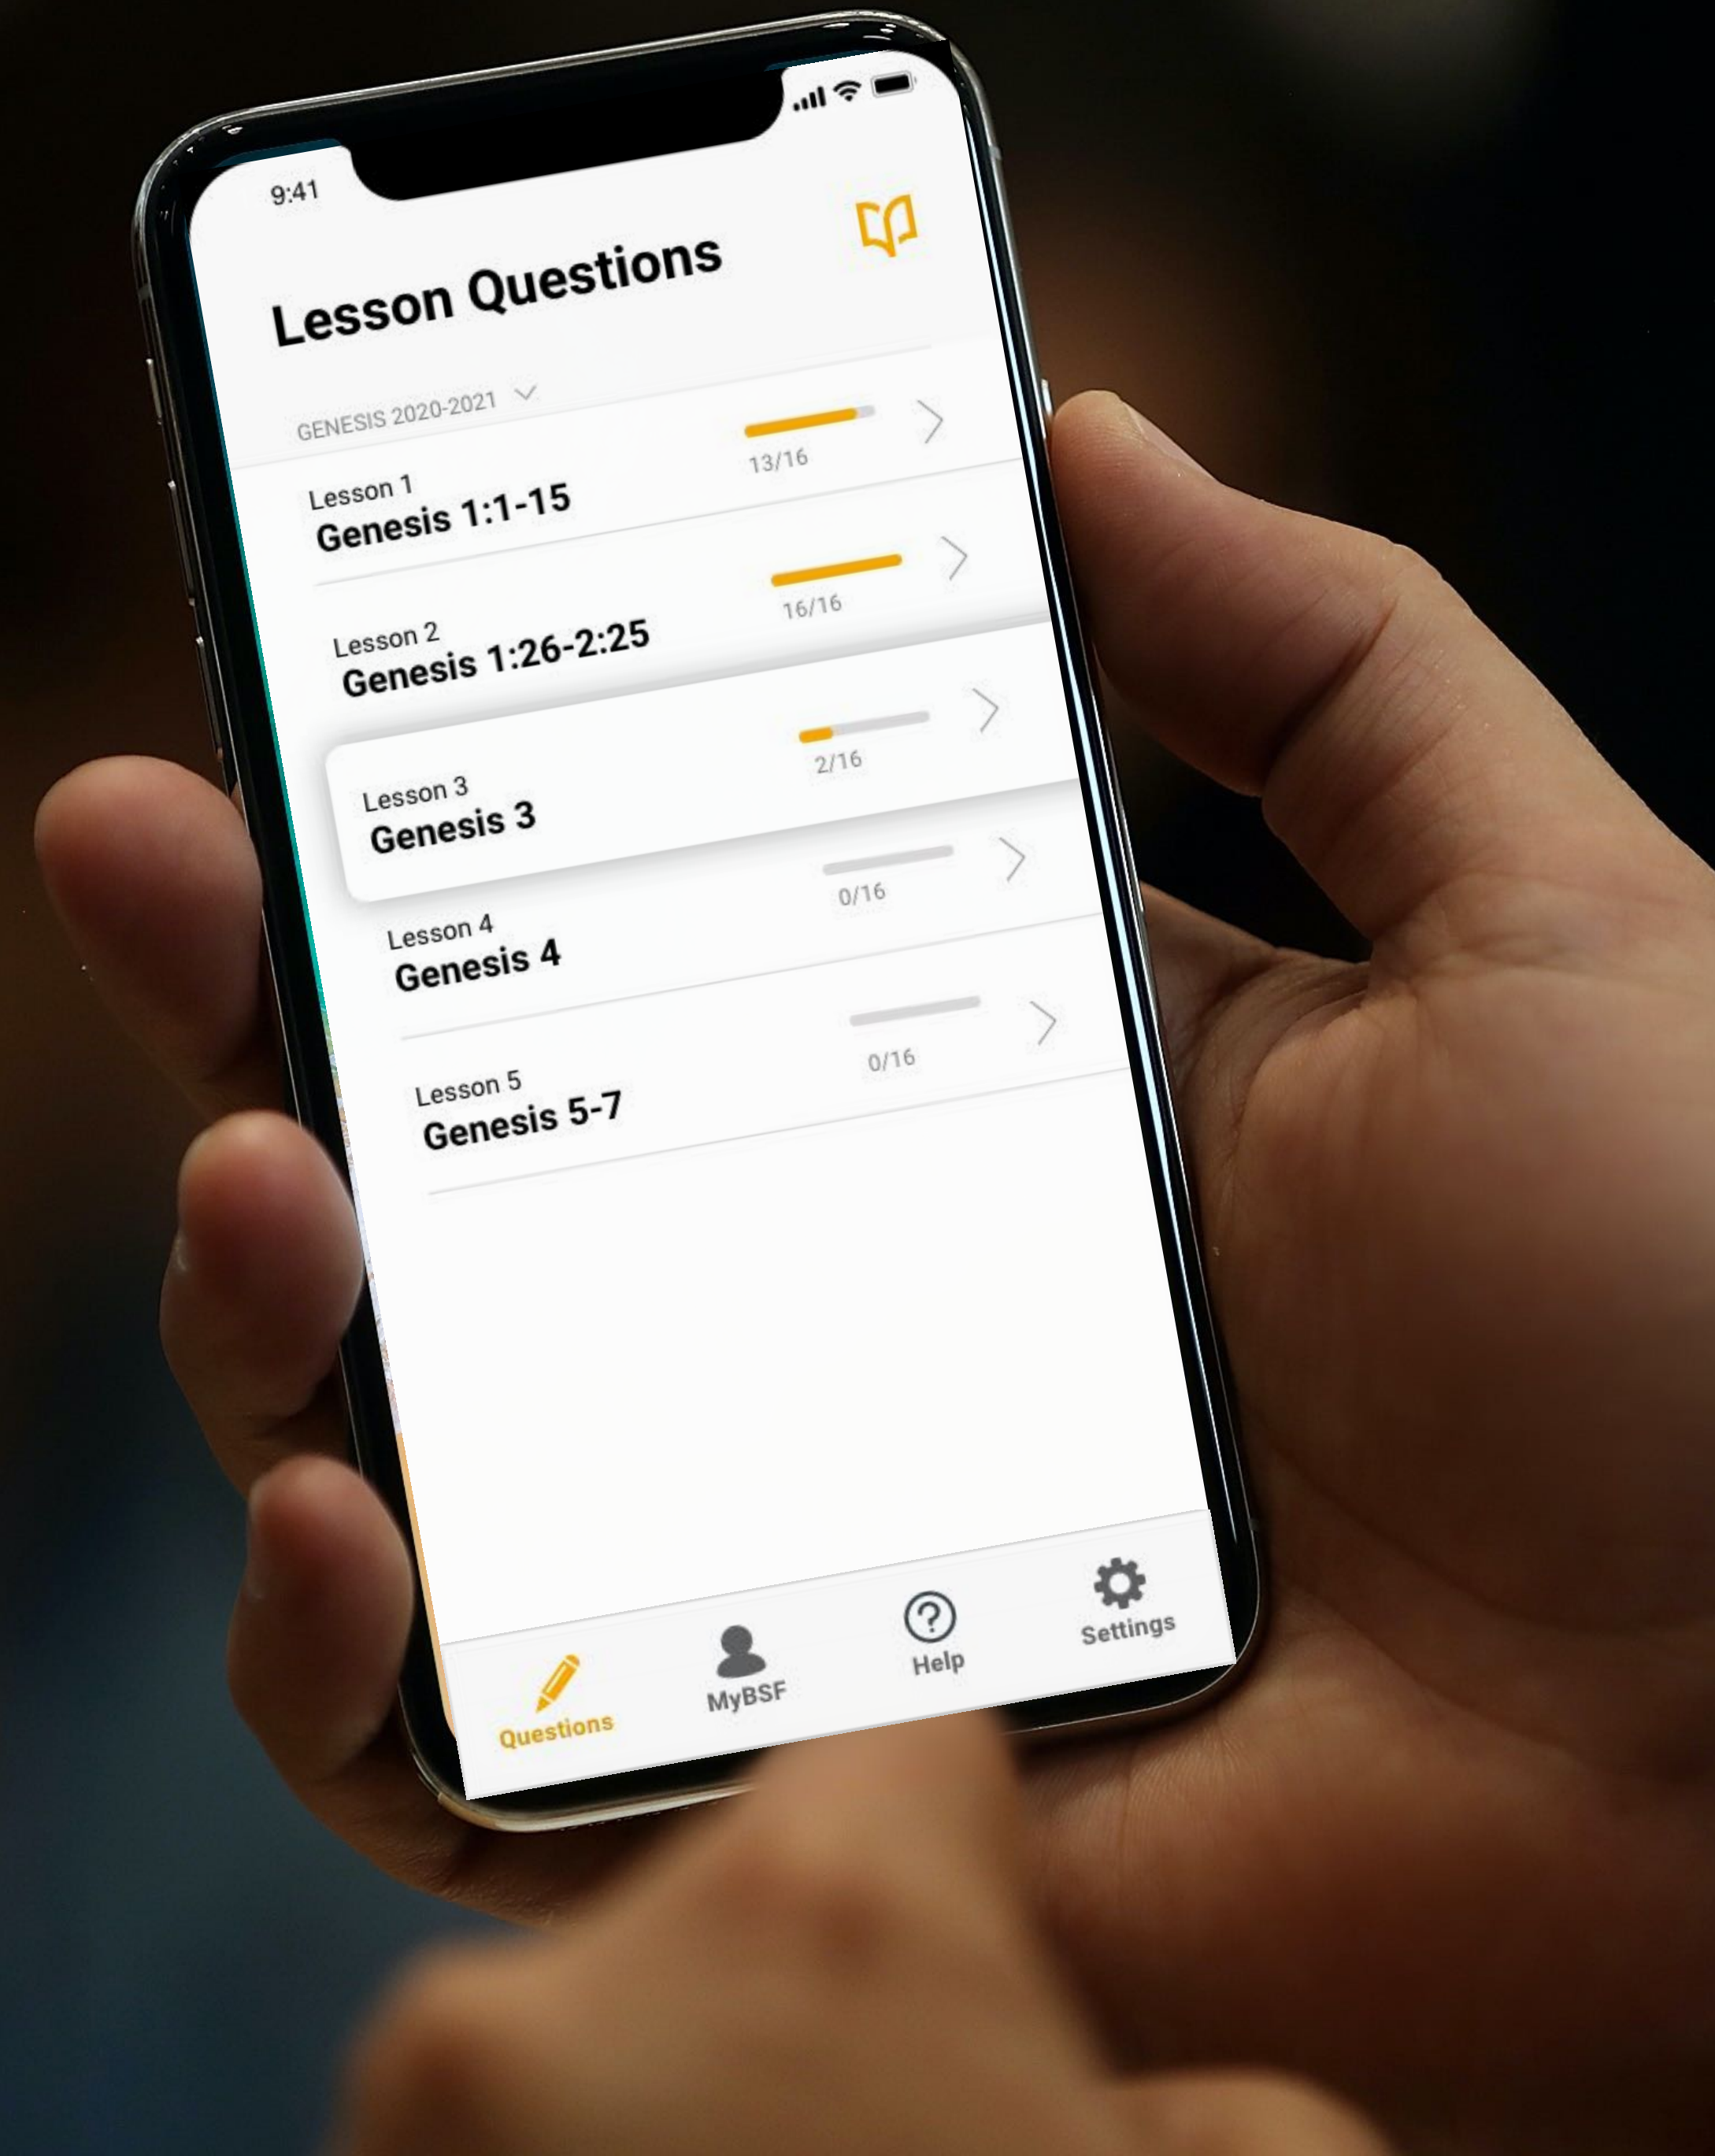

July 2020

By OneCreative

Updated 7-15-2020

Lessons in your hand

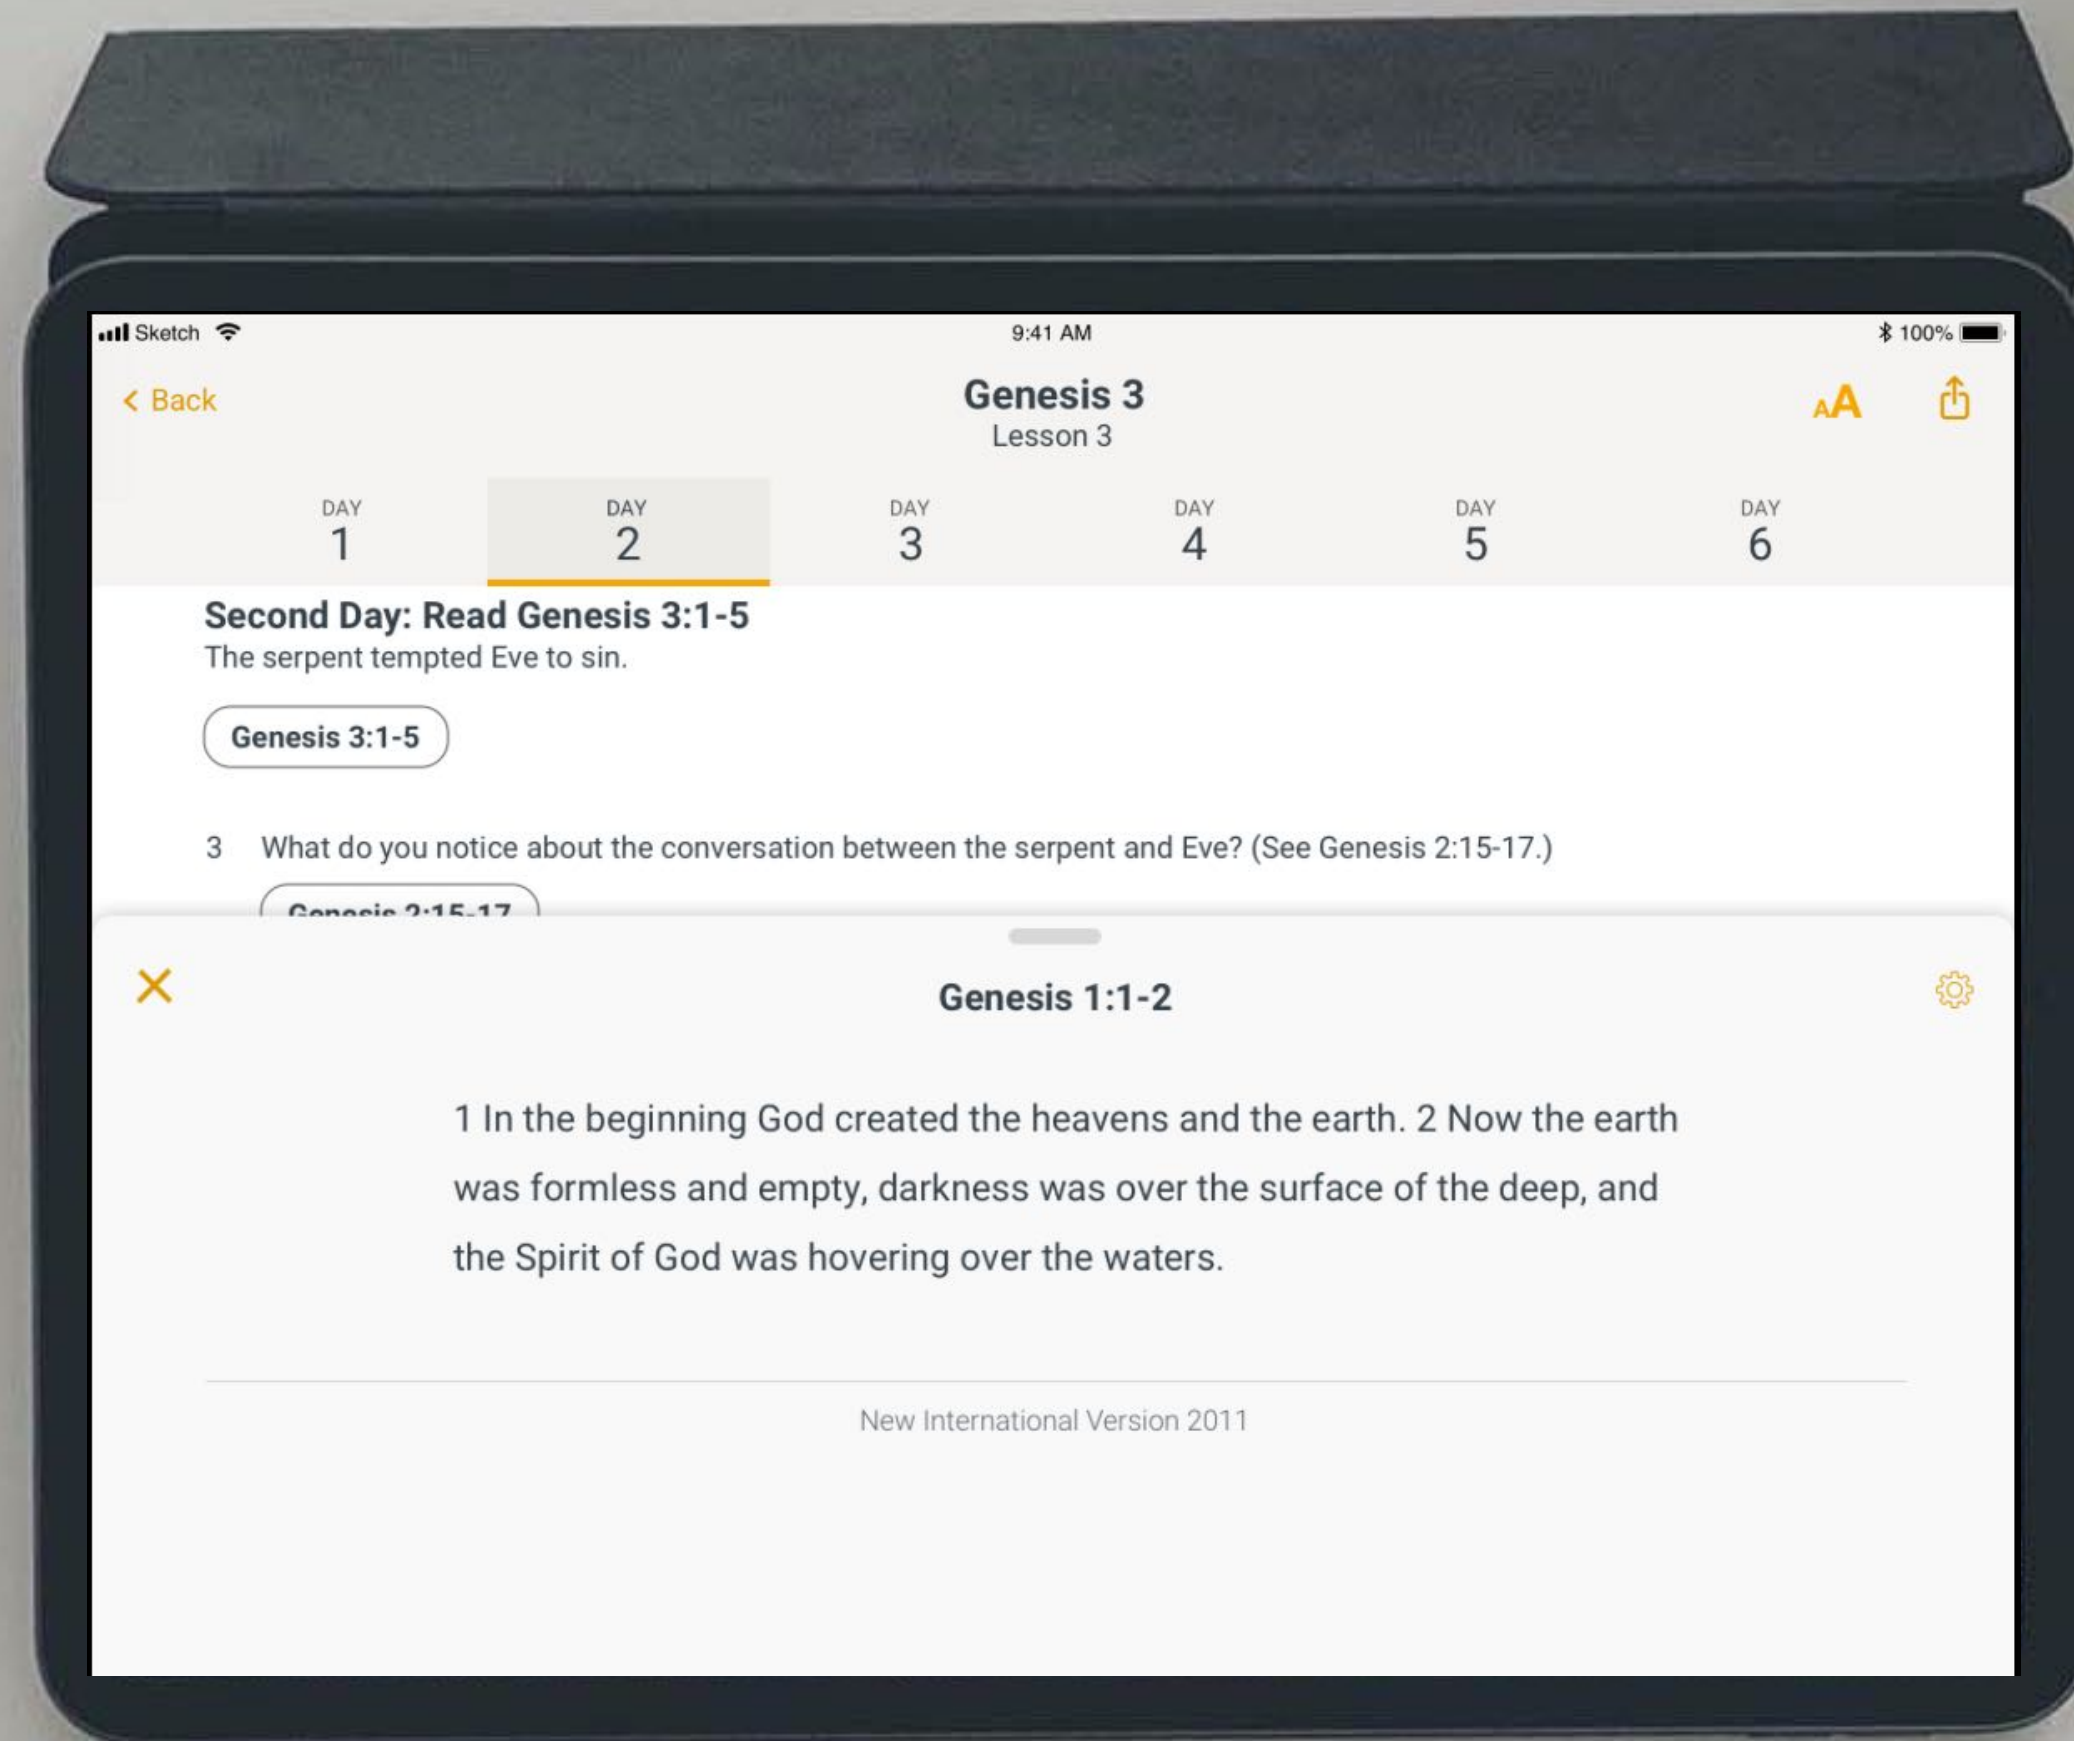

BSF members have long been able to download lesson questions — designed for desktop computers. But now members can complete their daily lessons right in a mobile or tablet app.

A BSF app

The BSF app will be designed to encourage aims of BSF:

- Encounter God though His Word
- Study and apply His Word daily;
- Reach the next generation.

App Aims

Fit in

Adhere to contemporary design, BSF style guides and WordGo

Inspire

members to spend time completing their lesson, share the BSF app with friends

Differentiate

From MyBSF and WordGo

Promote

Utilize the app store presence to bring new members to BSF groups

Grow

The BSF app will be deployed in phases, adding features and refining based on feedback

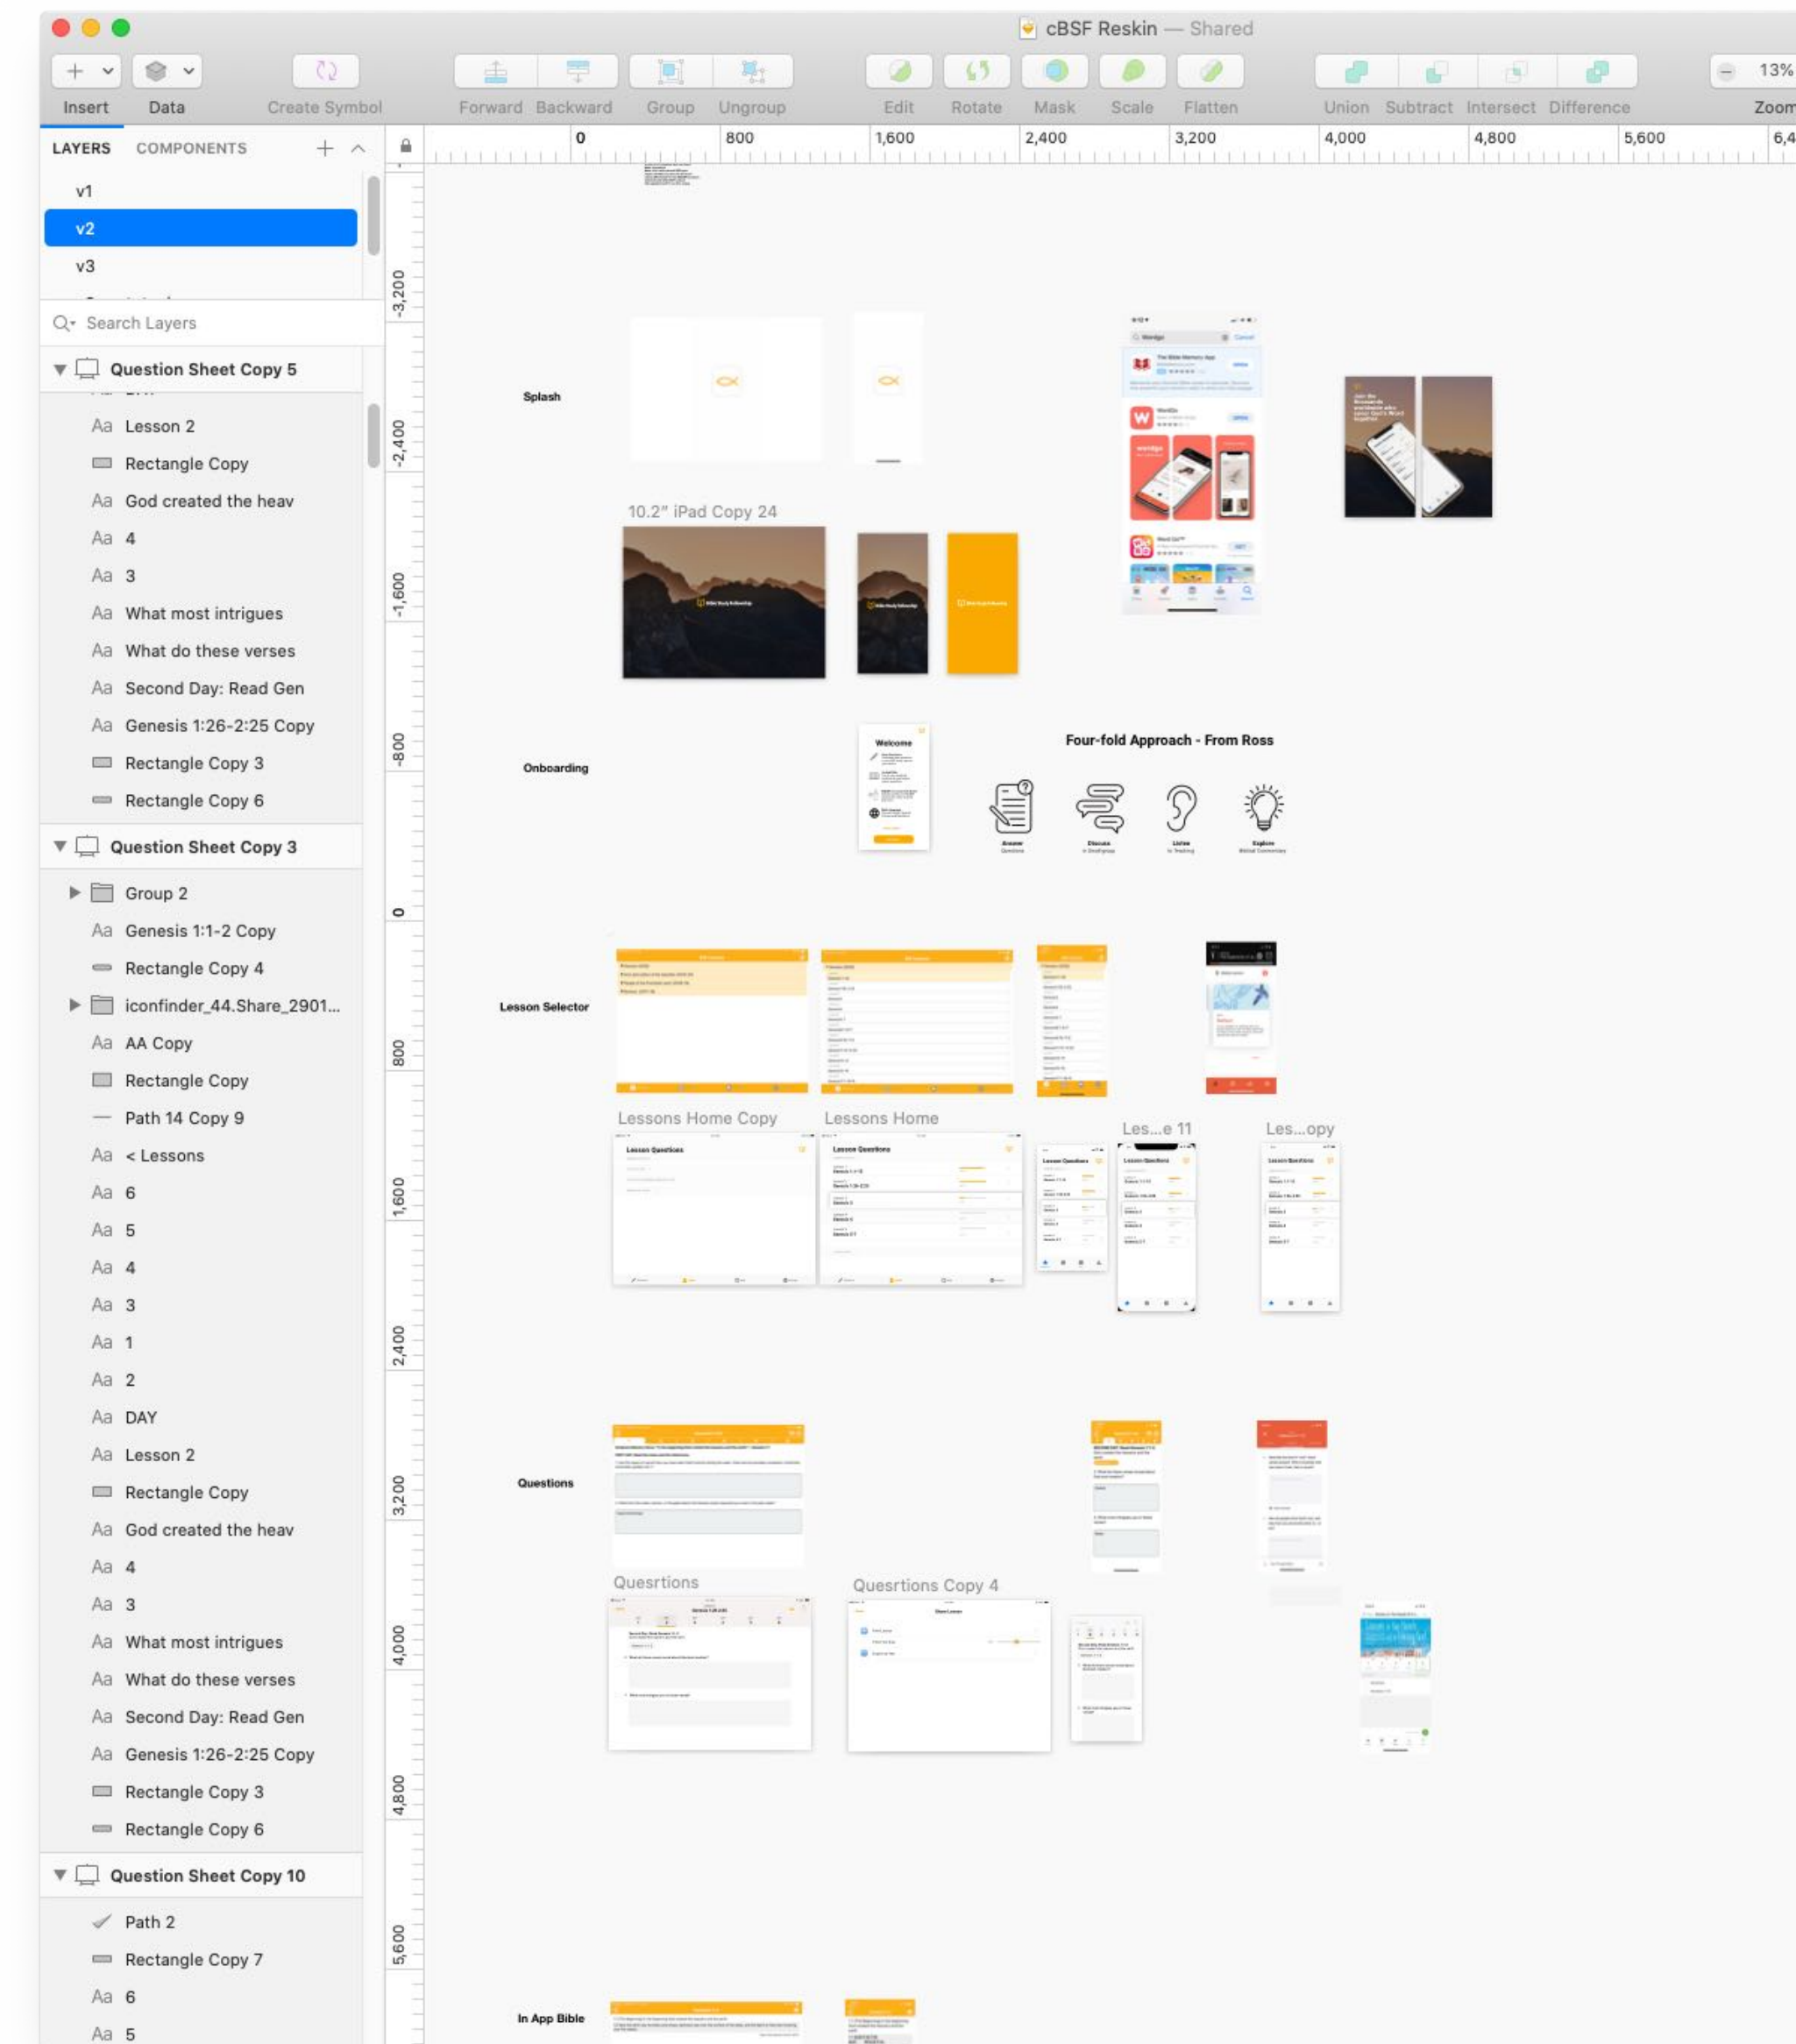

Rethinking

The app began life as “CBSF” created by a devoted Teaching Leader. Now that it is becoming an official app, we are re-visiting the user interface and experience based on best design practices.

UI/UX Philosophy

- **Discoverability** - functions easily found by users, minimizing need for help
- **Familiarity** - use established UI design, elements and conventions
- **Simplicity** - keep focus on God's Word and BSF study, remove confusion
- **Clarity** - make the UI clear instead of clever

Our Audience

	CBSF Users	BSF Members	BSF Online	Non BSF Member
Questions	What happened to old features?	Where can I get my lectures and notes?	Can I use for BSF Online?	Is there more to BSF than just the app?
Information & Tools	Email to CBSF users	Onboarding Dialog/MyBSF Dialog	Help Screen	Help Screen, about BSF and join a Group Button
Aim	App is replacing CBSF and BSF is going to add new features.	I can answer questions and read scriptures on a mobile device, access MyBSF.	I can use for questions and quick access to scripture.	BSF is an in-depth bible study community that I can meet with others.

Audience Analysis

	cBSF Users	BSF Members (Physical Classes)	BSF Members (online groups)	Non-BSFers
Unique Aspects	Familiar with App already	Know of BSF	Does everything in their class online	Not familiar with BSF. Don't know BSF 4 fold approach
Questions or concerns	How can I change my language? Where my cloud syncing go? Can I import my questions from cBSF?	<ul style="list-style-type: none"> - Where do I get the notes? watch my lecture? - Can I only do questions on the app? - What if I want to use a different Bible version? - How can use the app in different languages? - Can I give to the ministry through this app? - I wish this app would do X, where do I give feedback? - Can I download PDFs in the App - I don't have a MyBSF account, can I still use the app? - Is there a way my child/student can use this for their lessons? 	Can I link to BSF Online website instead of mybsf.org ? Can I used this for BSF Online?	What is Bible Study Fellowship? Can I use this app without joining a group? Is this all there is to BSF, A list of questions? Where can I be apart of this to get notes and lectures? What is MyBSF?
Information (Answering questions and concerns)	Help Page - reference cBSF app, and how it changed. Email to Cloud Sync Users - letting them know cloud sync feature would be removed App Store - welcoming cBSF users	<ul style="list-style-type: none"> - Onboarding Screen - notes, lecture in MyBSF - Lesson Question page - clearly showing this is an app mainly for questions, language options - MyBSF Page - onboarding screen showing lectures, notes and more - Settings - less options, first being language, Feedback Prominent - Help page - link to BSF App help page. 	Help Page - BSF App Support DIVI Page	App Store info about BSF. Help Page - BSF Information, Find a Class Button MyBSF - brief explanation on onboarding dialog
Tools (interactive tools to support understanding or AIM)	Settings - Import / Export Questions The update from cBSF should keep all previous answers	MVP2 - additional English Bible versions - NASB, ESV, NLT. MVP2 - Bible settings to open third party app (YouVersion, Logos, to begin) MVP? - View questions	MVP2 - Option to choose to use BSFOnline.org instead of mybsf.org	Help - Join a Group Button
AIM (Cause the Audience to Learn...)	The BSF app is replacing CBSF and BSF is putting resources into it to make it a better tool for use in the BSF study	The BSF app allows me to answer questions and read scriptures on a mobile device, and I can also access lectures and notes on MyBSF without having to log in each time	The BSF app allows me to answer questions and read scriptures on a mobile device instead of a PDF or Word Document	Bible Study Fellowship is an indent bible study that has options for me to join right from this app.
Objective (What do we want the audience to do)	Use the app for questions, and recommend it to others.	Use it weekly for their lessons, Enter their MyBSF credentials	Download and use it for there lessons	Investigate BSF. Visit the Help screen and "Join a Group" to find a group near them.

Future Vision

BSF app can help make the vision of BSF as presented in 2018 “A Peek into the Future” video — Electronic lessons, notes, questions as well as group chat, video meetings and more.

App Store Presence

The app is designed for members, but the App Stores also give us an opportunity to promote BSF groups to a new audience. The BSF app will follow the approach established by WordGo in the App stores.

Class Promotion

PowerPoint slides will be created for Class Staff distribution. We should consider a blog article on bsfblog.org.

The advertisement features a smartphone displaying the BSF App interface. The screen shows a list of lesson questions for the year 2020-2021. The lessons are:

- Lesson 1: Genesis 1:1-15 (13/16)
- Lesson 2: Genesis 1:26-2:25 (16/16)
- Lesson 3: Genesis 3 (2/16)
- Lesson 4: Genesis 4 (0/16)
- Lesson 5: Genesis 5-7 (0/16)

Each lesson entry includes a progress bar and a right-pointing arrow. The app title 'Lesson Questions' is at the top, along with a book icon. The time 9:41 and signal strength are visible at the top of the phone screen.

CBSF -> BSF App Comparison

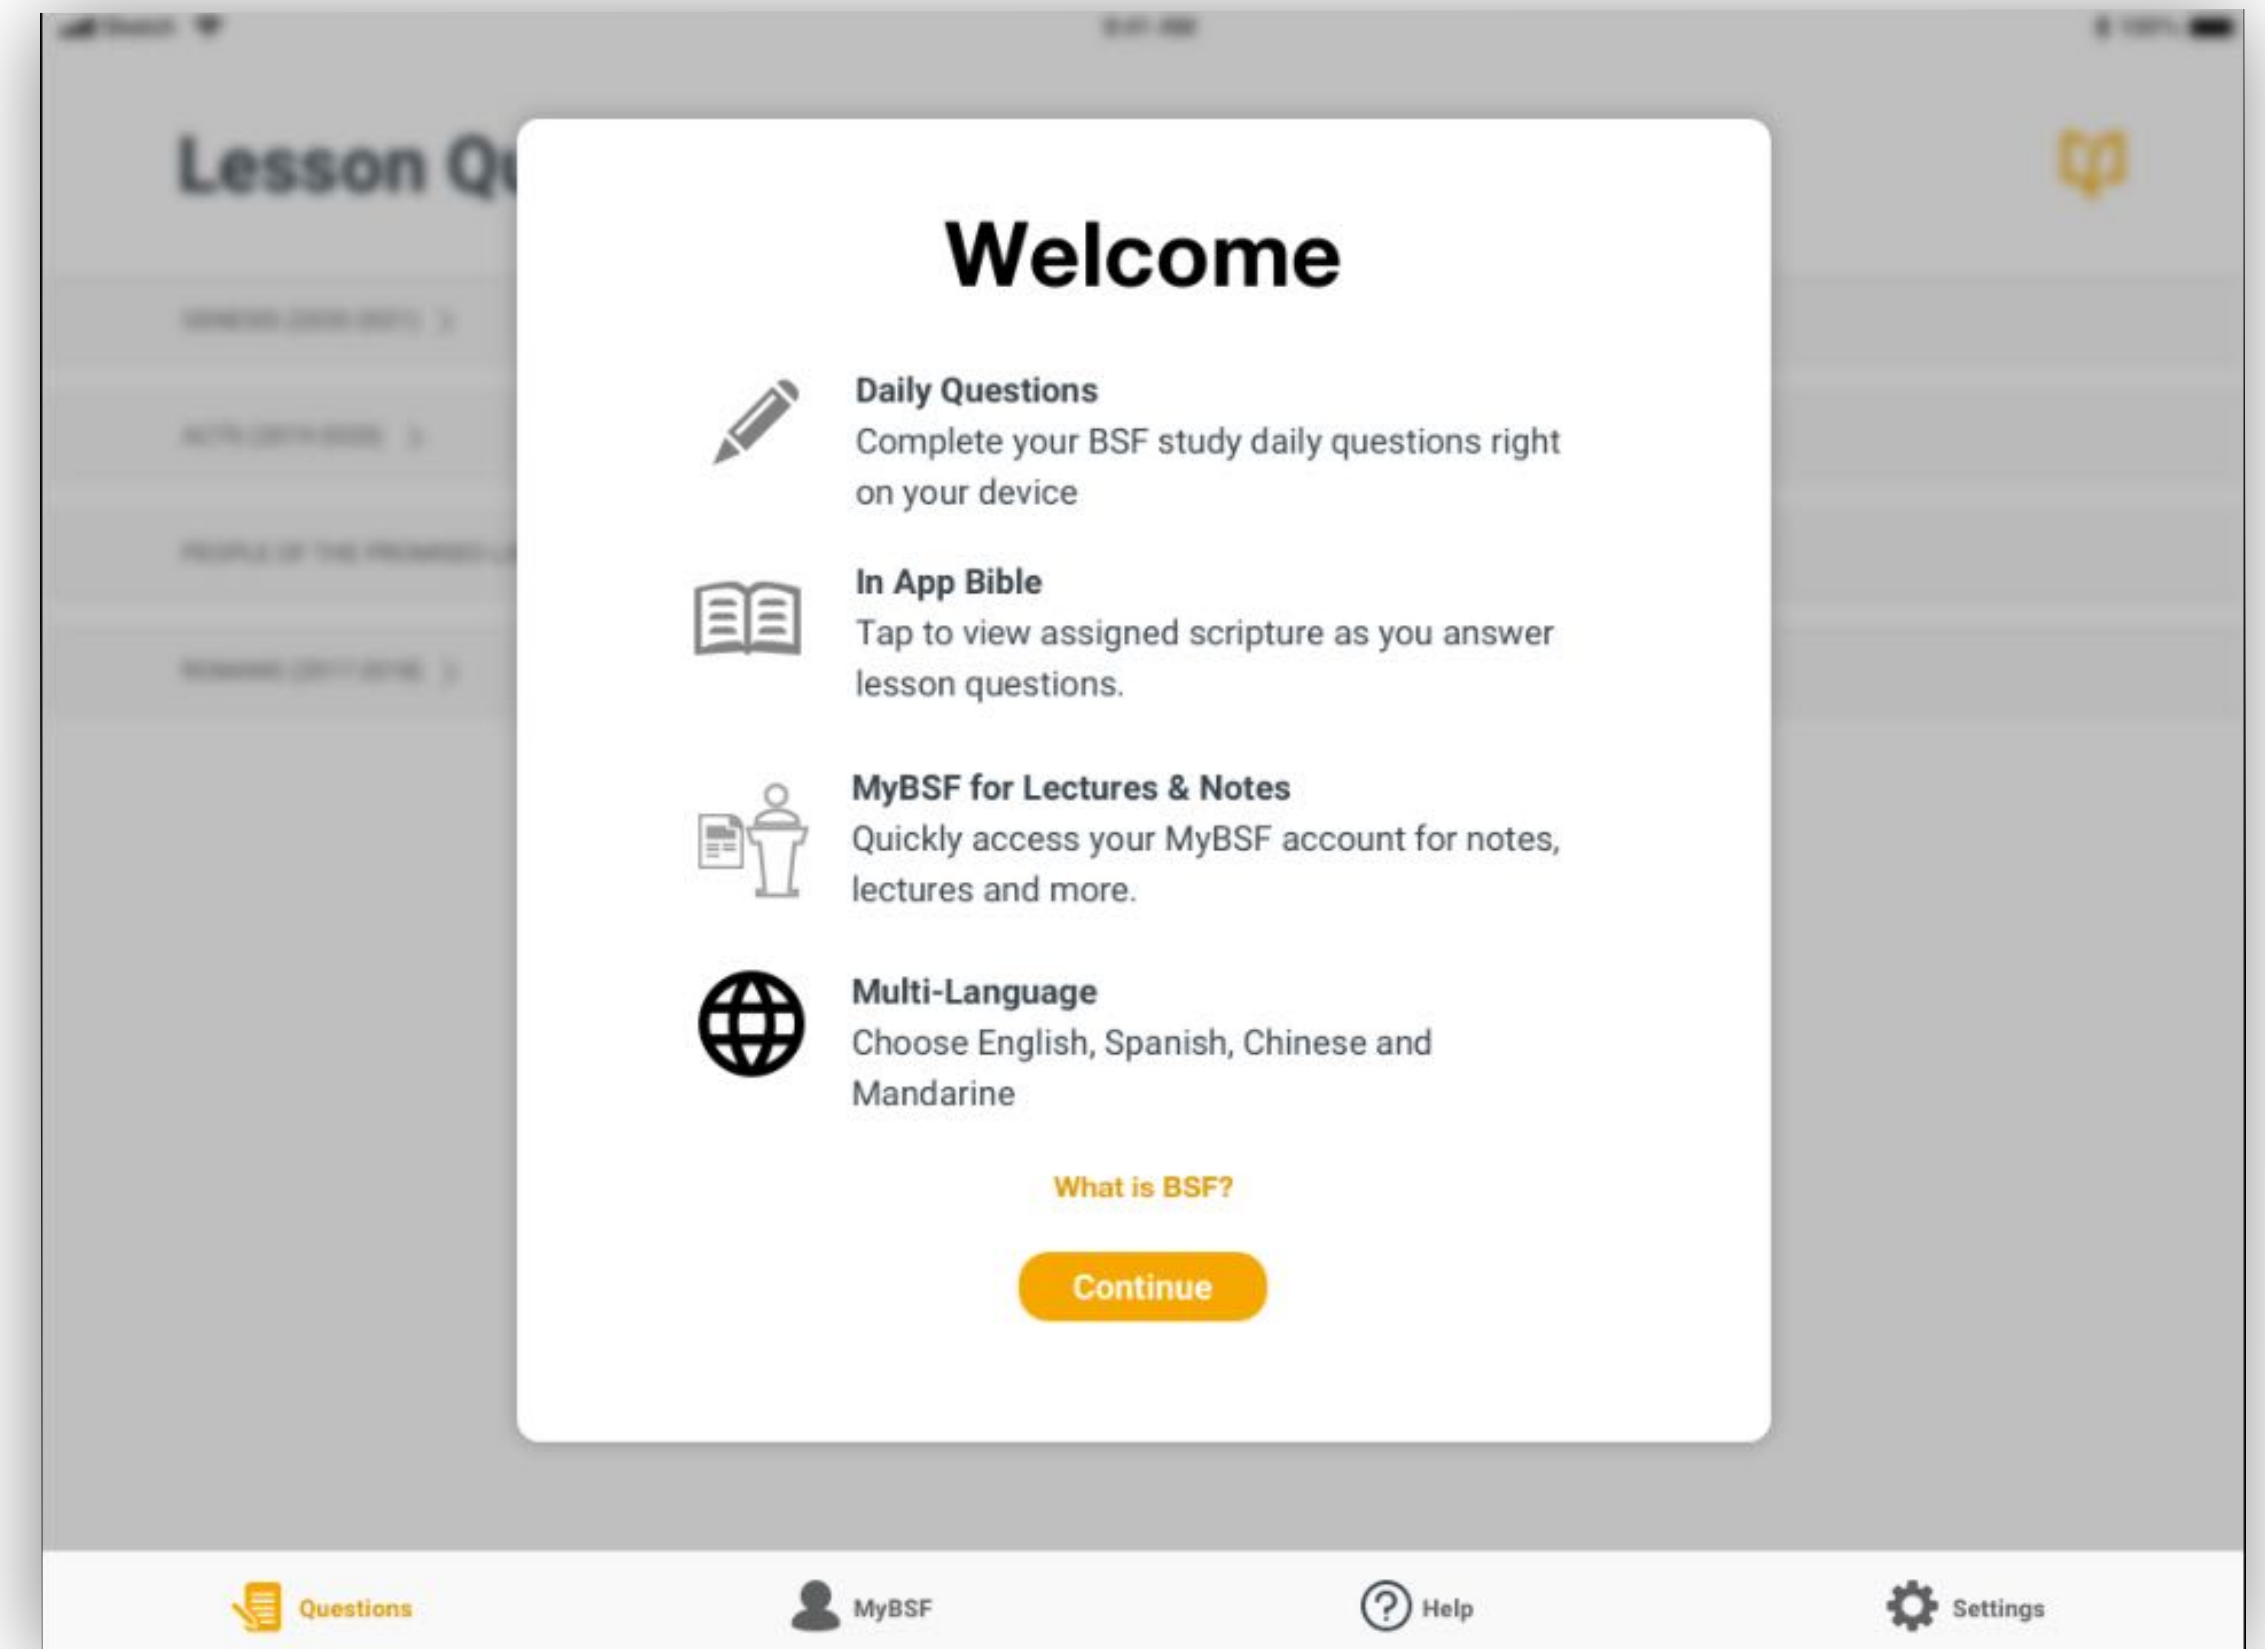

High Level General Design Overview

Comparison - Launch

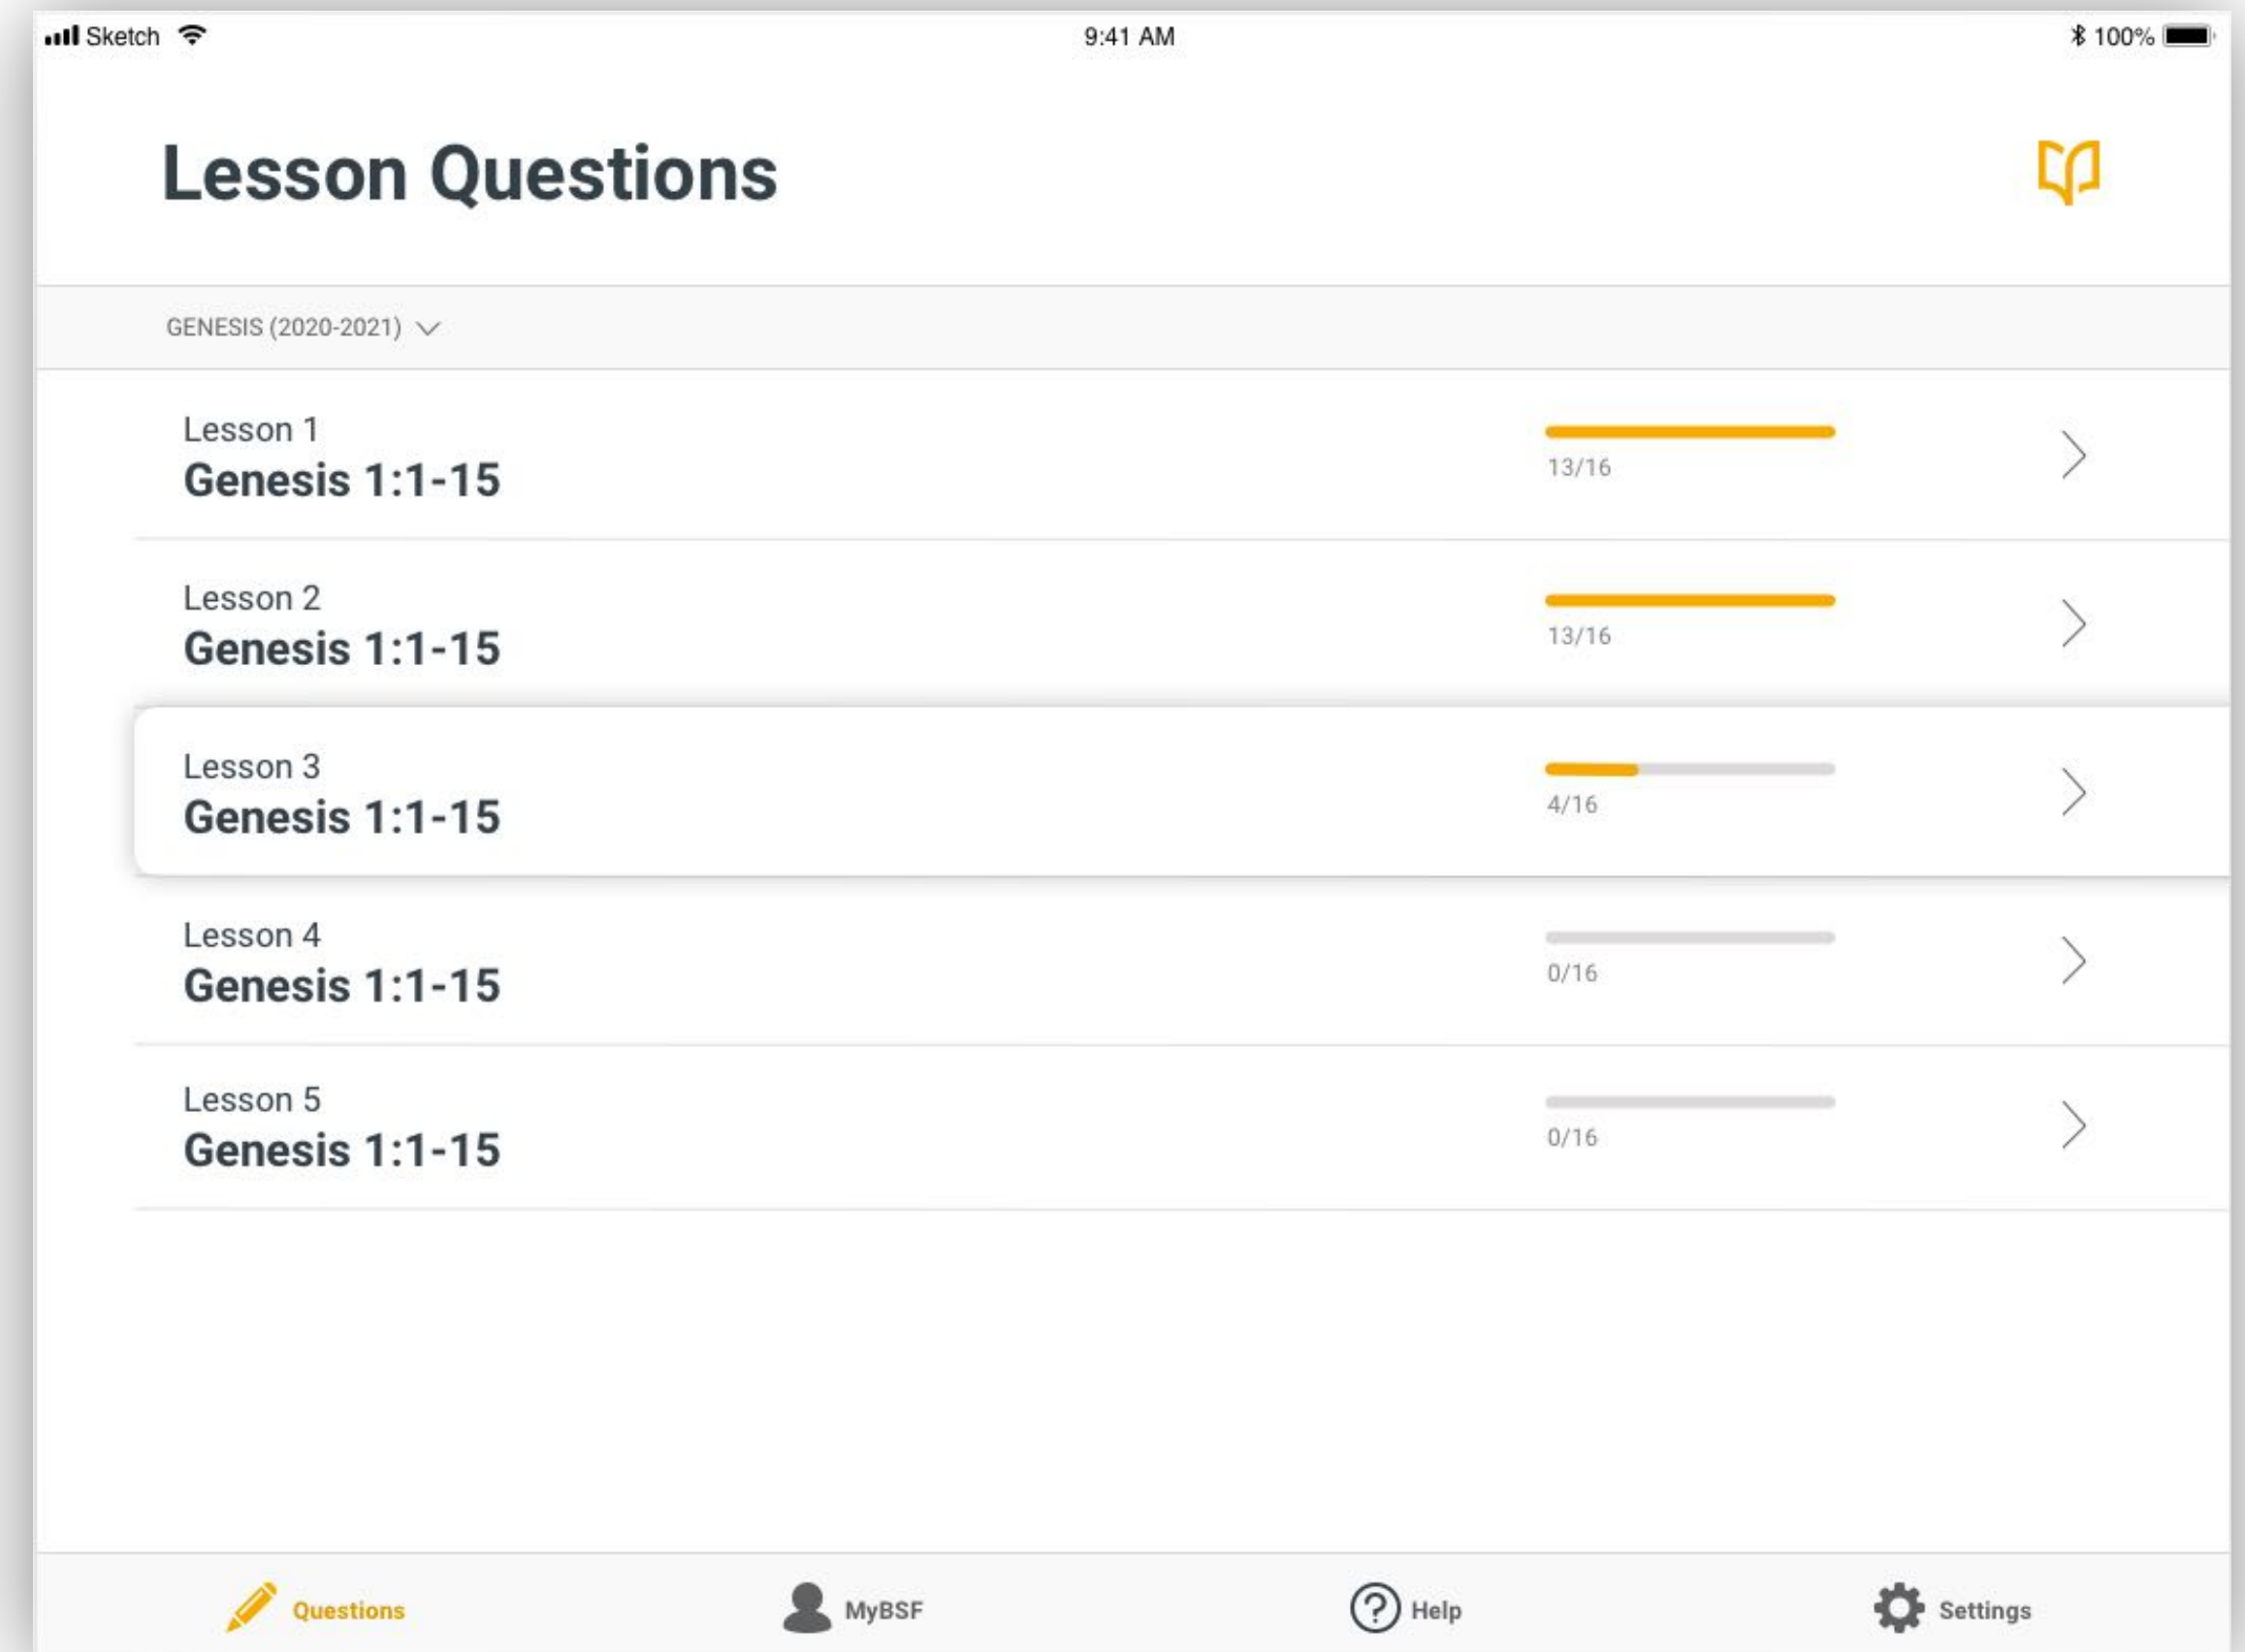

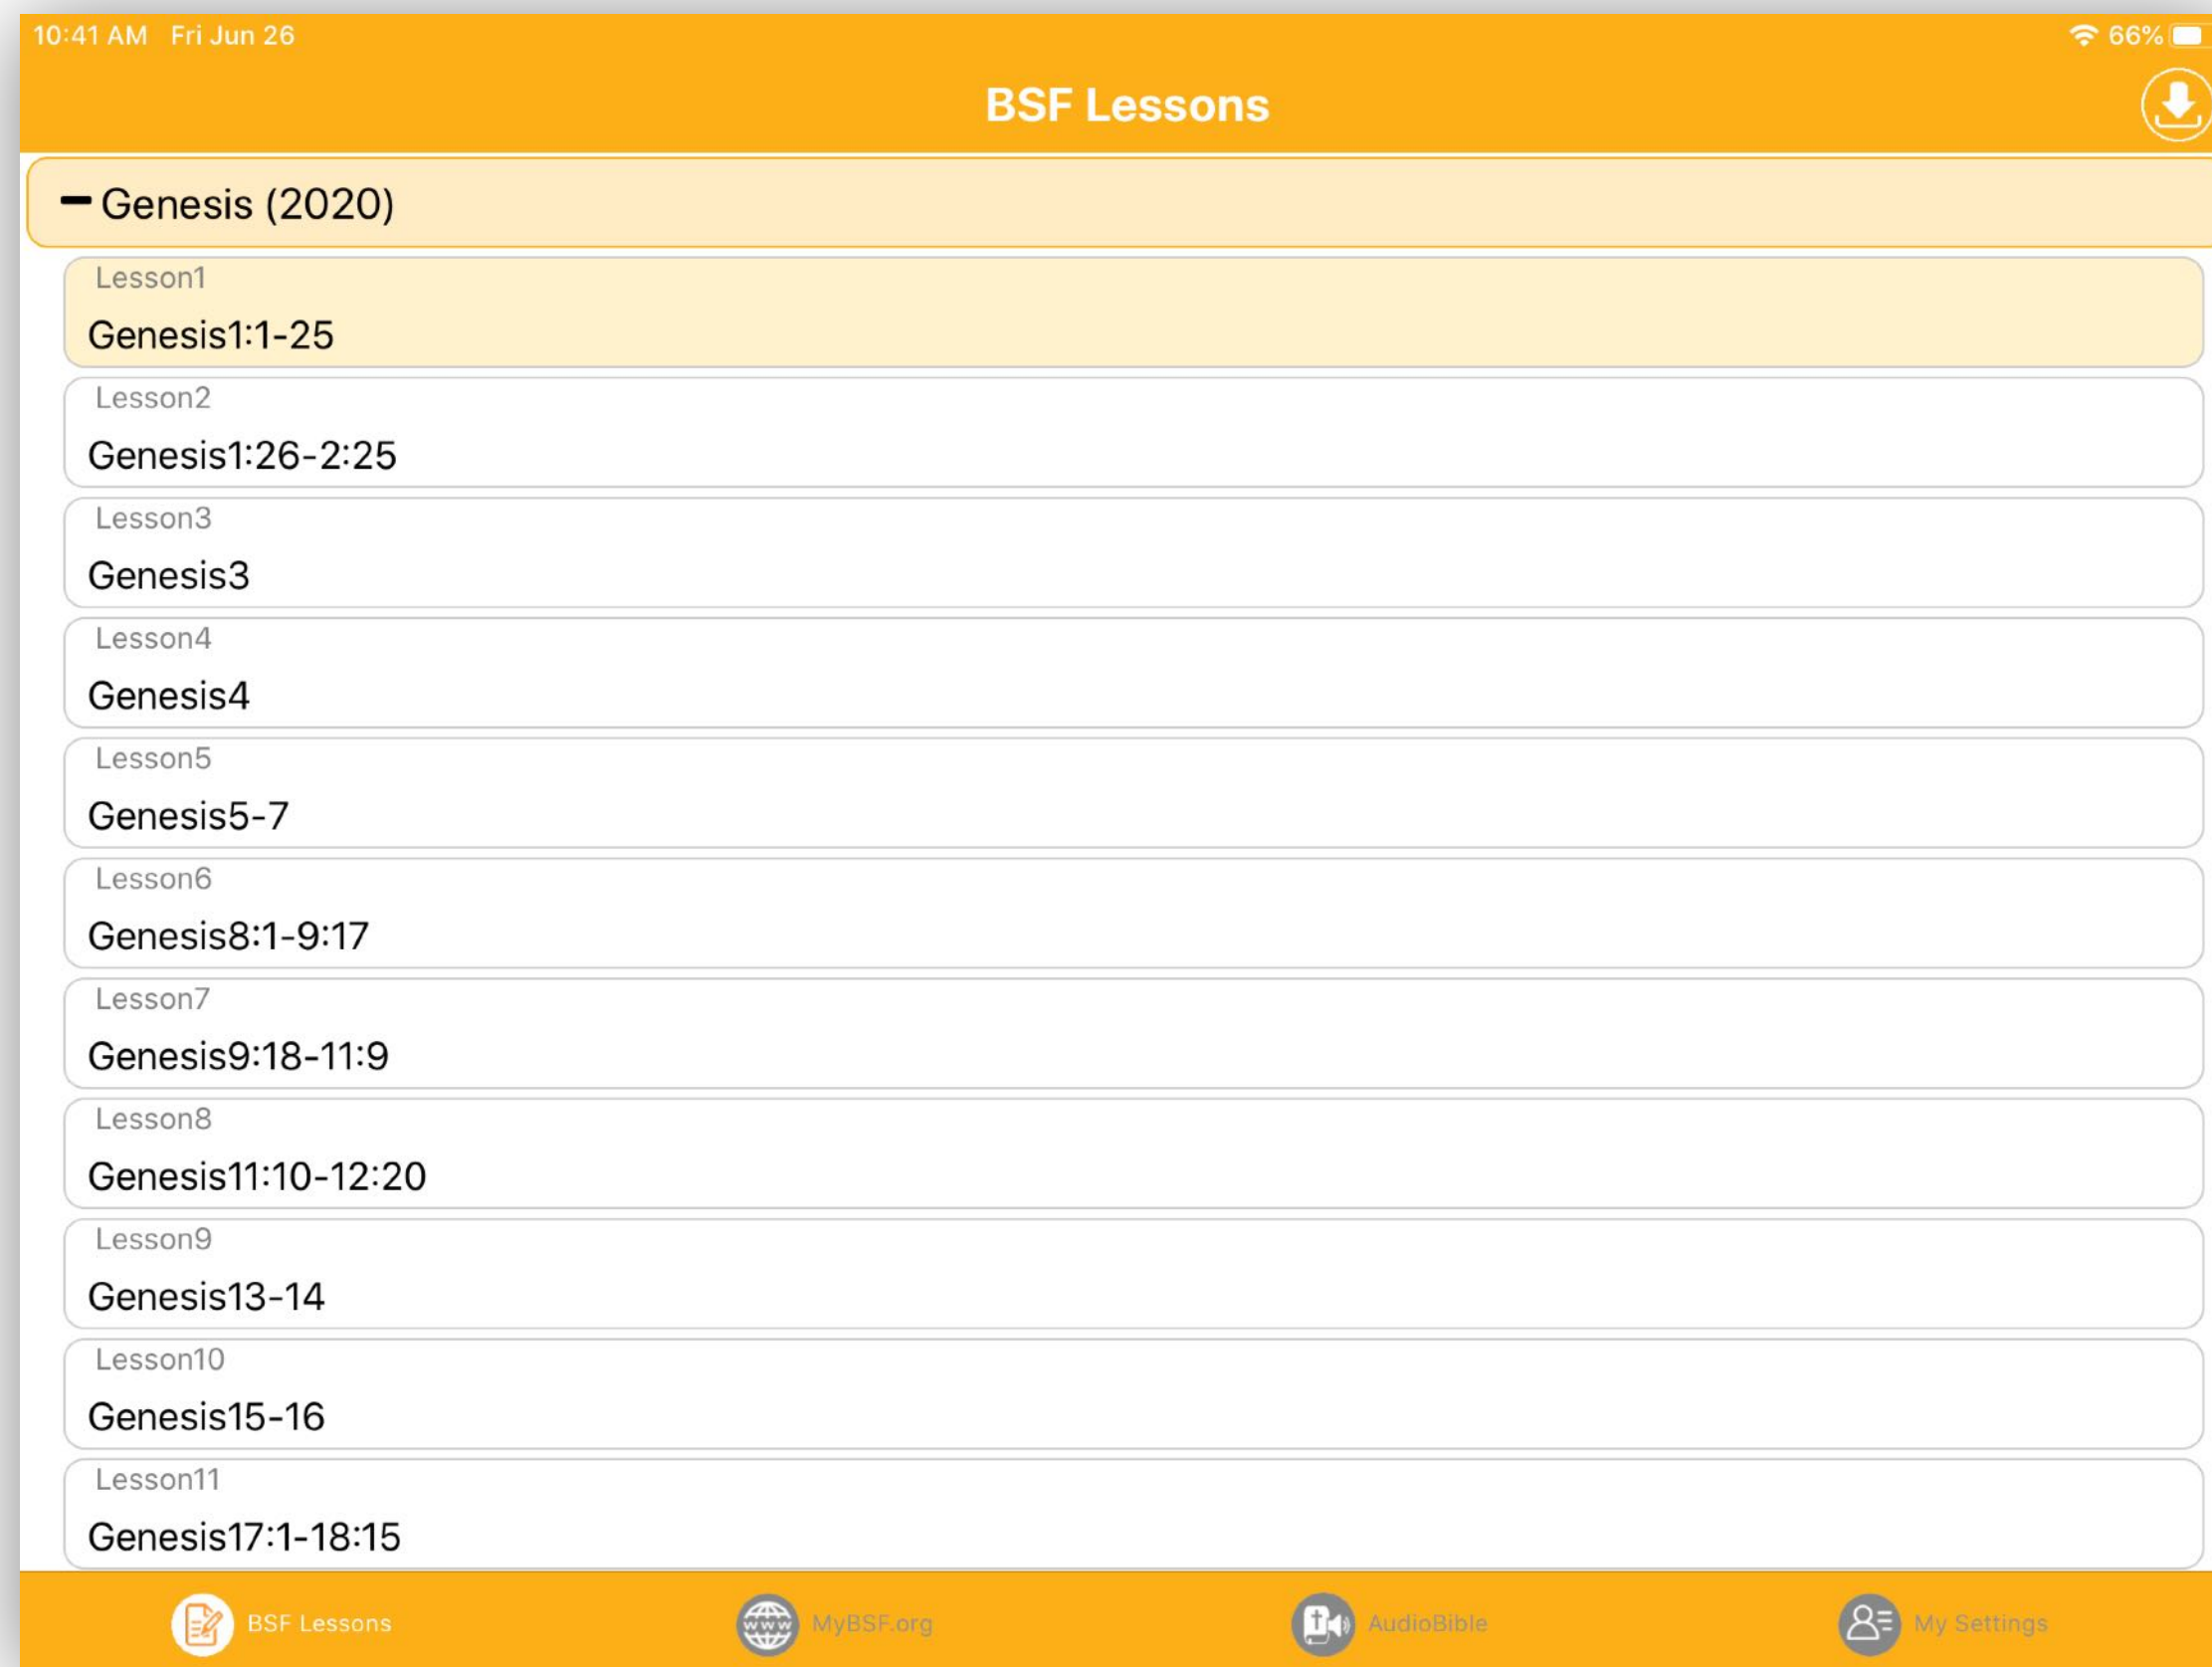

Comparison - On Boarding

New functionality

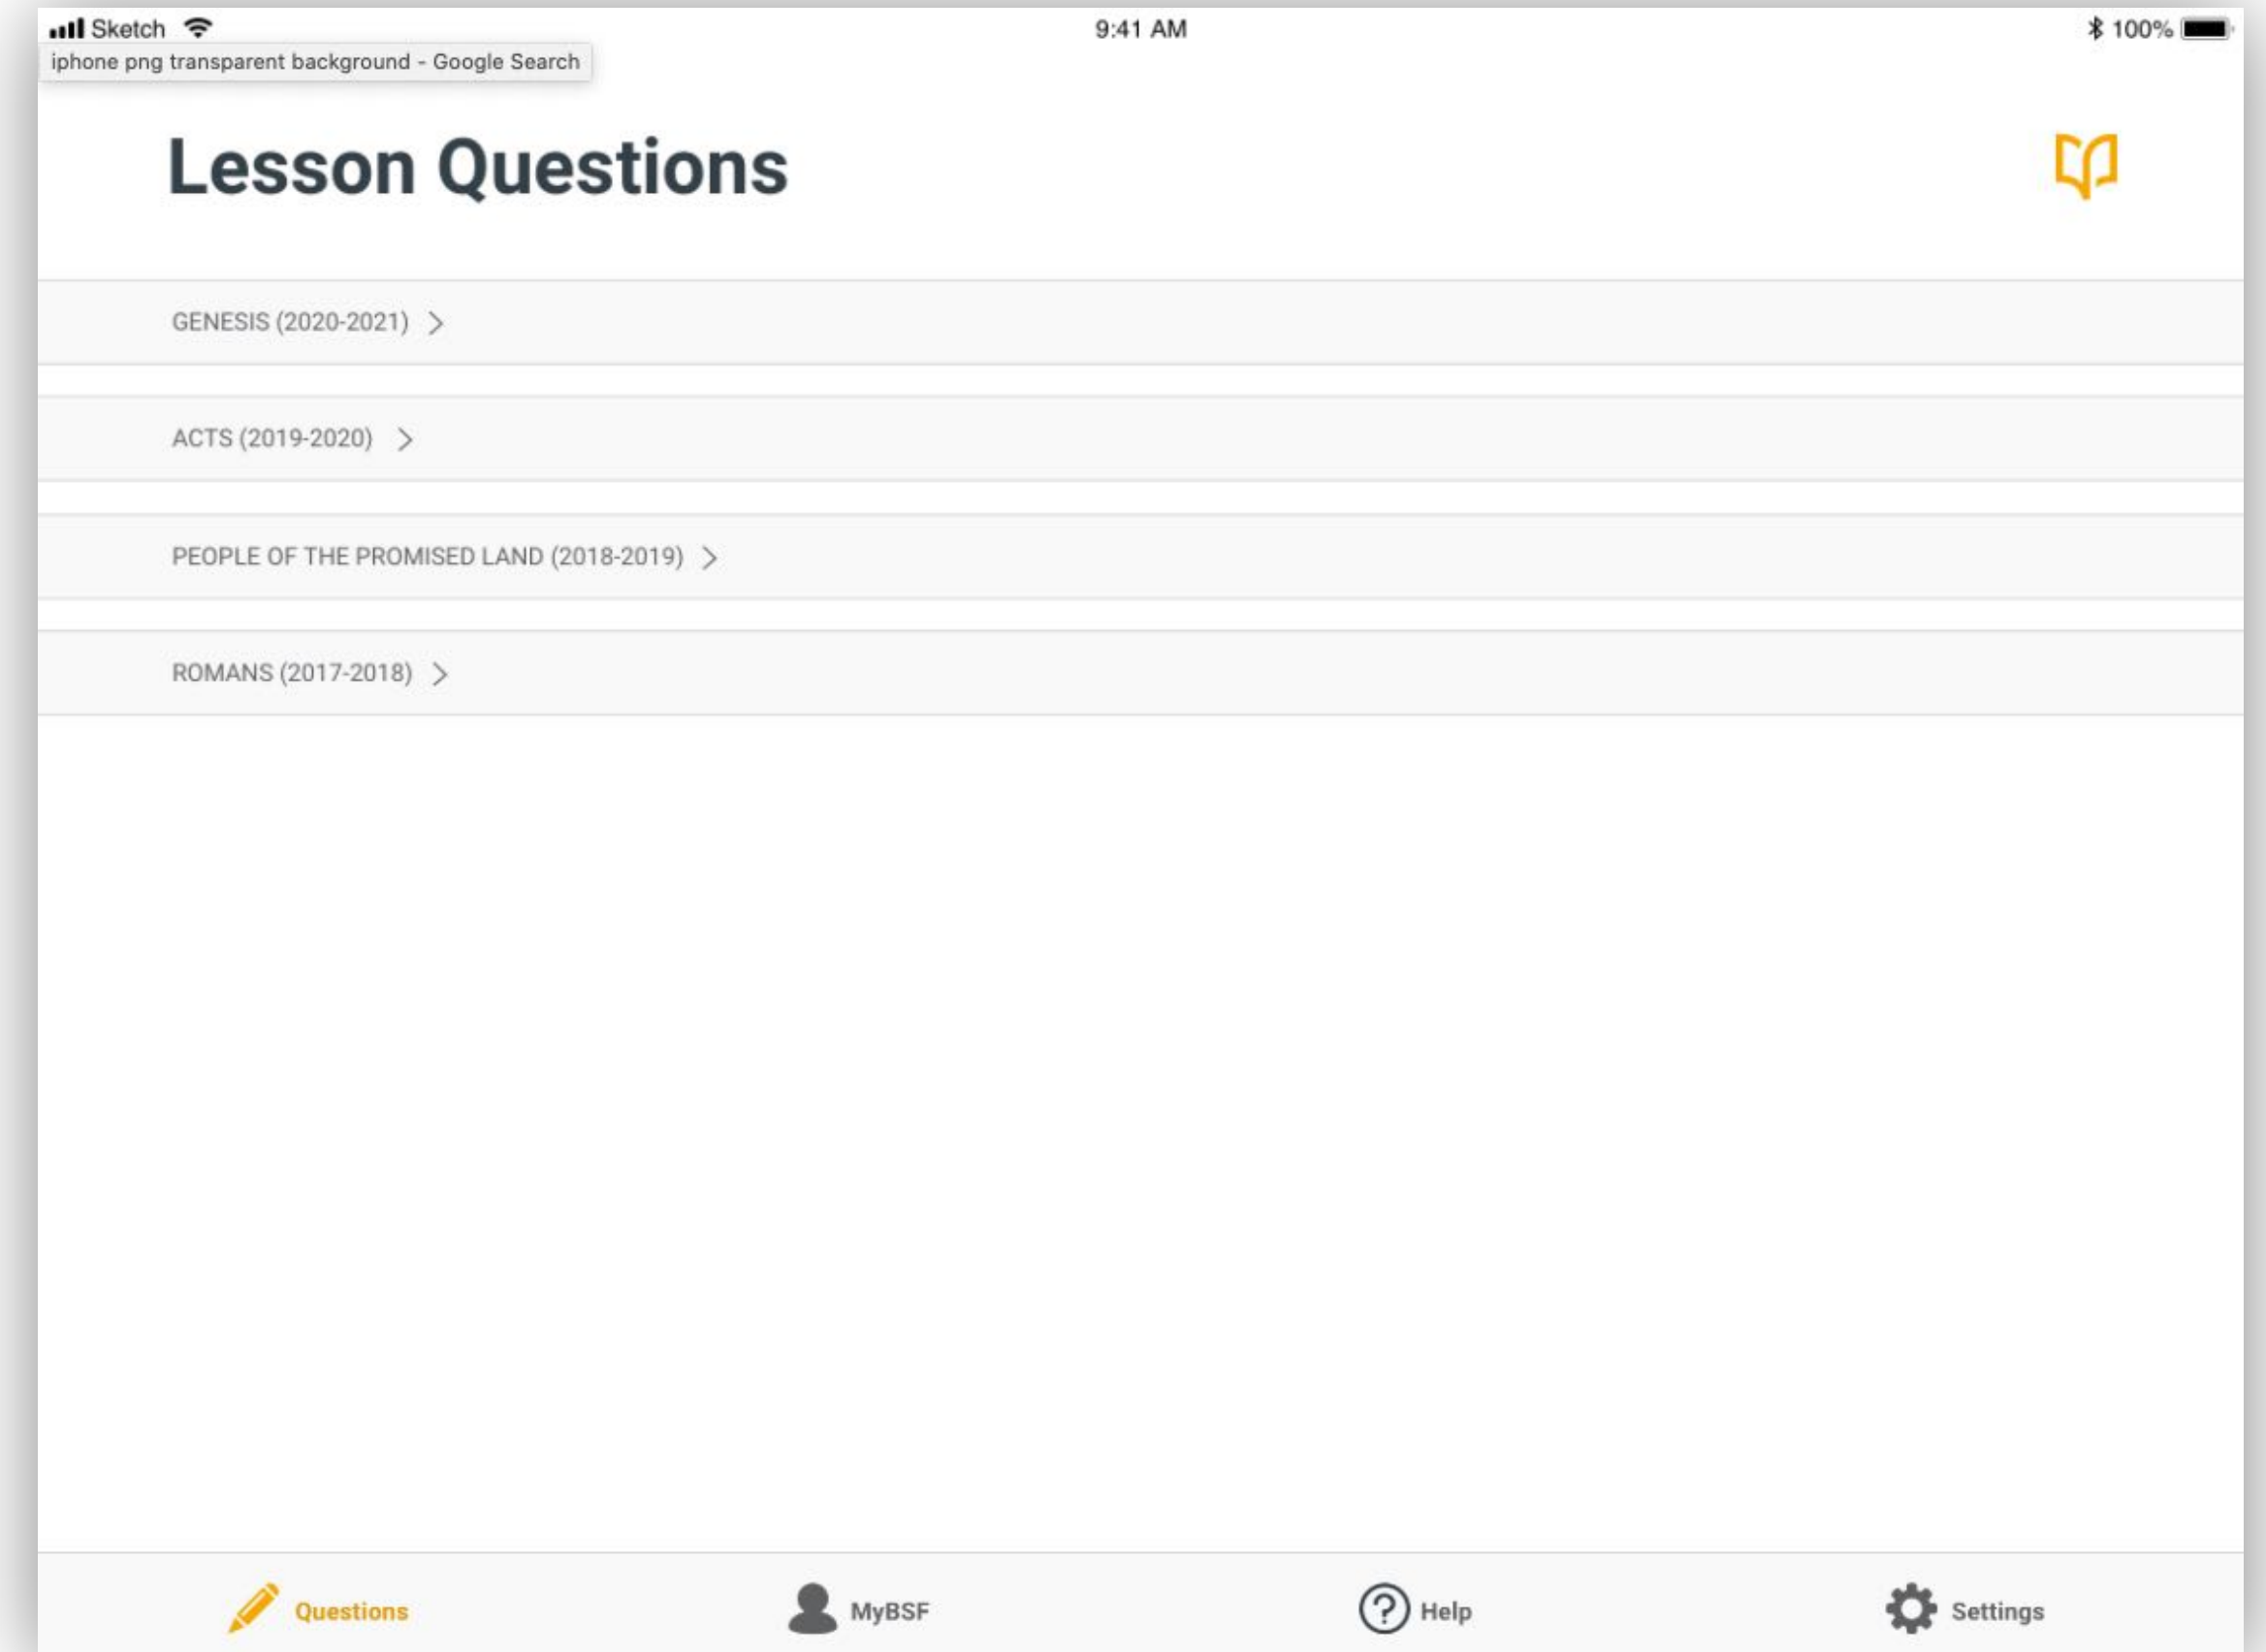

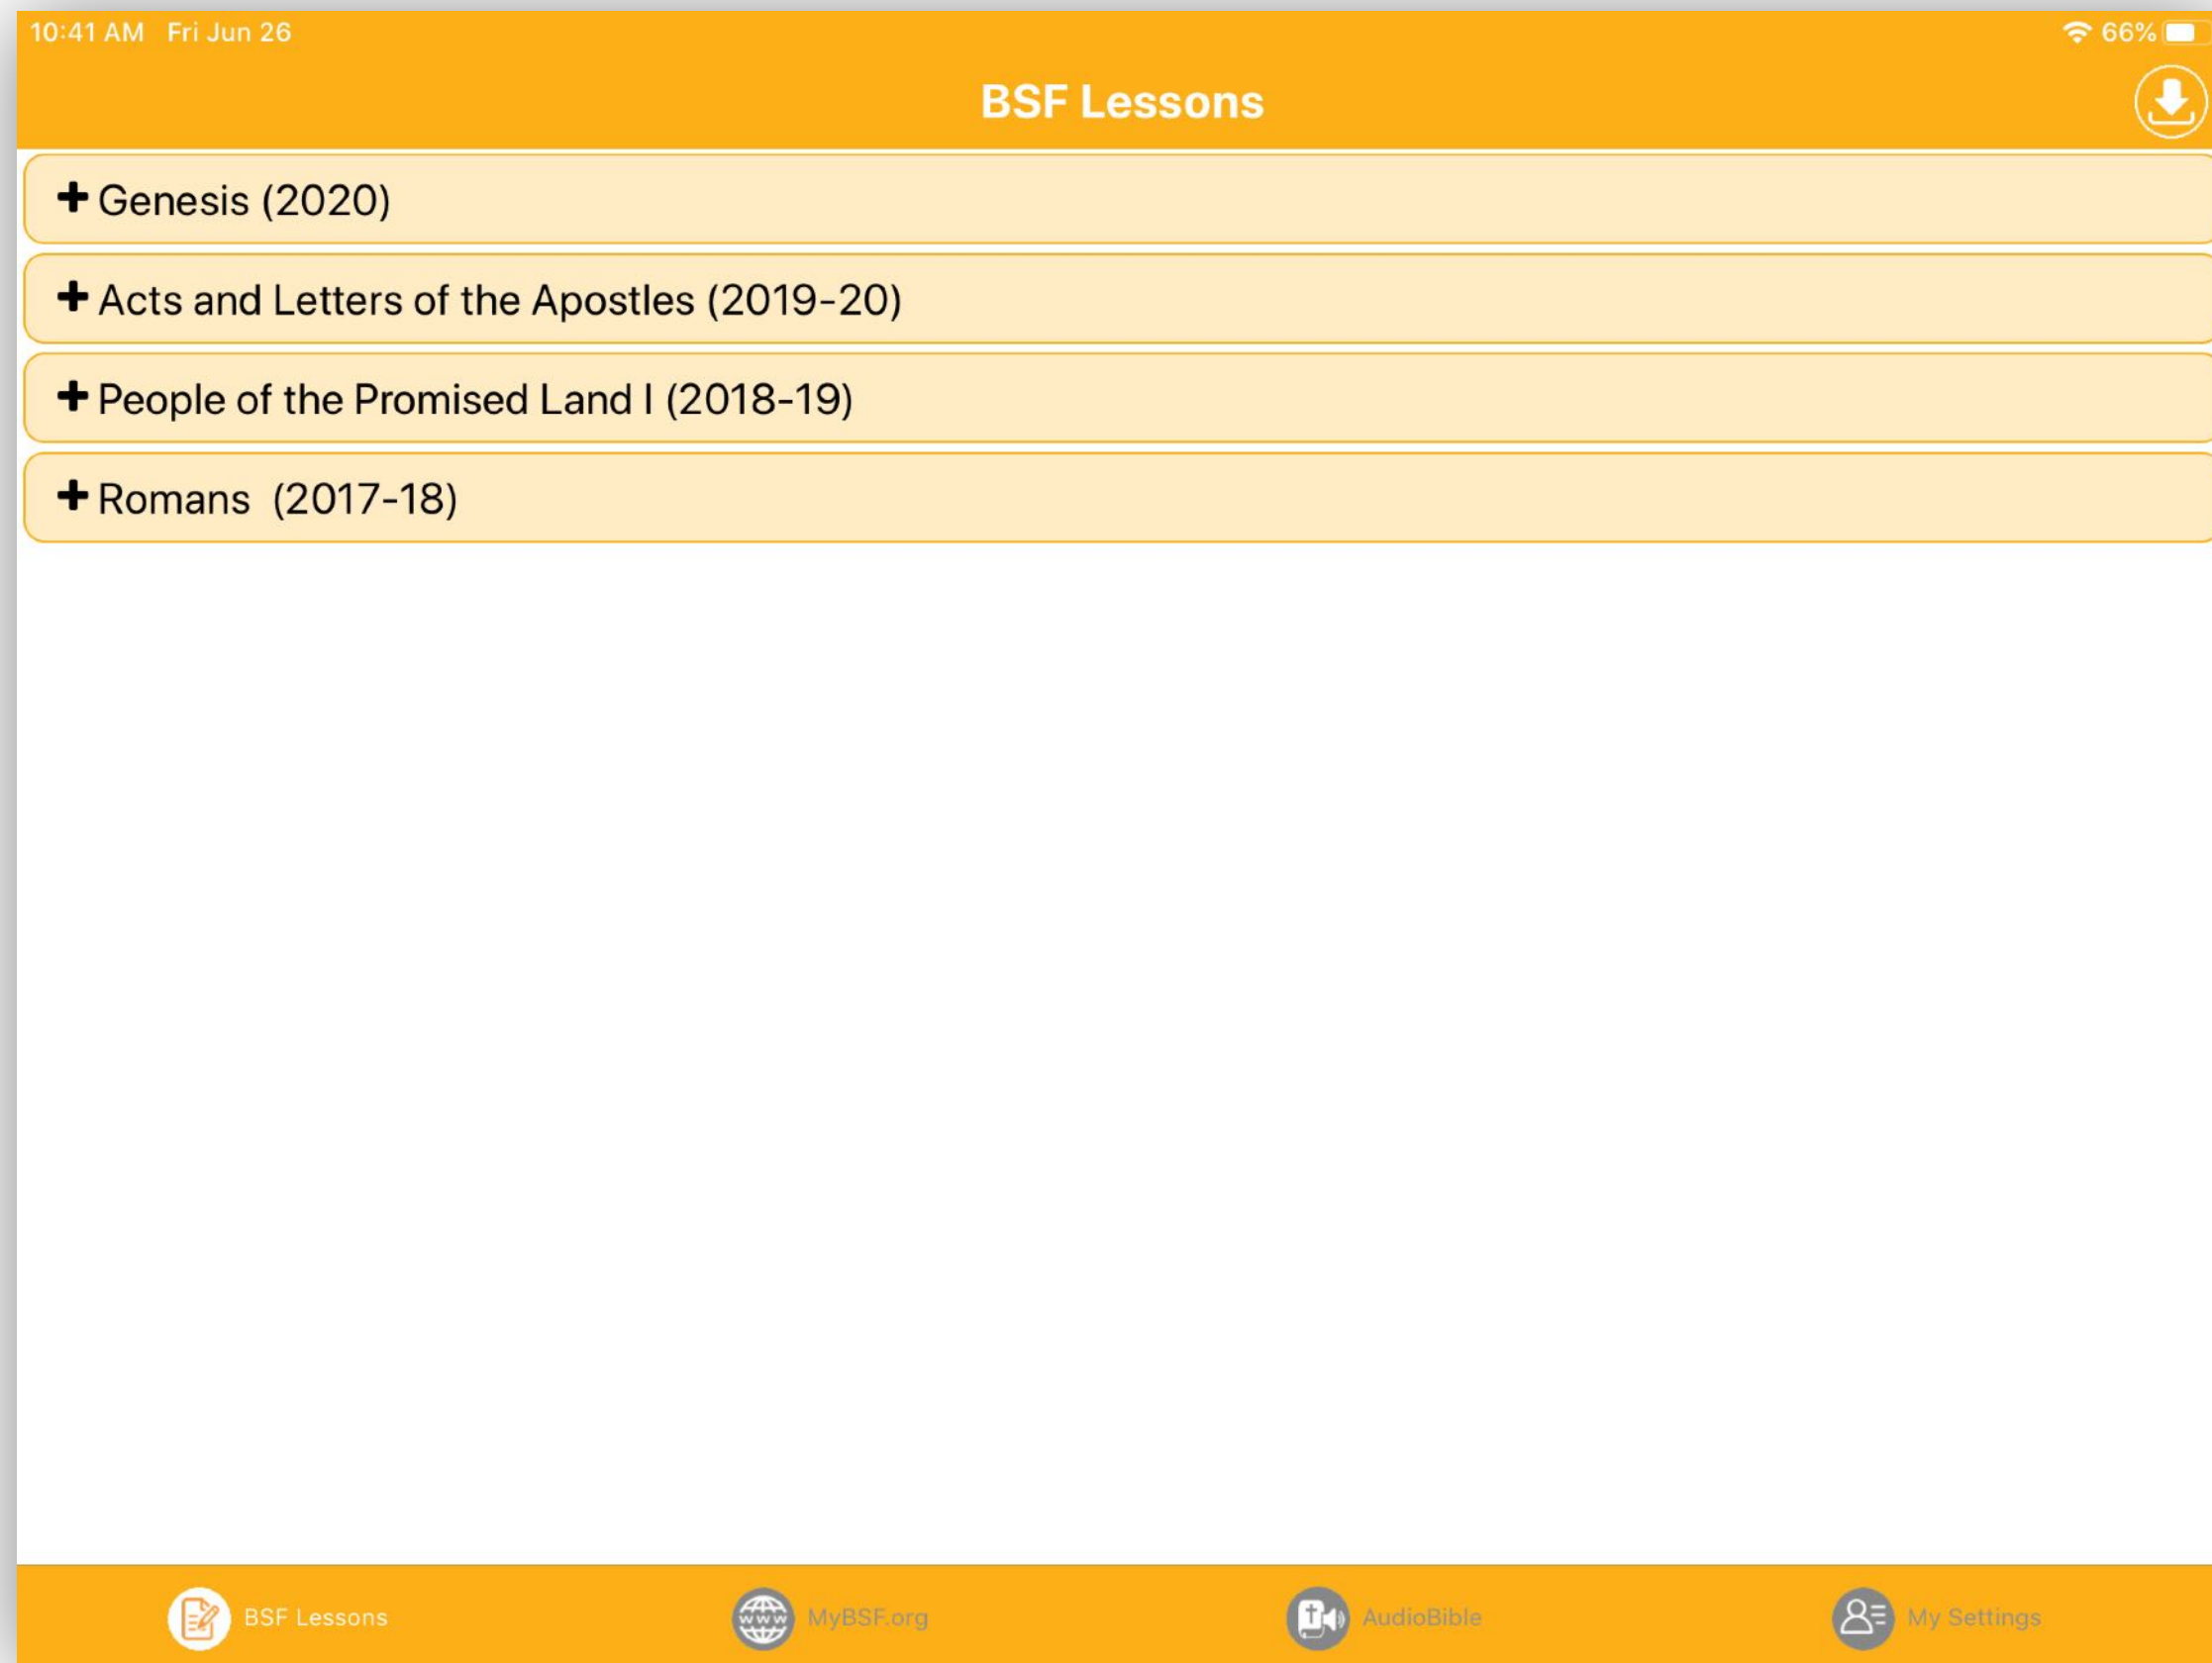

Designer Notes: This Onboarding Dialog will be used to present app features and new features. It will appear IF this is the first launch of the app on a new version.

Comparison - Lessons

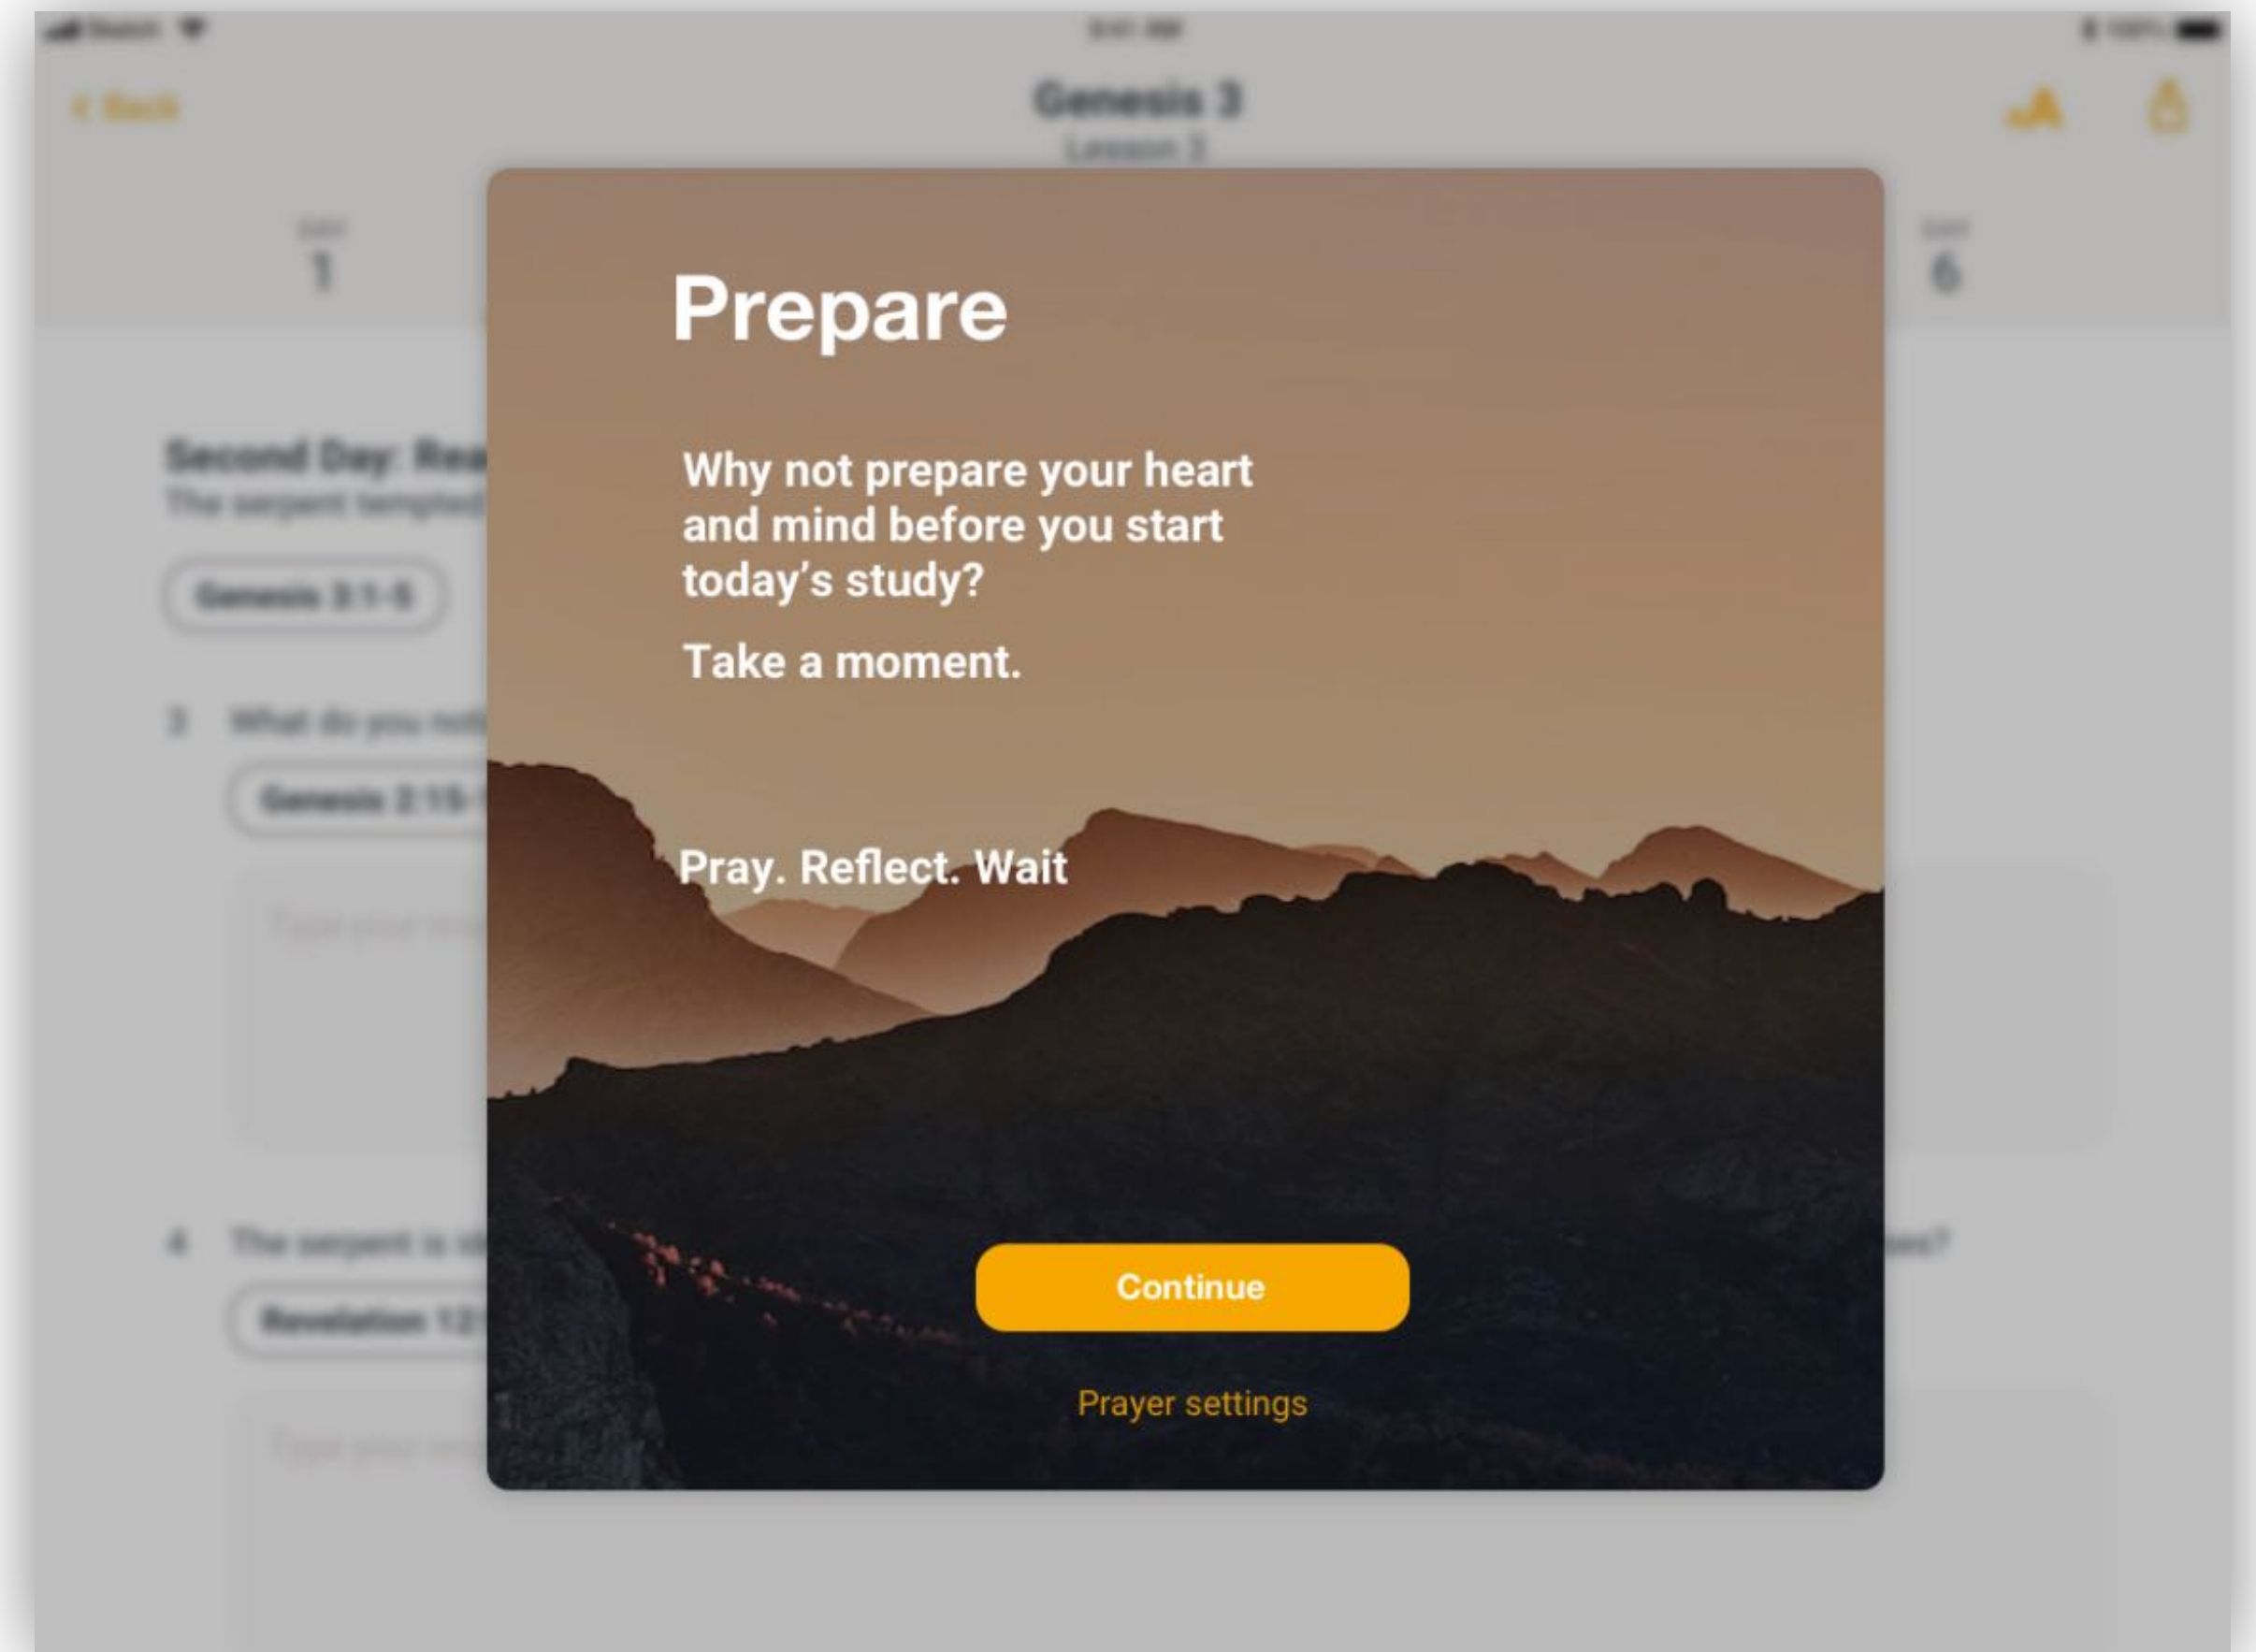

Designer Notes: Progress bar indicates the count of questions that are not empty for a given lesson. The drop shadow highlights the last accessed lesson (same behavior as current CBSF). BSF icon links to Help screen. Note space added between Bible book and chapter (Michael said this was fixable)

Comparison - Lessons Collapsed

Comparison - Payer Reminder 1

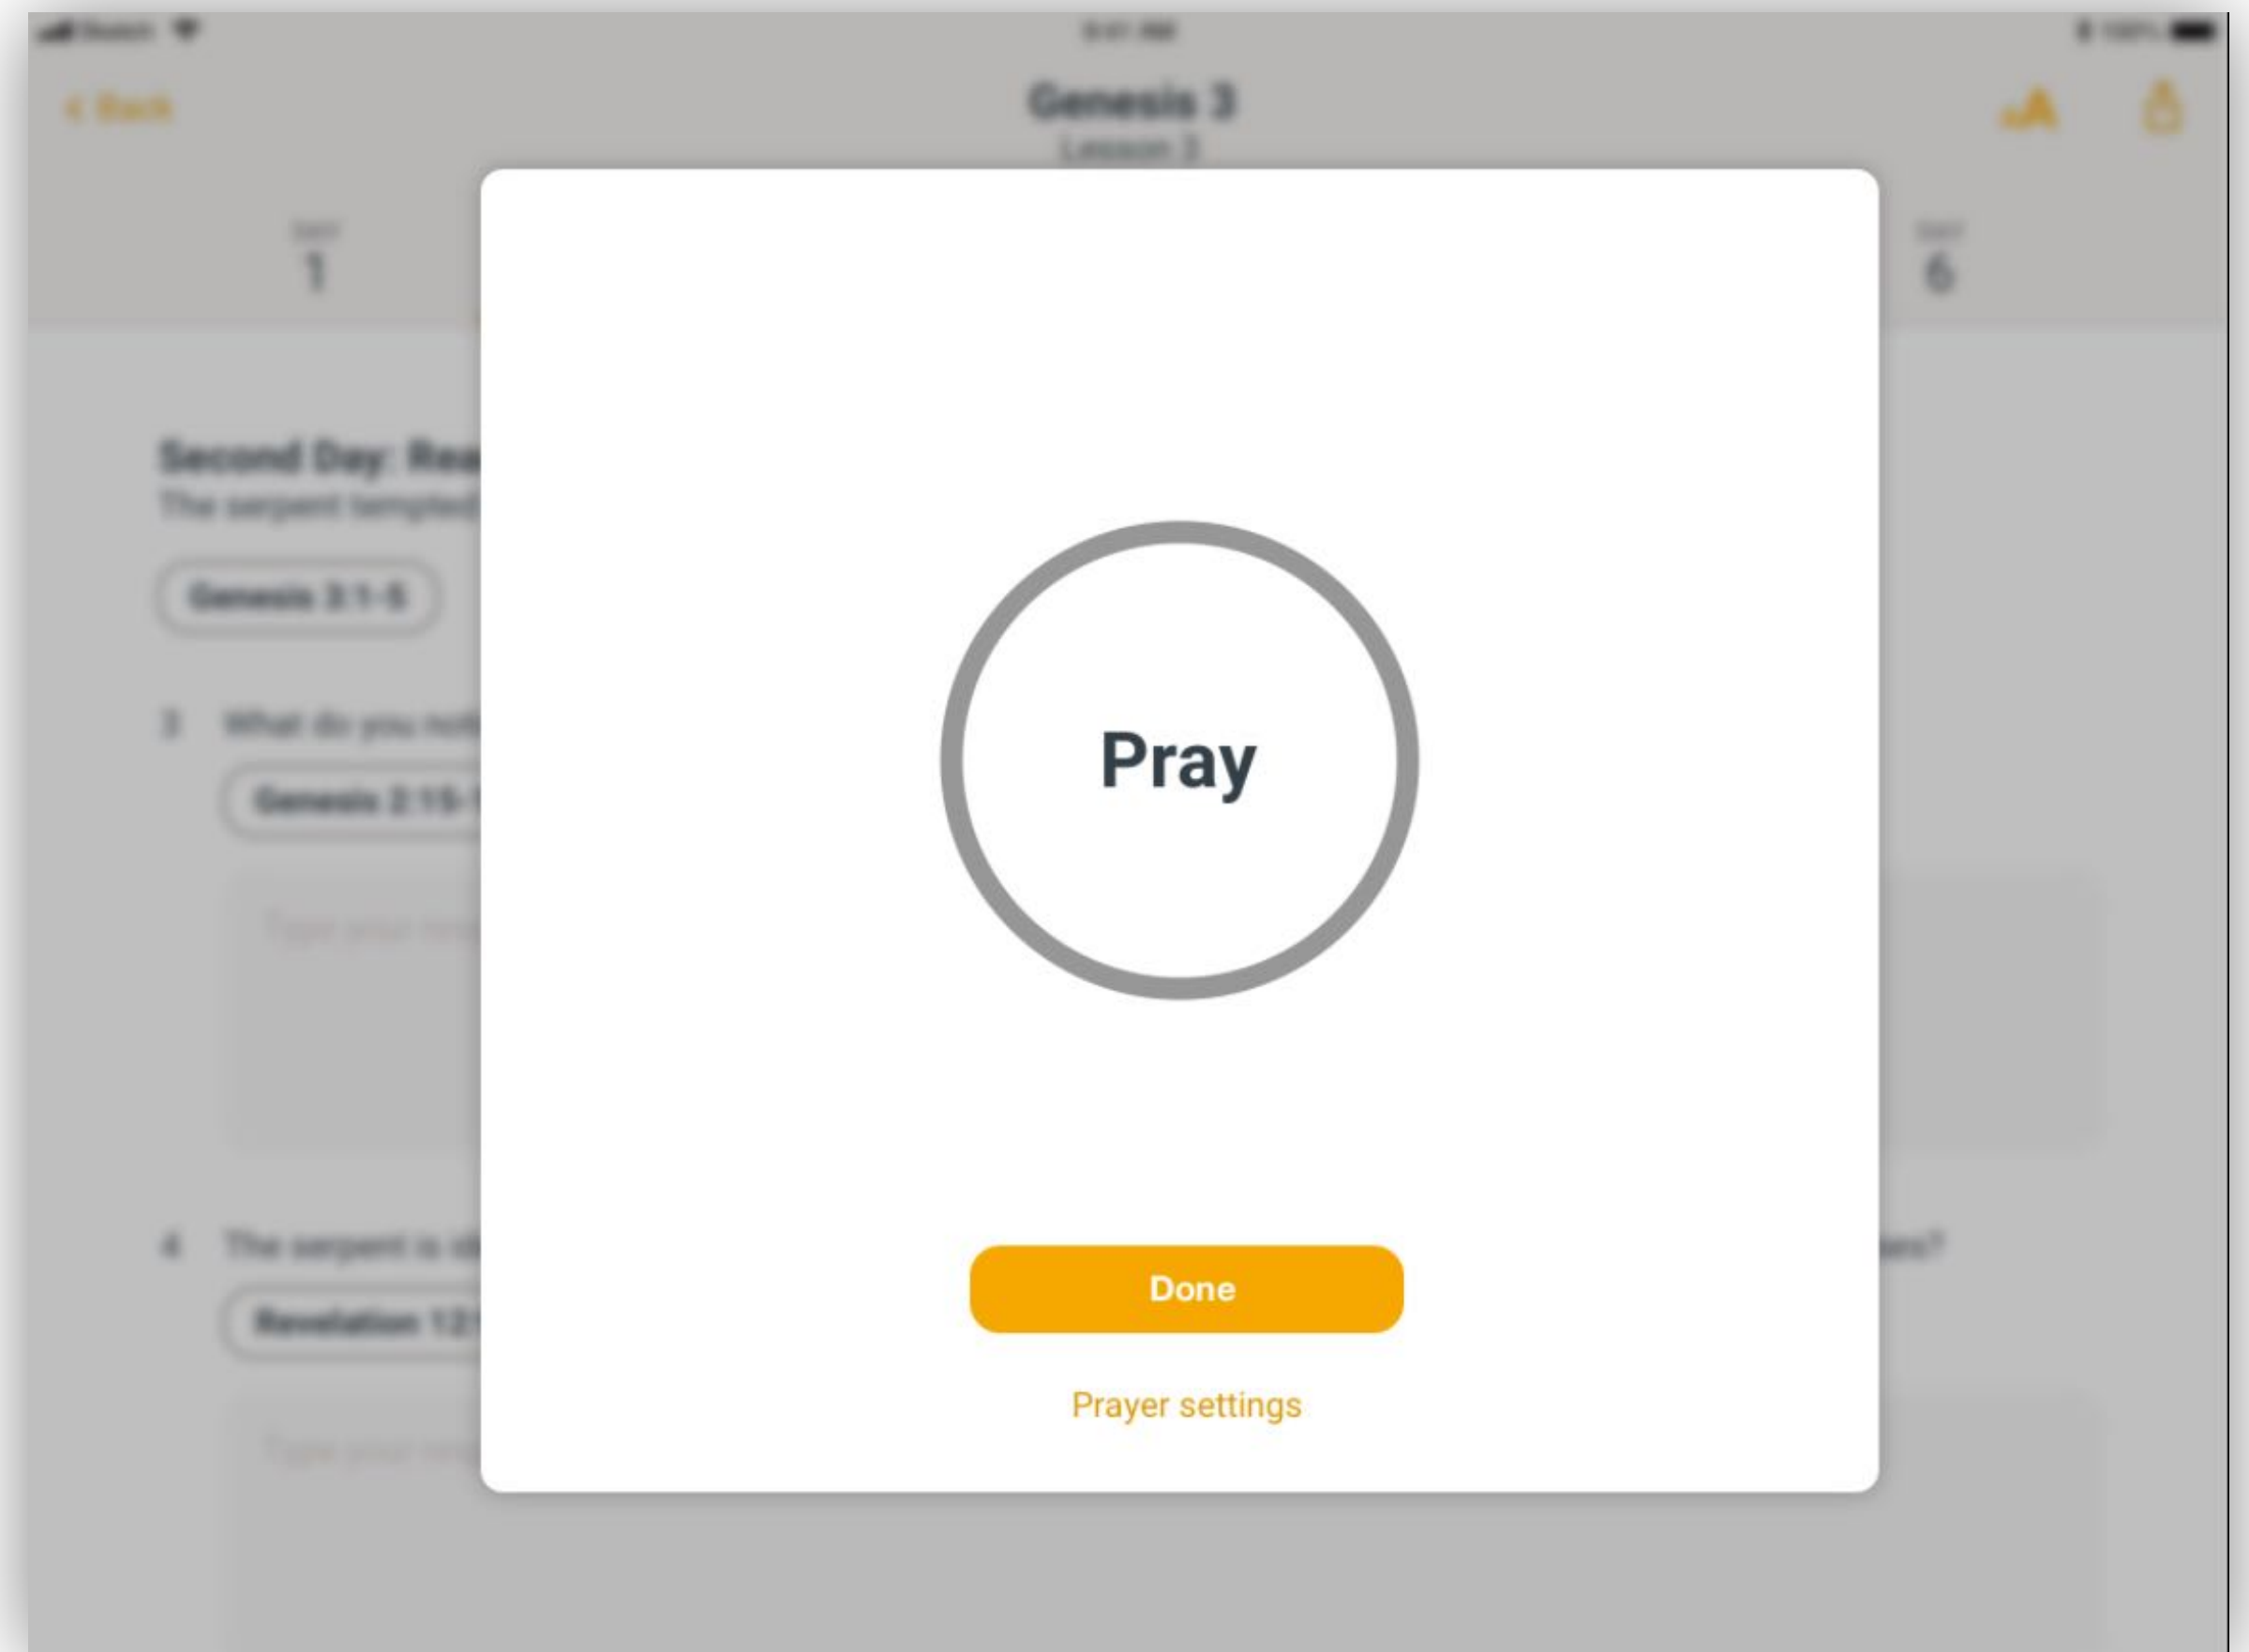

New functionality

Designer Notes: This Prayer reminder modal dialog will appear on certain conditions: IF the user enabled this in settings (by default it will be enabled) AND IF it hasn't already been shown that day AND IF any single day has uncompleted questions. Also, IF possible we want to build in the function of having several background images and several versions of the copy that will be randomly shown to give variety to the user.

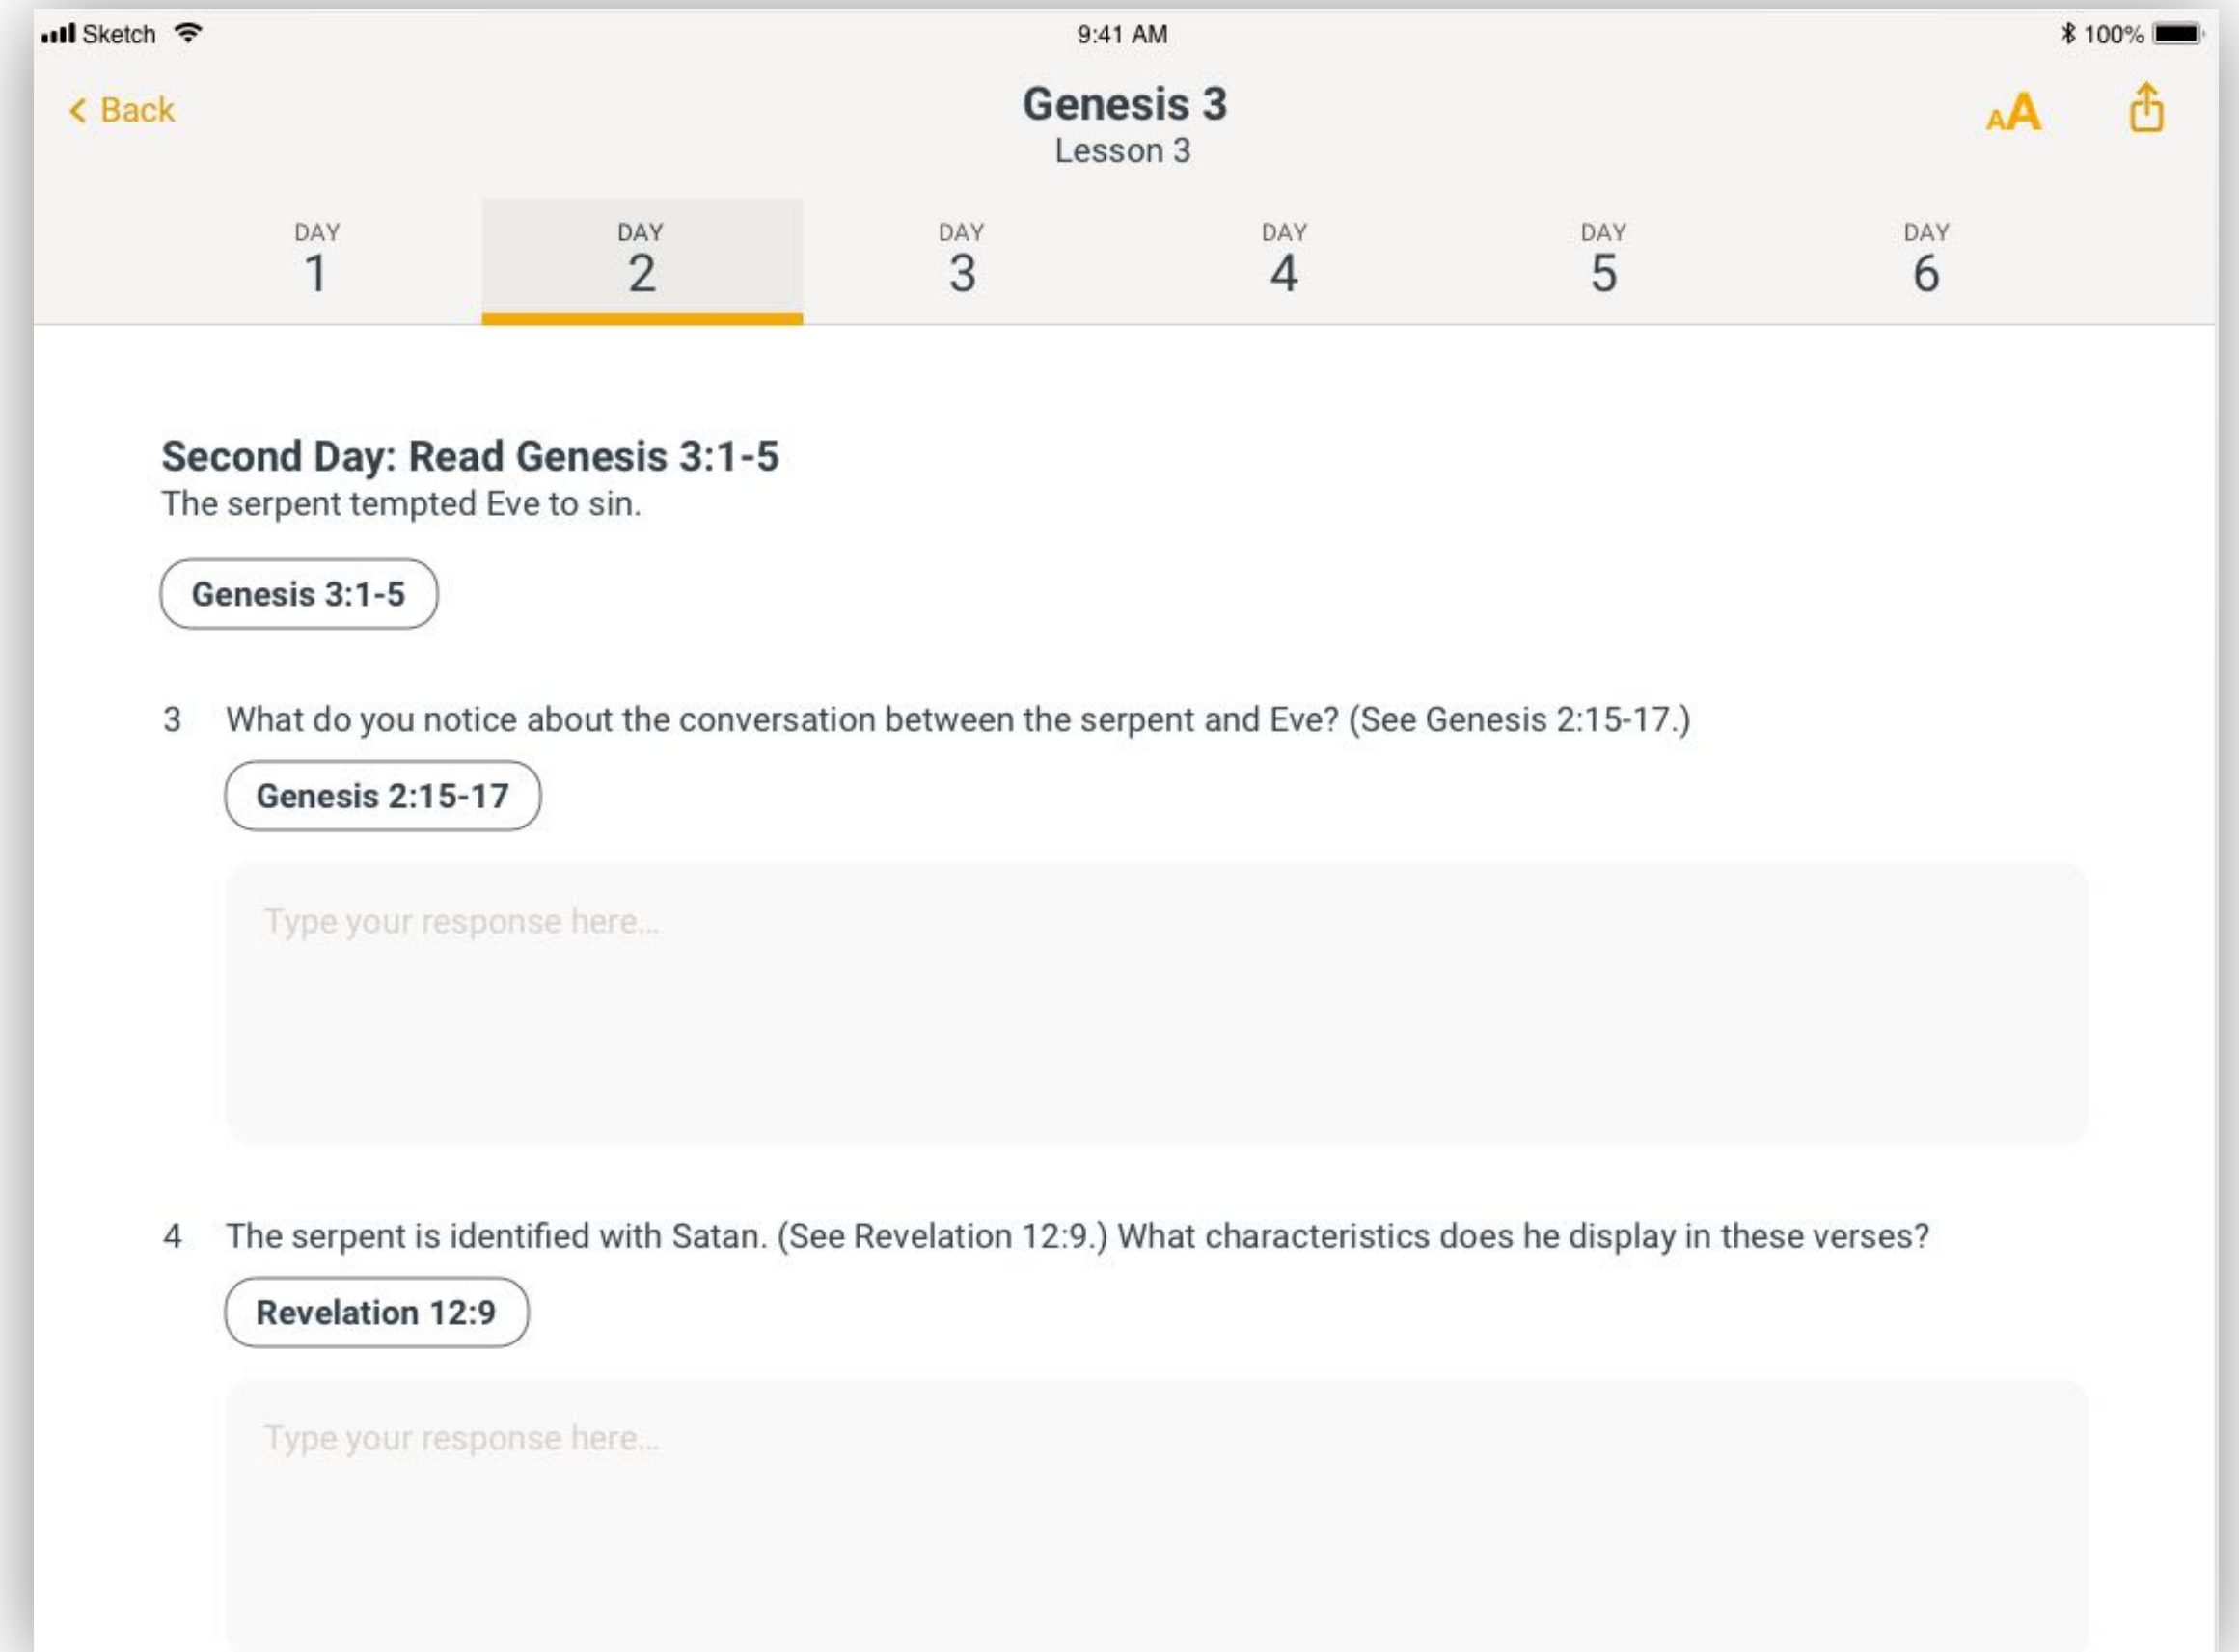

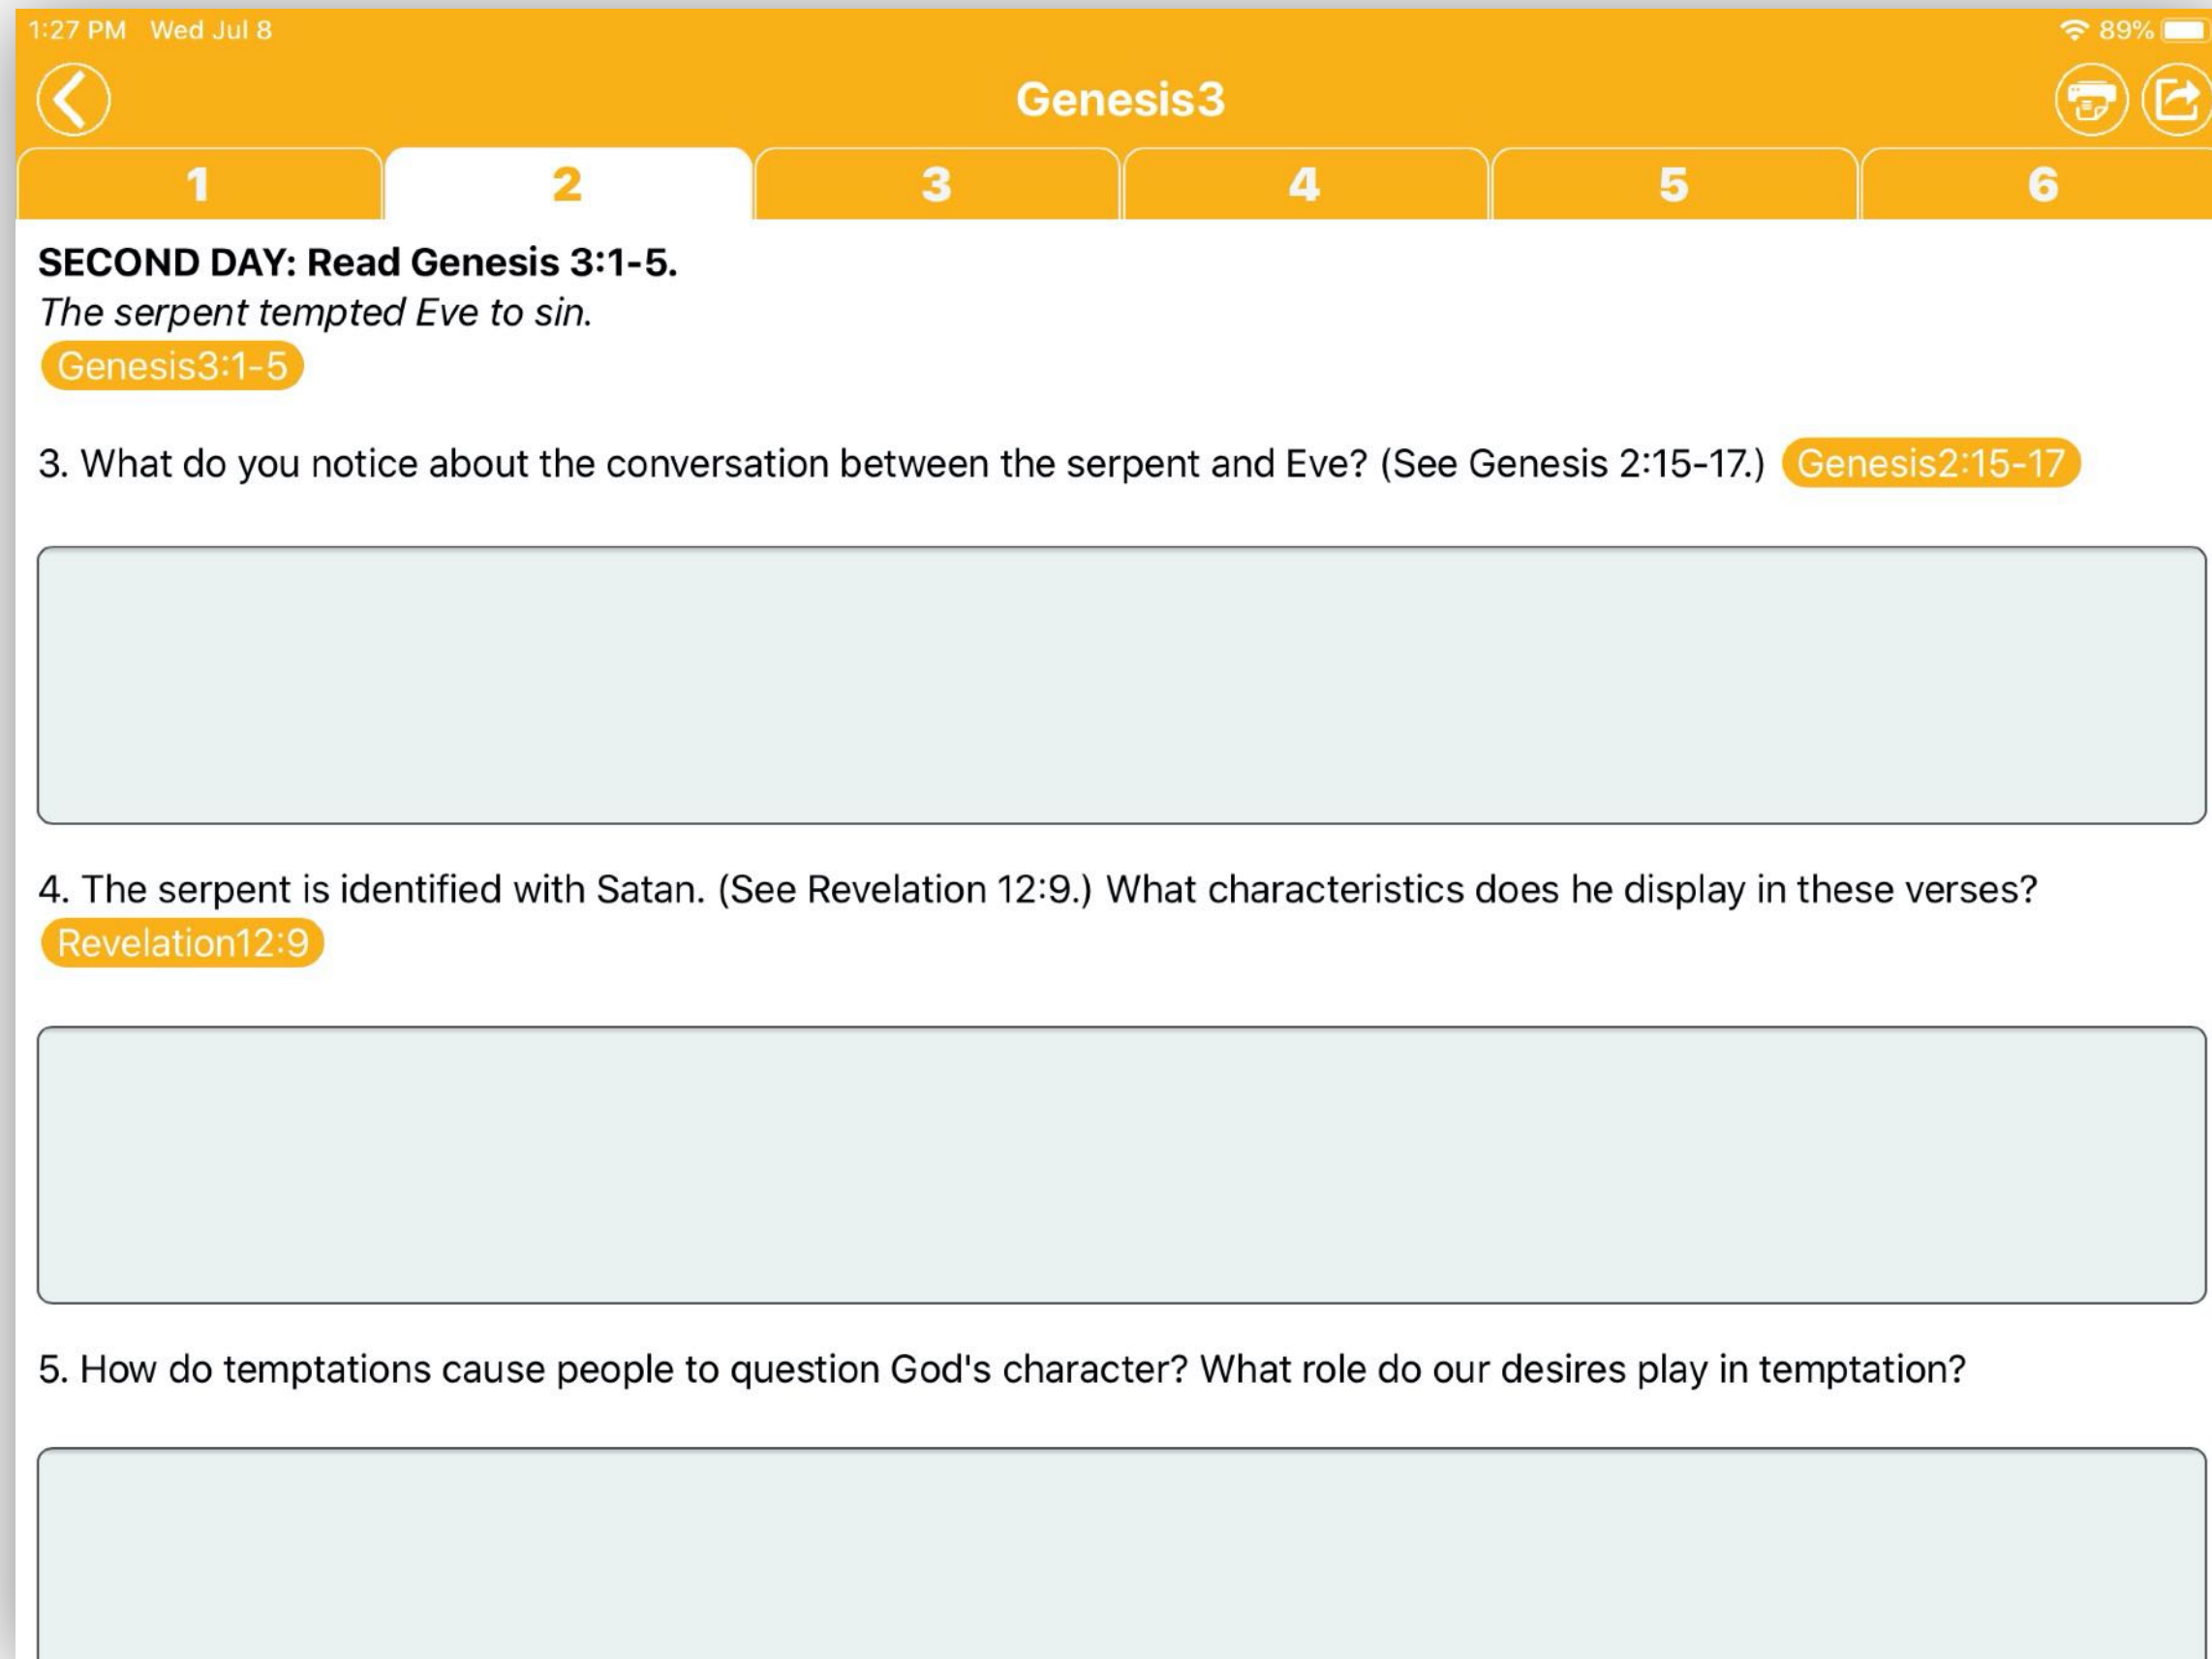

Comparison - Payer Reminder 2

New functionality

Designer Notes: This second prayer modal follows if first prayer modal shows. The “cricle” will actually be an animation (animated GIF, PNG, h264 or other file).

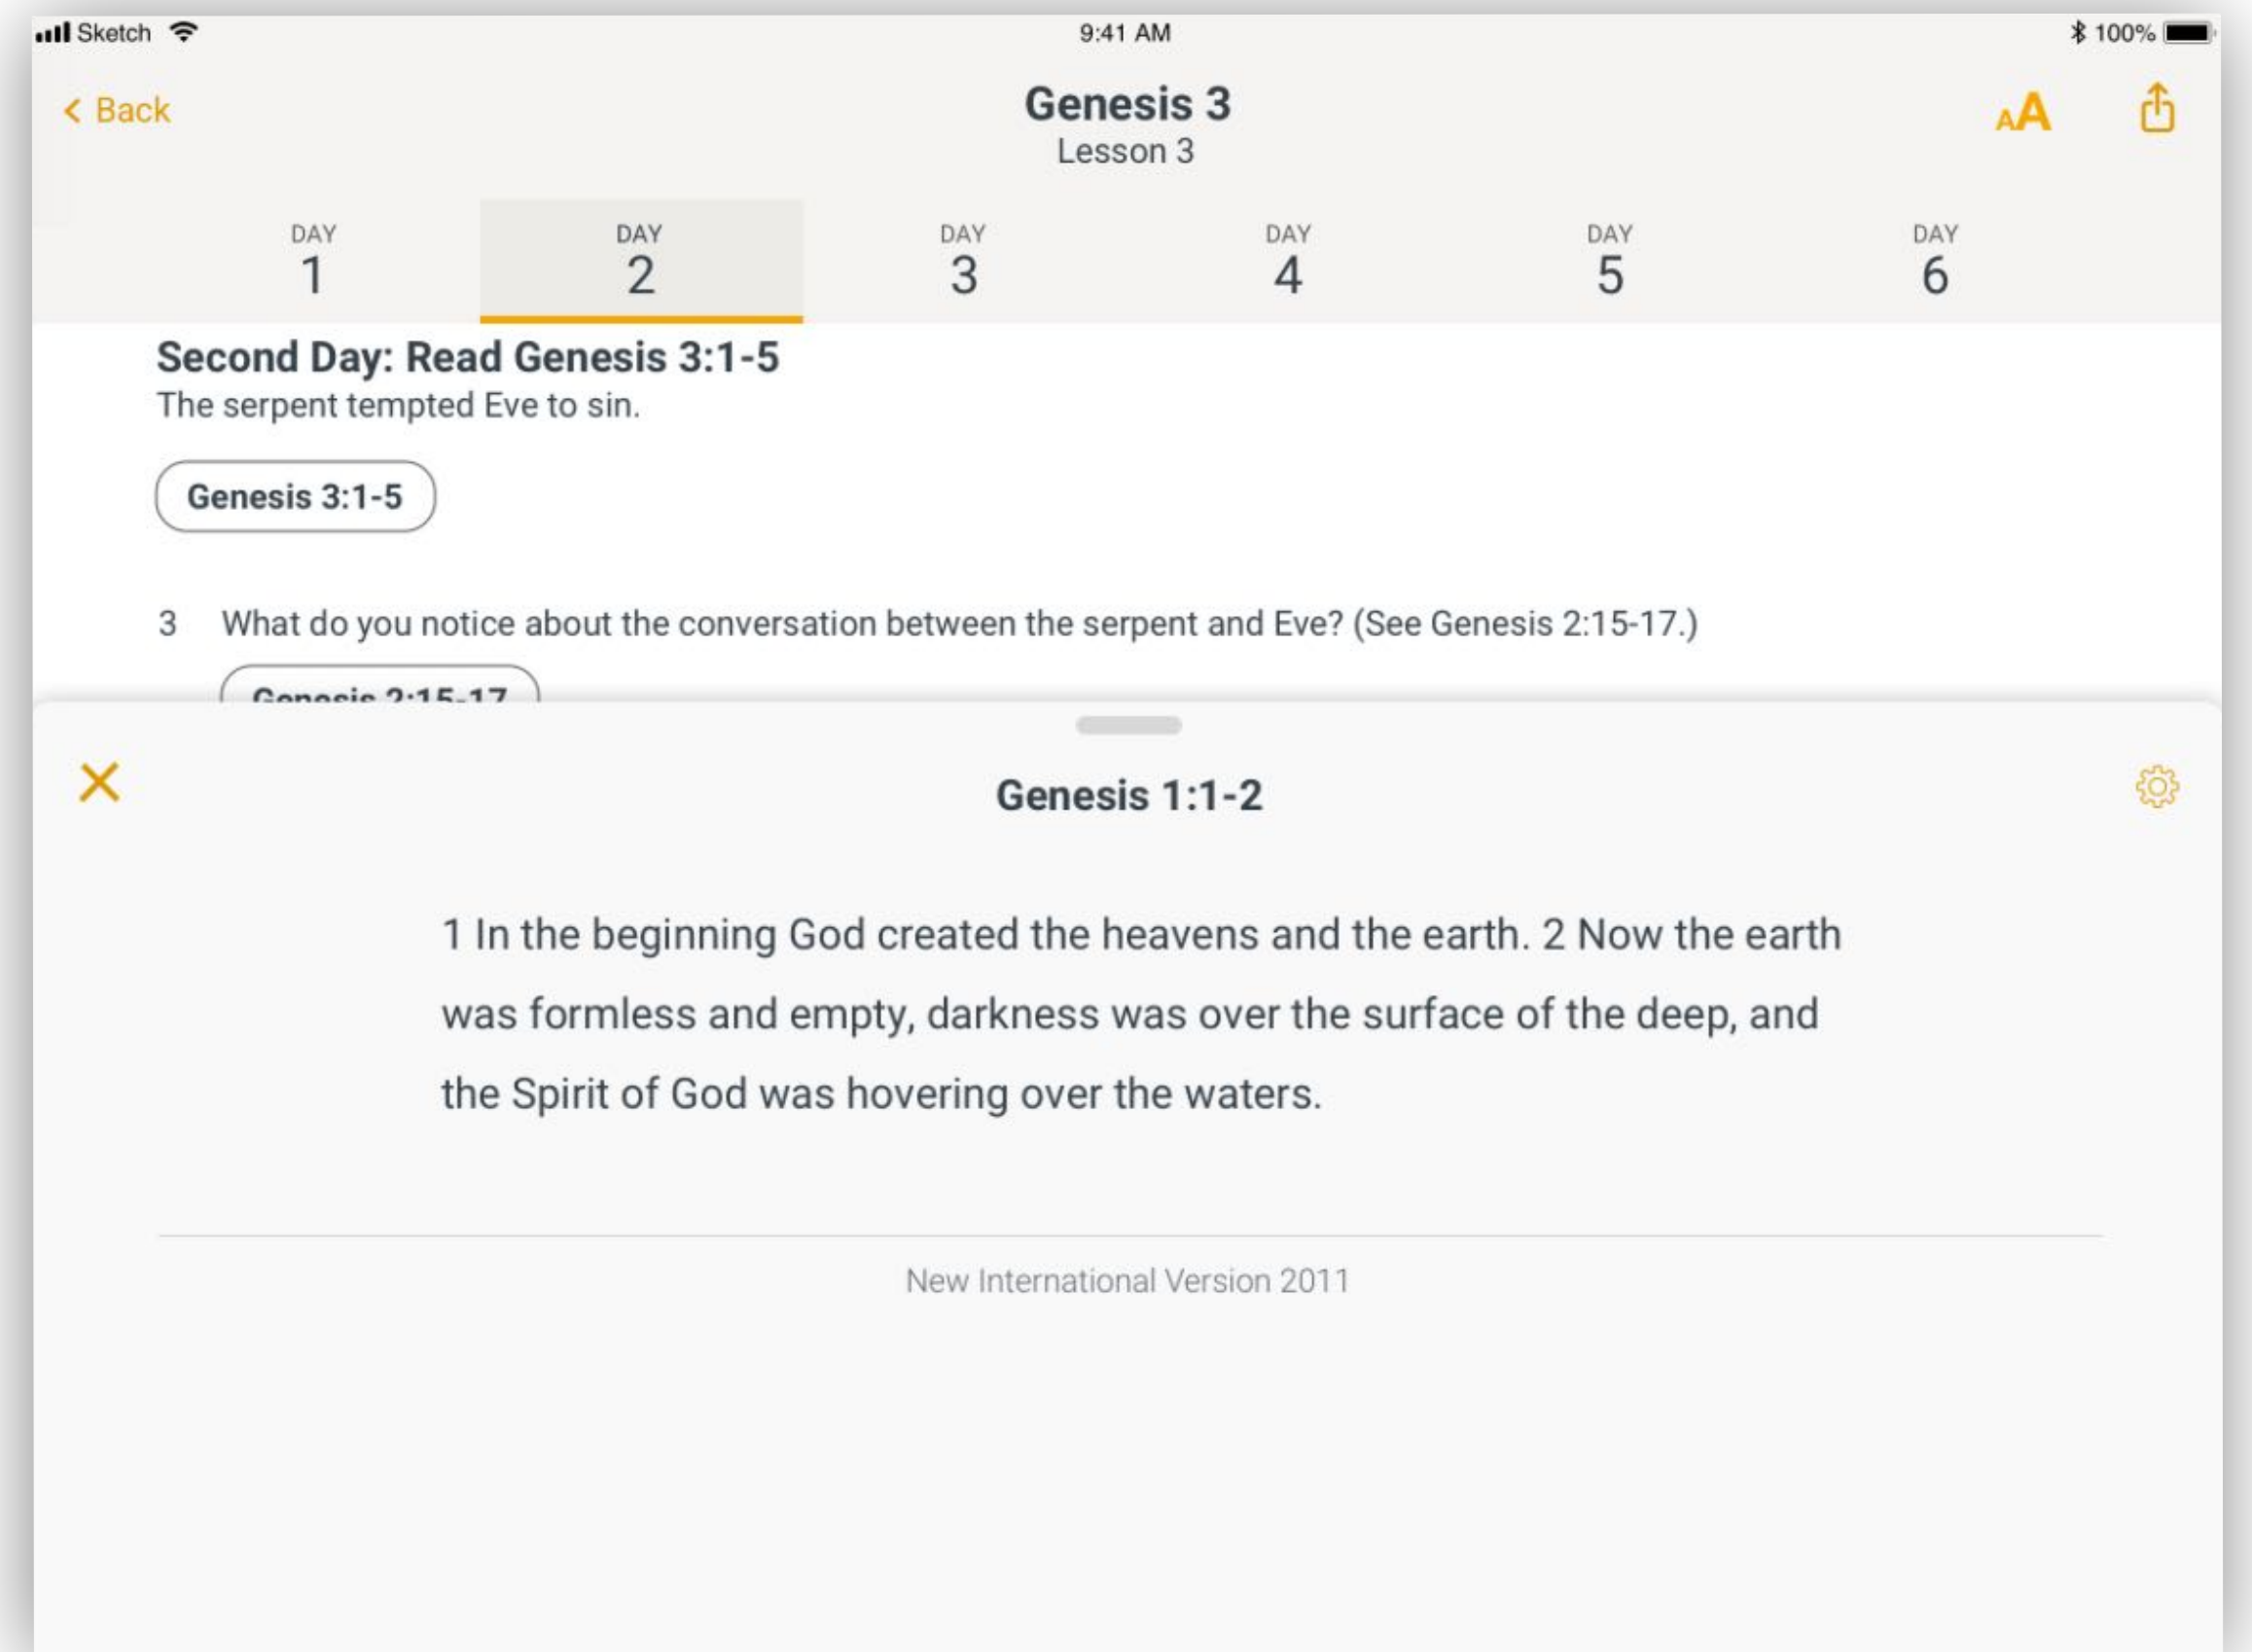

Comparison - Questions

Designer Notes: Text areas removed outline and now contain “type your response here...”. Question number is “outdented” for better readability (we don’t know if the data will easily handle this). Scripture buttons will not be inline but on their own line. Text size toggle will cycle through text display sizes (already a feature in CBSF app). Share icon will direct users to a new page.

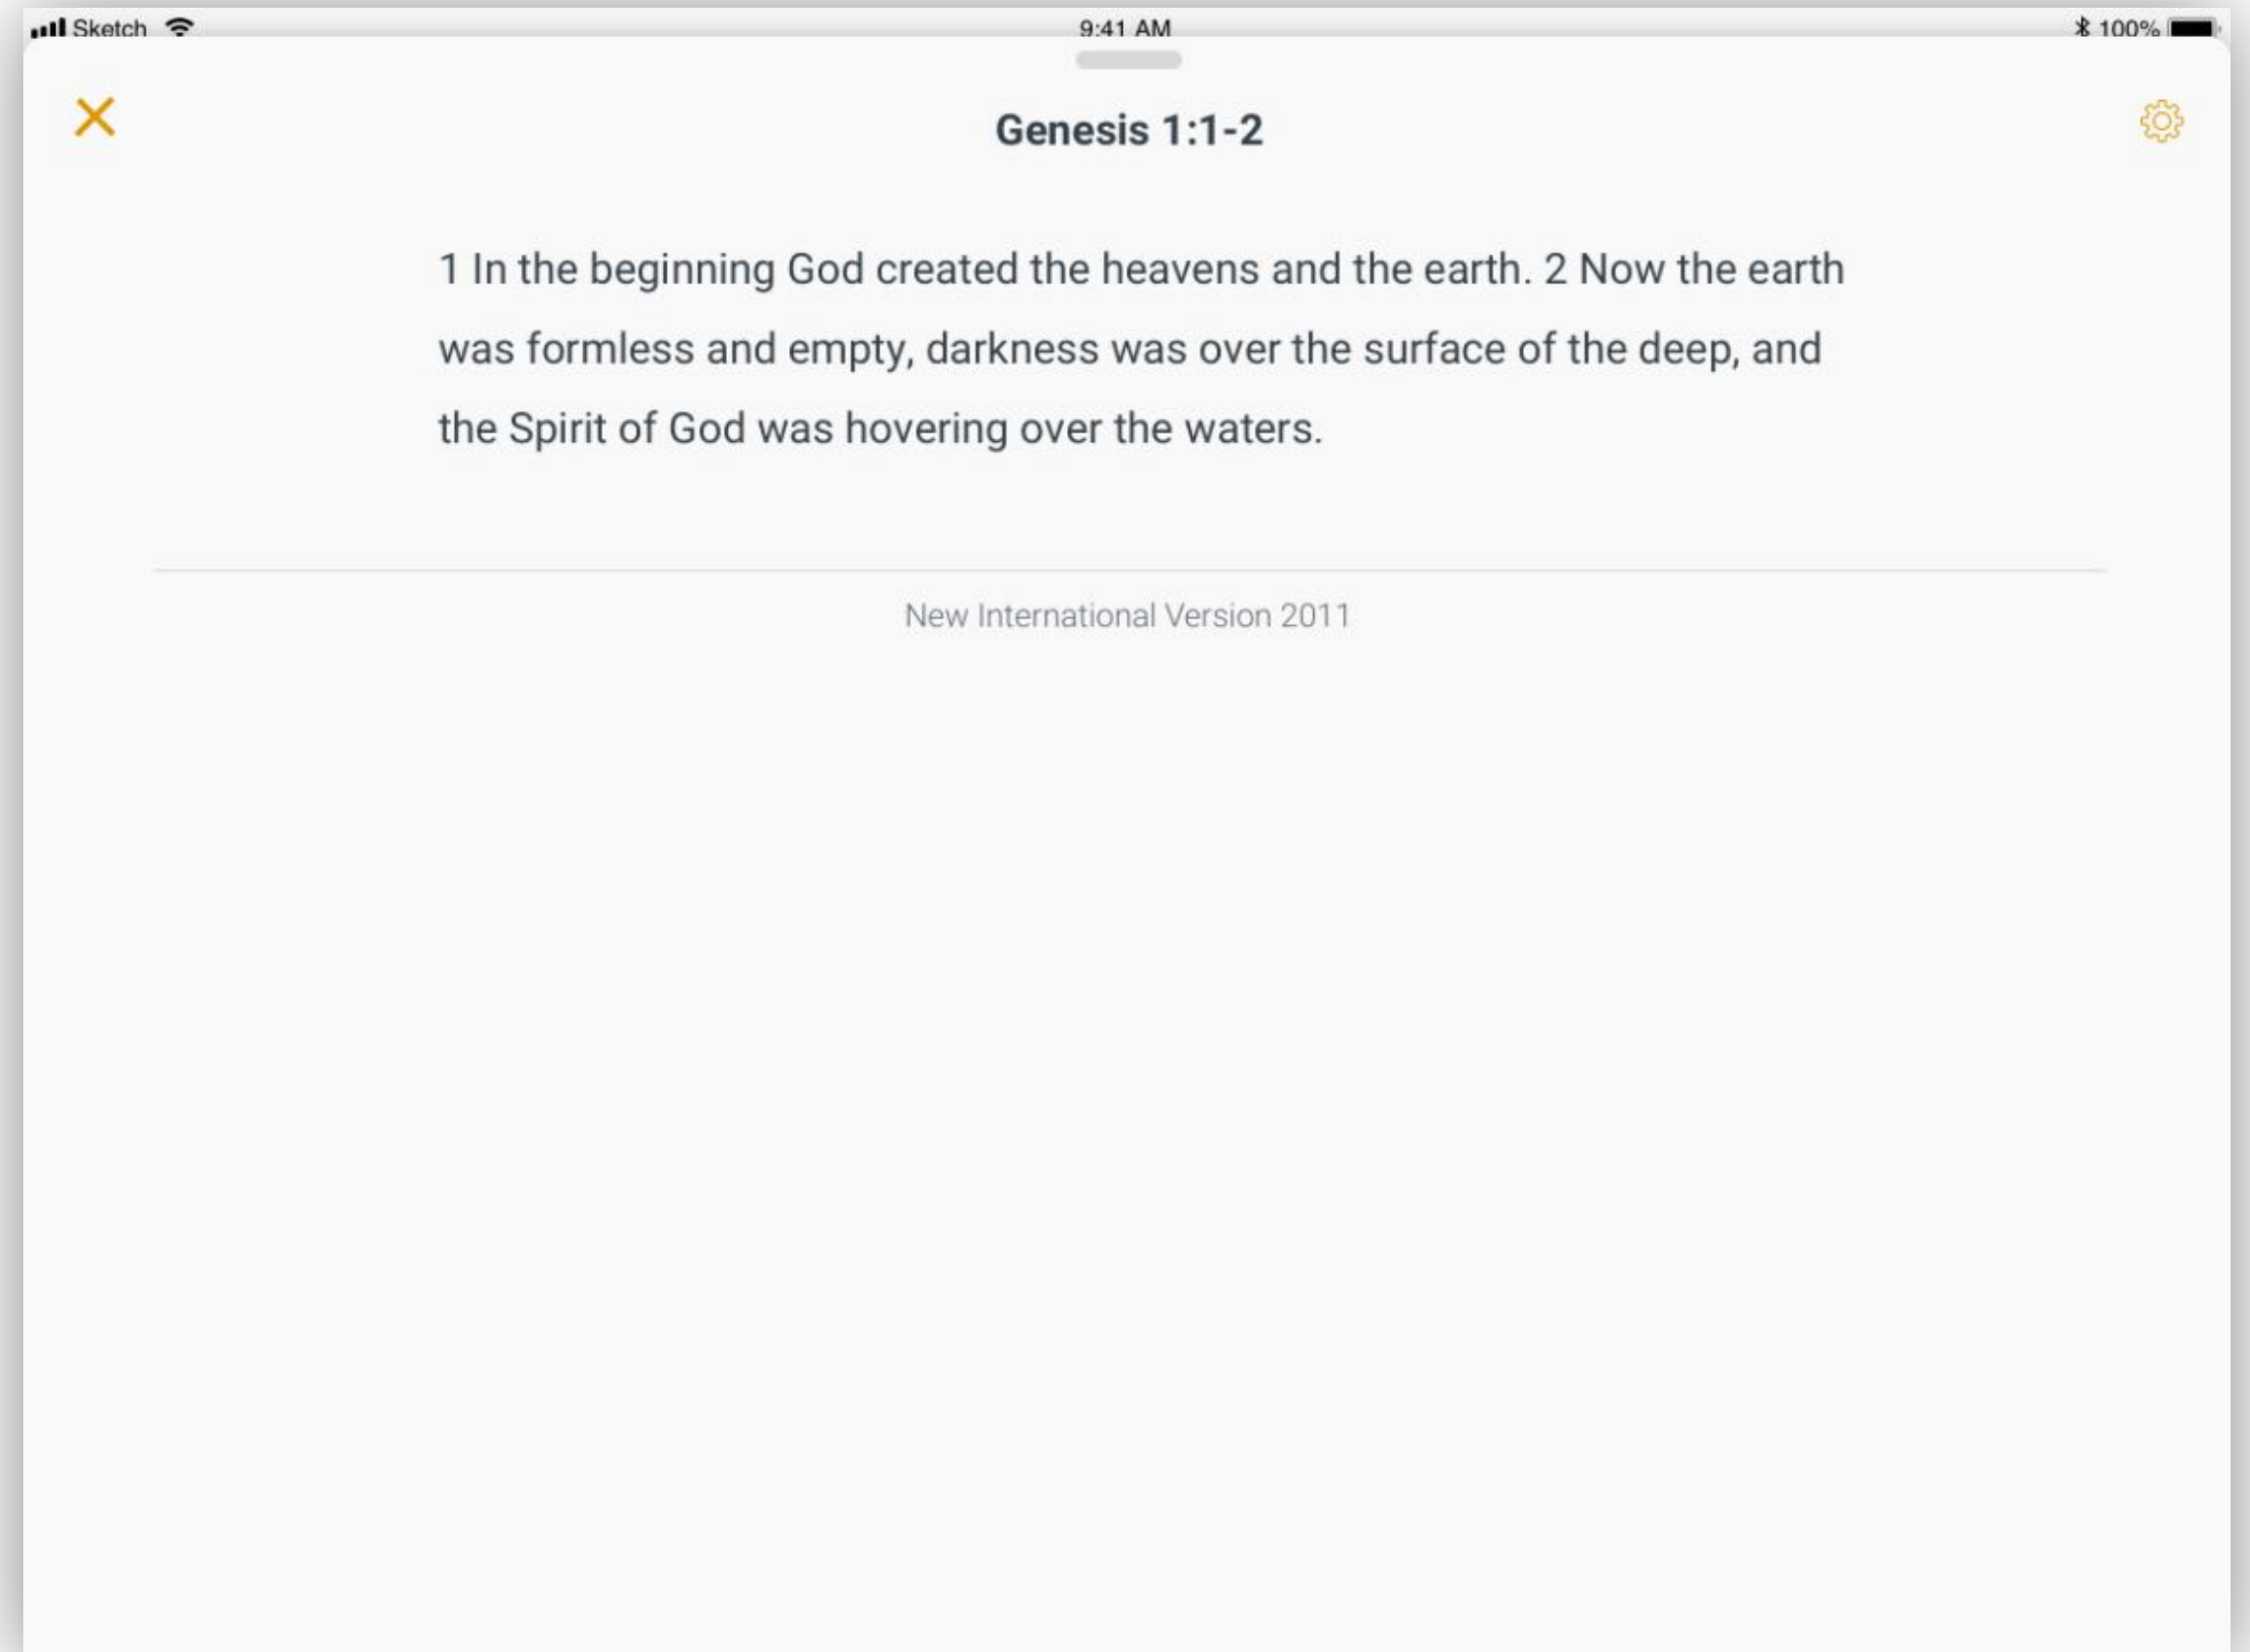

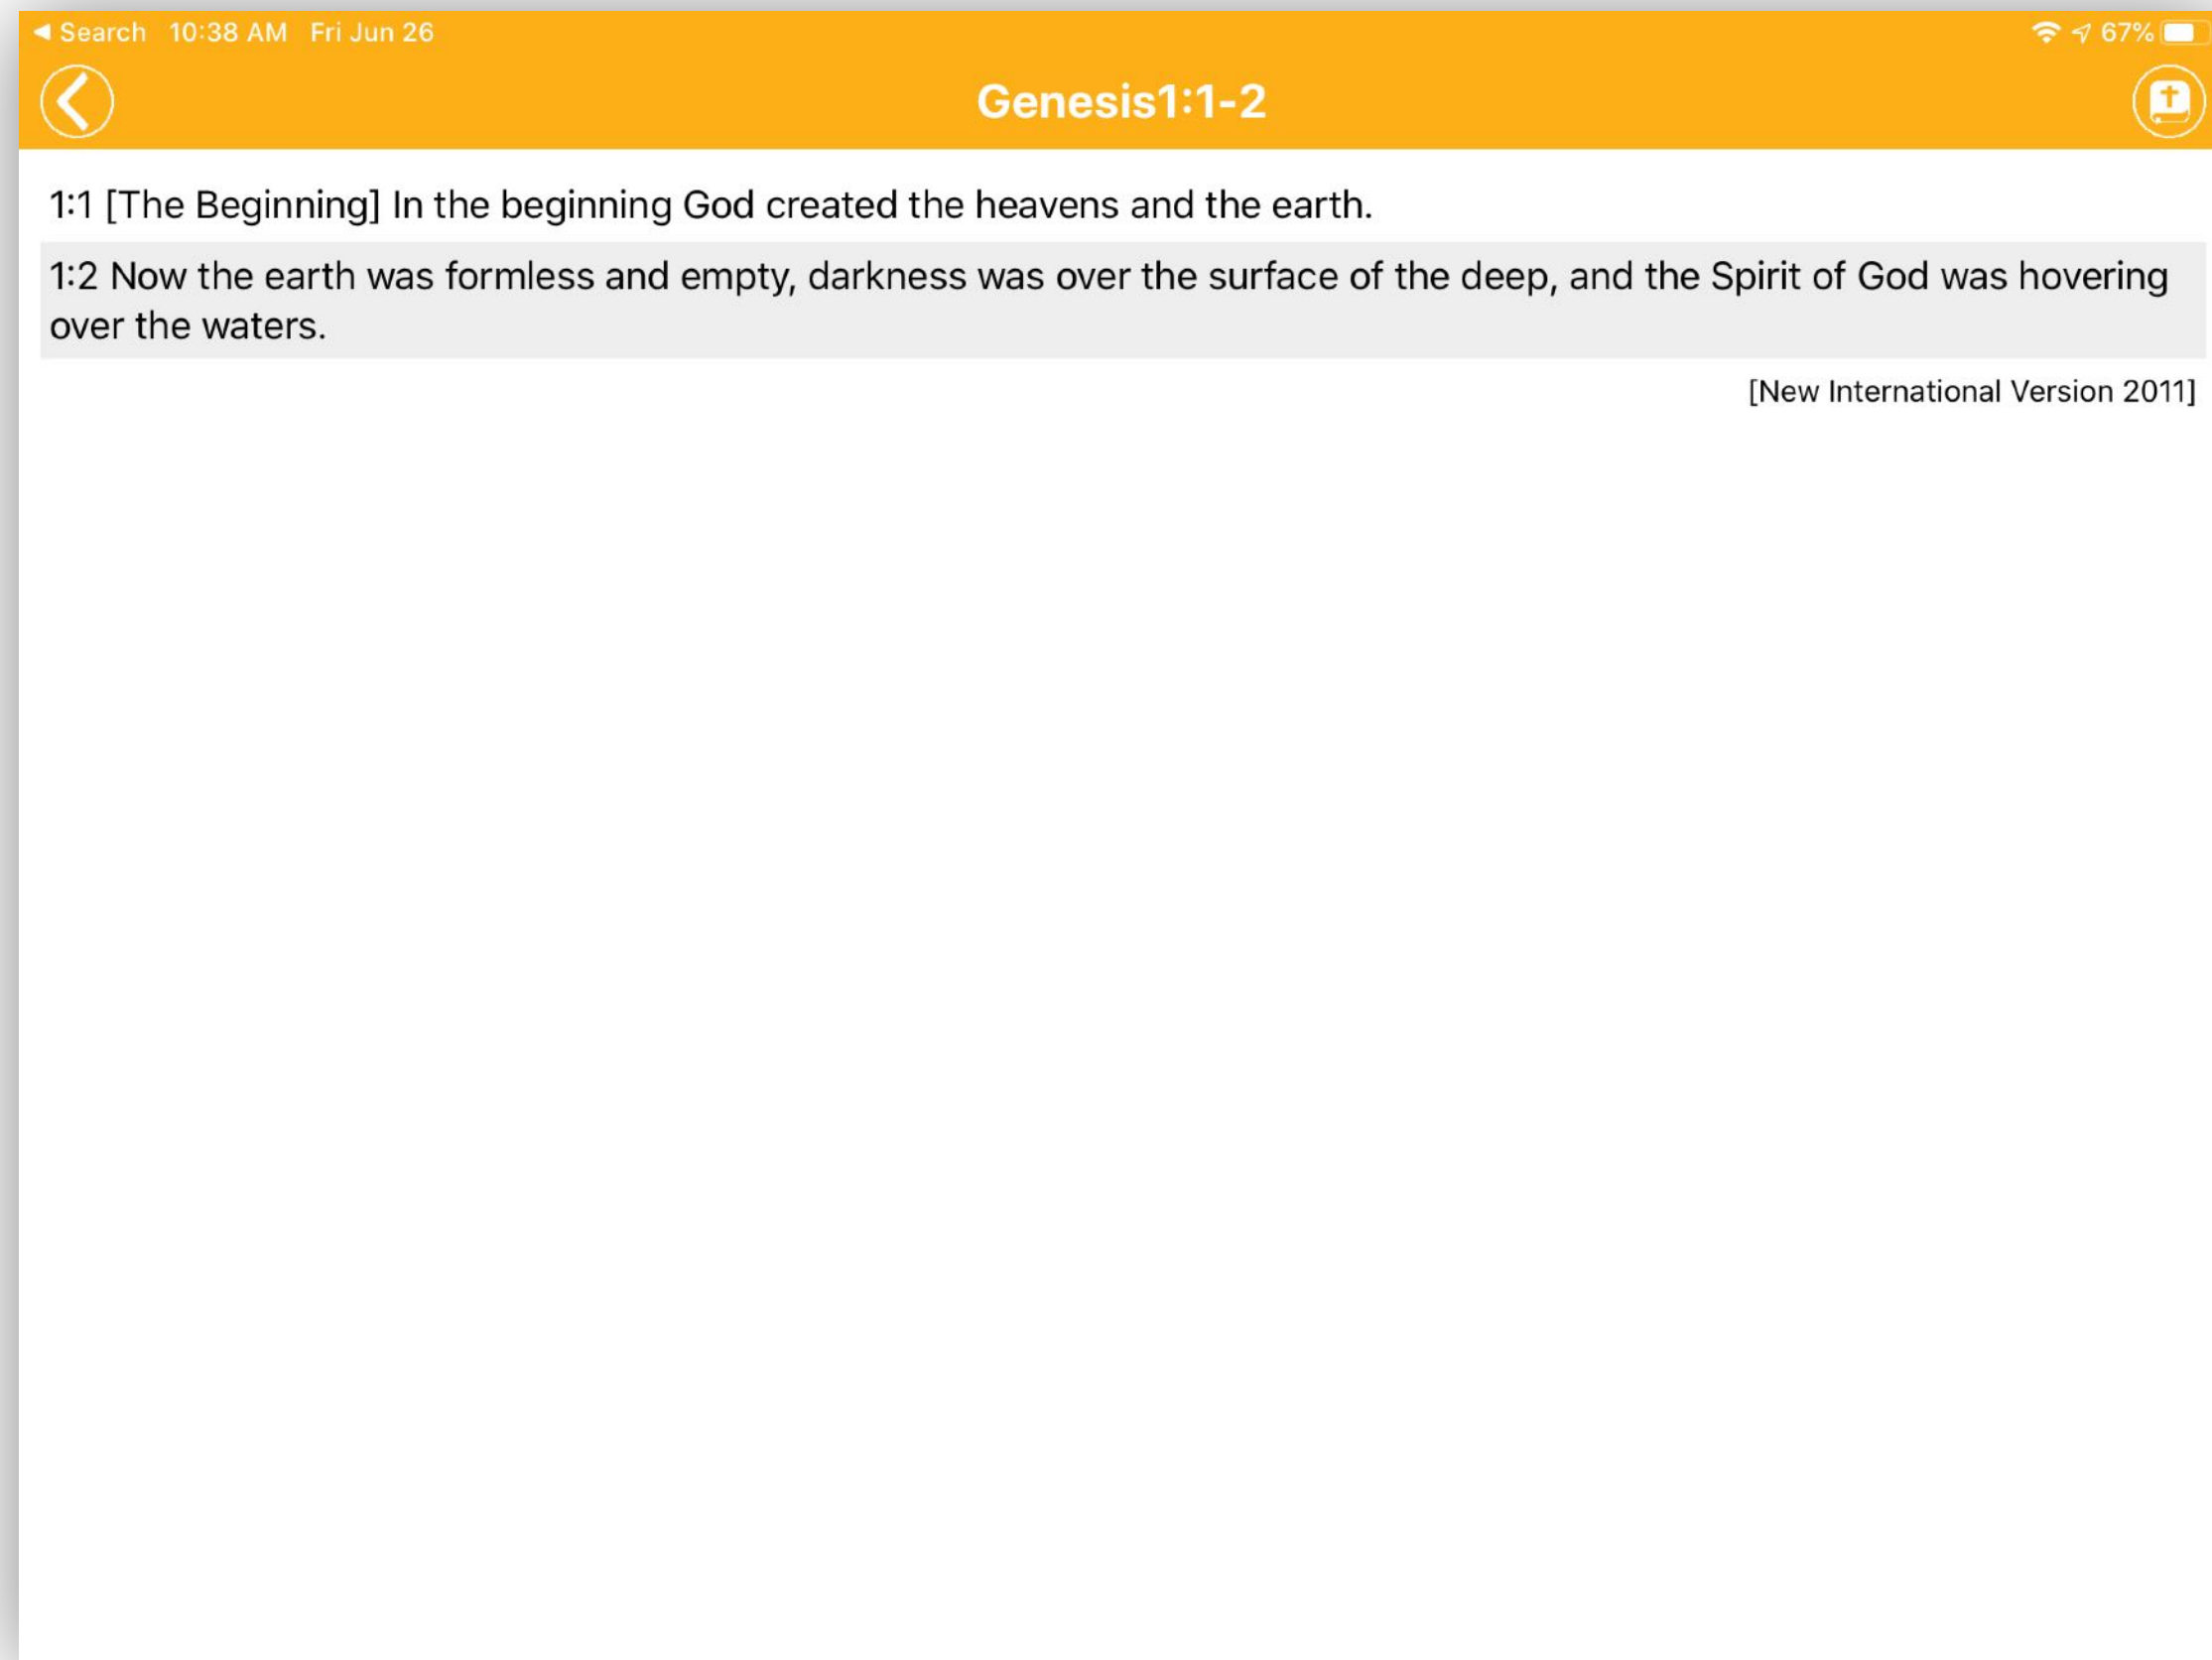

Comparison - Scripture Sheet

New functionality

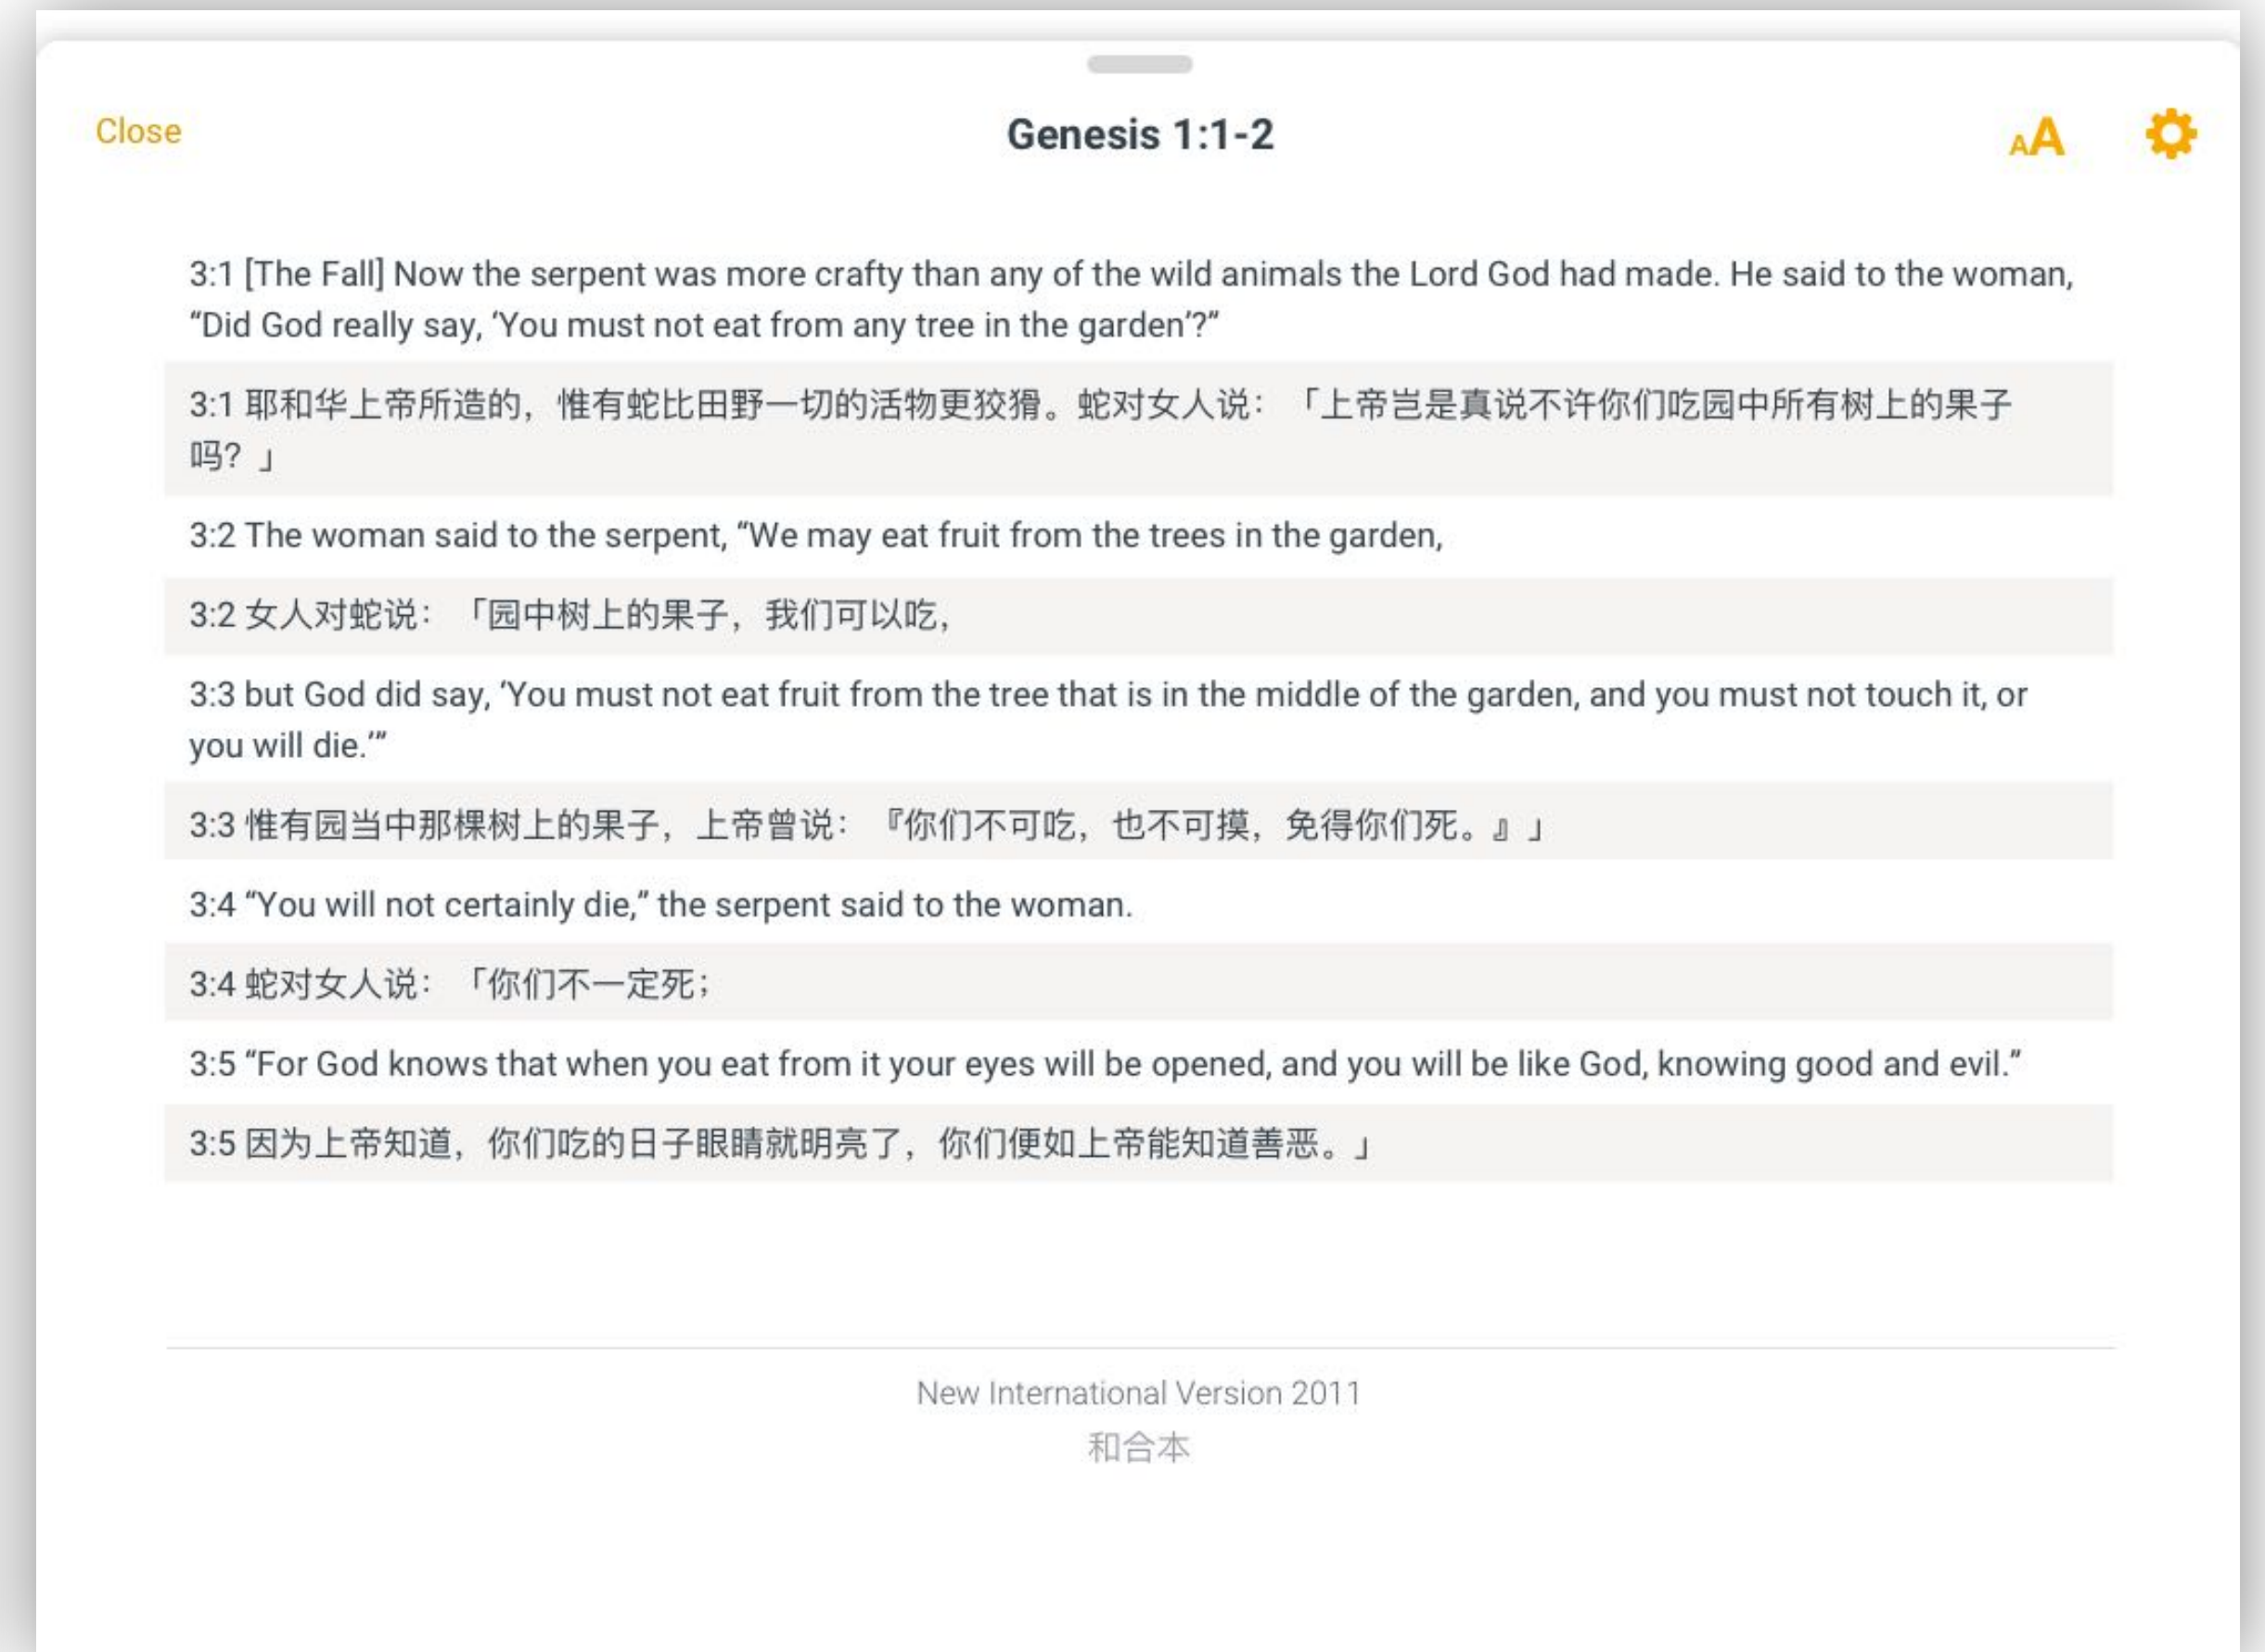

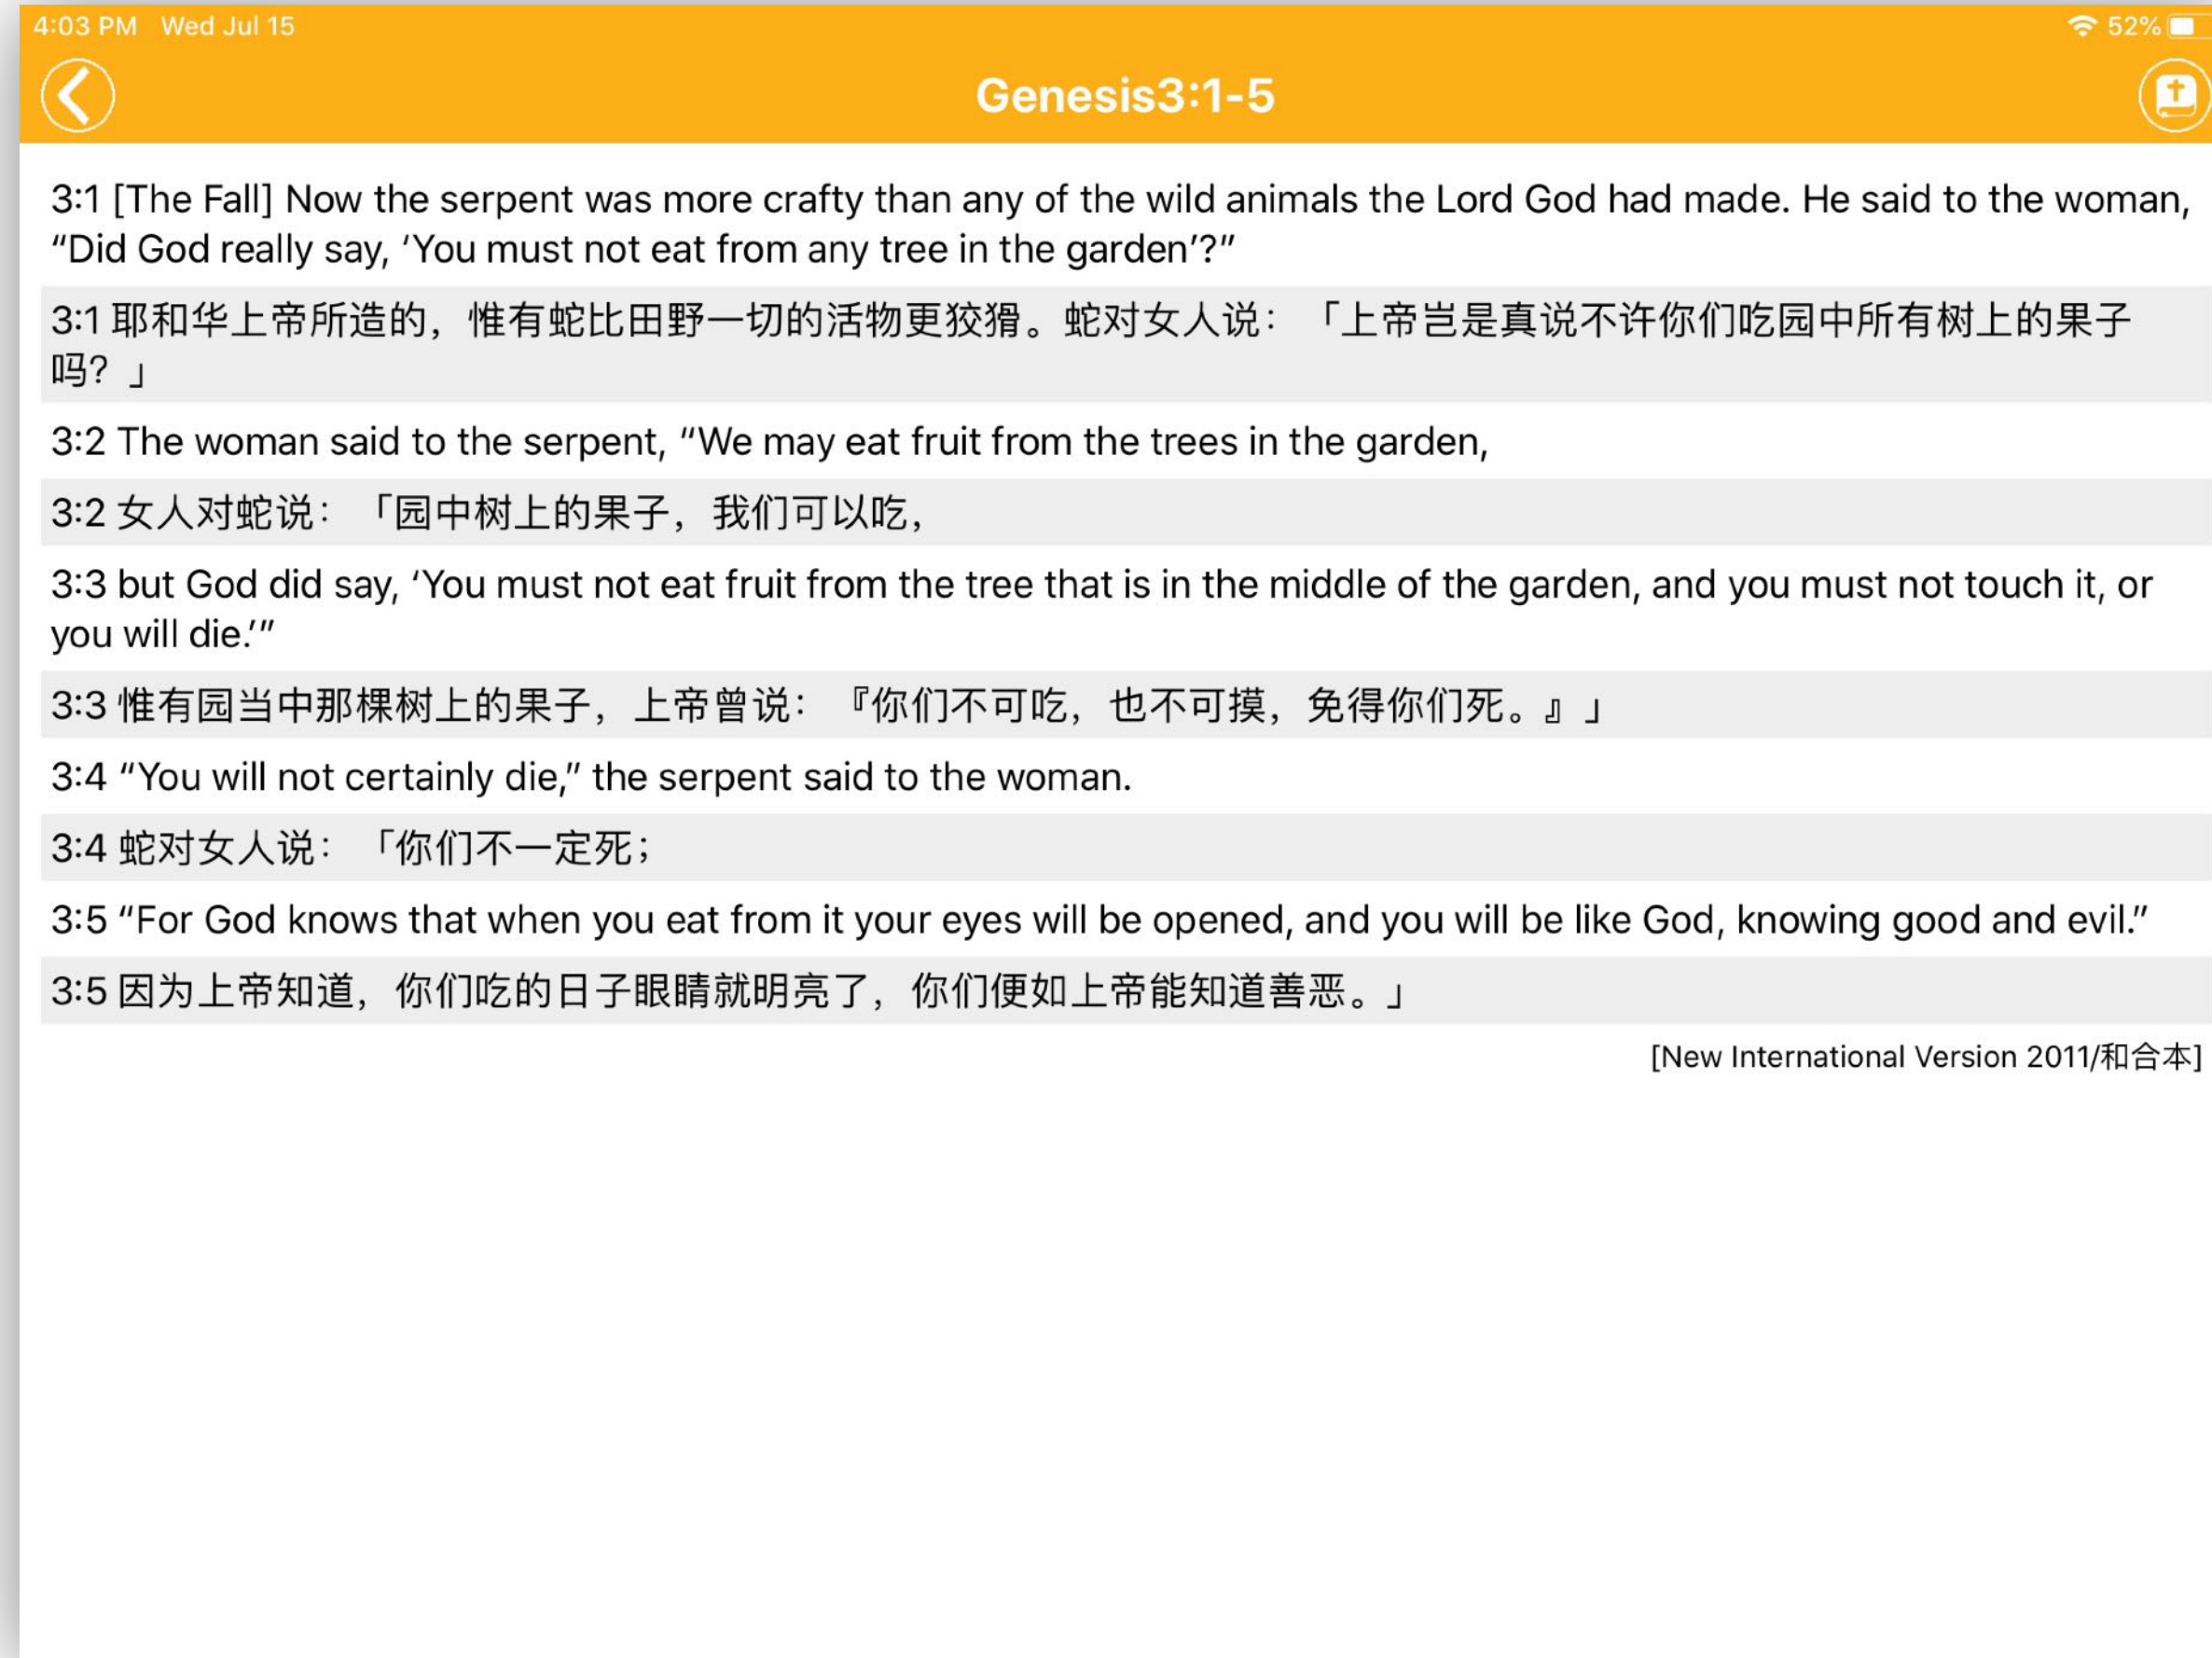

Designer Notes: This is new functionality to treat the Scripture view as a “sheet”. When tapping a scripture button on the lesson the sheet raises to the 50% point animating from the bottom of the screen. A second tap on the “thumb” will extend it to the top (again animating) to utilize the full screen. If possible we would like the user to be able to drag the thumb up and down to resize the Bible viewer as desired. Scrolling should be active on both the scripture sheet and the lesson below. *Bible text view will be discussed on the next screen.*

Comparison - Bible Full Screen

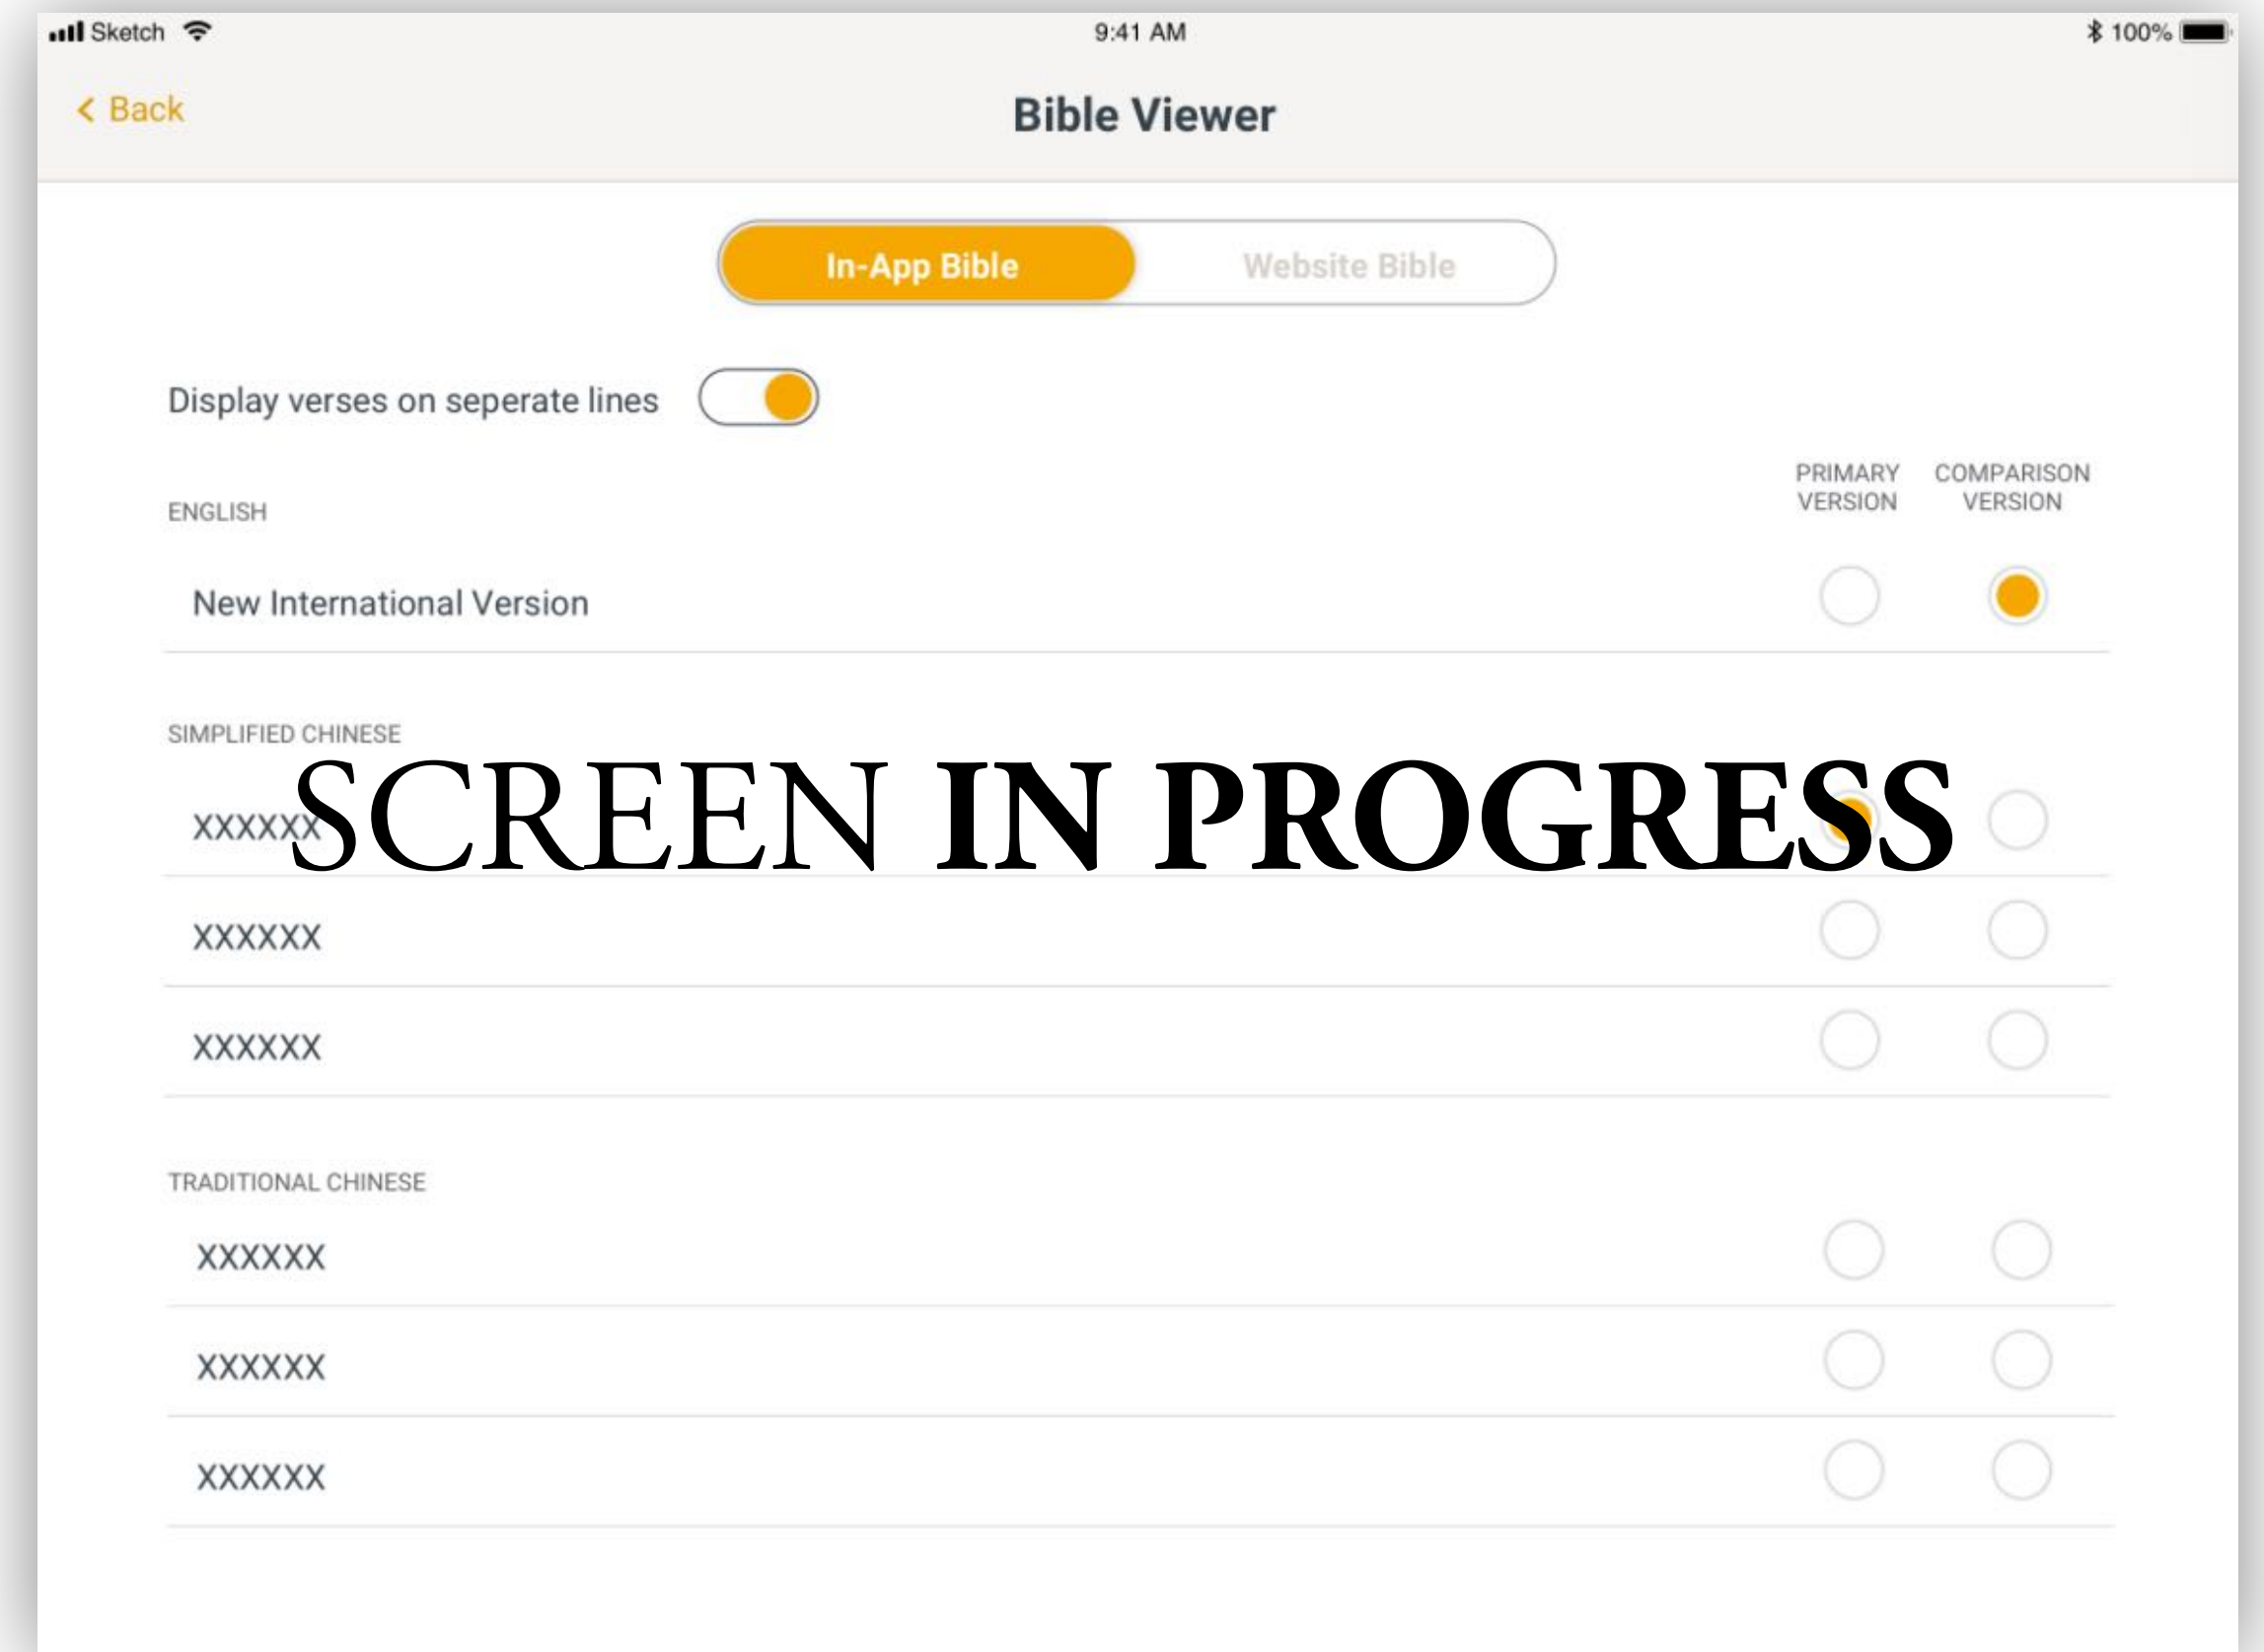

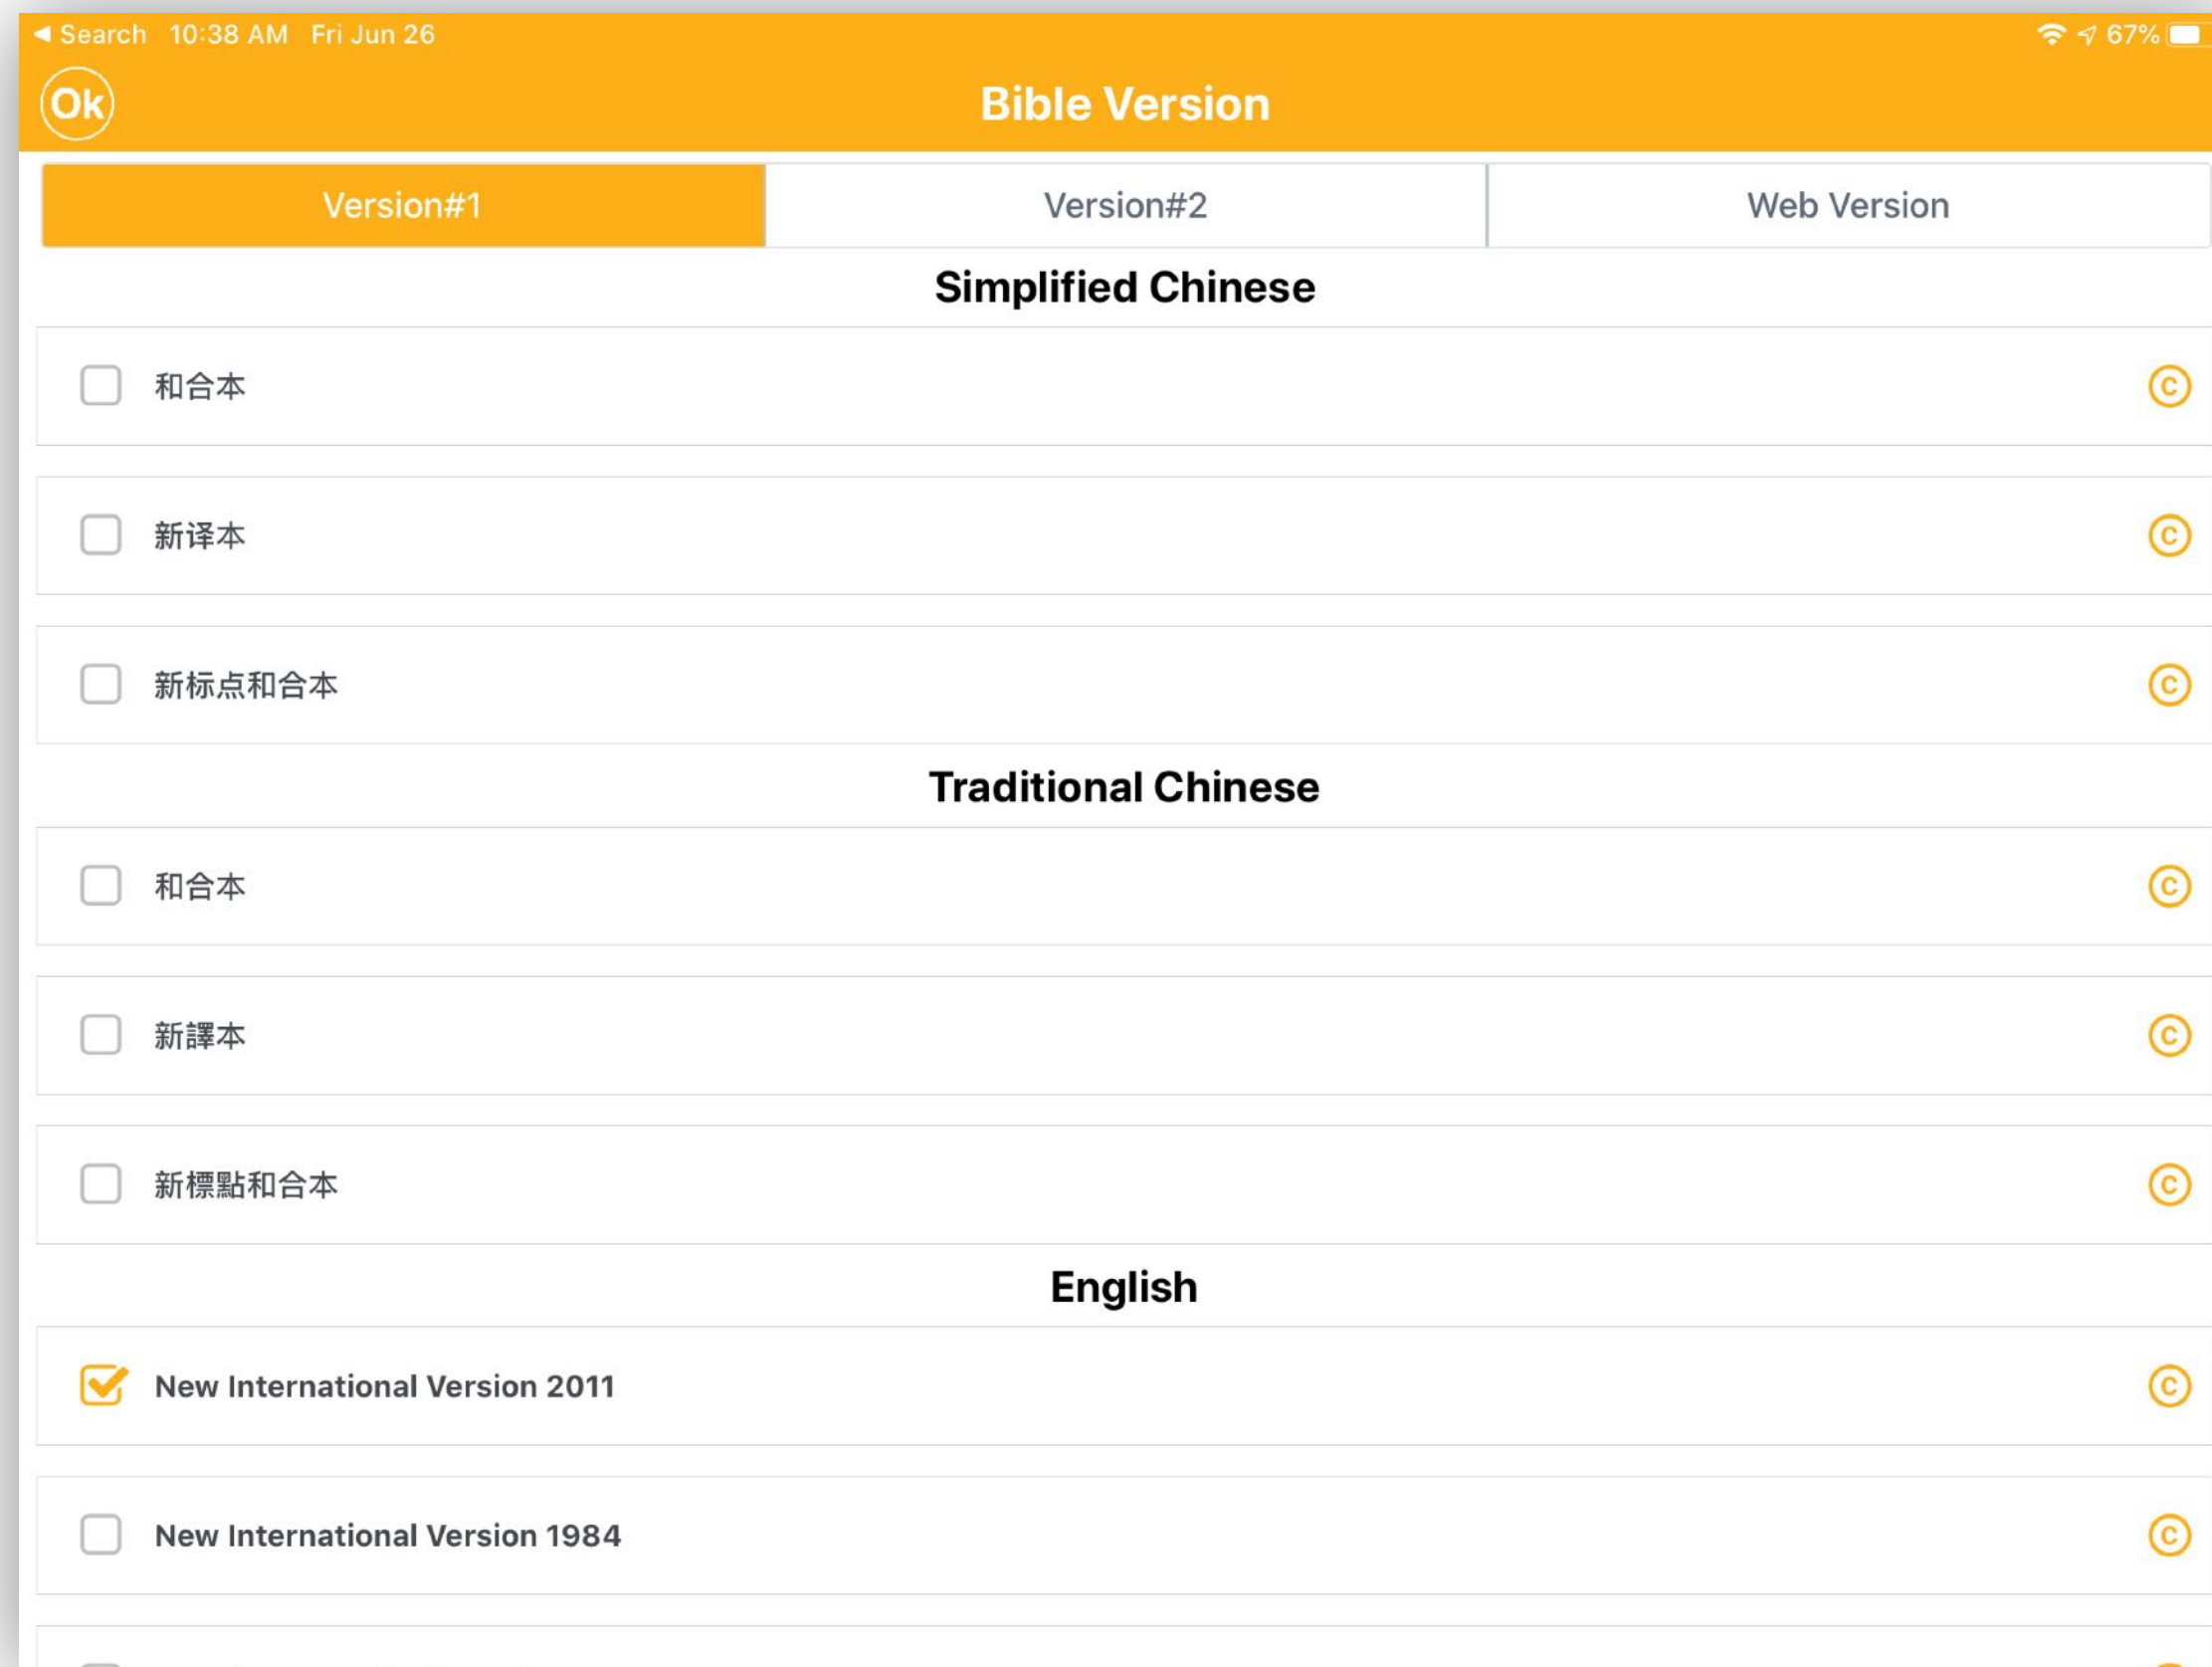

Designer Notes: NEW FUNCTION - The Bible text can be shown in paragraph form, or one verse per line (the current behavior in CBSF app). This preference is set via the gear icon in the Bible viewer.

Comparison - Bible Comparison Version

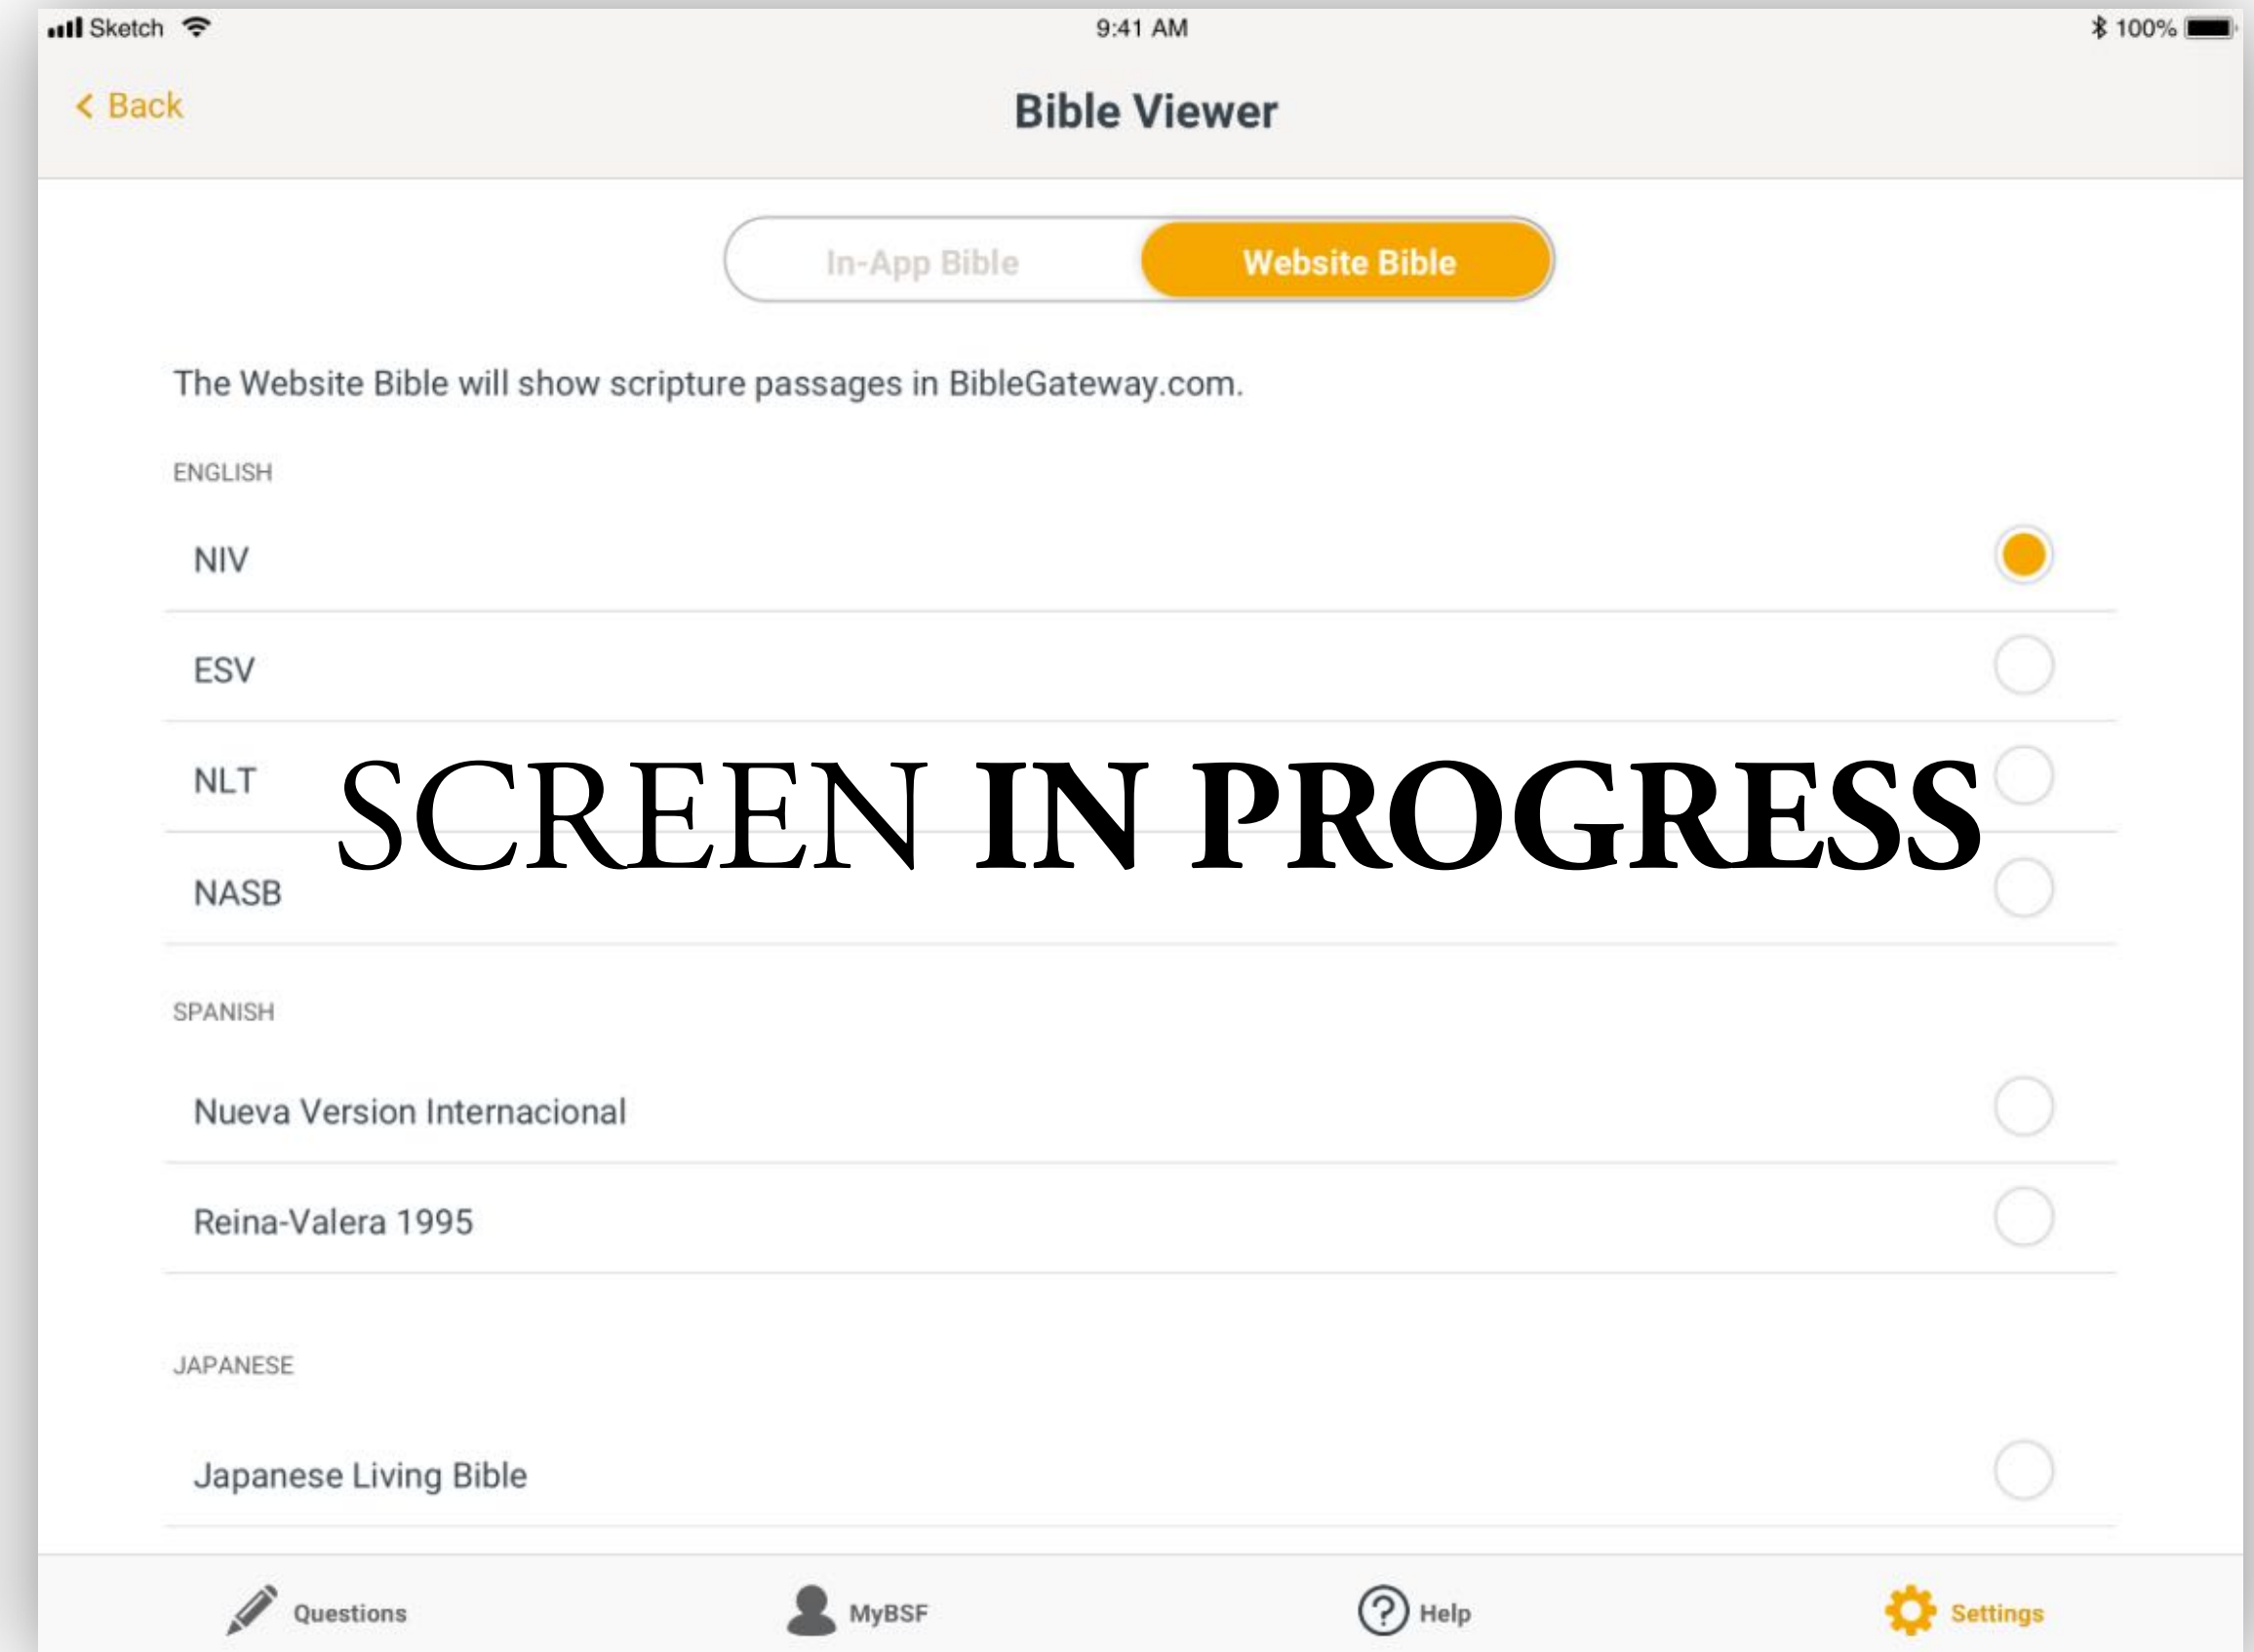

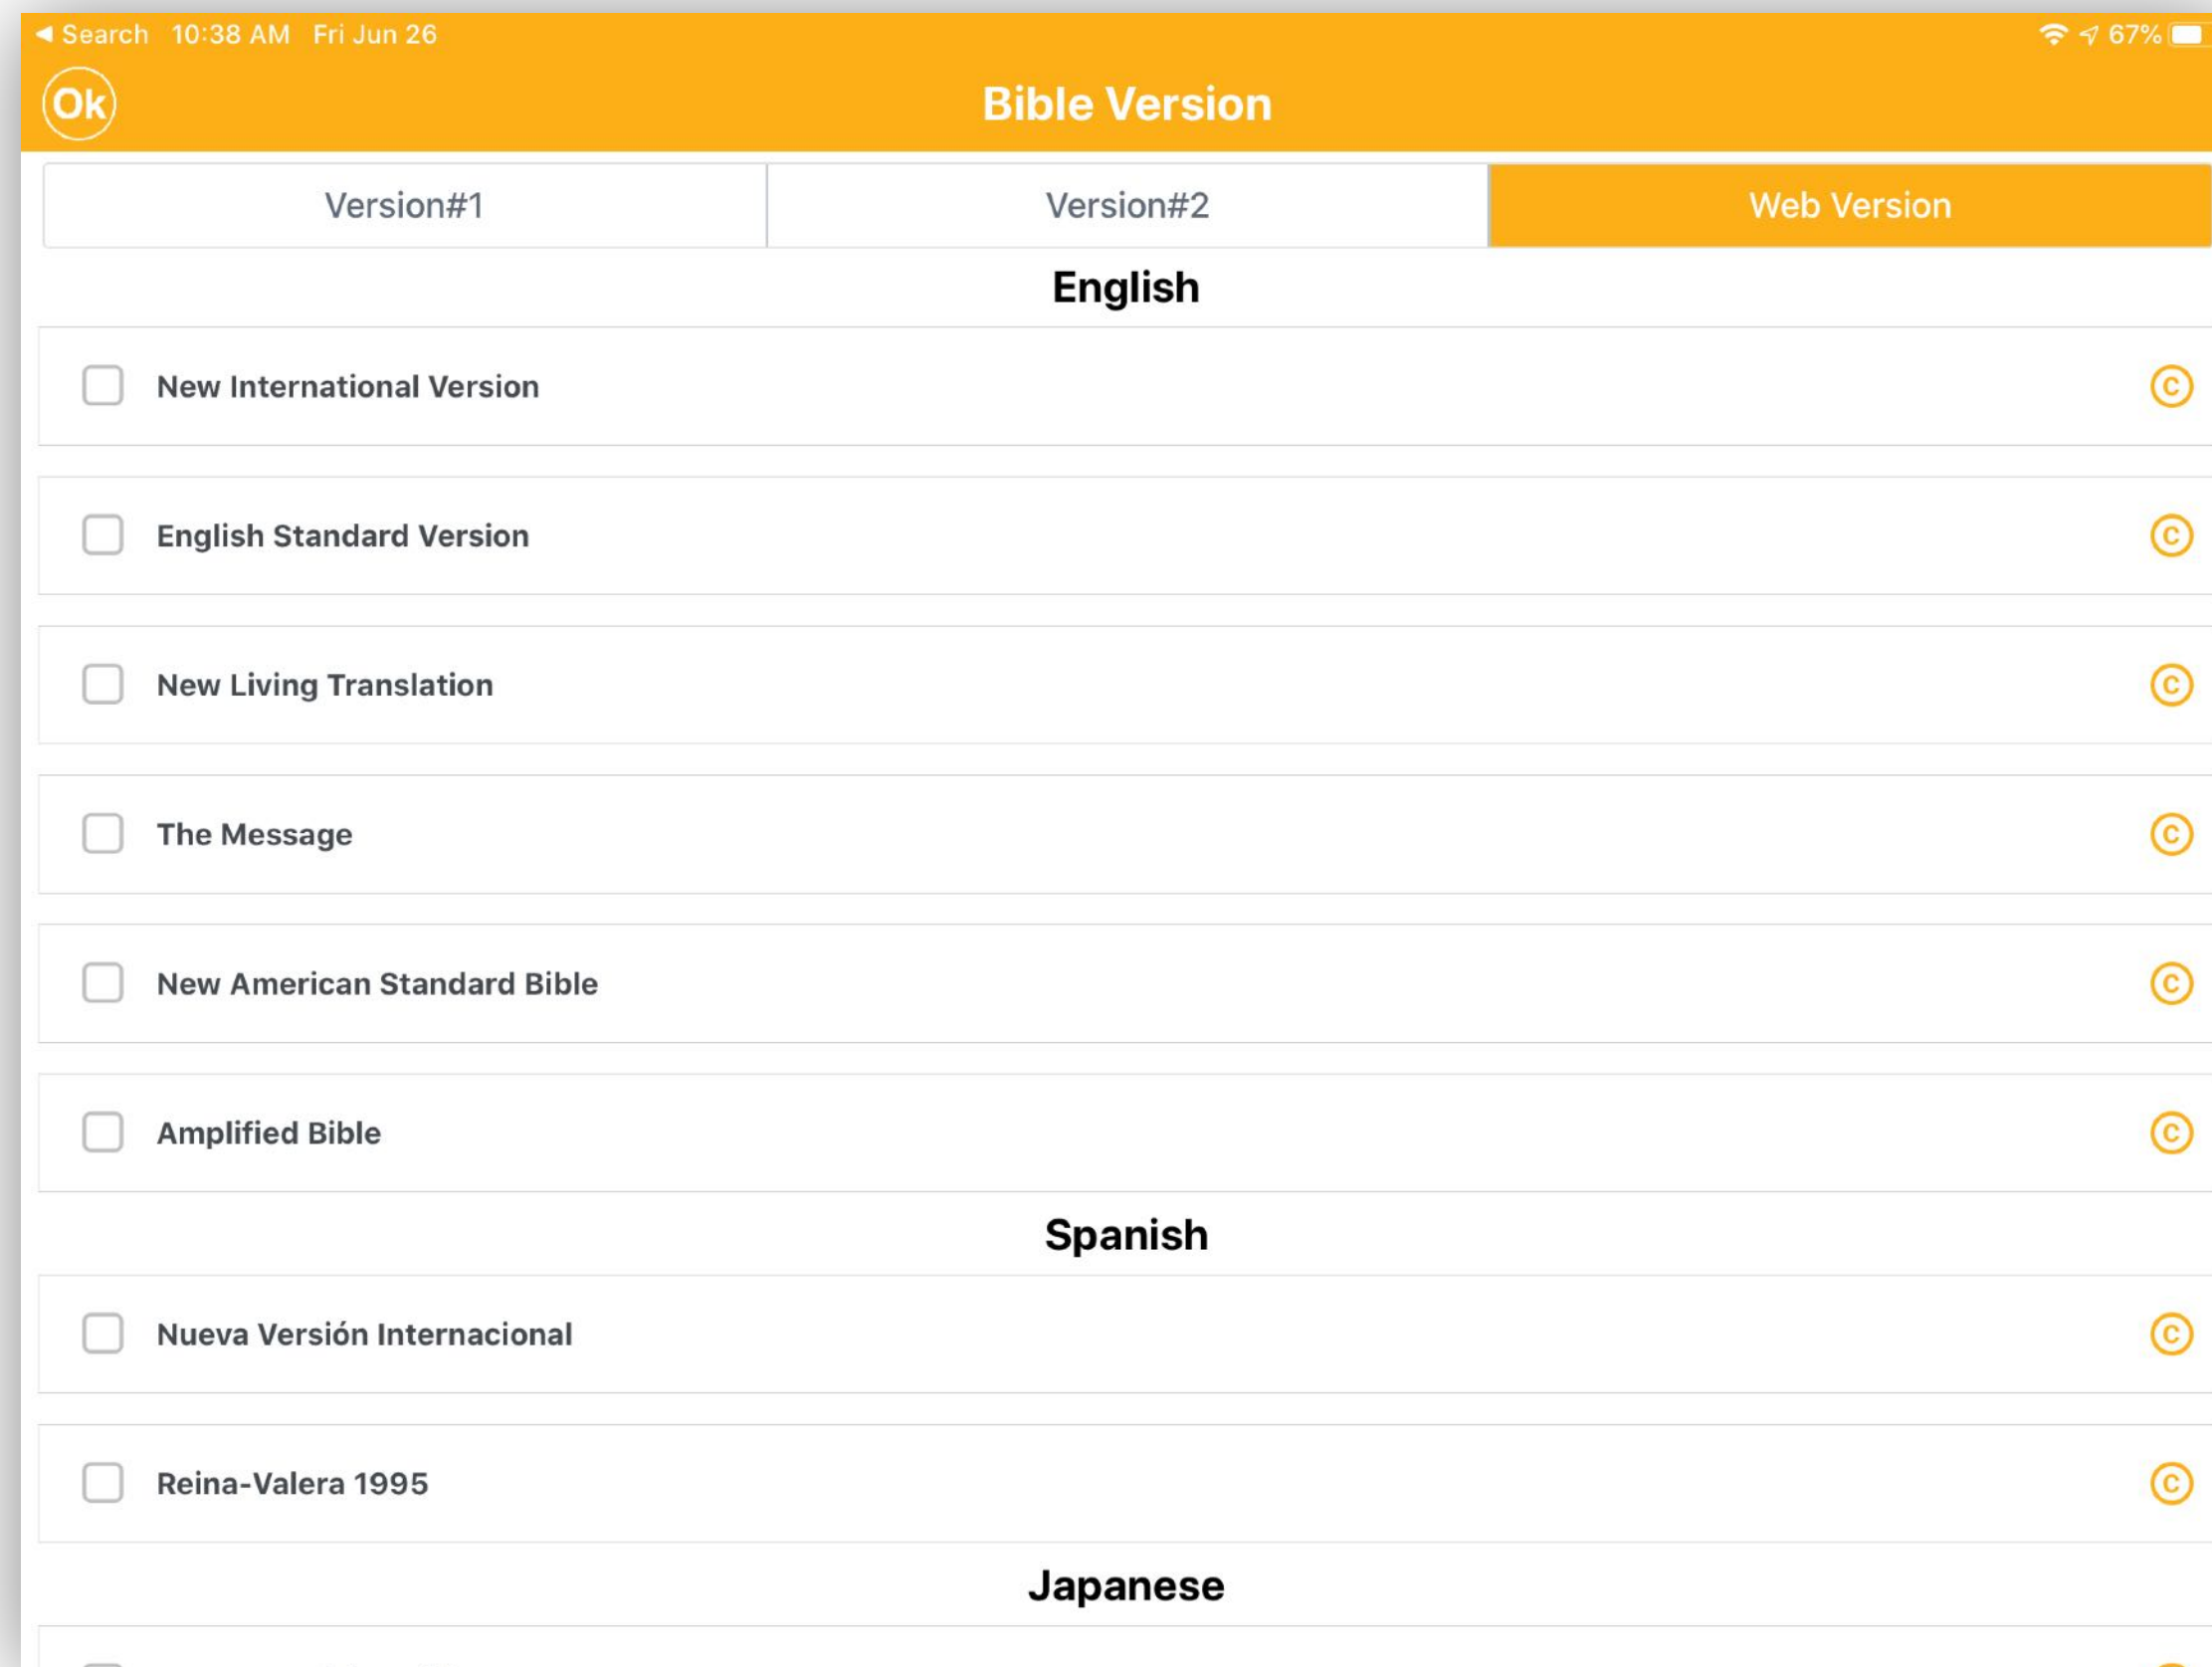

Designer Notes: When in "Comparison" mode, the Bible shows verses on separate lines and the comparison language is show in shaded areas.

Comparison - Bible Settings

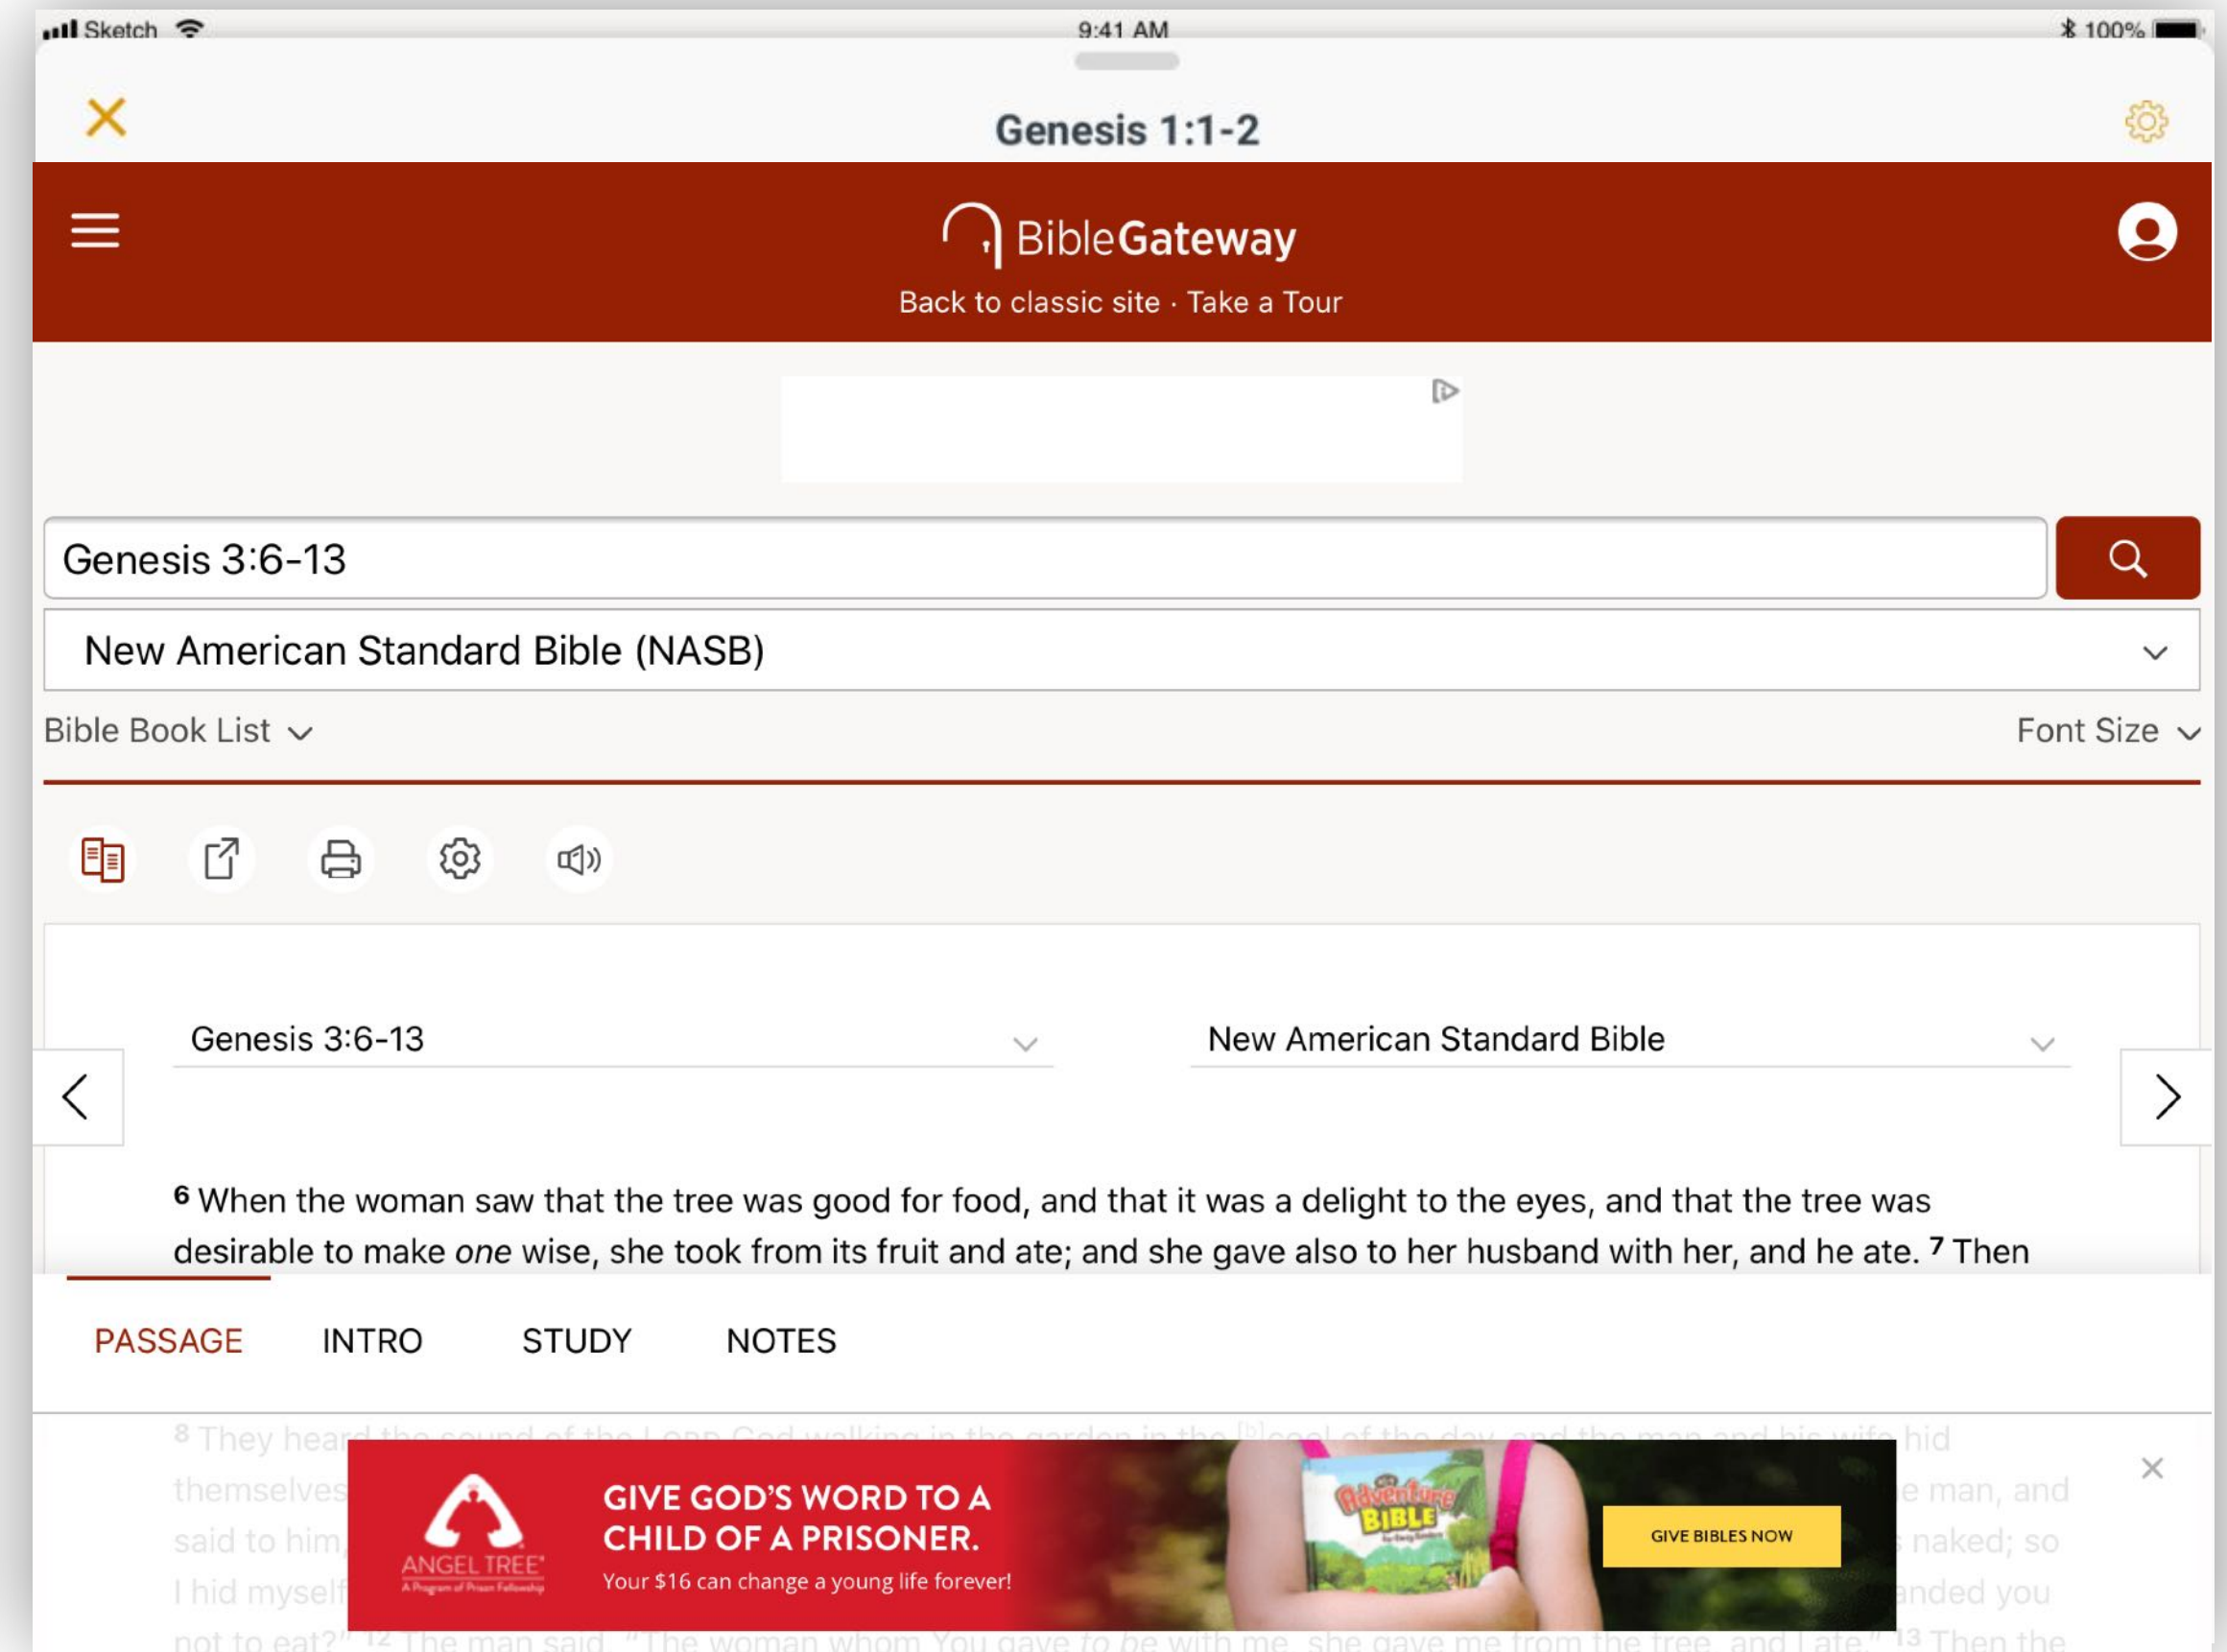

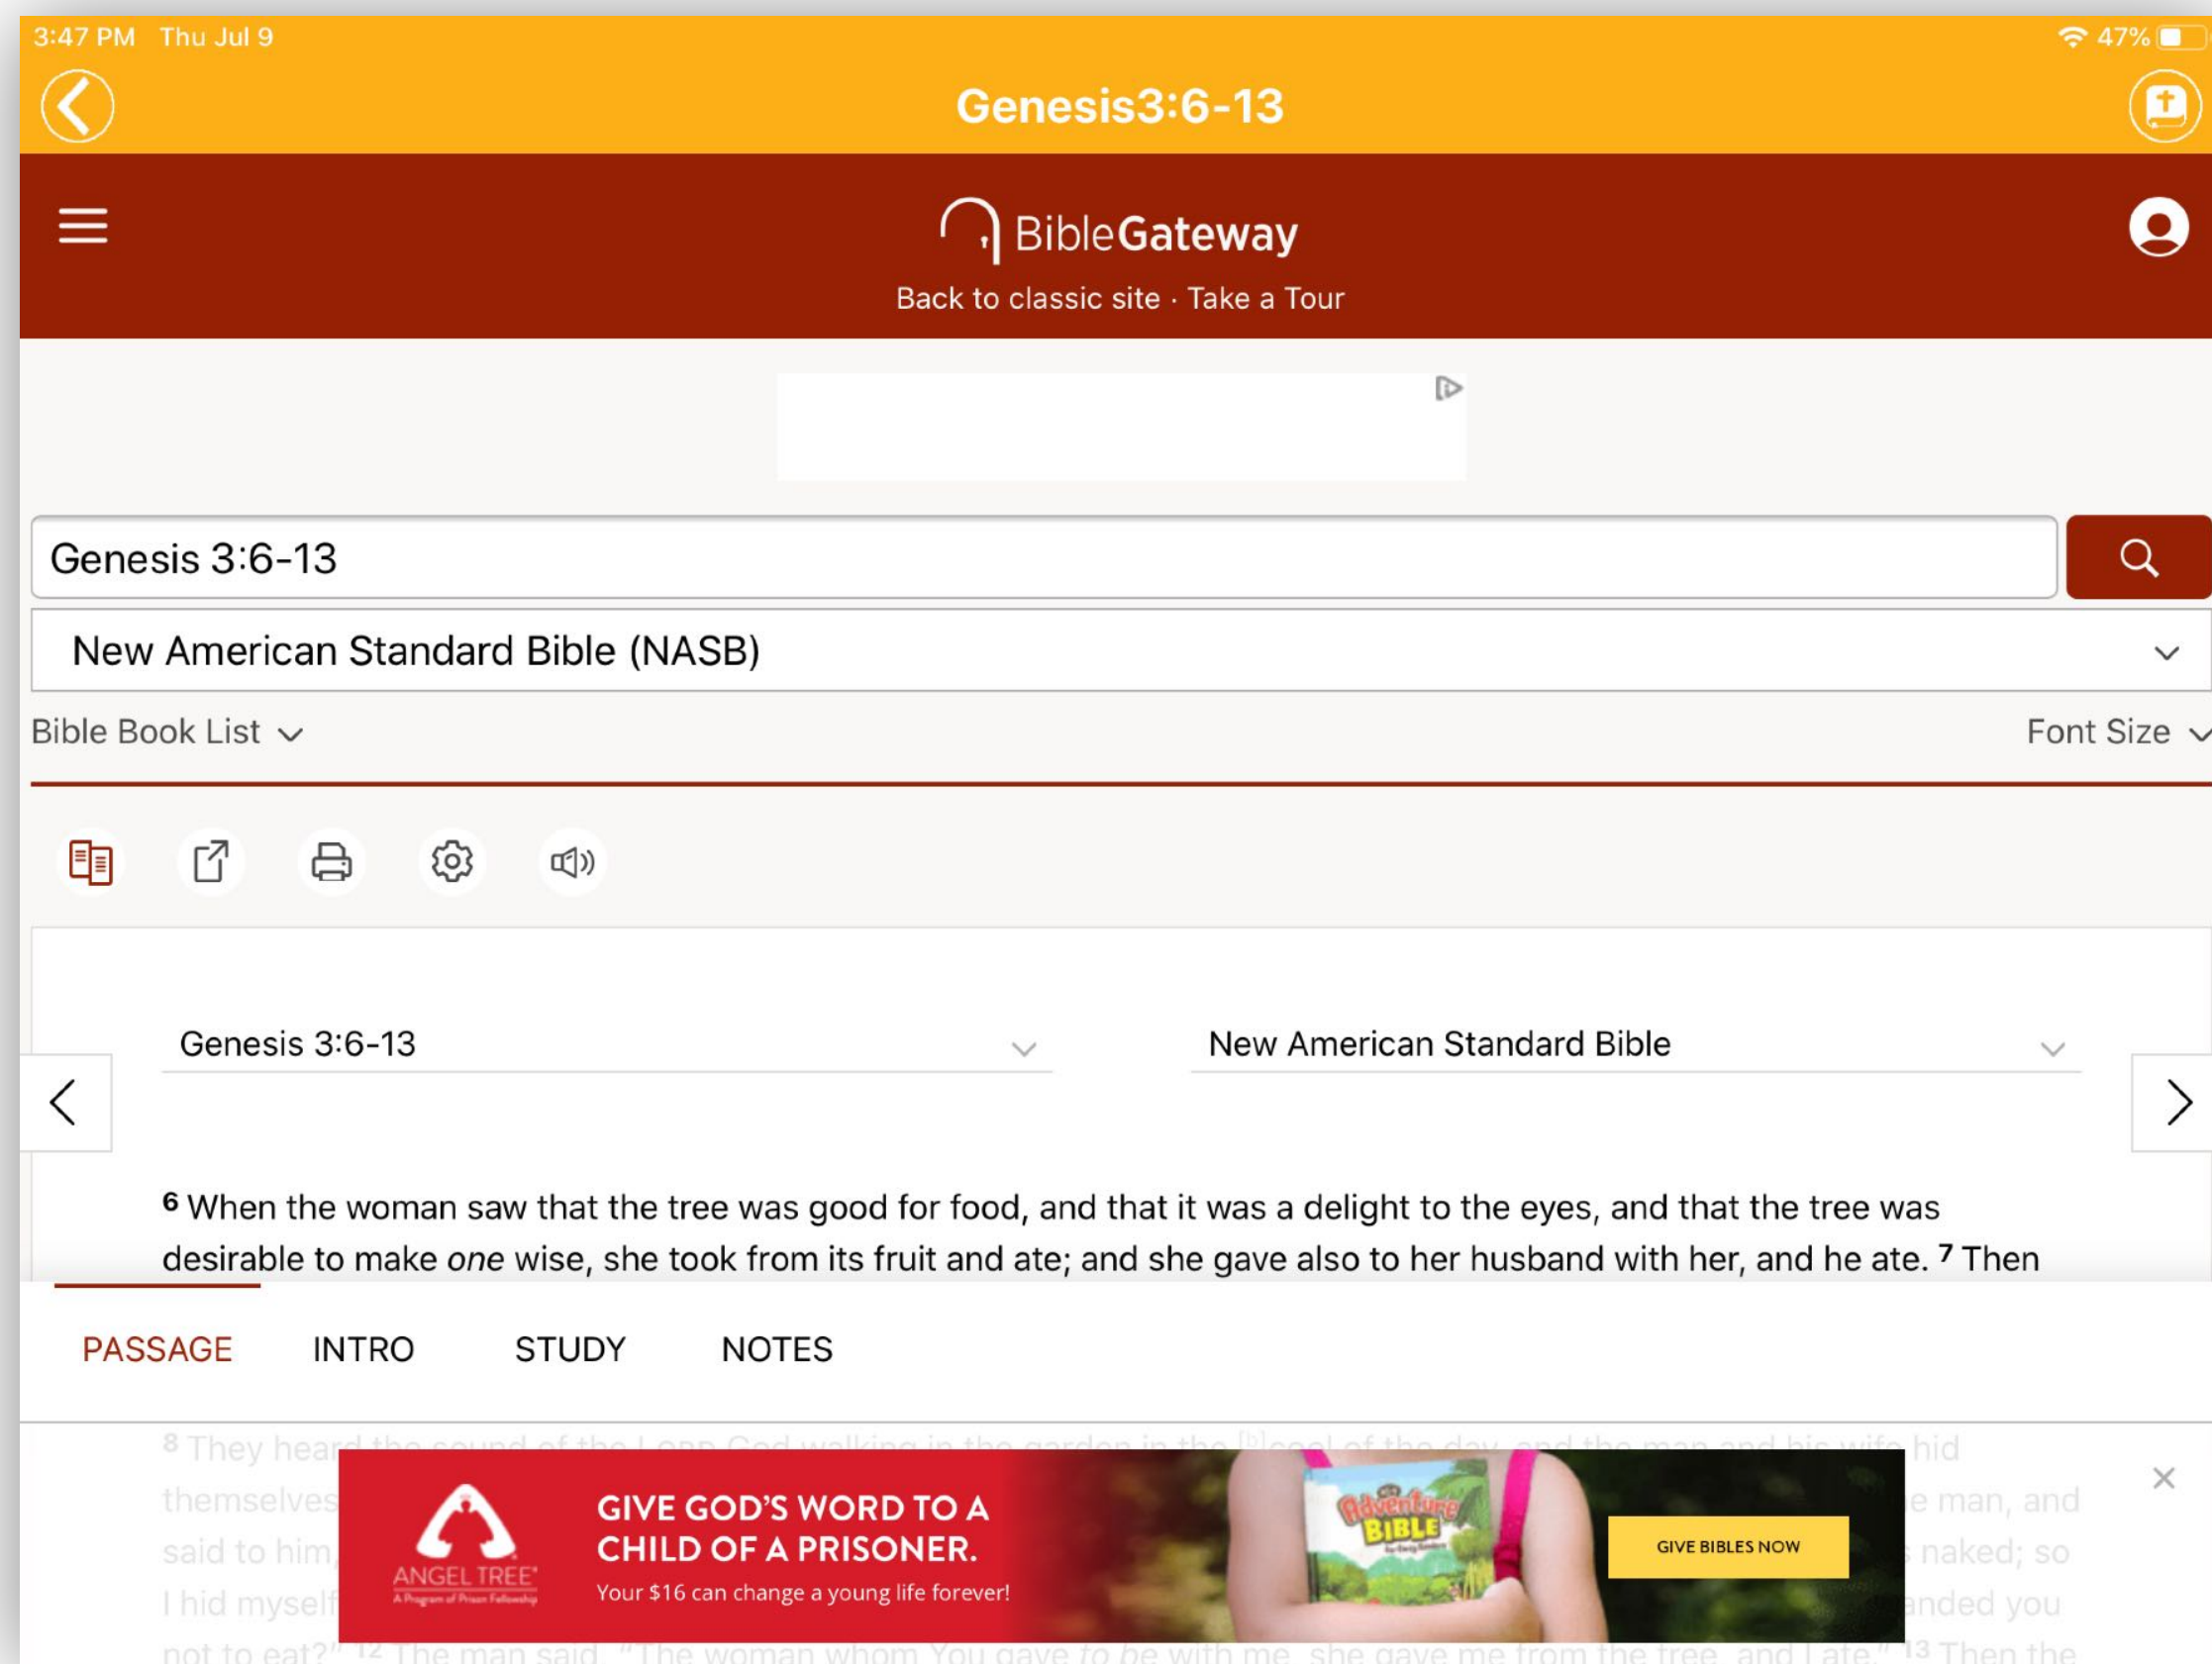

Designer Notes: NEW UI ELEMENT - Segment switch between In-App Bible and Website Bible. Version 1 and Version 2 tabs are now combined and referred to as “Primary Version” and “Secondary Version” respectively. NEW setting - display verses on separate lines

Comparison - Bible Settings Web Version

Designer Notes: Addition of explanation text for which website Bible is being used.

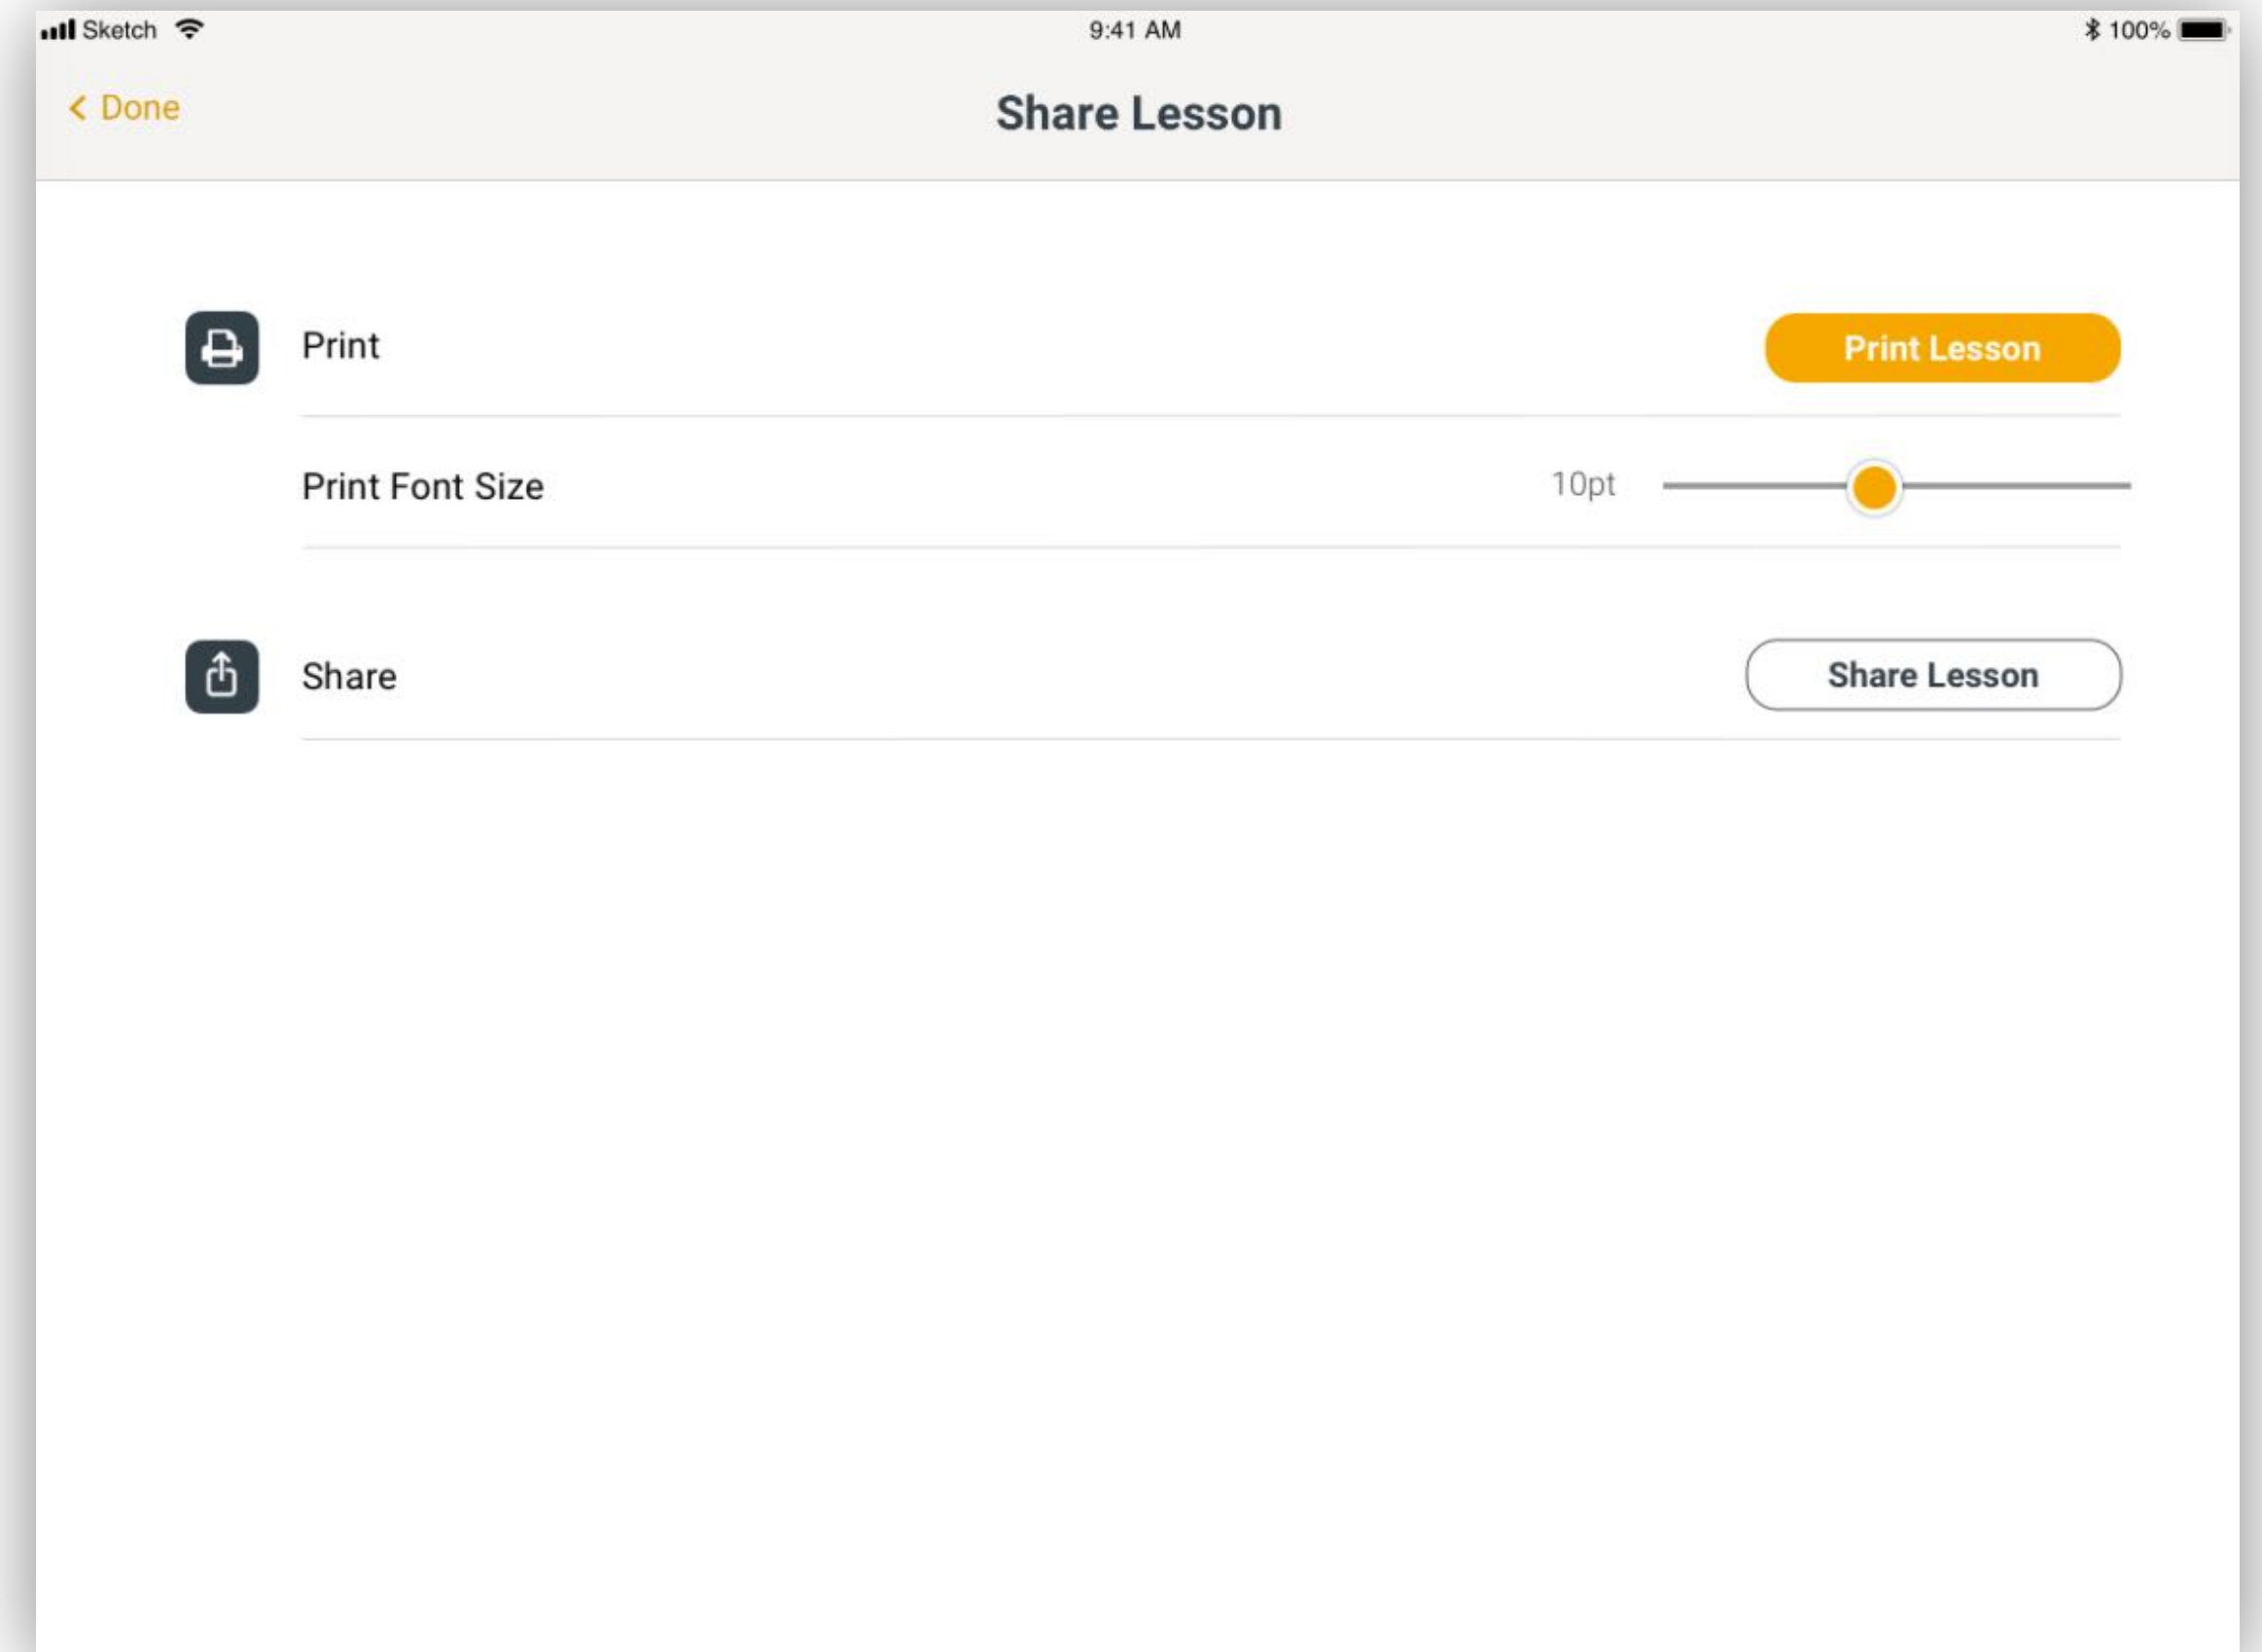

Comparison - Bible Website Bible

Designer Notes: Behavior is the same as as in App Bible sheet.

Comparison - Share Lesson

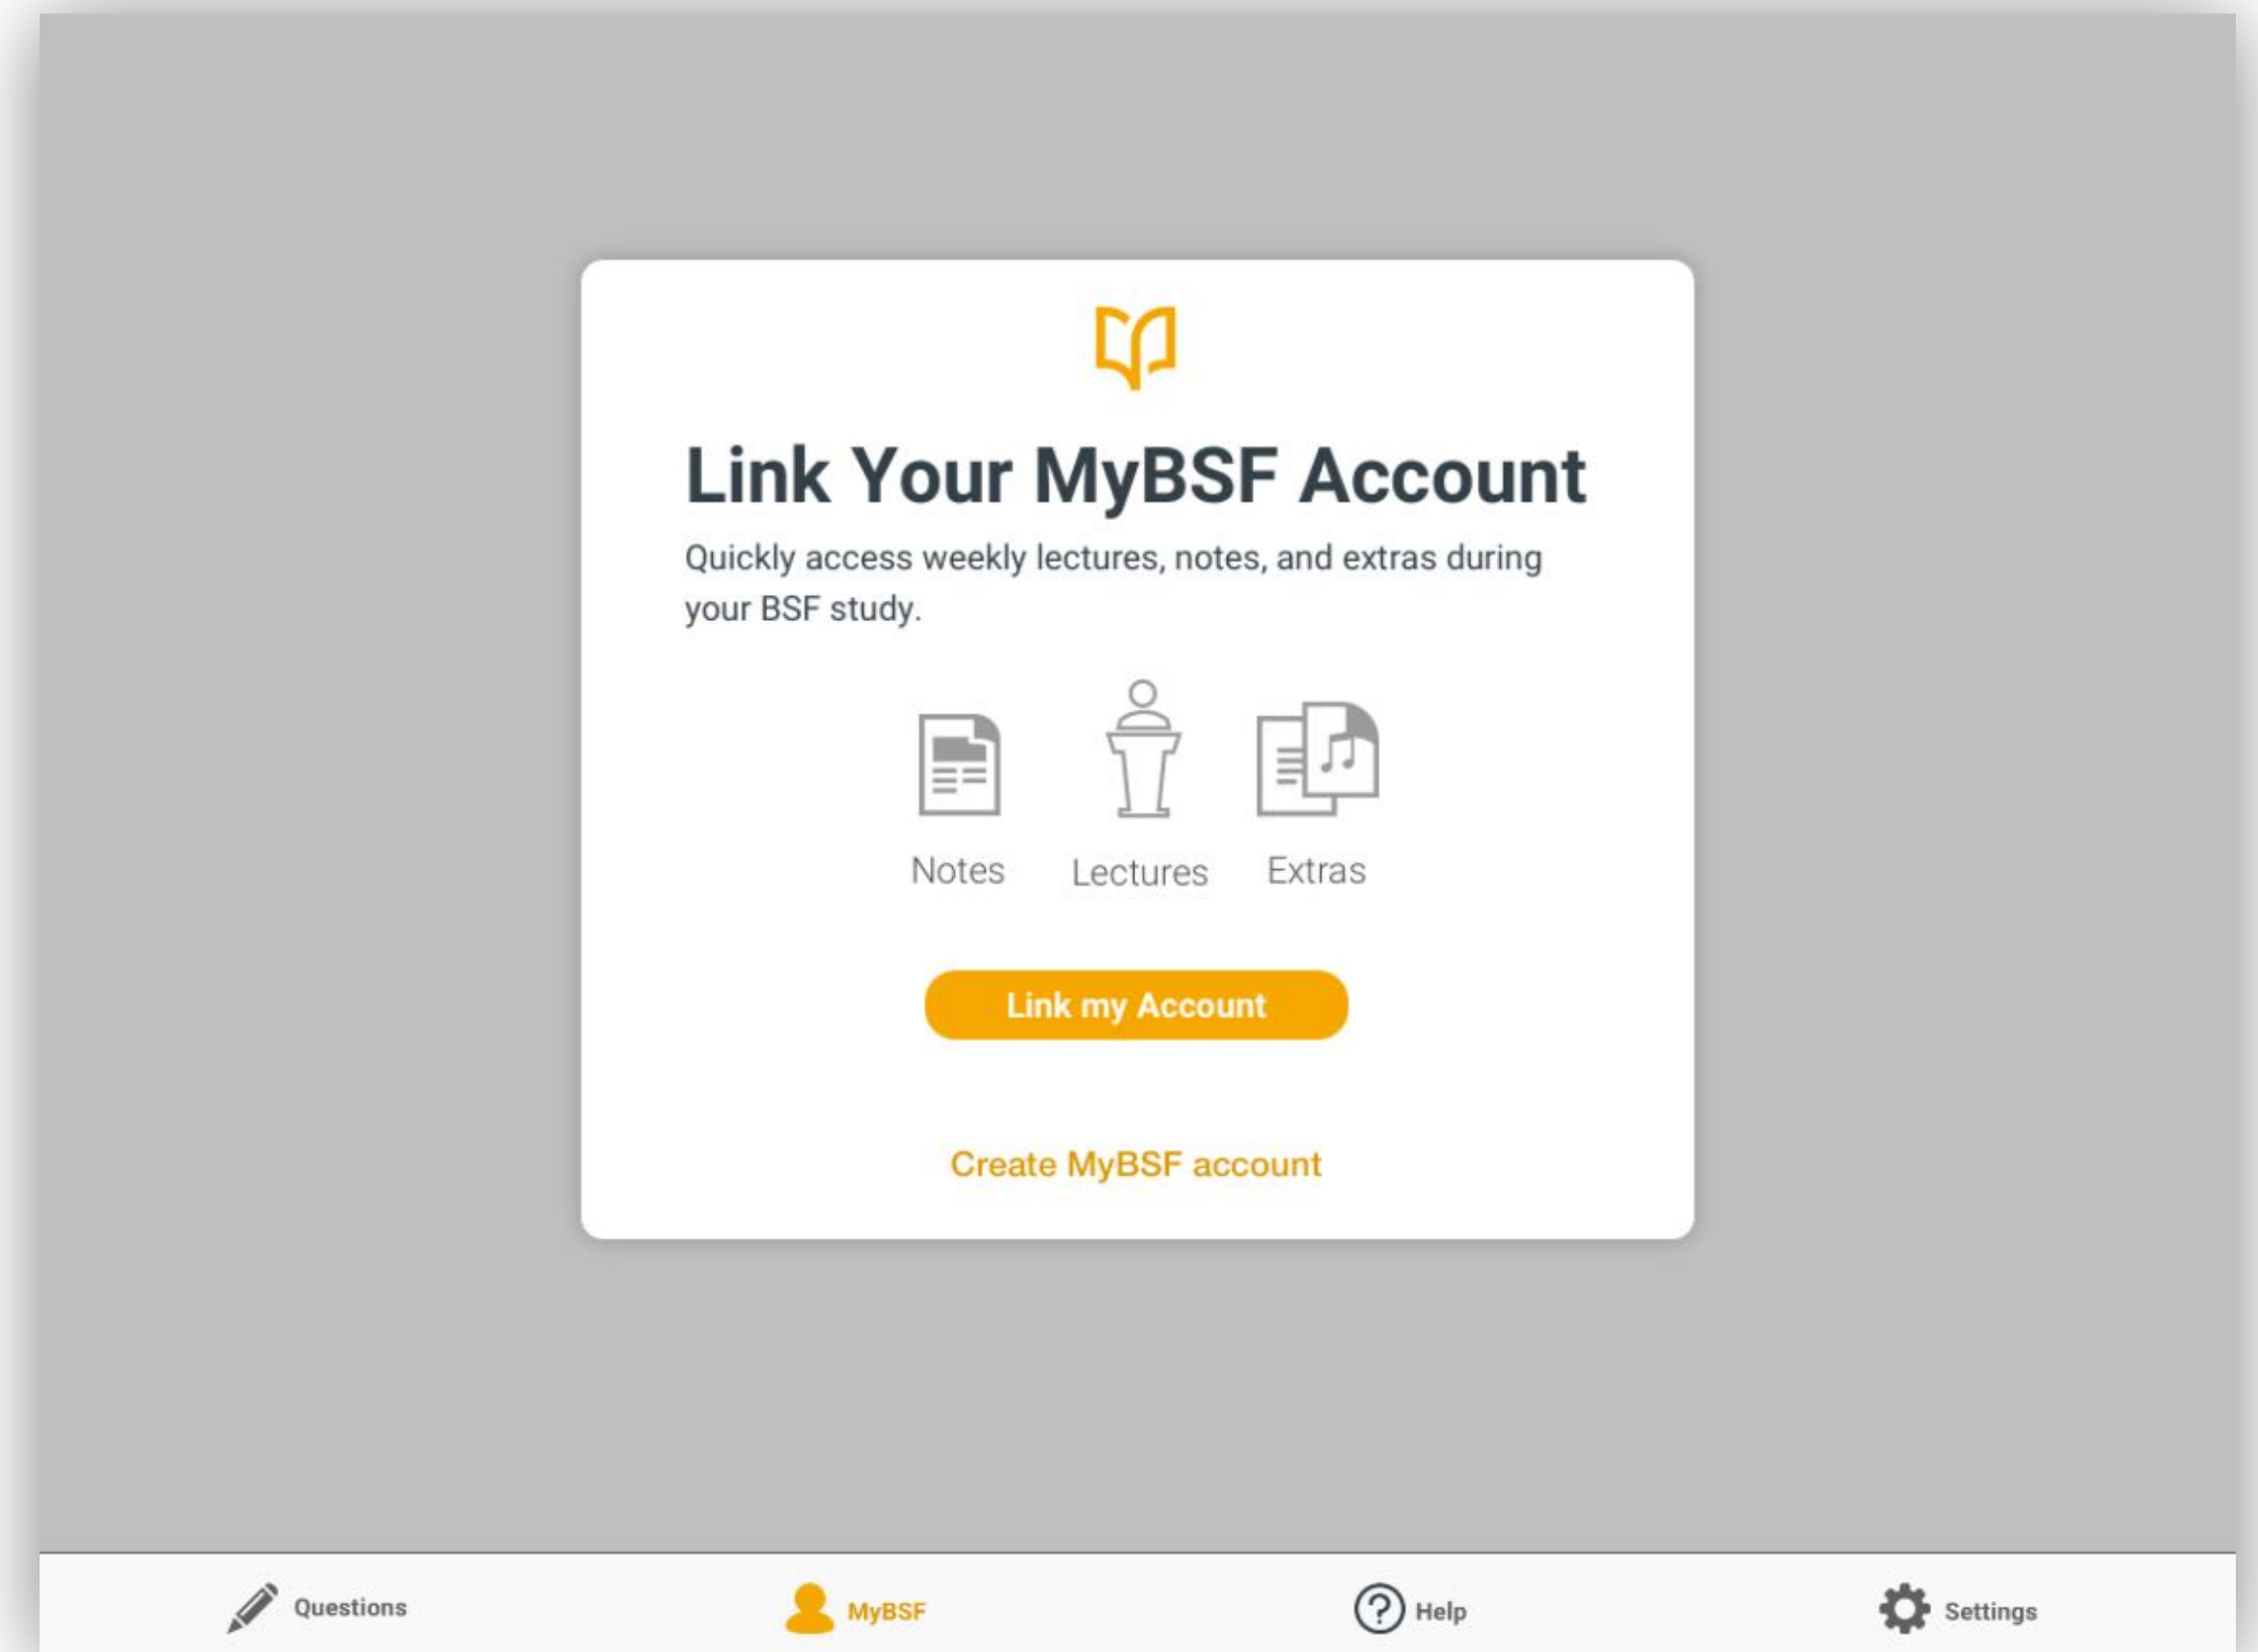

New Screen

Designer Notes: This is a new screen combines 2 previous icons on the Question page and adds a print size setting. **NEW UI ELEMENT** - Print font size slider. This setting already exists in current CBSF settings, but it is a single choice button.

Comparison - MyBSF Dialog

New Dialog

Designer Notes: This MyBSF Link dialog will appear on certain conditions: IF the user has NOT entered both their email address and password for the MyBSF link.

Comparison - MyBSF Link

Done

Update your link to MyBSF anytime in settings.

Questions MyBSF Help Settings

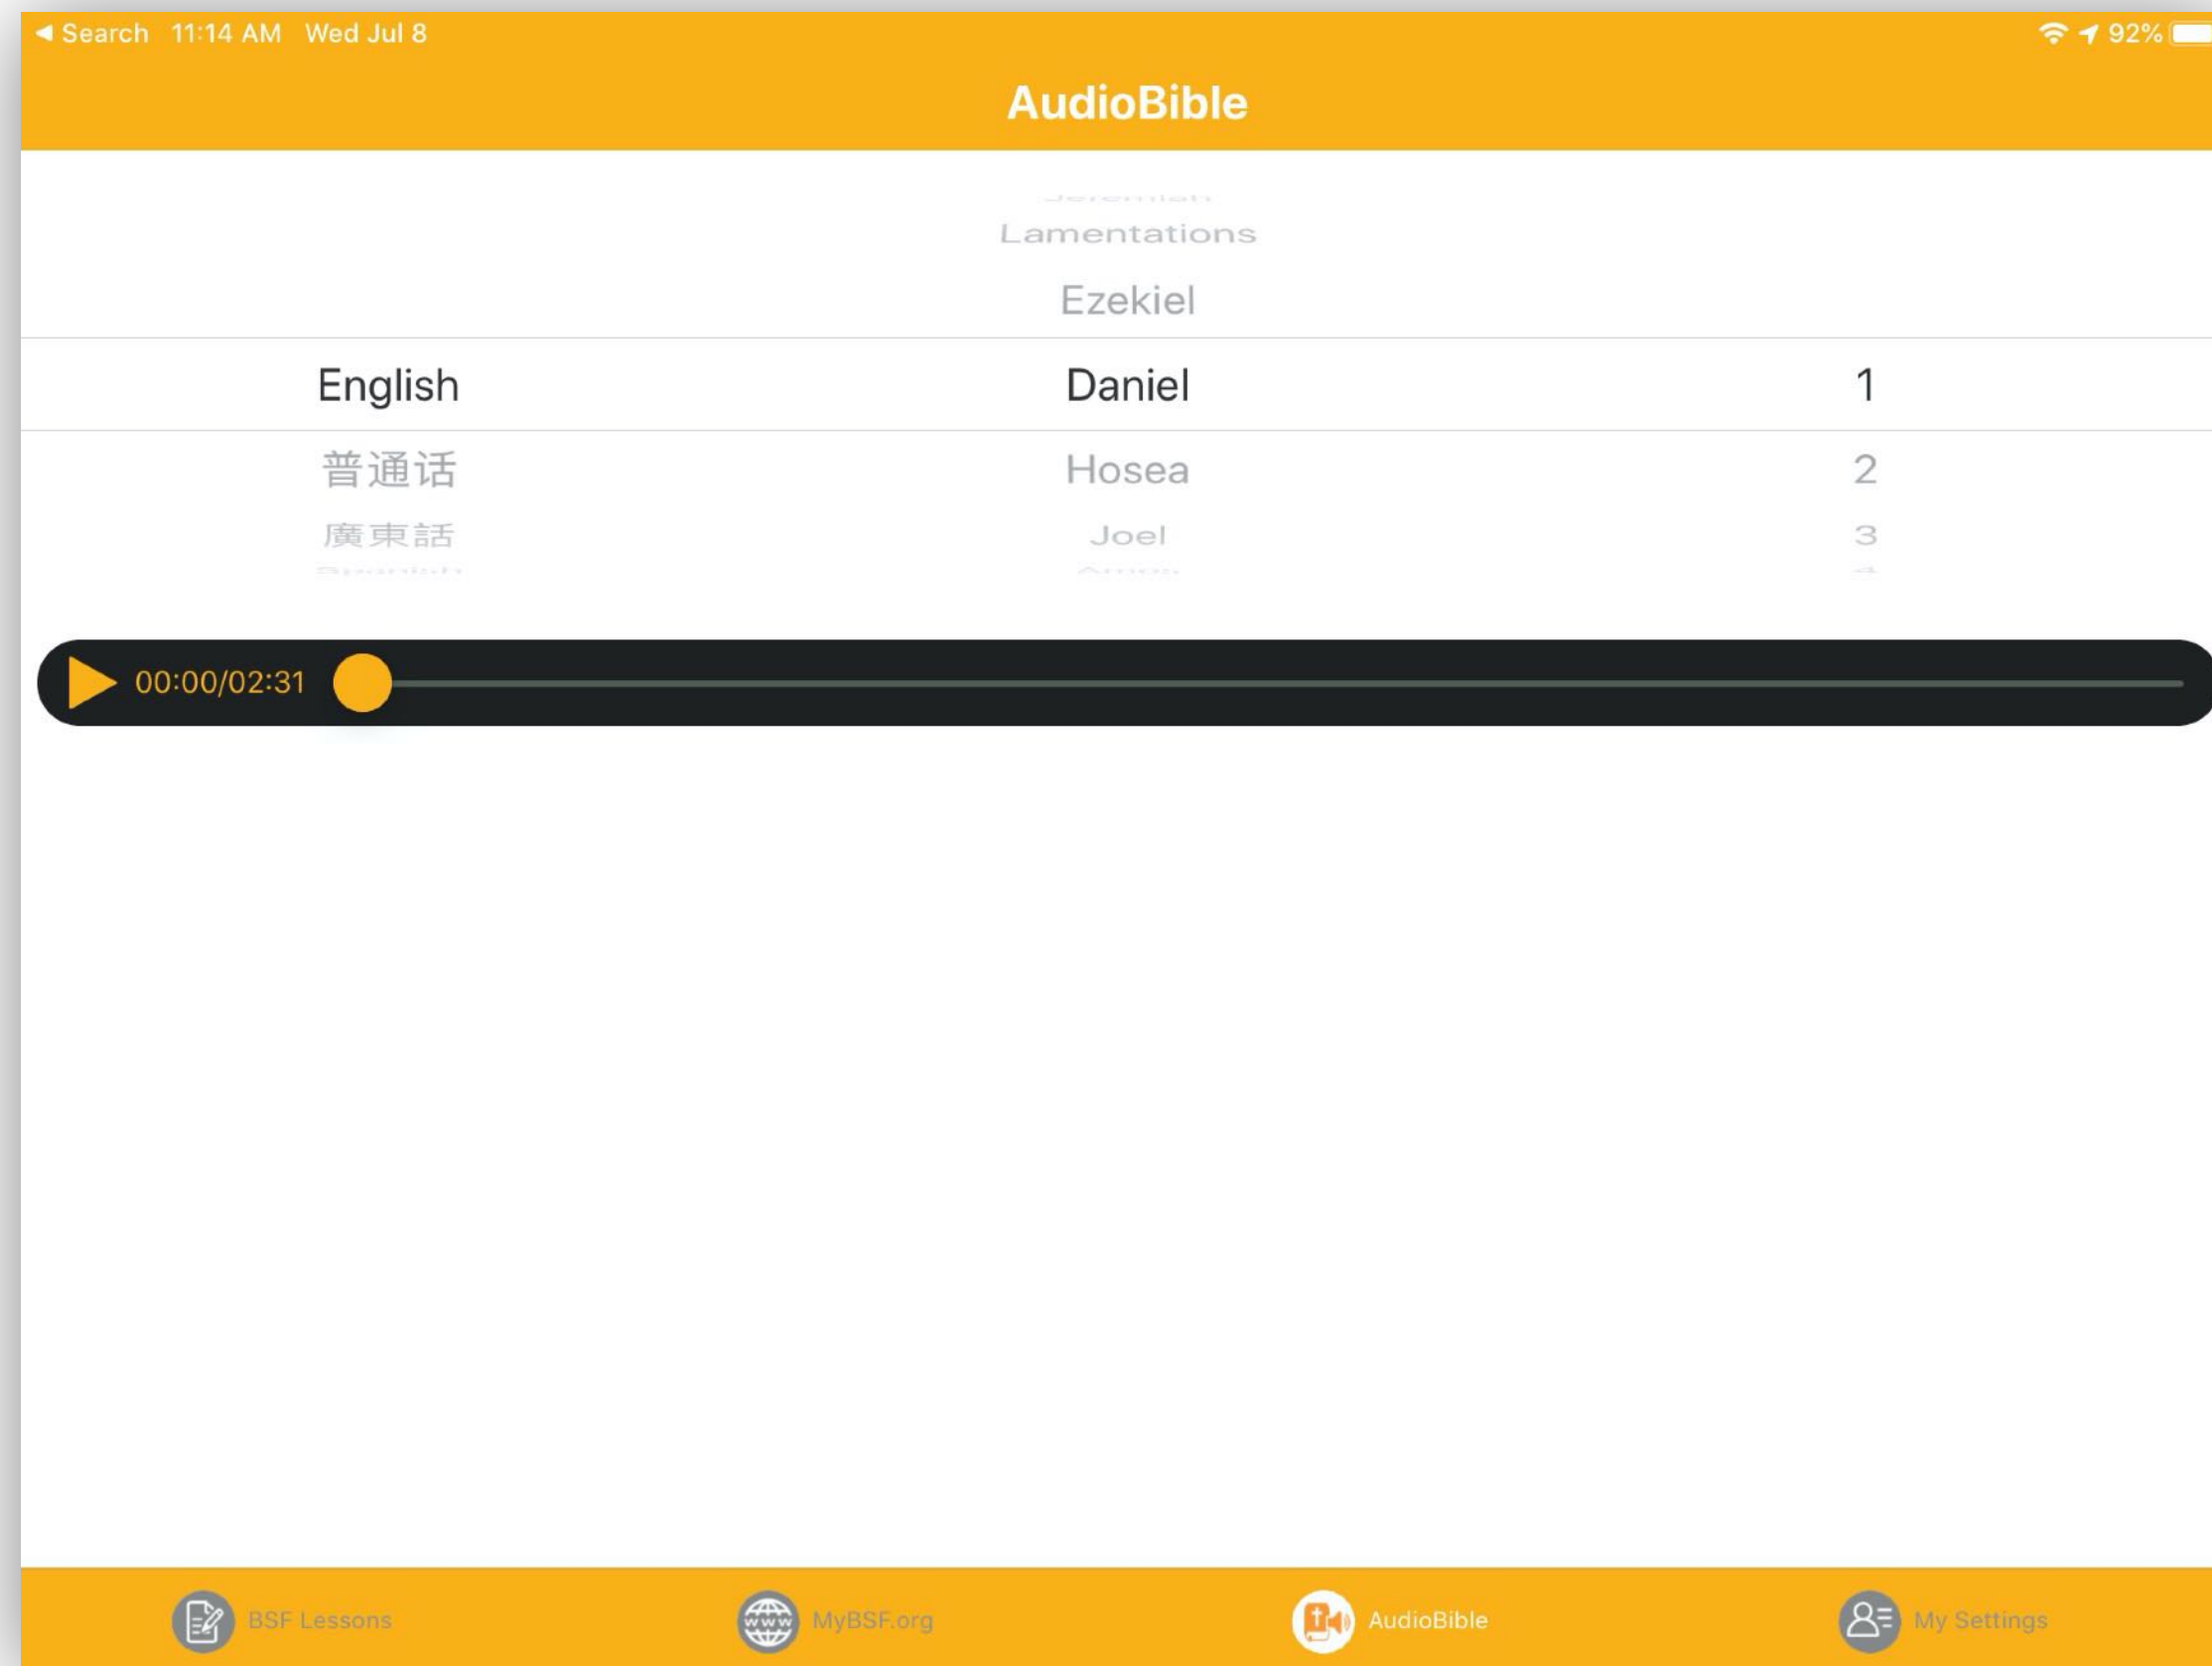

Designer Notes: 2nd step in the MyBSF link process.

Comparison - MyBSF

Designer Notes: All toolbar buttons are removed. Retain existing behavior of MyBSF on tab bar. IF on this screen tapping the MyBSF icon will return user to MyBSF home page. If on another page, tapping MyBSF will return user to their previous state. NOTE: There is a sometimes bug on this page where the user is shown the login page rather than the MyBSF logged in home page.

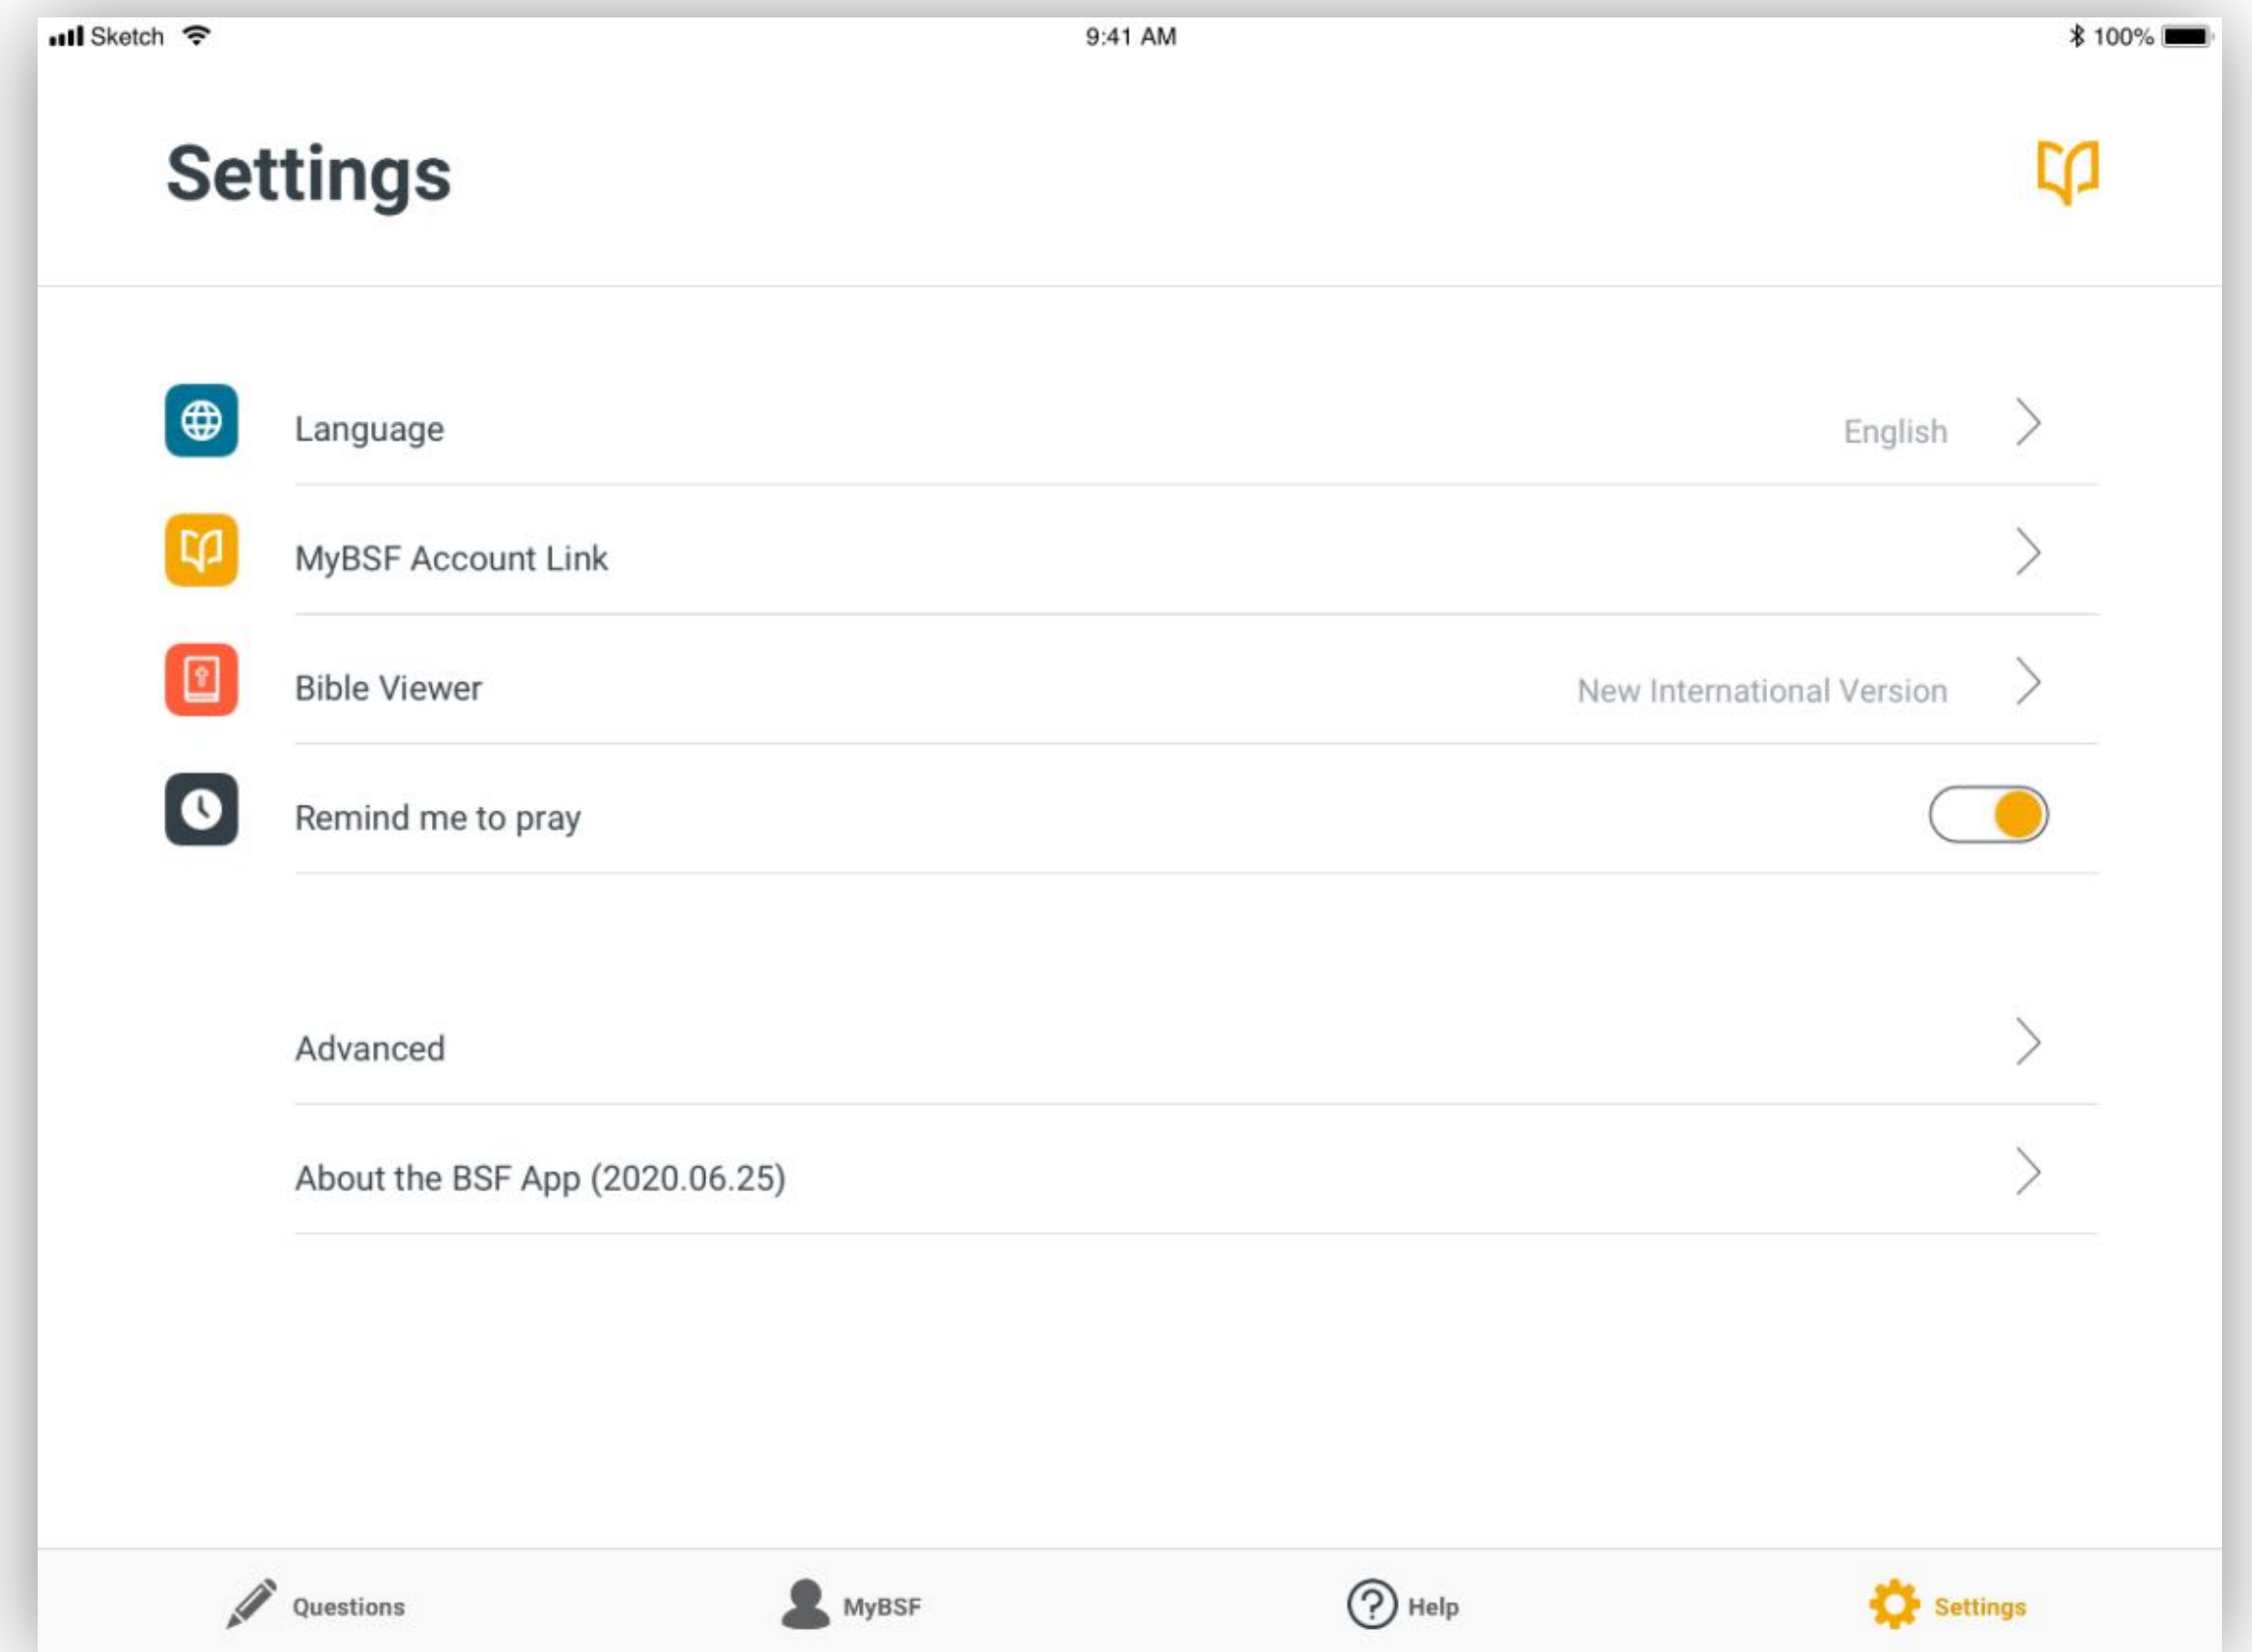

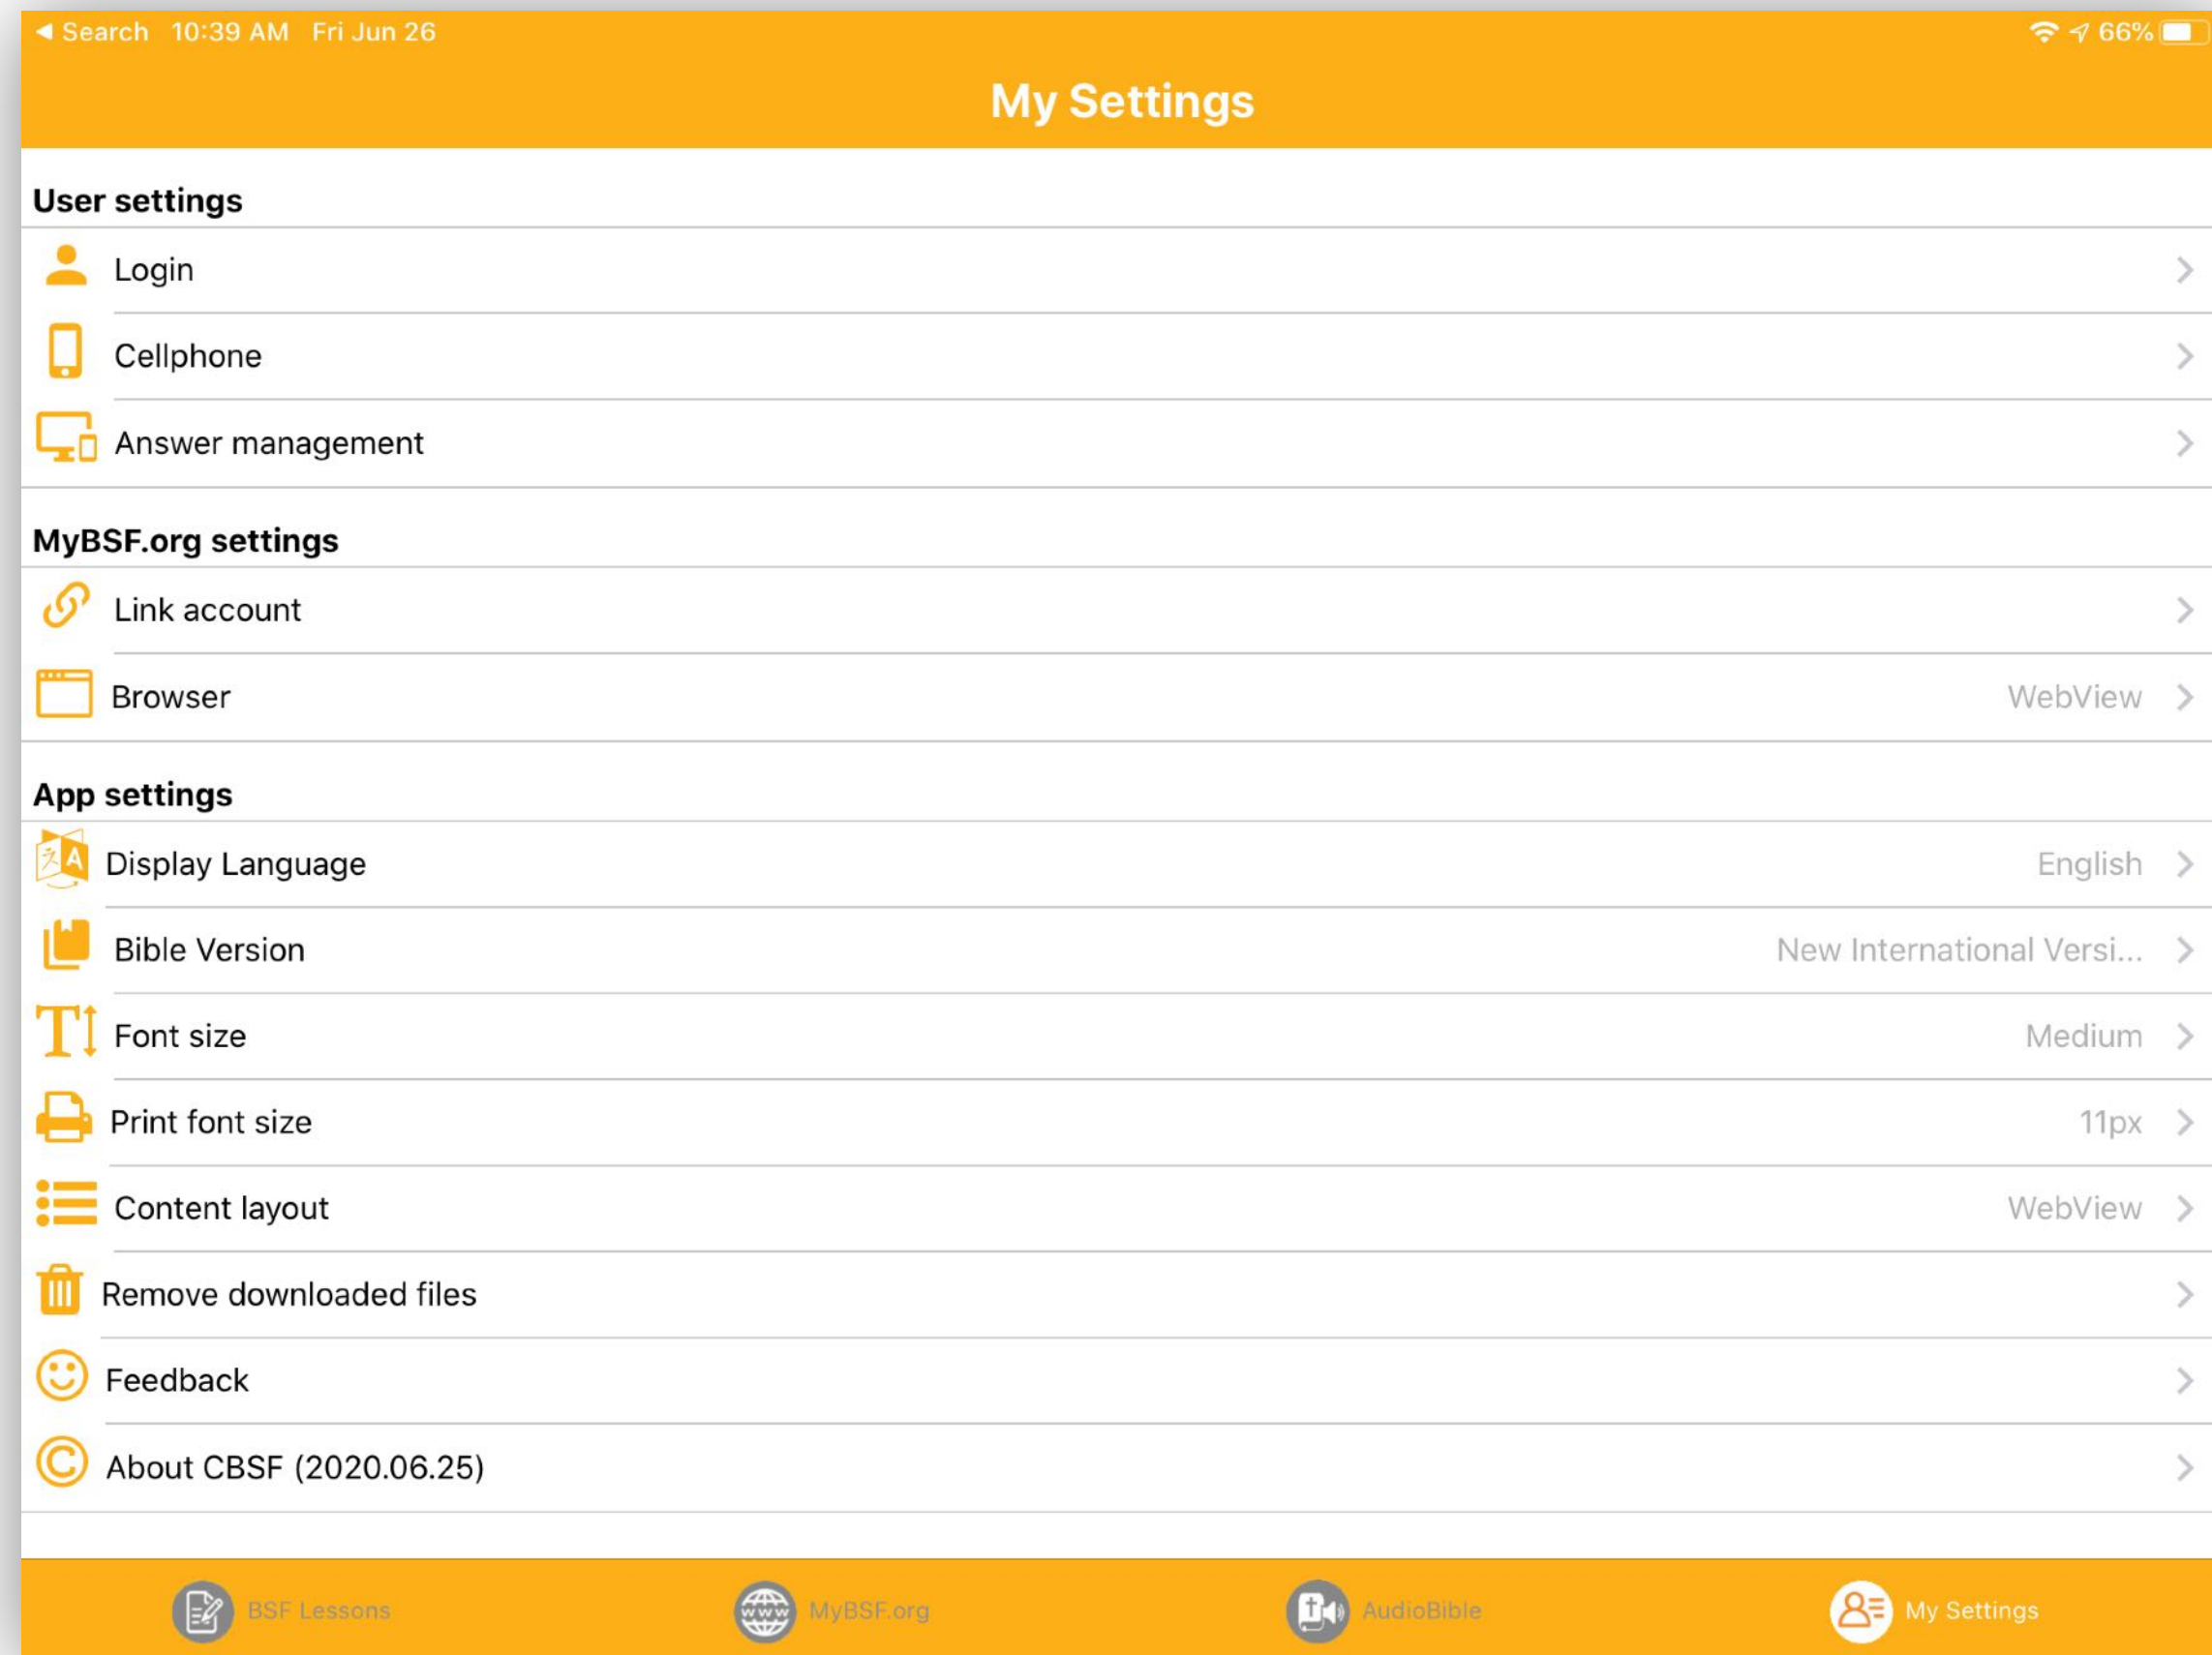

Comparison - Audio Bible

Removed

Future mobile third-party bible app integration will give better functionality

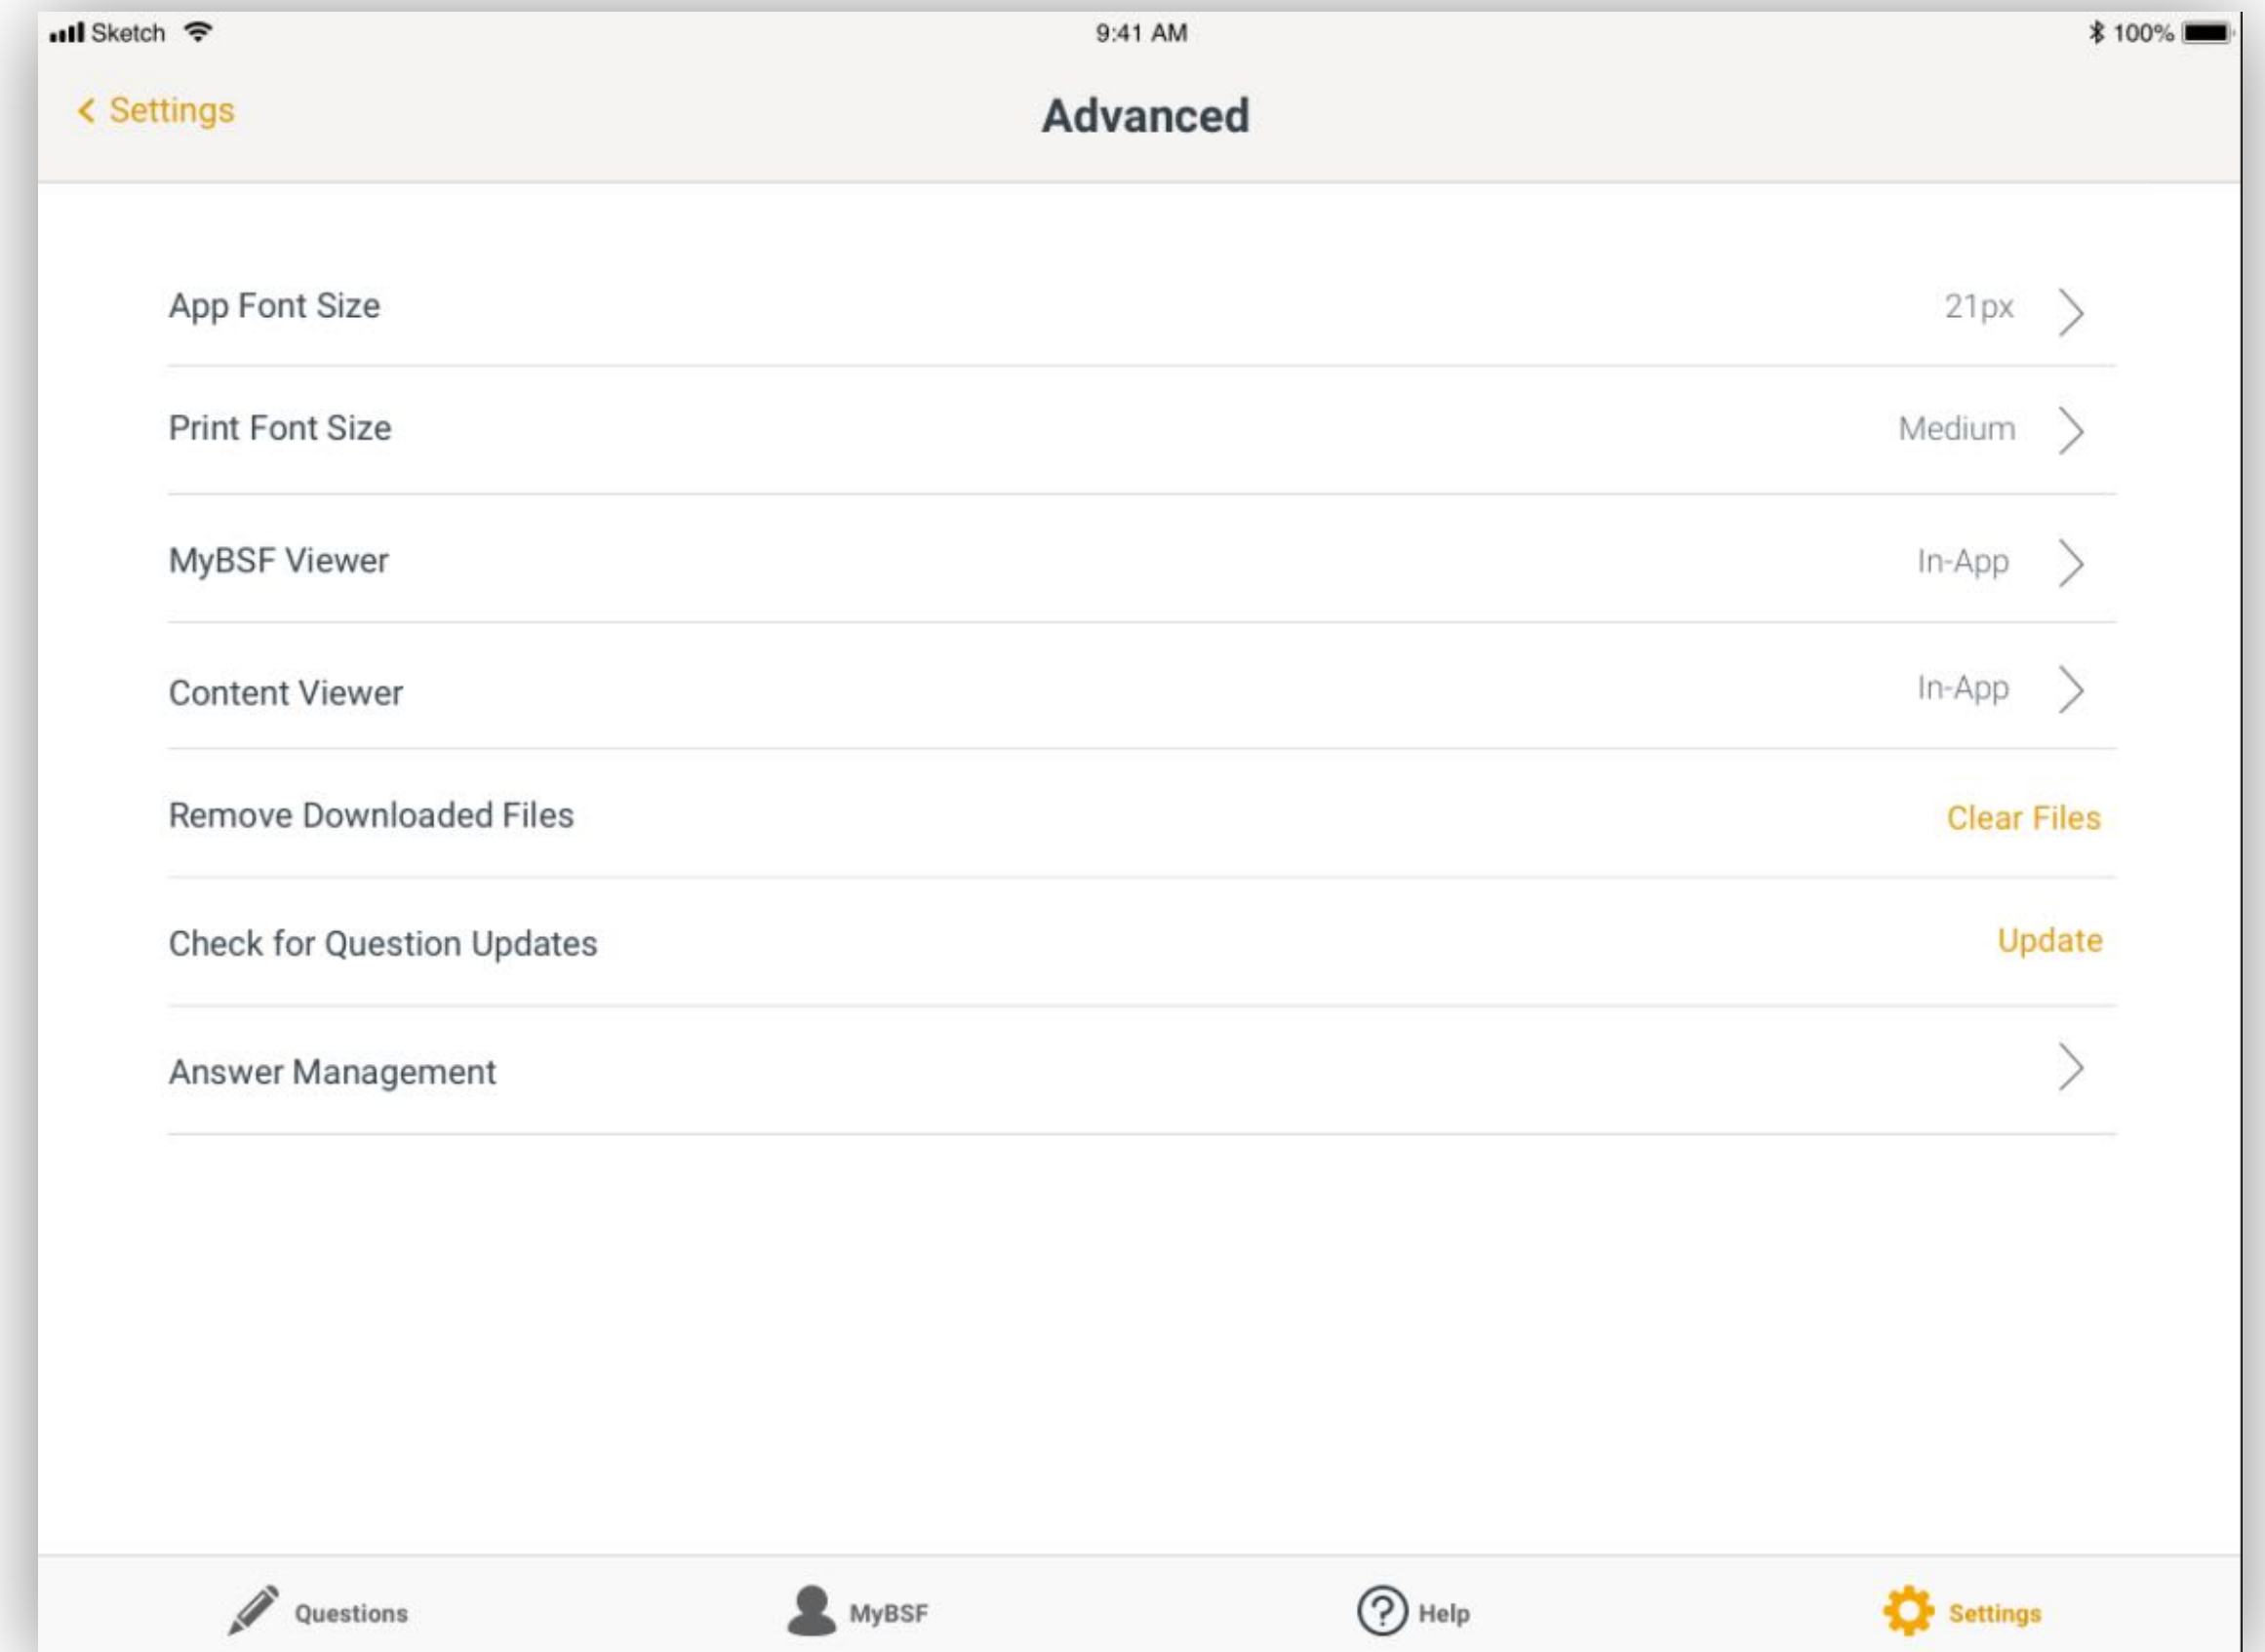

Comparison - Settings

Designer Notes: Some options were removed, and others were moved to “Advanced” screen. New setting for remind to Pray

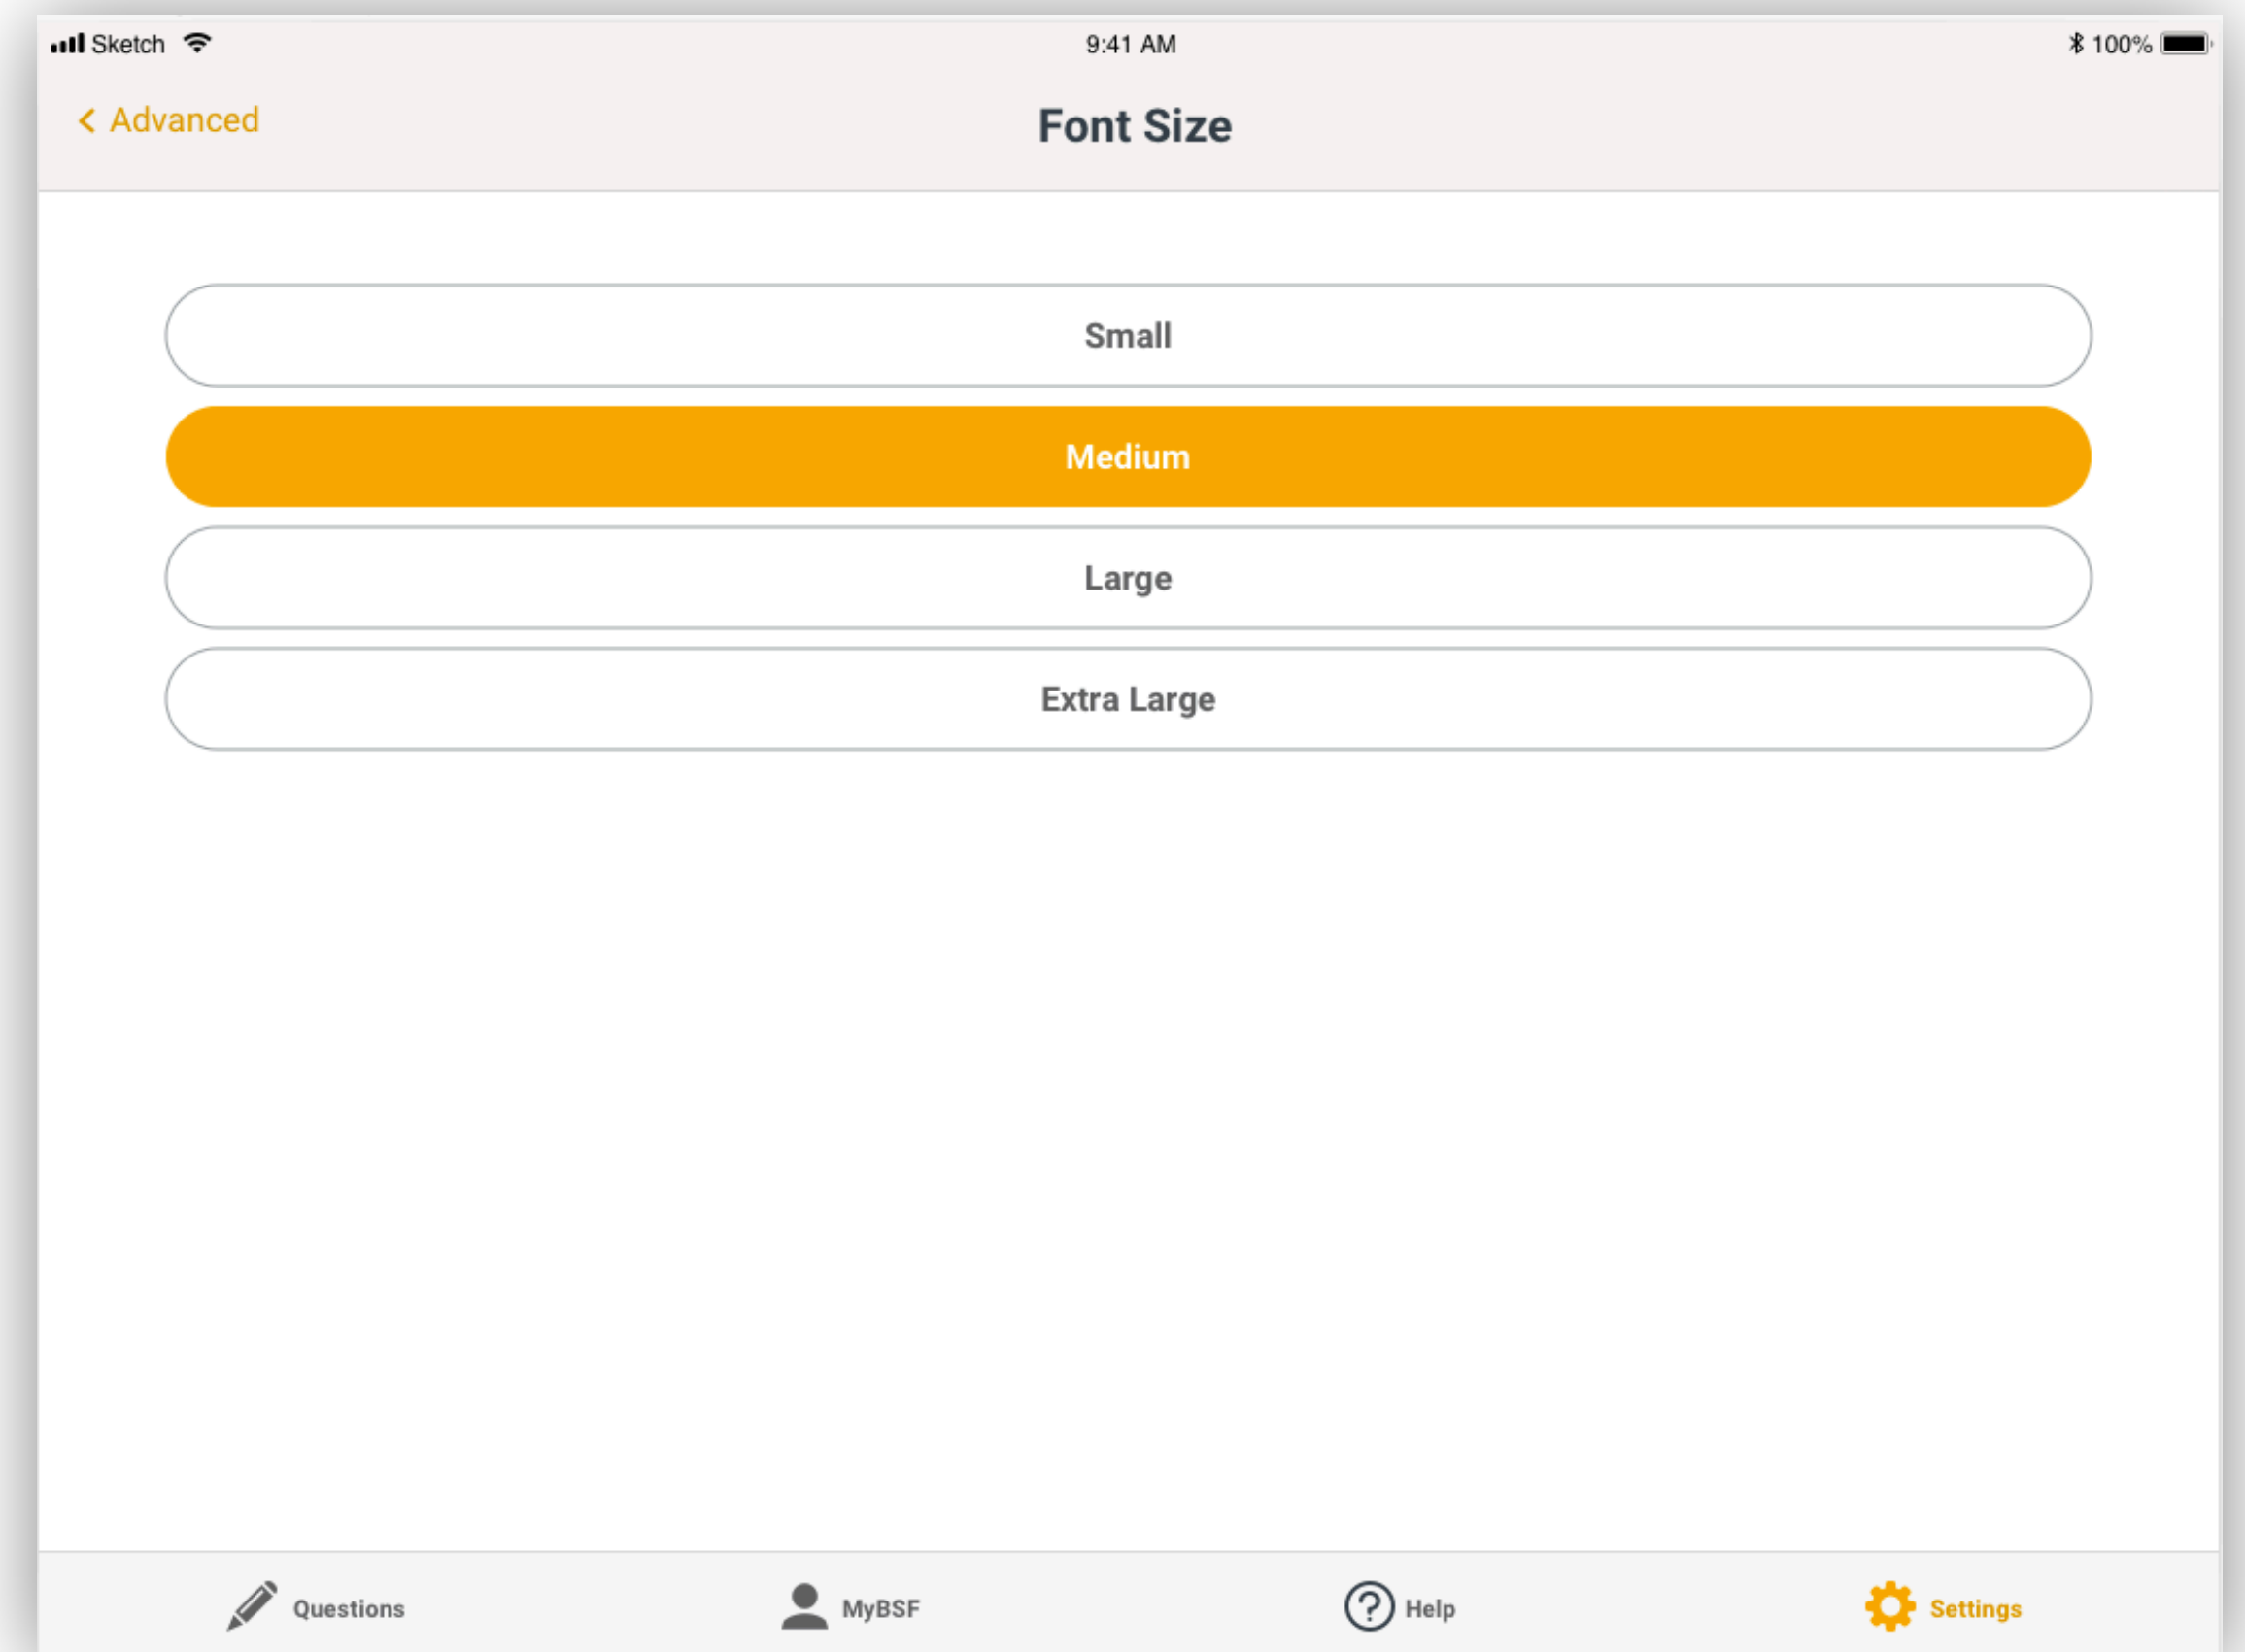

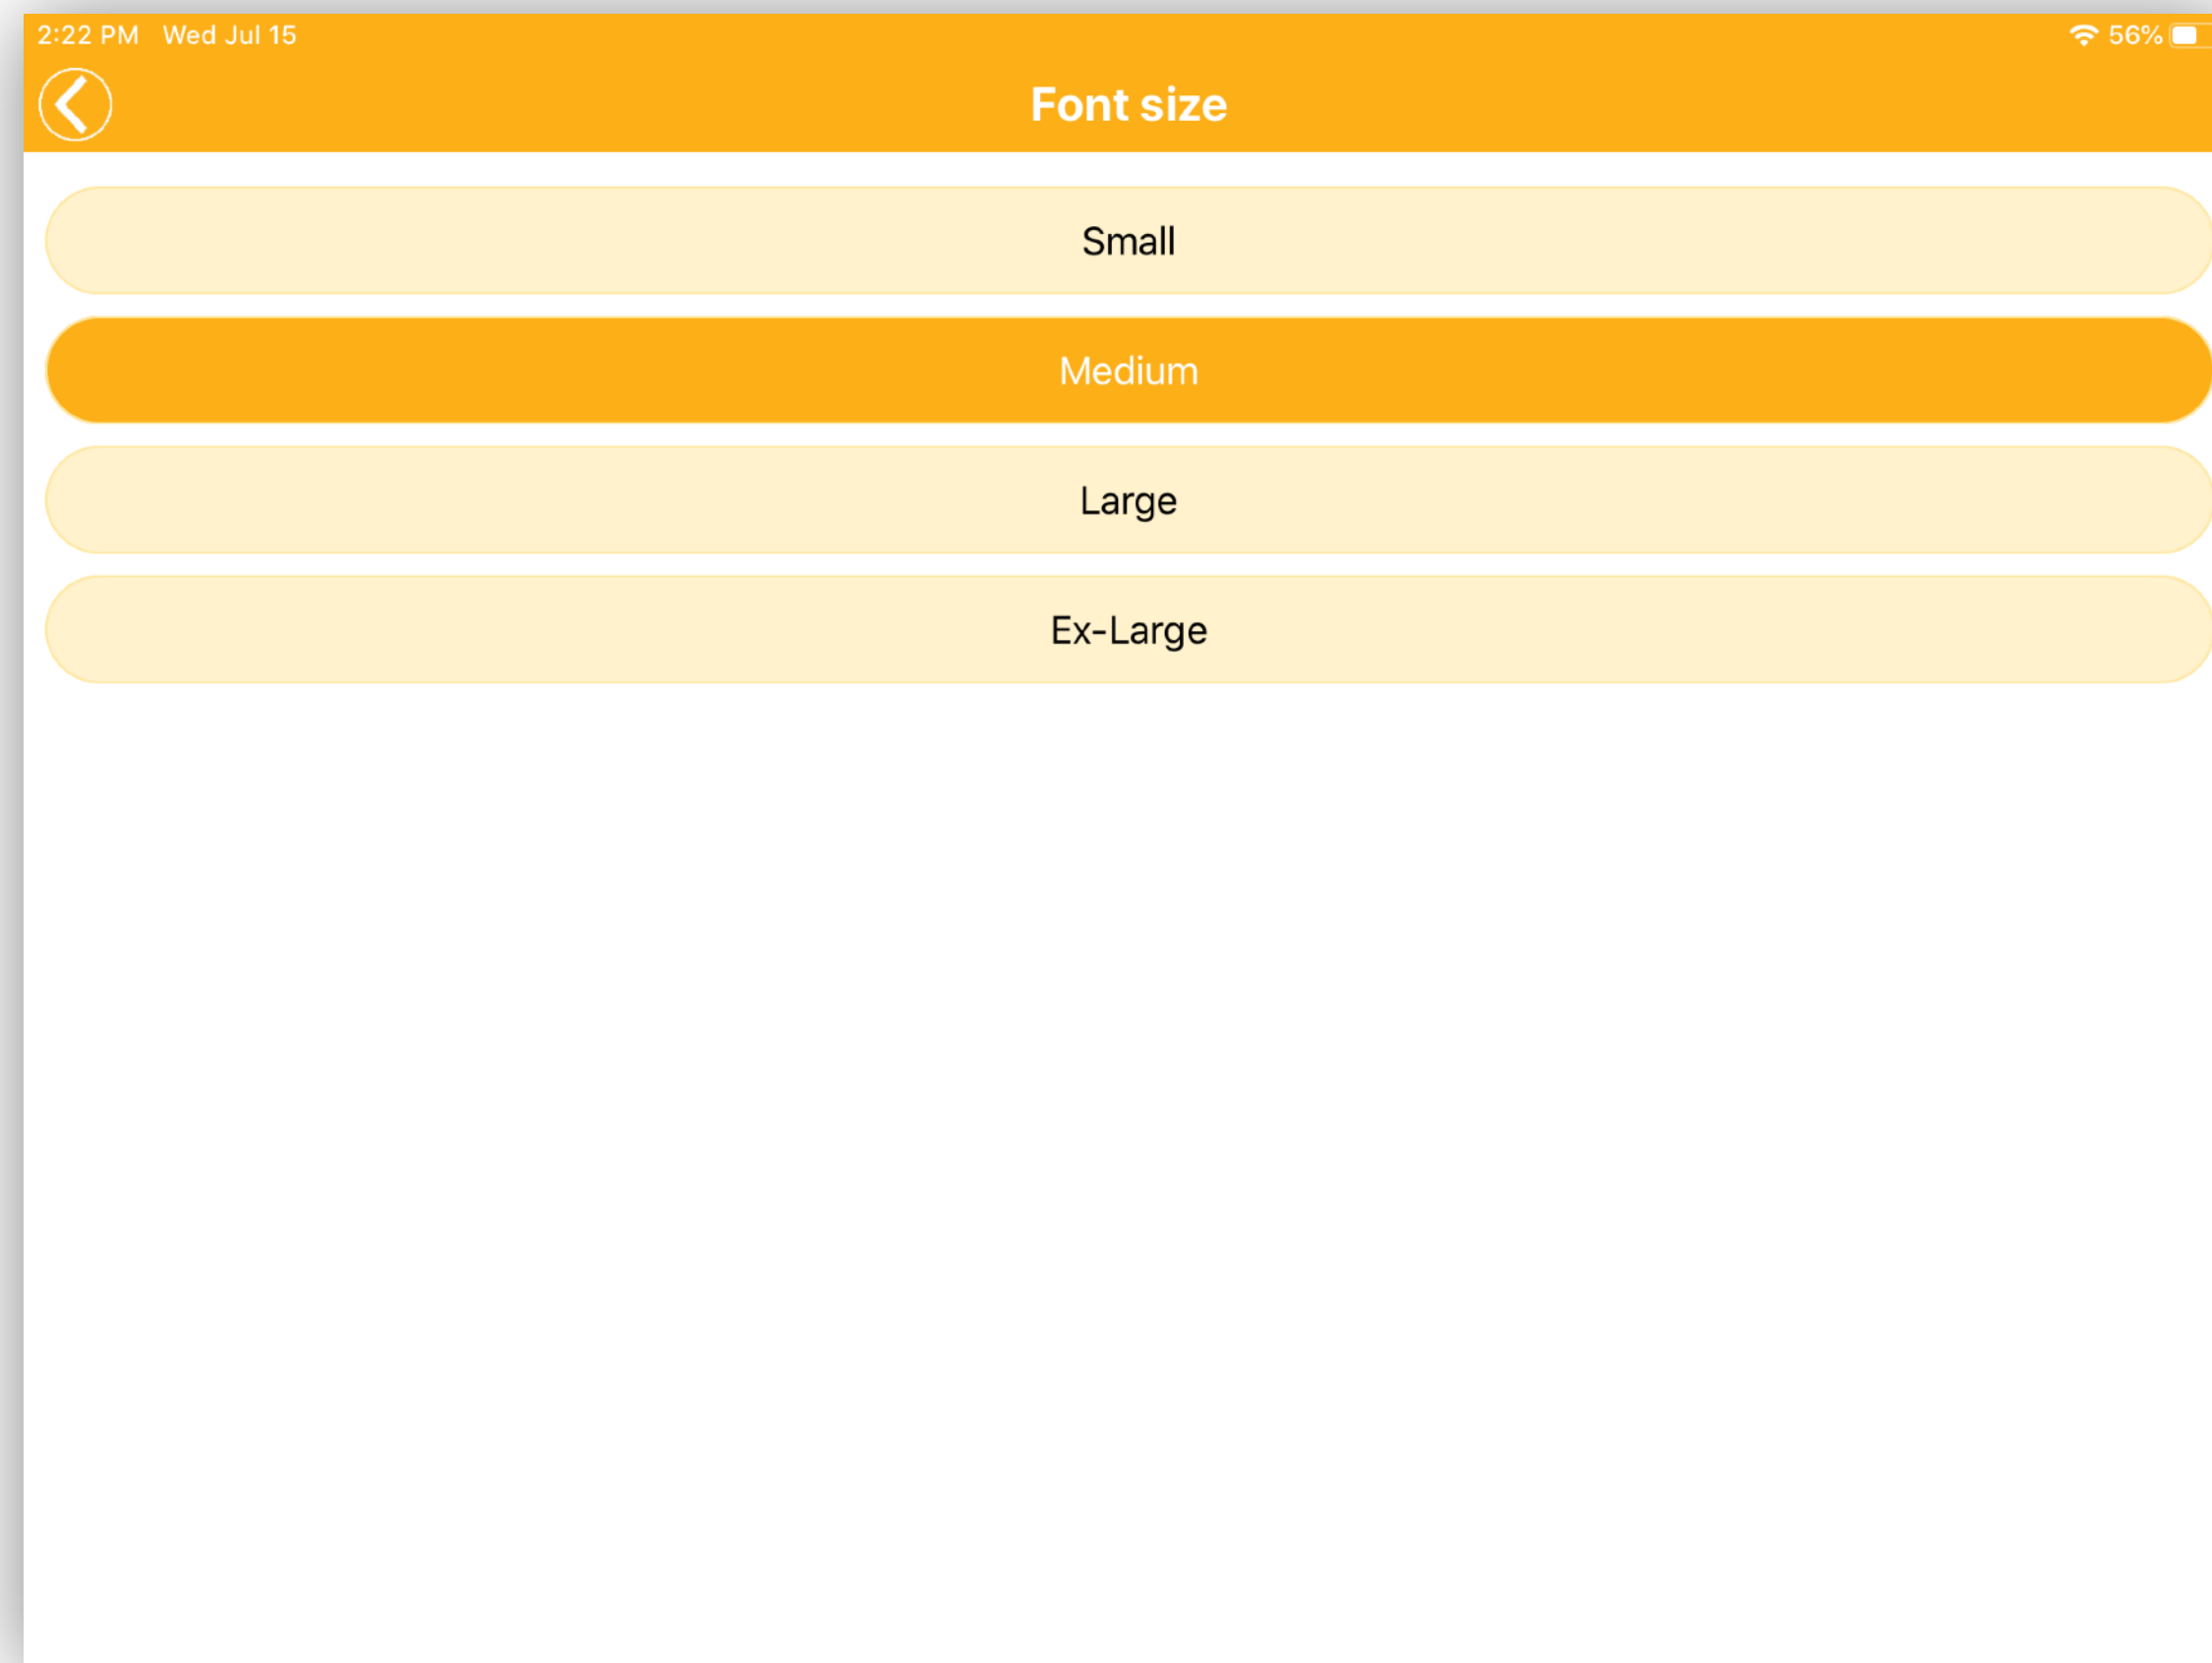

Comparison - Advanced

New Screen

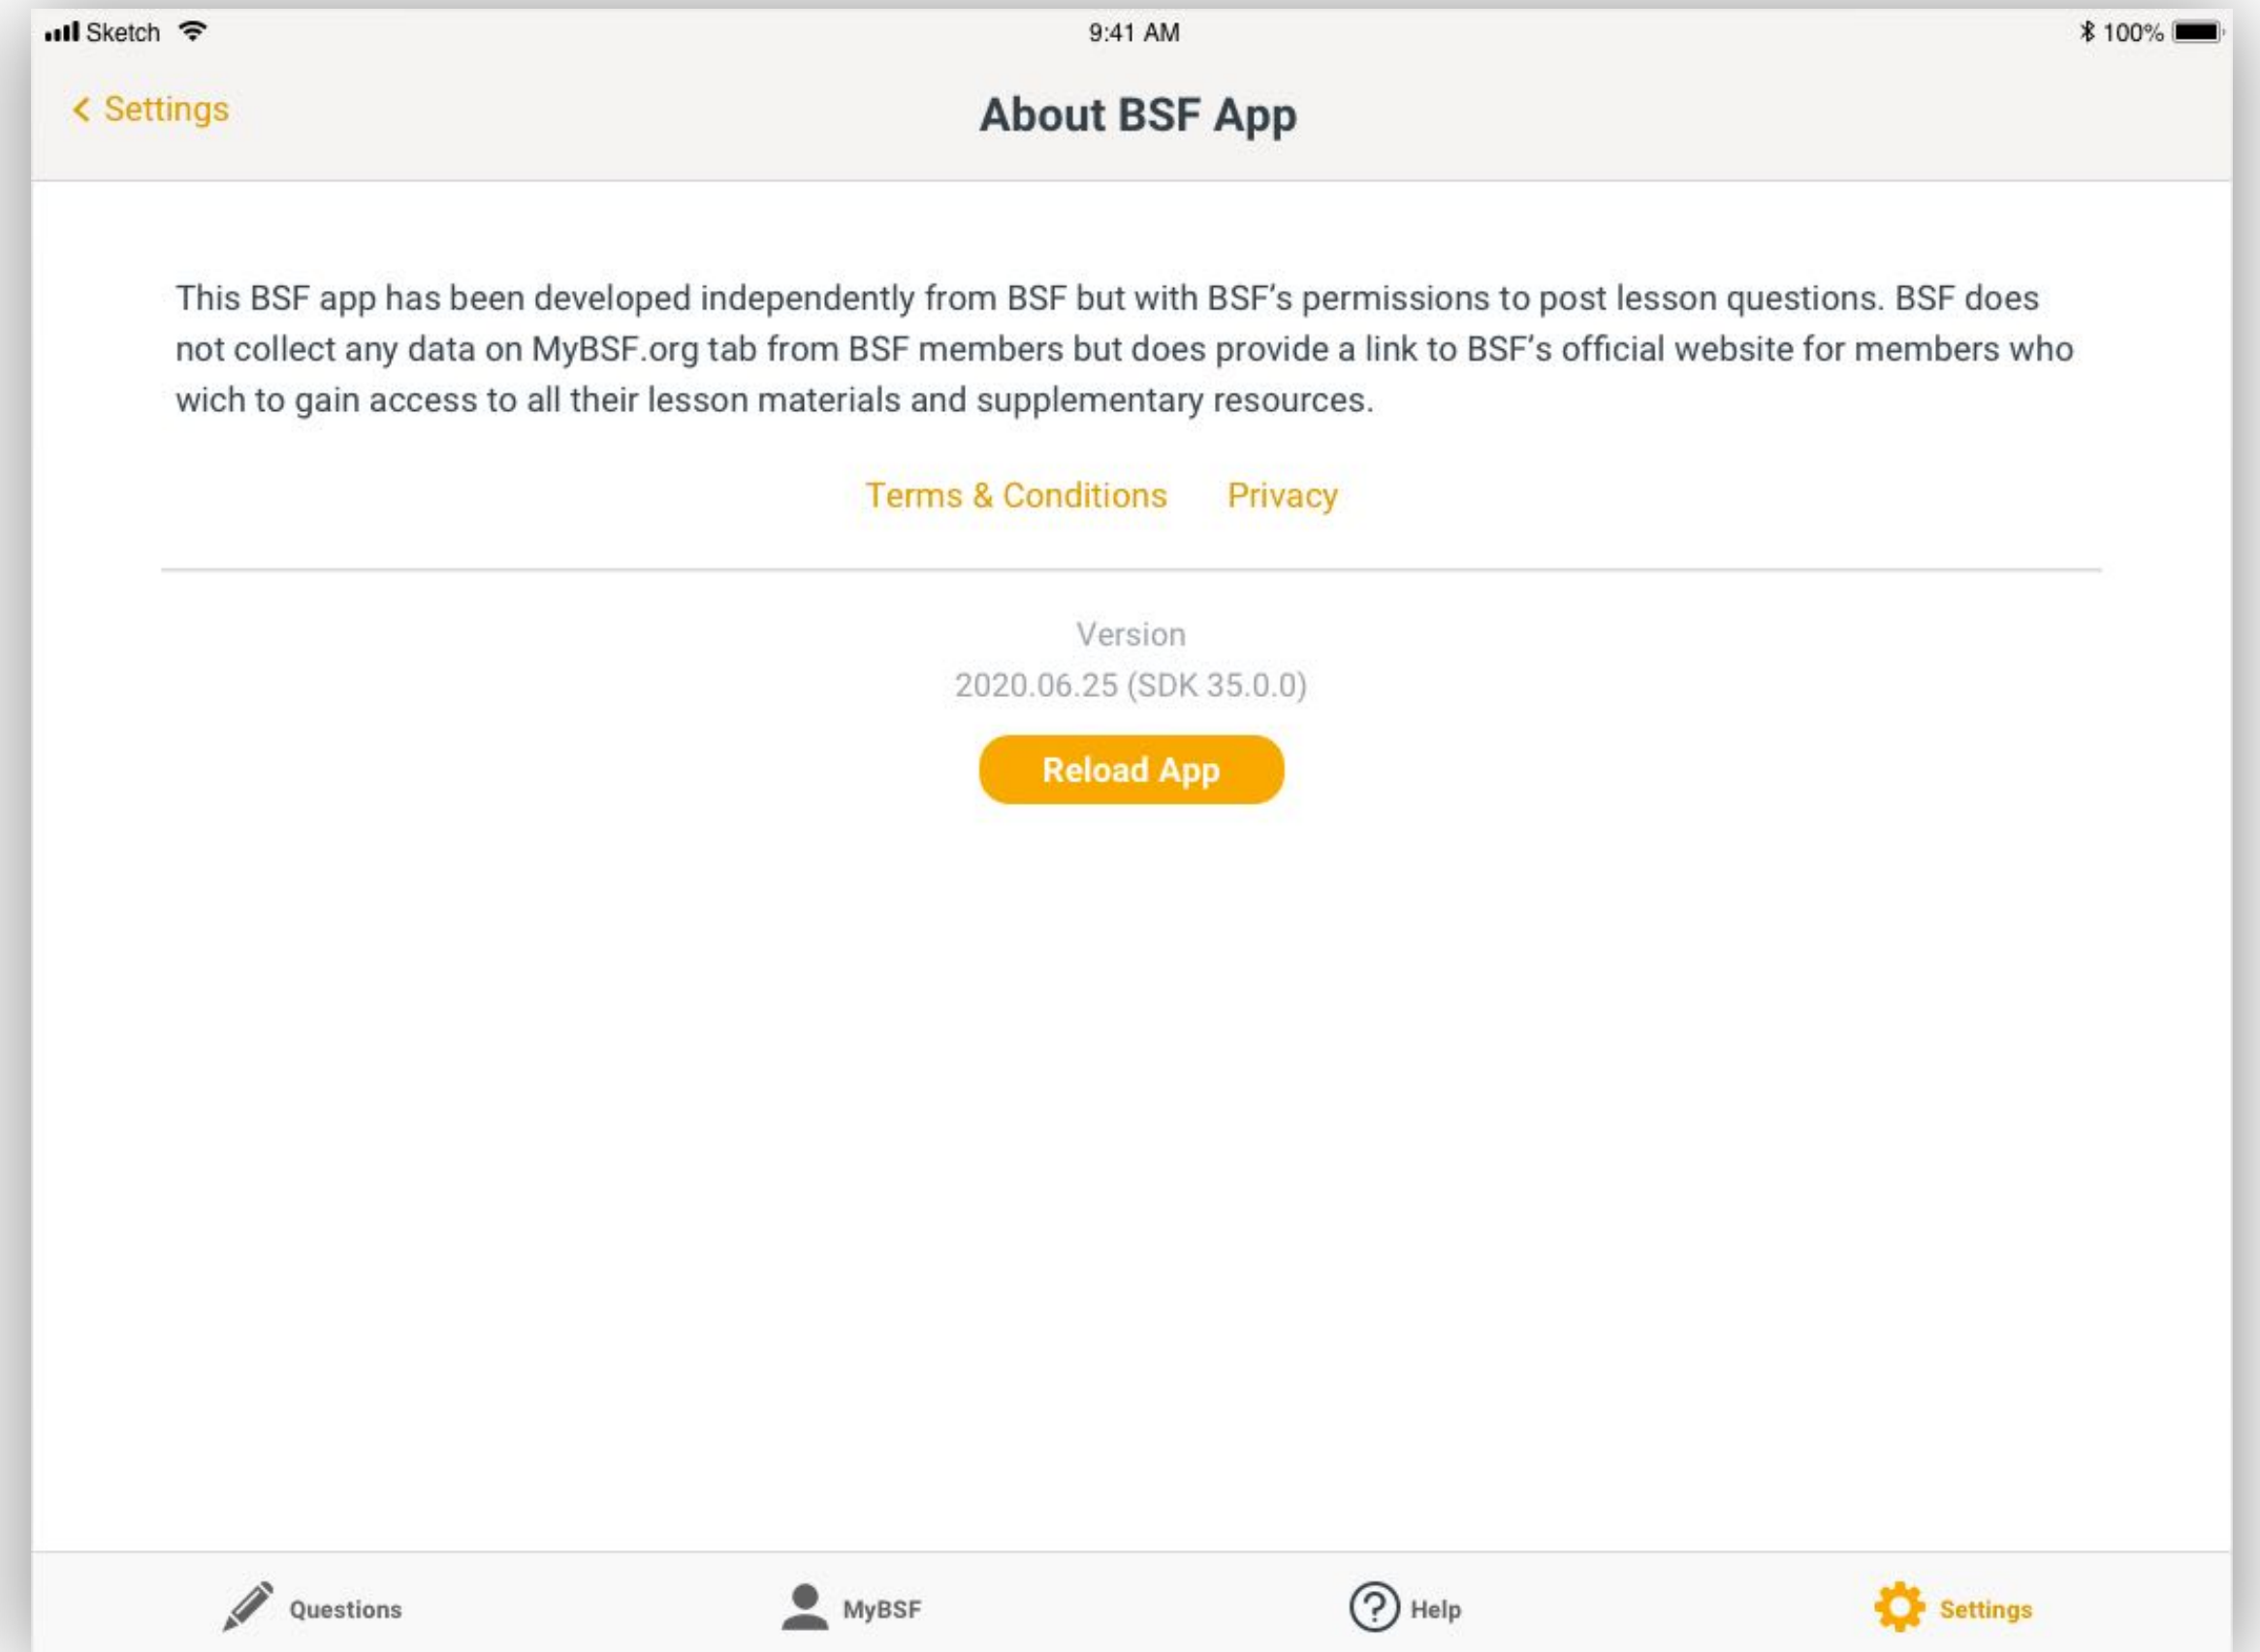

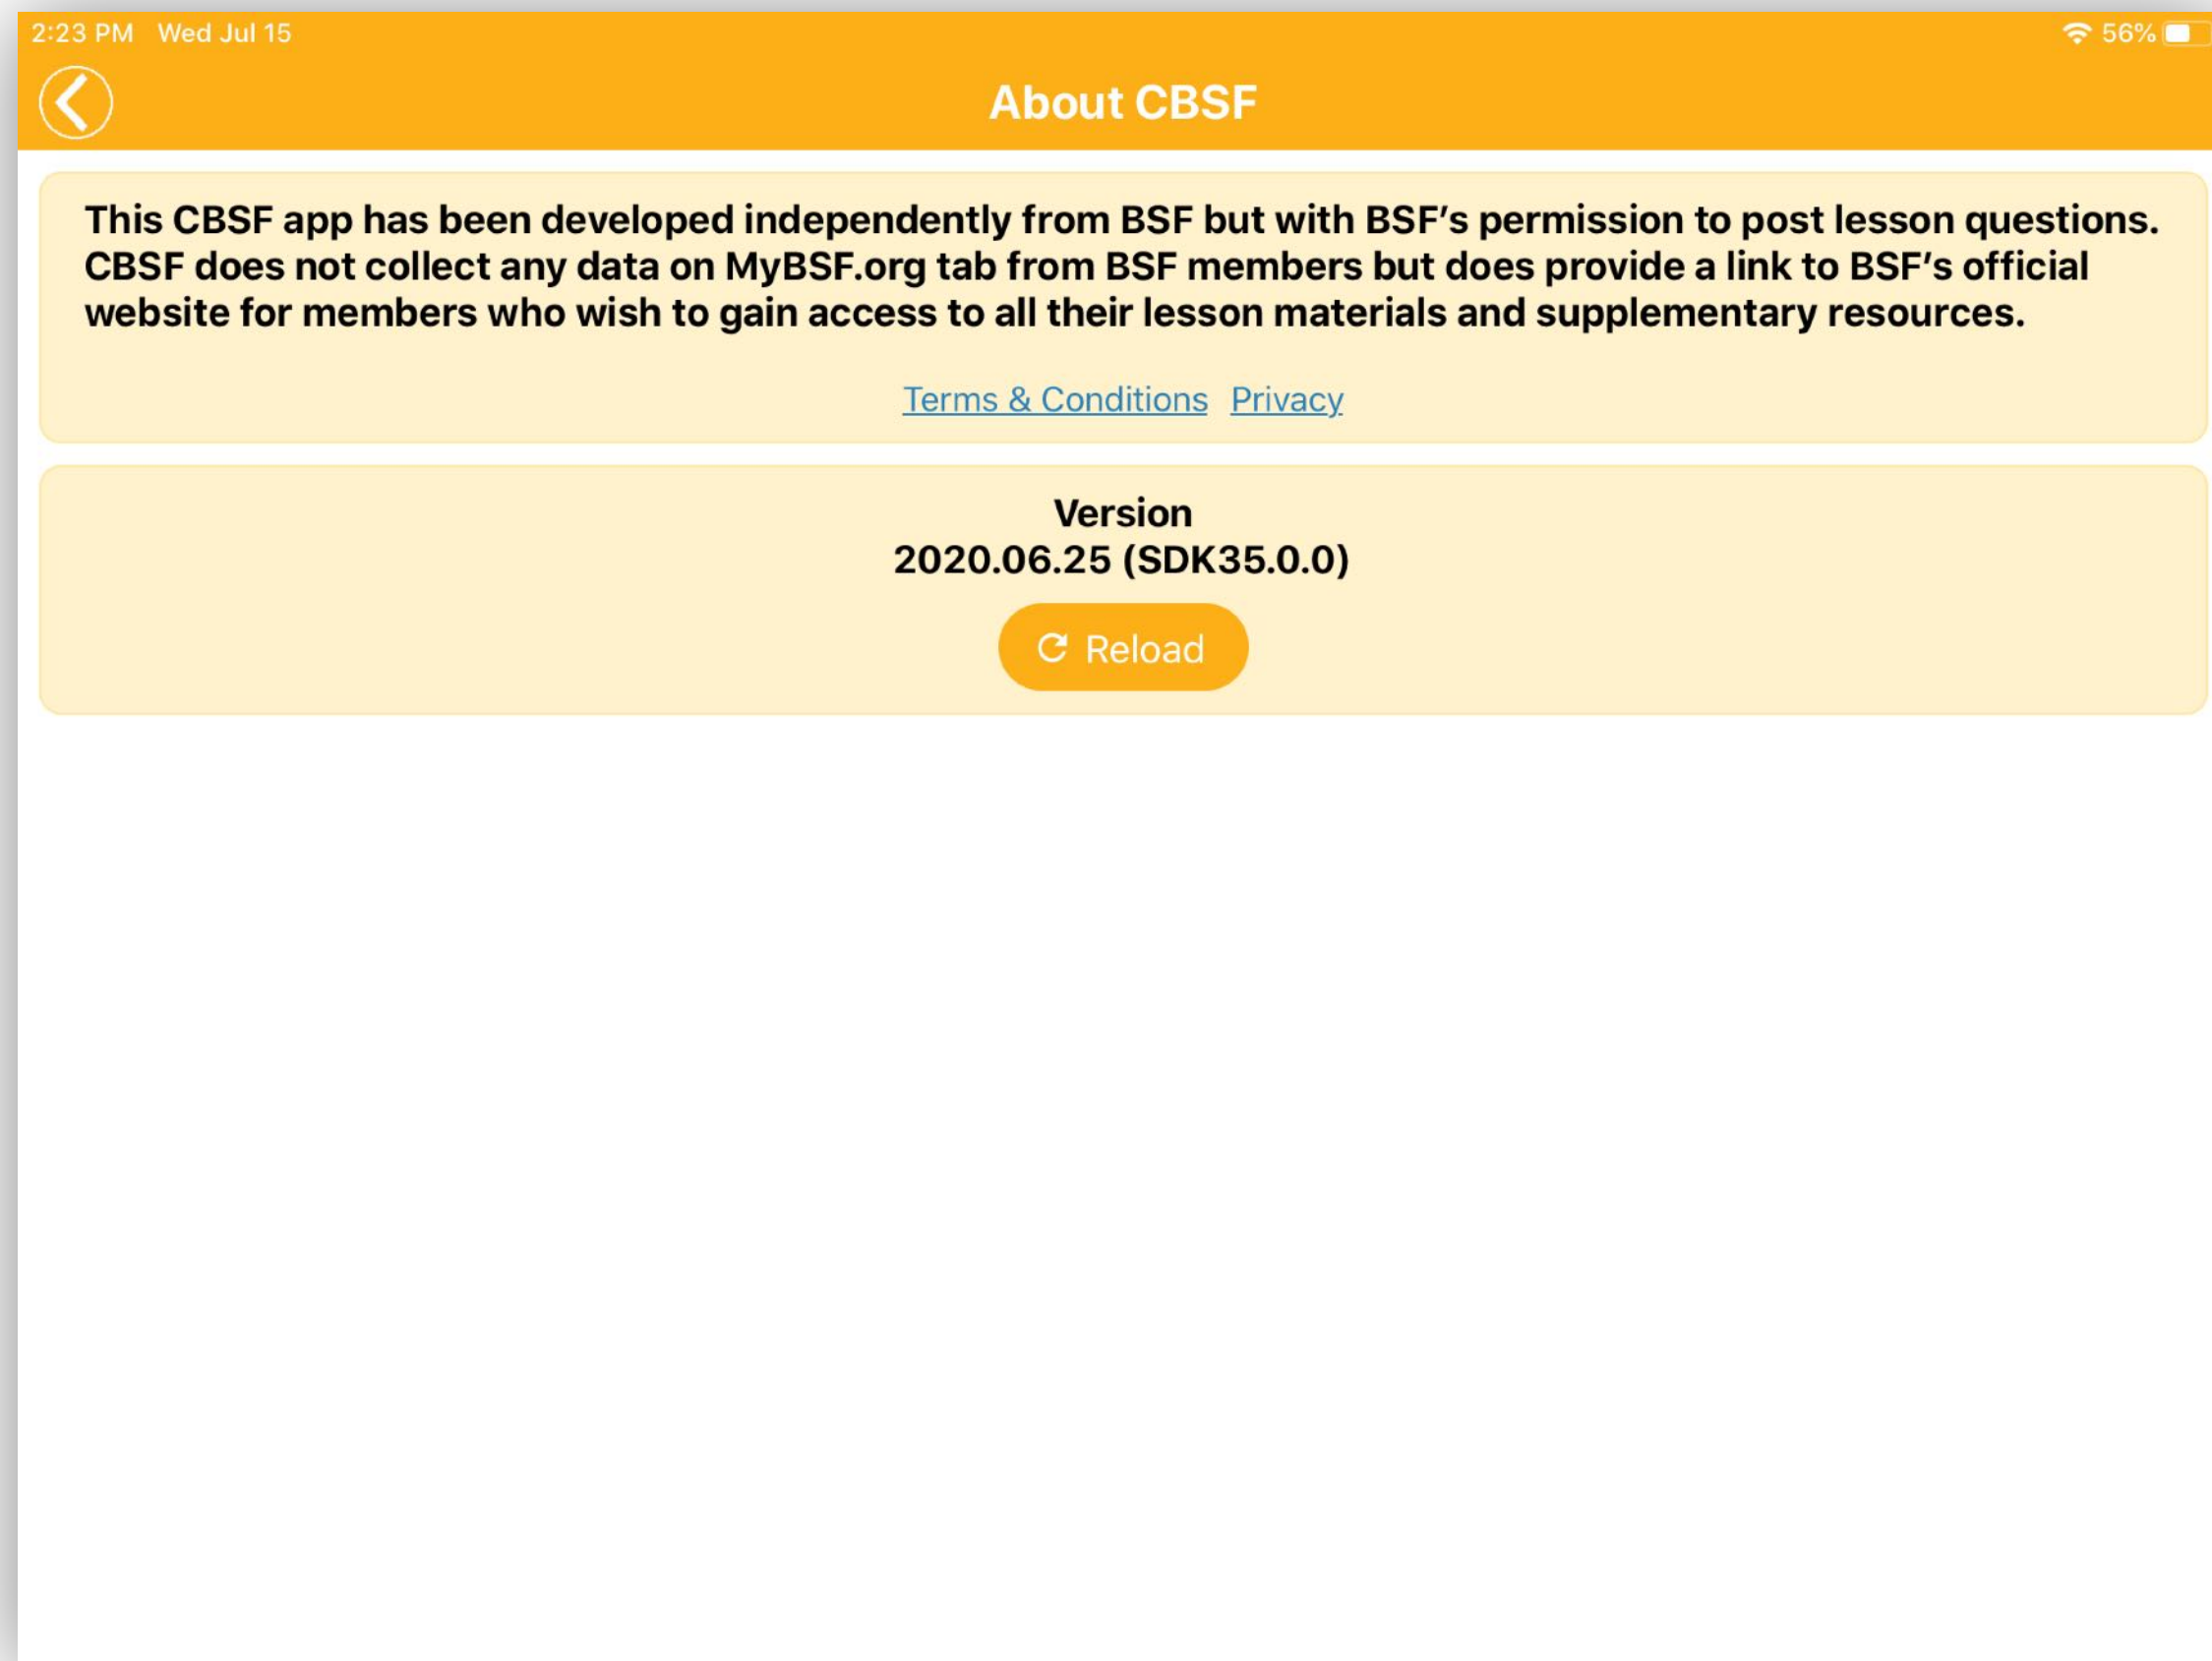

Designer Notes: This advanced screen does not contain icons.

Comparison - Button Based Settings

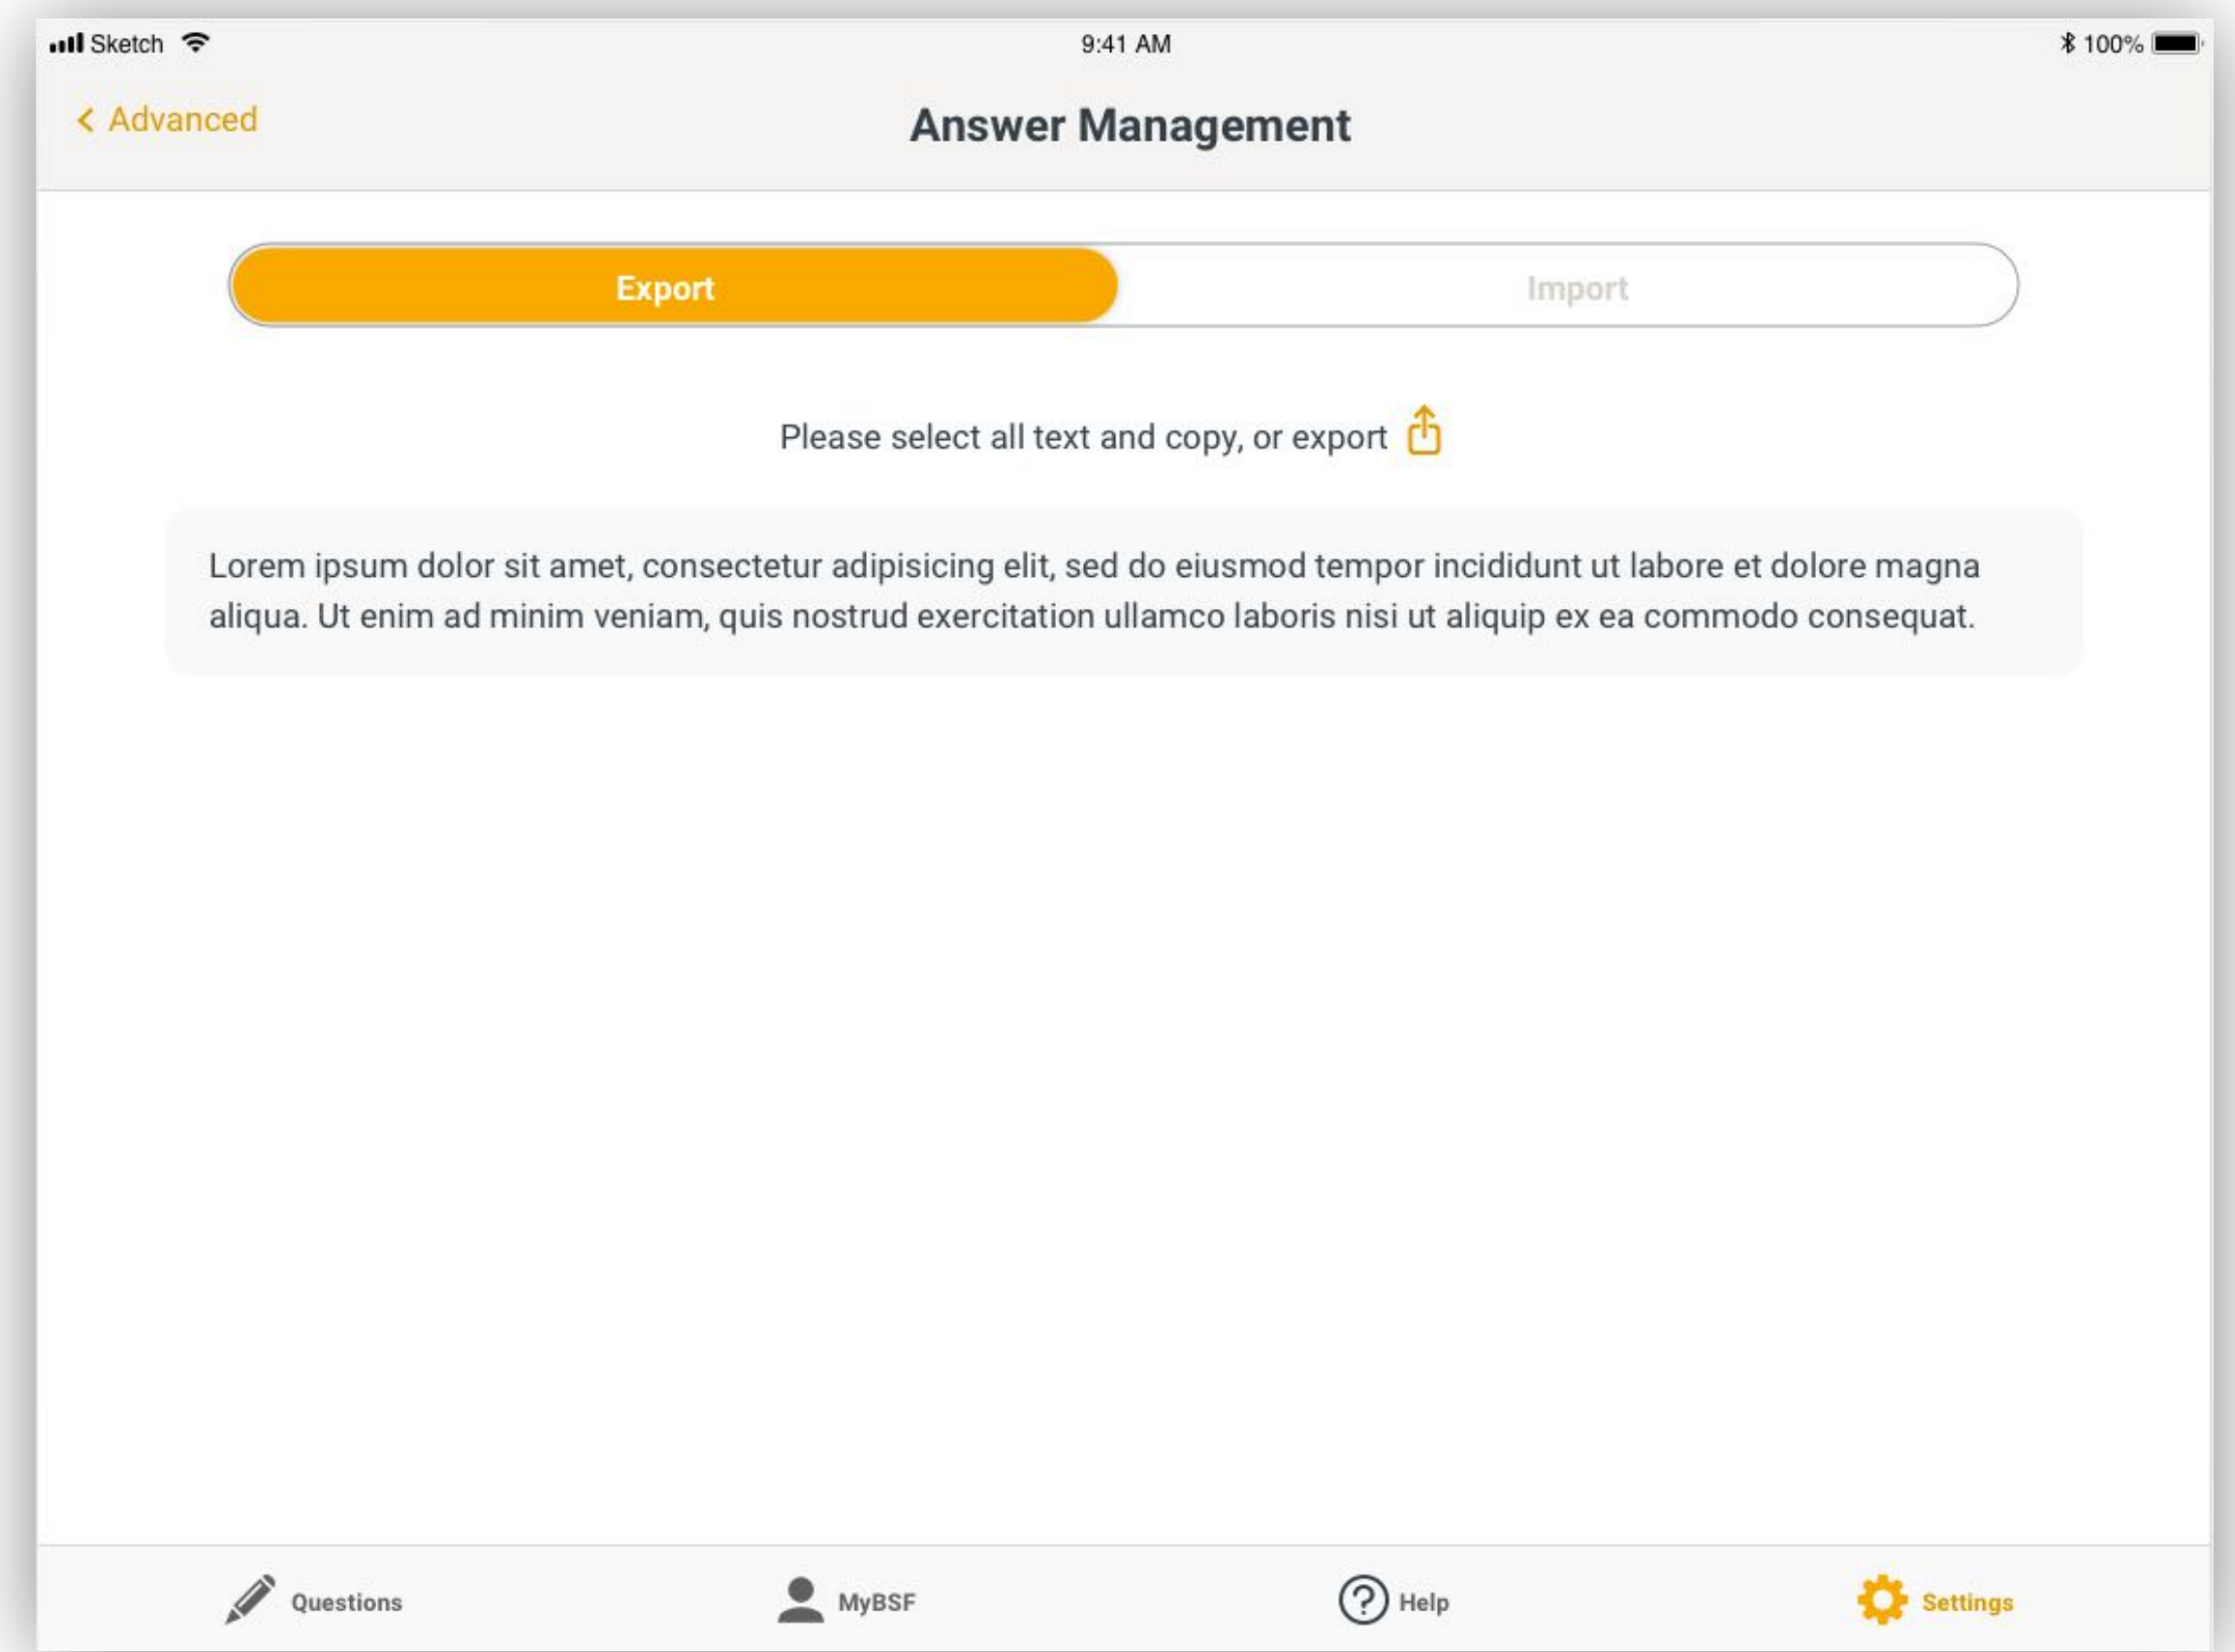

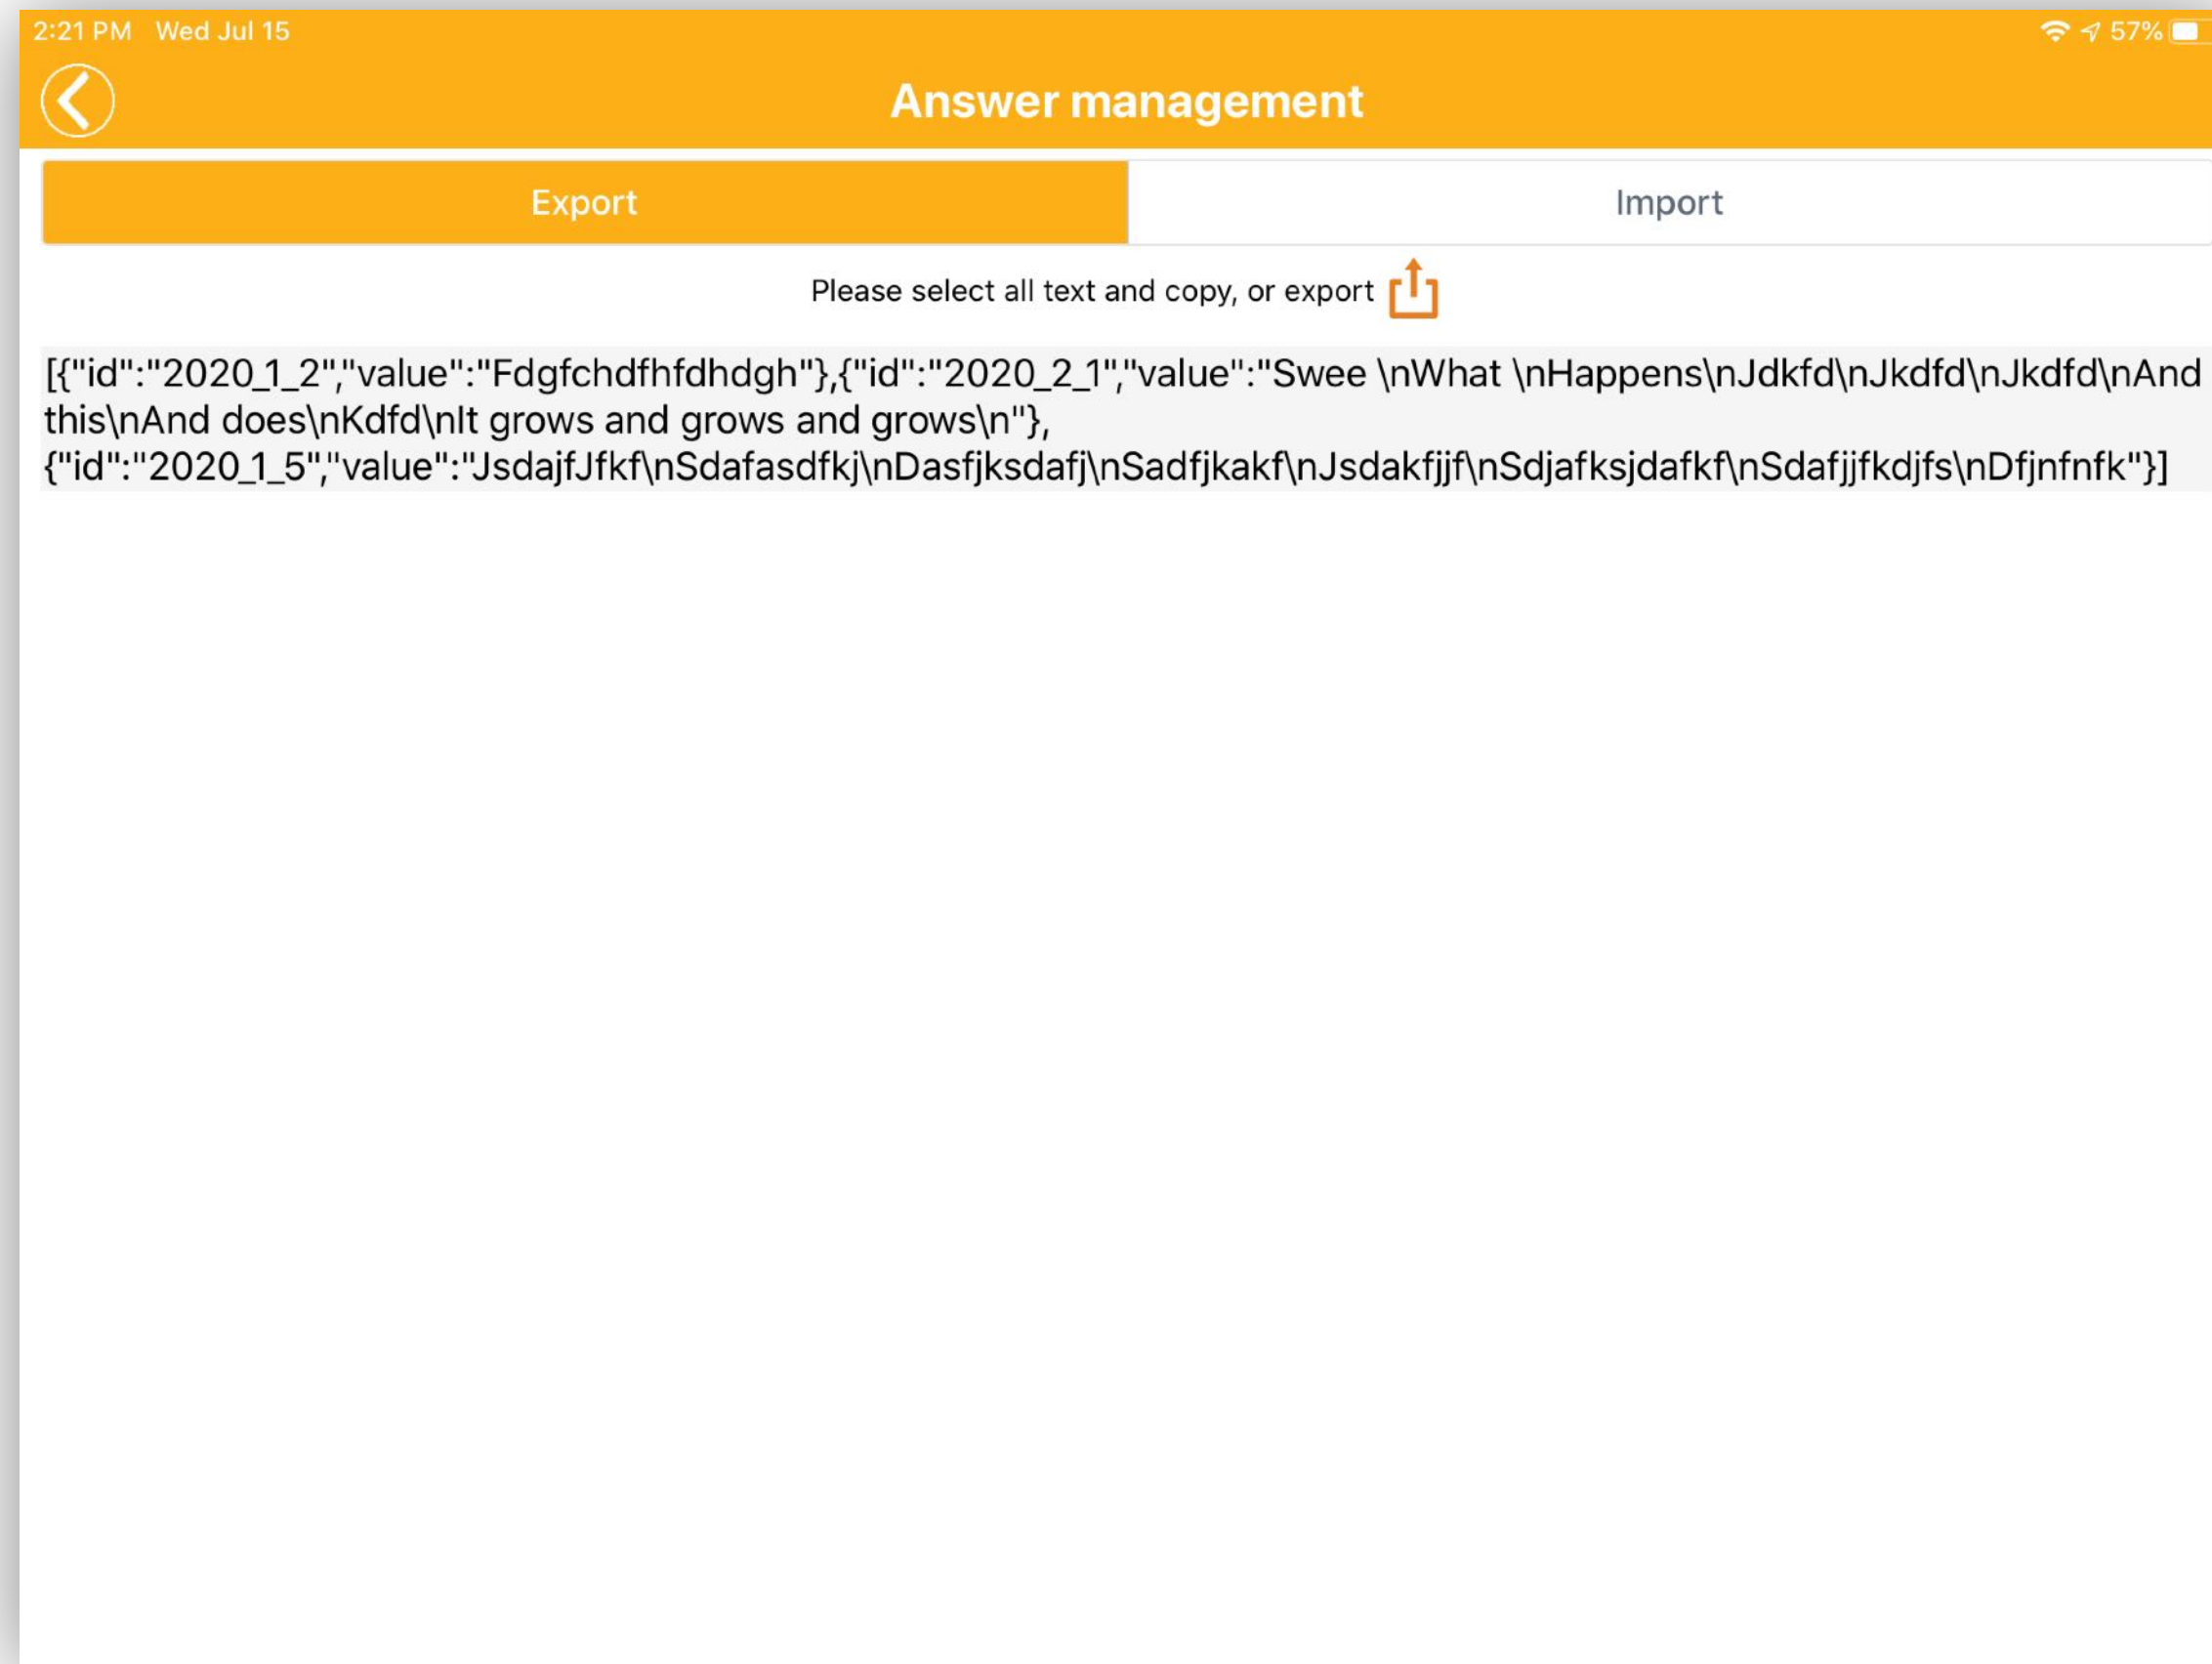

Designer Notes: Button based settings is used for several settings that are not shown here. Notice the Tab bar is now visible in sub-settings screens. (The design for these settings will be changed significantly in future versions of the app)

Comparison - About

Designer Notes: Copy changes will be forthcoming. Notice the Tab bar is now visible in sub-settings screens.

Comparison - Answer Management

Designer Notes: This is a VERY confusing feature. We are not attempting to fix it in the first BSF app release. We will be redesigning this feature in the near future.

Comparison - Print Lesson

2020_2

Scripture Memory Verse: "Then God said, 'Let us make mankind in our image, in our likeness, so that they may rule over the fish in the sea and the birds in the sky, over the livestock and all the wild animals, and over all the creatures that move along the ground.'" – Genesis 1:26

FIRST DAY: Read the notes and the references.

1. Use this space to record how you have seen God's activity during the week. (How has He provided, answered, comforted, reconciled, guided, etc.?)

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

2. What from the notes, lecture, group sharing or personal study impacted you most in the past week?

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

SECOND DAY: Read Genesis 1:26-31. God created mankind in His image on the sixth day.

3. What distinguishes humanity from the rest of creation?

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

4. What does it mean to be created in God's image?

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

5. What do you learn about the identity and purpose of humanity? How does that help, encourage or challenge you?

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

 Bible Study Fellowship

Printed from the BSF App

Genesis 2020-2021
Lesson 2

Scripture Memory Verse: "Then God said, 'Let us make mankind in our image, in our likeness, so that they may rule over the fish in the sea and the birds in the sky, over the livestock and all the wild animals, and over all the creatures that move along the ground.'" – Genesis 1:26

FIRST DAY: Read the notes and the references.

1. Use this space to record how you have seen God's activity during the week. (How has He provided, answered, comforted, reconciled, guided, etc.?)

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

2. What from the notes, lecture, group sharing or personal study impacted you most in the past week?

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

SECOND DAY: Read Genesis 1:26-31. God created mankind in His image on the sixth day.

3. What distinguishes humanity from the rest of creation?

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

4. What does it mean to be created in God's image?

5. What do you learn about the identity and purpose of humanity? How does that help, encourage or challenge you?

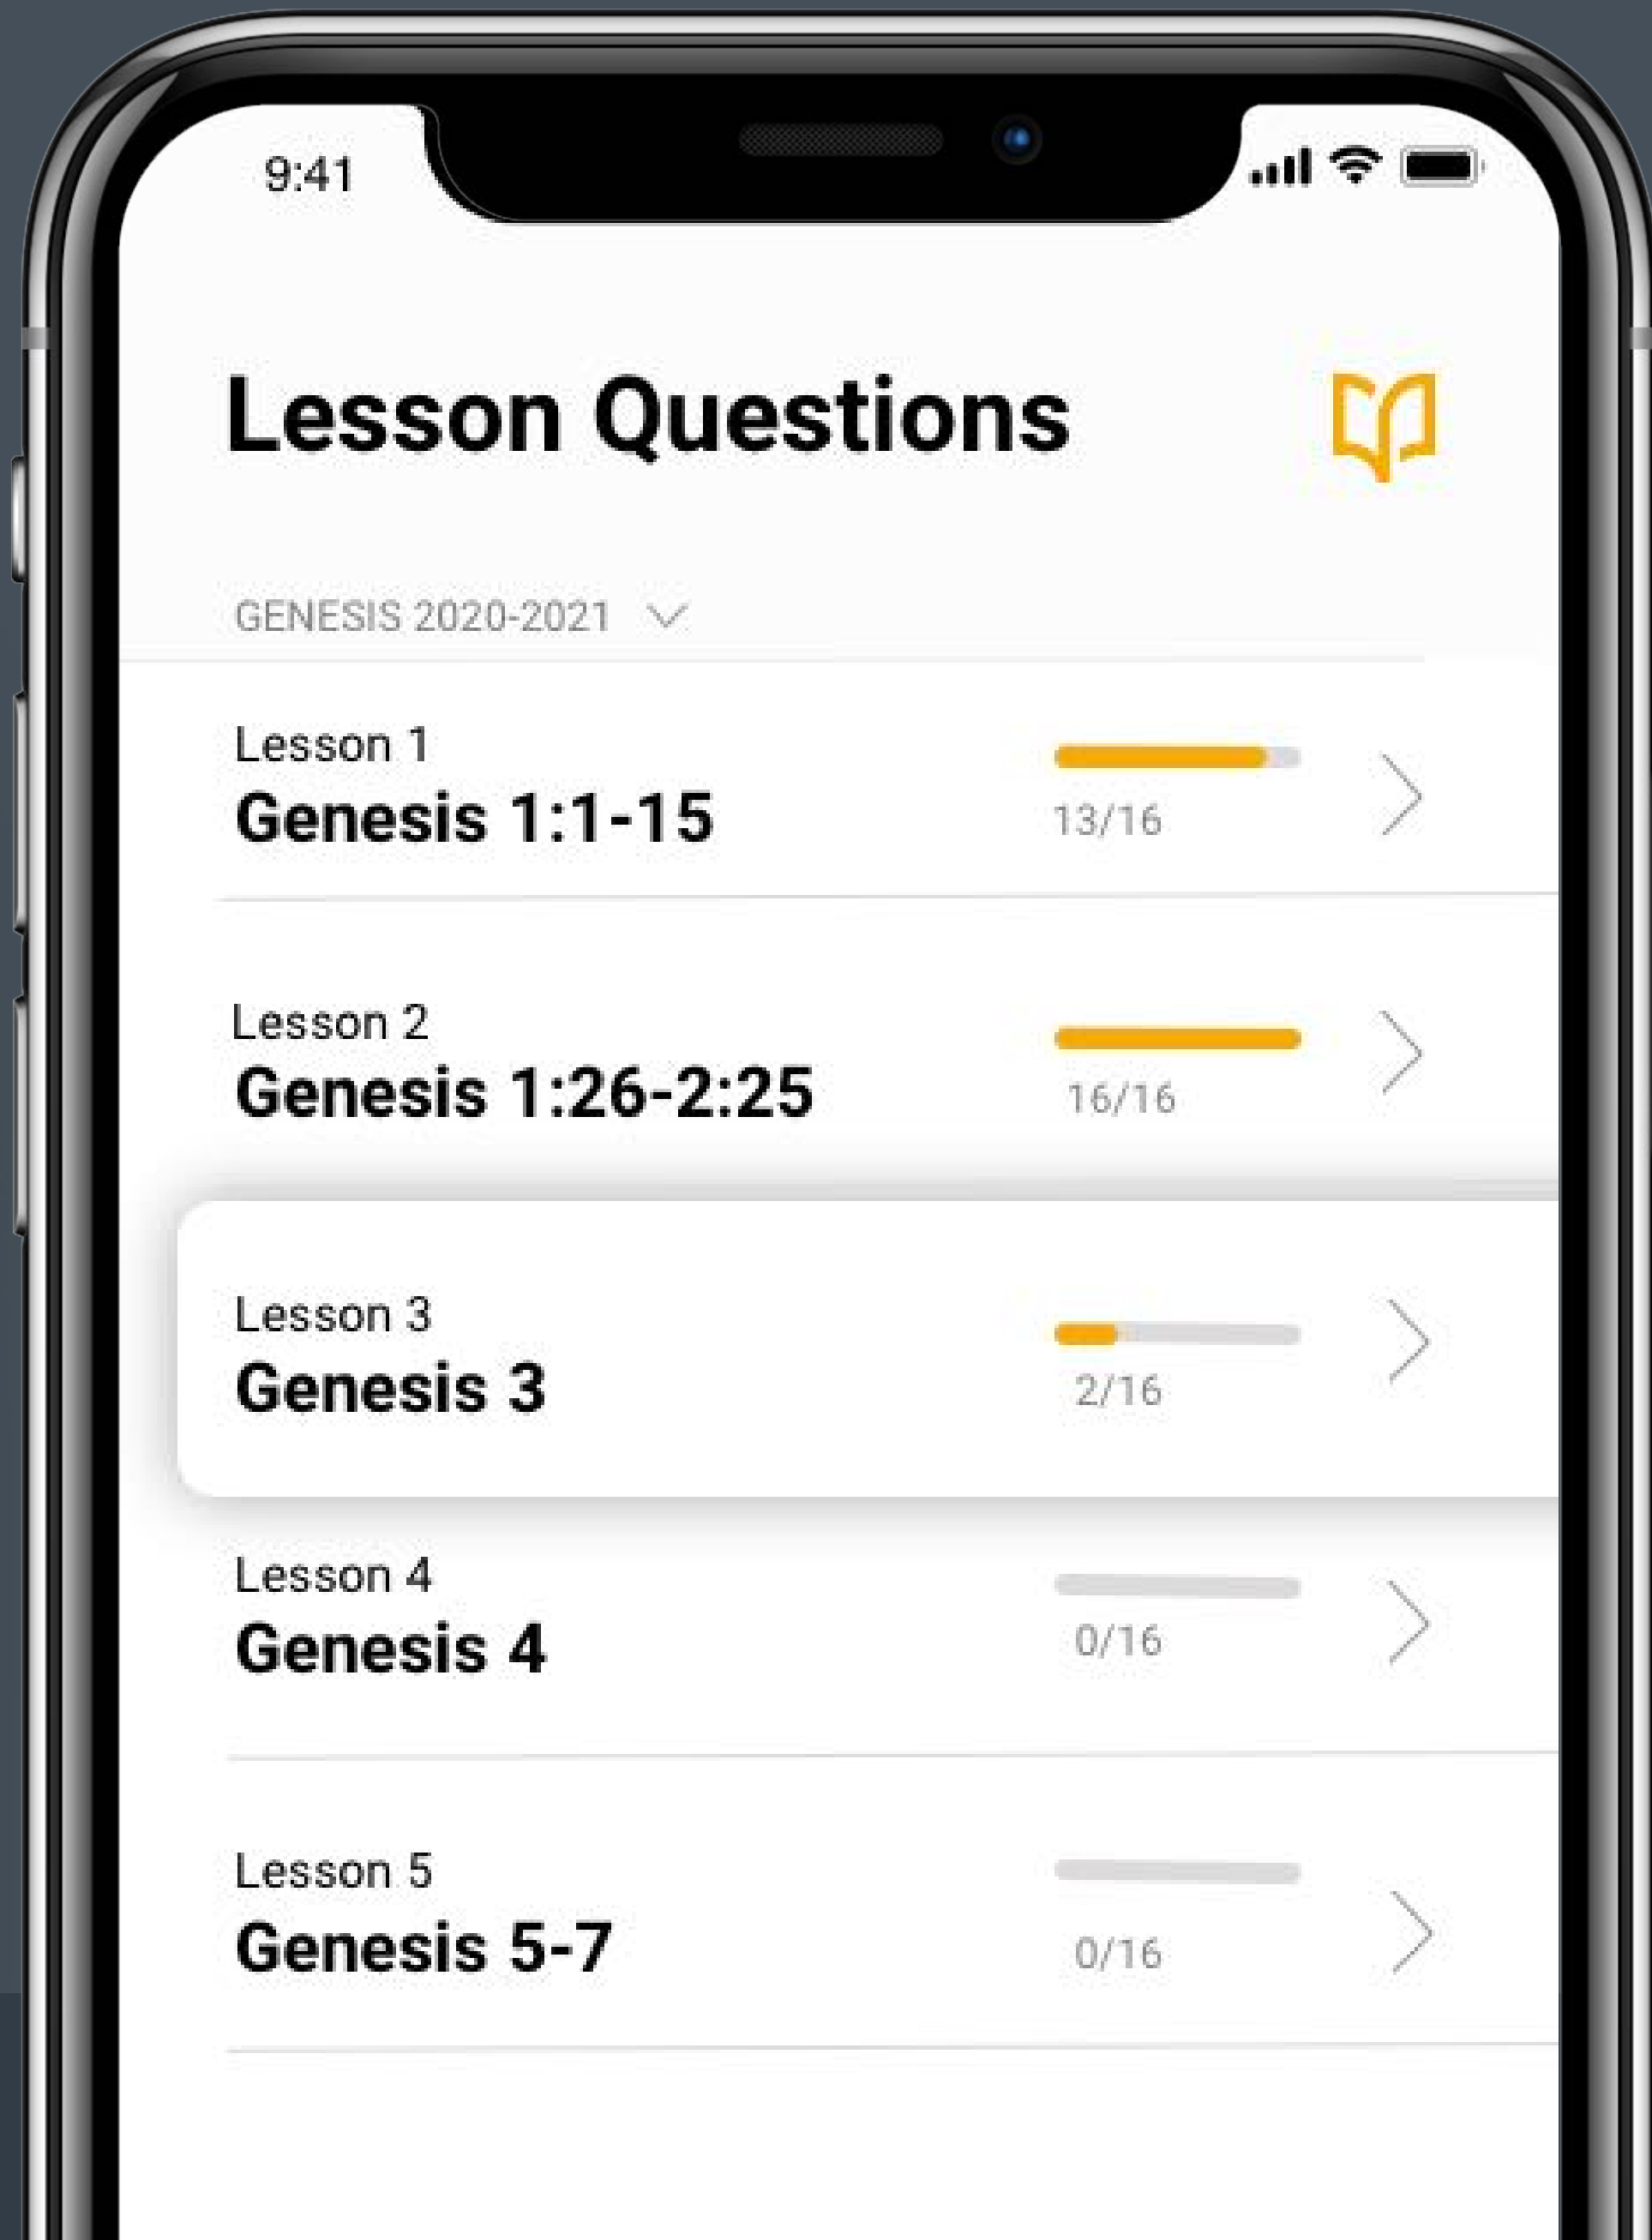

>>Answer goes here and I would type something like this. It could be rather long and it should flow.

IN PROGRESS

Designer Notes: Currently the app prints lessons not as text but as a bitmap image and is blurry and can be hard to read. Although it is unknown how many use this feature, it should be printing text, and provide an adequate margin, include a header indicating it was printed from the BSF app, and a better indication of the Study and Lesson.
